From the Nobel Prize-winning author of *My Name Is Red* and *Snow*, a large-format, deluxe, collectible edition of his beloved memoir about life in Istanbul, with more than 200 added illustrations and a new introduction. Orhan Pamuk was born in Istanbul and still lives in the family apartment building where his mother first held him in her arms. His portrait of his city is thus also a self-portrait, refracted by memory and the melancholy--or *hüzün*--that all Istanbulis share: the sadness that comes of living amid the ruins of a lost empire. With cinematic fluidity, Pamuk moves from the lives of his glamorous, unhappy parents to the gorgeous, decrepit mansions overlooking the Bosphorus; from the dawning of his self-consciousness to the writers and painters--both Turkish and foreign--who would shape his consciousness of his city. Like Joyce's *Dublin* and Borges' *Buenos Aires*, Pamuk's *Istanbul* is a triumphant encounter of place and sensibility, beautifully written and immensely moving.

This book takes inventory of and evaluates the available resources for the development of alternative tourism in Turkey. It examines the role of alternative tourism in future tourism development plans and proposes public policies necessary to assure sustainability. Although tourism started later in Turkey than in the Western Mediterranean countries it has grown very rapidly during the last three decades and today the country ranks among the top ten countries in the world in terms of both arrivals and receipts. However, most of the tourism development has been in the mass tourism sector or the so-called sun-sea-sand tourism. While crucial for the economic development of Turkey, mass tourism, in the absence of proper planning, has happened in a haphazard manner leading to numerous environmental and socio-cultural problems. This book argues that, in order to mitigate these problems, Turkey should encourage the development of alternative forms of tourism.

Perched at the tip of Europe, gazing across to the shores of Asia, Istanbul remains as much a city of crossroads as it has been for the past two millennia. The history of this fabled metropolis--known at first as Byzantium, then Constantinople, and now Istanbul--is glorious, grandiose, and astounding. No other city has stood at the center of world events for so long, a home to great empires and diverse cultures from the Greeks to the Romans, the Italians to the Armenians, the Ottomans to the modern Turks. Prizewinning historian Thomas F. Madden's tremendous new biography of this mysterious city captures centuries of triumph and defeat, riches and poverty, seen through the lives of those who inhabited it: the emperors and empresses, craftsmen and architects, sailors and fishermen, street vendors and harem concubines. This book propels the reader on a journey of Mediterranean commerce, thought, religion, and power, running through ancient roads, wharfs, forums, and palaces. Excavating centuries of firsthand accounts, Madden sets this history against the background of men and women who forever changed their worlds, including Alexander the Great, Constantine, Empress Theodora, Mehmed the Conqueror, Suleiman the Magnificent, and Mustafa Kemal Atatürk. Witness the construction of the massive Theodosian Walls, the embellishment of rich Hagia Sophia, and the transformation and revitalization of the Golden Horn district. From 667 BC to President Erdoğan's tumultuous twenty-first century presidency, Madden's account not only questions how we think of Istanbul's past, but also examines what we can learn from a people who have withstood invasion and threat time and time again. Through the long gaze of Madden's stirring narrative, we experience the strength of a people who endure at the intersection of faith, geography, and ideology.--Adapted from dust jacket.

It was founded in 667 B.C.E. as Byzantium. Then, in 330, the Roman Emperor Constantine I christened it as New Rome. Later, it would come to bear his own name and be known as Constantinople, which was then rendered into Arabic languages as Kostantiniyye, which the Ottomans also adopted. The city was destined to finally be known in our modern age as Istanbul, derived from a Greek phrase meaning, simply, to the city. So much has changed over the time those names spanned that it seems impossible they could possibly refer to only one city. Yet they do, and the city of Istanbul is still a vibrant place that treasures the artifacts of the various peoples who once lived here and knew it by such different names. One phrase has also been used to name the city: "The City of the World's Desire." If judges could pick the most appropriate name for the city, perhaps they would choose this one, as it

reflects most accurately how famous and how loved the city has been since antiquity. The face of Istanbul has changed considerably inside the modern nation. Justinian's masterpiece, the Hagia Sophia, was turned into a museum and its wonderful mosaics were revealed to the world once more in 1935. Two bridges now span the Bosphorus, and along with the historic skyline of the old city there are now also skyscrapers. Today, the city's importance in world history is indisputable, and it is difficult to believe that all of this long history concerns just one city. There is only one thing to do now – visit! Let's go! Your guide, WanderStories

A Vintage Shorts Travel Selection The Nobel Prize-winning novelist Orhan Pamuk reminisces on growing up on the banks of the mysterious Bosphorus in Istanbul. From the ghostly yalis, splendid waterside mansions built by the great Ottoman families during the eighteenth and nineteenth centuries, to the crowds of vessels—Russian frigates, rickety fishing boats, and ferries—that plied its waters, Pamuk takes readers on a tour of the great river. A selection from the shimmering and evocative Istanbul: Memories and the City, "Along the Bosphorus" is the essential guide to the city's watery way. An eBook short.

The mosques of Istanbul represent the splendour of Islamic architecture. Their central domes, rising above the skyline of the city, convey both the ideals and ambitions of powerful Ottoman sultans and the brilliance of the architects who created them. This book places these buildings in their historical, religious and social context. It traces the evolution of the Ottoman mosque from small, fourteenth-century examples in the first Ottoman capitals, Bursa and Edirne, to those built after the capture of Constantinople in 1453, and to the vast centralised structures commissioned by Suleyman the Magnificent in the sixteenth century. The daring experiments in space, light and structure devised by Michelangelo's Ottoman contemporary Mimar Sinan constitute a high point of the book, but the innovations of the Baroque and Neoclassical eras which followed are also fascinating. The author shows how these buildings are set in complexes of social and educational buildings that form the nuclei of neighbourhoods. He also offers insights into Ottoman life and the patronage of the sultans and viziers, as well as powerful women of the court. With full colour illustrations and a lively, informative text. Mosques of Istanbul is indispensable both to visitors to the city and to those wishing to understand Ottoman architecture. The book concludes with maps and itineraries for walking tours in Istanbul, Bursa and Edirne that lead visitors through carefully planned sequences of mosques by easy and convenient routes.

It was founded in 667 B.C.E. as Byzantium. Then, in 330, the Roman Emperor Constantine I christened it as New Rome. Later, it would come to bear his own name and be known as Constantinople, which was then rendered into Arabic languages as Kostantiniyye, which the Ottomans also adopted. The city was destined to finally be known in our modern age as Istanbul, derived from a Greek phrase meaning, simply, to the city. So much has changed over the time those names spanned that it seems impossible they could possibly refer to only one city. Yet they do, and the city of Istanbul is still a vibrant place that treasures the artifacts of the various peoples who once lived here and knew it by such different names. One phrase has also been used to name the city: "The City of the World's Desire." If judges could pick the most appropriate name for the city, perhaps they would choose this one, as it reflects most accurately how famous and how loved the city has been since antiquity. The face of Istanbul has changed considerably inside the modern nation. Justinian's masterpiece, the Hagia Sophia, was turned into a museum and its wonderful mosaics were revealed to the world once more in 1935. Two bridges now span the Bosphorus, and along with the historic skyline of the old city there are now also skyscrapers. Today, the city's importance in world history is indisputable, and it is difficult to believe that all of this long history concerns just one city. There is only one thing to do now – visit! Let's go! Your guide, WanderStories
