My Top Cop Years were overwhelmingly creative because every time I saw a problem, the focus was on solutions. I am illustrating a select few for you, drawn from my carefully documented archives. If the department did not have the resources I sought them from outside. I was never shy of asking for anything that would benefit the people to be served. Because they needed answers, not excuses. For all these solutions, I had the support of some of my seniors, team members and juniors. They were excited about the novelty and ease of doing their duty. They, equally, got the credits and due recognition. Many of them saw growth in their new learning. This sowed the seeds for empowered and

This book explores the ways in which technology is being used by various open universities in developing countries to extend learner support services to distance learners. It shares the best practices being followed by different open universities so that these may be replicated by other universities. It provides an overview of the use of various digital technologies, e-learning tools, eLearning platforms, virtual learning environments, and synchronous and asynchronous technologies in open and distance learning (ODL) systems. Moreover, it discusses the importance of ODL systems in providing inclusive education in developing countries through the use of ICT with a special focus on adult, rural and elderly learners, as well as the role of technology in science education through ODL system. A transformative model of sustainable collaborative learning is presented, integrating concepts based on theoretical frameworks to increase the flexibility and solve existing issues in developing countries, which may be used for policy changes in distance learning. It concludes by examining various challenges in successfully implementing technology for effective delivery of learner support services in distance education systems in developing countries and exploring the strategies required to overcome these challenges.
