Tattooed bad boy James Bowen is about to marry the love of his life. Everything would be perfect if it wasn't for the tiny detail that his bride-to-be is freaking out big time. And

trying to hide it from him. Tate Cooper is losing it. She loves James with all her heart and wants to be married to him; it's the getting married that's killing her. Still grieving the loss of her father and brother, Tate just can't shake her fear and sadness. Add to that the stress of the wedding, and she's in full emotional meltdown. But James deserves a happy bride, not a high-maintenance, sorrow-filled, guilt-stricken one, and, by God, she's going to give him that, even if she has to paste on a smile and fake it till she makes it. James can see through her front, and he doesn't know whether to be amused or pissed. He understands she's running scared, her fear of loss making it hard for her to fully commit, but there is no way in hell he's going to allow this to continue; he's going to push her to confront her fears until she happily embraces their ever after. In the 1950s and 1960s, luxury car buyers, from government ministers to captains of industry, almost invariably bought British. These were stately, dignified, and grand vehicles, with many featuring leather interiors and wood trim. Unfortunately, that market has now largely disappeared and, with it, so have the car-makers themselves. This new book covers cars in the over-3-litre class from the biggest names in British luxury motoring including Alvis, Daimler, and Lagonda, and high-end models from Austin, Rover, and Jaguar. It examines the features and characteristics of these classic cars, as well as explaining why they fell from prominence in the 1970s. Replete with beautiful photography throughout, this book is a loving portrait of the British luxury car, a dearly missed saloon defeated by foreign imports.

A thousand years before the Winter War, Elgo, prince of the Vanadurin, killed the Dragon Sleeth and returned home with the fabulous wealth from the dead beast's lair. But there was more in the bounty than gems and gold, for the treasure was cursed, and in time it brought death to noble and peasant, war between Man and Dwarf, strife and destruction beyond reckoning. Now, generations later, as the conflict continues, the great Dragon Black Kalgalath, in league with the Wizard Andrak, appears to avenge Sleeth's death and claim the Dragon-cursed hoard. Against this unholy alliance, two sworn enemies set forth to find a legendary long-lost weapon: a warhammer of incalculable power that may be the only hope of victory. But neither the Warrior Maiden Elyn nor the Dwarf Thork is prepared for the dangers awaiting them on this quest....

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too

meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future. Journeying to the Sothoi Wind Plain as a representative of the War God, Bahzell is selected to become the first hradani windrider in history, an honor that brings as much resentment as respect and a situation that is complicated by the plots of the goddess Shigu, the Queen of Hell, and her supporters and the romantic overtures of Baron Tellian's daughter.

*Sangati* is a startling insight into the lives of Dalit women who face the double disadvantage of caste and gender discrimination. Written in a colloquial style, the original Tamil version overturns the decorum and aesthetics of upper-caste, upper-class Tamil literature and culture and, in turn, projects a positive cultural identity for Dalits in general and for Dalit women in particular. *Sangati* flouts received notions about what a novel should be and has no plot in the normal sense. It relates the mindscape of a Dalit woman who steps out of her small town community, only to enter a caste-ridden and hierarchical society, which constantly questions her caste status. Realizing that leaving her community is no escape, she has to come to terms with her identity as an educated, economically independent woman who chooses to live alone. In relating this tale, Bama turns *Sangati* into the story not just of one individual, but of a pariah community. Marked by rich ethnographic detail, *Sangati* is a significant political and ideological contribution to Dalit writing in Tamil. With a critical introduction by Lakshmi Holmstrom, this book will appeal to readers interested in Indian writing in translation and to students and teachers of translation studies, the political and social history of modern India, and cultural studies.
