Long-listed for the National Book Award Winner of the Crook's Corner Prize Winner of the First Novelist Award from the Black Caucus of the American Library Association A New York Times Notable Book “Brilliantly juxtaposing World War II, the '80s and post-Katrina present, Sexton follows three generations of a black New Orleans family as they struggle to bloom amid the poison of racism.” —People Evelyn is a Creole woman who comes of age in New Orleans at the height of World War II. In 1982, Evelyn's daughter, Jackie, is a

frazzled single mother grappling with her absent husband's drug addiction. Jackie's son, T.C., loves the creative process of growing marijuana more than the weed itself. He was a square before Hurricane Katrina, but the New Orleans he knew didn't survive the storm. For Evelyn, Jim Crow is an ongoing reality, and in its wake new threats spring up to haunt her descendants. Margaret Wilkerson Sexton's critically acclaimed debut is an urgent novel that explores the legacy of racial disparity in the South through a poignant and redemptive family history.

For centuries, the ancient Chinese philosophical text the Daodejing (Tao Te Ching) has fascinated and frustrated its readers. While it offers a wealth of rich philosophical insights concerning the cultivation of one's body and attaining one's proper place within nature and the cosmos, its teachings and structure can be enigmatic and obscure. Hans-Georg Moeller presents a clear and coherent description and analysis of this vaguely understood Chinese classic. He explores the recurring images and ideas that shape the work and offers a variety of useful approaches to understanding and appreciating this canonical text. Moeller expounds on the core philosophical issues addressed in the Daodejing, clarifying such crucial concepts as Yin and Yang and Dao and De. He explains its teachings on a variety of subjects, including sexuality, ethics, desire, cosmology, human nature, the emotions, time, death, and the death penalty. The Daodejing

also offers a distinctive ideal of social order and political leadership and presents a philosophy of war and peace. An illuminating exploration, *The Daodejing* is an interesting foil to the philosophical outlook of Western humanism and contains surprising parallels between its teachings and nontraditional contemporary philosophies.

Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation: the relationship between state and society, and its effects on politics, economics and class in these critical years.

"If the burlesque stripper, with her bawdy spirit and unruly insubordination, has emerged for many as a new 'empowering' model for the sexually aware woman, then she also strikes horror in the heart of second wave feminism. Embodied by high profile artistes such as Dita von Teese and Catherine D'Lish, the explosive revival of striptease, burlesque and overt female sexual performance has proved no less alluring to a new generation of women artists familiar with the provocative work of 70's performance artists such as Hannah Wilke and Carolee Schneeman. Eloquent on 'prettiness' and power, desire and 'knowingness', money, sex and class, and with an extensive knowledge of burlesque's rich tradition, Willson raises long overdue questions about women's erotic expression within a 'postfeminist' condition. The 'new burlesque' demands above all a response - this fresh, brazen, provocative book at last

provides it."--Bloomsbury Publishing.

“A rare triumph” (The New York Times Book Review), this powerful memoir about the divergent paths taken by two brothers is a classic work from one of the greatest figures in American literature: a reflection on John Edgar Wideman’s family and his brother’s incarceration—a classic that is as relevant now as when originally published in 1984. A “brave and brilliant” (The Philadelphia Inquirer) portrait of lives arriving at different destinies, the classic John Edgar Wideman memoir, *Brothers and Keepers*, is a haunting portrait of two brothers—one an award-winning writer, the other a fugitive wanted for a robbery that resulted in a murder. Wideman recalls the capture of his younger brother, Robby, details the subsequent trials that resulted in a sentence of life in prison, and provides vivid views of the American prison system. A gripping, unsettling account, *Brothers and Keepers* weighs the bonds of blood, affection, and guilt that connect Wideman and his brother and measures the distance that lies between them. “If you care at all about brotherhood and dignity...this is a must-read book” (The Denver Post). With a new afterword by his brother Robert Wideman, recently released after more than fifty years in prison.

Est-il encore utile de rappeler combien la notion de patrimoine est devenue complexe tant les champs de son application se sont multipliés et tant elle touche des domaines de plus en plus variés ? Tenter d'en cerner les limites ou d'en déterminer les frontières relèverait d'une gageure à laquelle nul ne se risquerait aujourd'hui. Ses enjeux n'en demeurent pas moins

importants en ce début de XXI^e siècle et constituent des axes de réflexion sans cesse renouvelés, comme le révèlent la diversité et la richesse des terrains de recherche dont nous font part les auteurs de ce collectif. En choisissant de se focaliser sur la fabrique, l'usage et le réemploi, ce recueil de textes contribue à l'enrichissement de notre compréhension globale du patrimoine qui se complète, s'affine et se précise à mesure que se dénouent les situations concrètes évoquées. De la France au Québec, en faisant un détour par l'Italie et la Russie, les processus de patrimonialisation se déclinent sous différentes formes au regard des enjeux politiques, économiques et sociaux qui les animent. D'une fabrique en germe à la fin du XVIII^e siècle au réemploi d'un patrimoine architectural contemporain, en passant par la remise en valeur ou la reconversion d'un territoire, ils sont à l'image d'un palimpseste, le fruit d'usages multiples, composant avec les marques identitaires et mémorielles de l'histoire et les réinscrivant d'une manière ou d'une autre dans un présent, qui, lui aussi, s'avère porteur de nouvelles valeurs amenées à s'inscrire dans le futur.

Why do gardens matter so much and mean so much to people? That is the intriguing question to which David Cooper seeks an answer in this book. Given the enthusiasm for gardens in human civilization ancient and modern, Eastern and Western, it is surprising that the question has been so long neglected by modern philosophy. Now at last there is a philosophy of gardens. Not only is this a fascinating subject in its own right, it also provides a reminder that the subject-matter of aesthetics is broader than the fine arts; that ethics is not just about

moral issues but about 'the good life'; and that environmental philosophy should not focus only on 'wilderness' to the exclusion of the humanly shaped environment. David Cooper identifies garden appreciation as a special human phenomenon distinct from both from the appreciation of art and the appreciation of nature. He explores the importance of various 'garden-practices' and shows how not only gardening itself, but activities to which the garden especially lends itself, including social and meditative activities, contribute to the good life. And he distinguishes the many kinds of meanings that gardens may have, from representation of nature to emotional expression, from historical significance to symbolization of a spiritual relationship to the world. Building on the familiar observation that, among human beings' creations, the garden is peculiarly dependent on the co-operation of nature, Cooper argues that the garden matters as an epiphany of an intimate co-dependence between human creative activity in the world and the 'mystery' that allows there to be a world for them at all. A Philosophy of Gardens will open up this subject to students and scholars of aesthetics, ethics, and cultural and environmental studies, and to anyone with a reflective interest in things horticultural.

When a wolf leaves the pack, he lives only as long as he can kill by himself quicker and surer than any pack he runs up against. Meet a man beyond either forgiveness or vengeance. Meet the Man they Call The Lone Wolf. Better meet him now. The way he lives, he can't live much longer. Burt Wulff was the target, and the way to Wulff was through an old friend named Tamara. Calabrese's men came for her in broad daylight, abducted her from her home and shot her full of drugs so that she didn't know a thing until she woke up in Miami. Miami - famous resort town, place in the sun and all that - but not now, not for Tamara and not for Wulff. The trouble was that Wulff was dead set against heroin, and went around breaking up the neat little trade routes that drug runners had set up around the globe. Now Calabrese decided he'd had enough of Wulff. Now he had Tamara, the bait by which to lure Wulff to Miami. In the shadow of those fine hotels and fancy shops, there was something going on along surfside. And that something was called murder.

Jakým dilematem a rizikem ?elí kulturní organizace u nás i ve sv?t?? Jsou

zahraniční modely a zkušenosti aplikovatelné v českých podmínkách? To jsou jen některé z otázek, na které se snaží najít odpověď tato první česká monografie o marketingu a strategickém řízení muzeí a památek. Autor vnuje zvláštní pozornost procesům spotřeby kulturních statků, vnímání muzejních objektů a expozic a analýze produktu muzeí a památek jako východisku marketingové činnosti kulturních organizací. Podrobně se zabývá kulturní kompetencí jako kritickým faktorem, který ovlivňuje poptávku současného publika po muzeu, a ukazuje, že organizace prezentující kulturní dědictví mohou v konkurenci stále širšího spektra volnočasových aktivit obstát jen tehdy, pokud svým divákům otevrou cestu k výjimečným prožitkům. Kniha je určena především pracovníkům muzeí, galerií, památkových objektů, jejich zřizovatelům, pracovníkům státní správy a samosprávy, profesionálům z oblasti turistického průmyslu a studentům.

11 September 1683, Rome. The citizens of the city wait anxiously for the outcome of the battle for Vienna as Ottoman forces lay siege to the defenders of Catholic Europe. Meanwhile, a suspected outbreak of plague causes a famous Roman tavern to be placed under quarantine. One of its detainees, the mysterious Atto Melani, a spy in the service of France, discovers a secret passage leading deep into the Roman underworld. A plot to assassinate the pope and plans to use the plague as a weapon of mass destruction in the battle

between Islam and the West are discovered. Meticulously researched and brilliantly conceived, *Imprimatur* contains startling revelations that have been concealed for centuries, drawing on original papers discovered in the Vatican archives. A thriller in the vein of Umberto Eco's *The Name of the Rose*, this novel sheds new light on the power struggles of 17th-century Europe, the repercussions of which are still felt today. First published to great controversy in Italy in 2002, *Imprimatur* was boycotted by the Italian press and publishing world. Despite this, the novel has gained European bestseller status; it has been translated into 20 languages with editions published in 45 countries. Over 1 million copies have been sold to date.

The concept that the Japanese call *ki*, meaning the spirit of things, can be seen throughout Japanese life and culture. What Gian Carlo Calza calls 'Japan style' in his authoritative text is demonstrated through such things as an exquisitely arranged single flower or the particular quality of meticulously designed architectural forms and spaces, the rituals of the traditional tea ceremony, and the attention that is paid to the manner of creation as well as to the finished object itself. The book identifies the specific qualities that make up aspects of Japanese culture, examining the elements intrinsic to its art, architecture, objects and rituals, and gives the reader the pleasure of a journey into the Japanese

aesthetic, past and present.

The Church of Solitude tells the story of Maria Concezione, a young Sardinian seamstress living with breast cancer at the cusp of the twentieth century.

Overwhelmed by the shame of her diagnosis, she decides that no one can know what has happened to her, but the heavy burden of this secrecy changes her life in dramatic ways and almost causes the destruction of several people in her life. This surprising novel paints the portrait of a woman facing the unknown with courage, faith, and self-reliance, and is the last and most autobiographical work of Grazia Deledda, who died of breast cancer in 1936, shortly after its publication. An afterword by the translator offers additional information on the author and examines the social and historical environment of that time.

In this magical novel a count from Milan stumbles upon a desolate community of lost noblemen on an uncharted island off the coast of Portugal. When he discovers, to his astonishment, that their ill-treated servant is in fact a maiden iguana, and then proceeds to fall in love with her, the reader is given a fantastic tale of tragic love and delusion that ranks among the most affecting in contemporary literature. "The reptilian servant is only the first in a series of fantastic touches that transform the narrative into a satiric fable dense with the echoes of Shakespeare's 'Tempest' and Kafka's 'Metamorphosis.' . . . The Iguana

is a superb performance." "€"New York Times Book Review

Humans have long turned to gardens - both real and imaginary - for sanctuary from the frenzy and tumult that surrounds them. Those gardens may be as far away from everyday reality as Gilgamesh's garden of the gods or as near as our

own backyard, but in their very conception and the marks they bear of human care and cultivation, gardens stand as restorative, nourishing, necessary havens. With *Gardens*, Robert Pogue Harrison graces readers with a thoughtful, wide-ranging examination of the many ways gardens evoke the human condition. Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York, he shows how, again and again, the garden has served as a check against the destruction and losses of history. The ancients, explains Harrison, viewed gardens as both a model and a location for the laborious self-cultivation and self-improvement that are essential to serenity and enlightenment, an association that has continued throughout the ages. The Bible and Qur'an; Plato's Academy and Epicurus's Garden School; Zen rock and Islamic carpet gardens; Boccaccio, Rihaku, Capek, Cao Xueqin, Italo Calvino, Ariosto, Michel Tournier, and Hannah Arendt - all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality, order, and power. Alive with the echoes and arguments of Western thought, *Gardens* is a fitting continuation of the intellectual journeys of Harrison's earlier classics, *Forests* and *The Dominion of the Dead*. Voltaire famously urged us to cultivate our gardens; with this compelling volume, Robert Pogue Harrison reminds us of the nature of that responsibility - and its

enduring importance to humanity.

First published in 1991. It was the lyric poetry of Petrarch that popularized the sonnet in European literature, that set the standard for love poetry for centuries to follow. Compared to the large volume of prose, poetry and notes in Latin, the corpus of Petrarch's Italian writings is small: the 366 poems that make up the Canzoniere, the 2000 or so verses of the Trionfi, and an undetermined number of poems, drafts and fragments that comprise what we call the Rime disperse. This collection includes indexes of first lines in both Italian and English.

This book showcases the best and most humorous quotes from George R.R. Martin's favourite character Tyrion Lannister, the worldly, jaded, funny, highly intelligent, cynical, womanizing star of the books. A perfect stocking-filler for every fan of the books, and of HBO's award-winning television series.

Nobles were slaughtered and their castles looted or destroyed, bodies were dismembered and corpses fed to animals—the Udine carnival massacre of 1511 was the most extensive and damaging popular revolt in Renaissance Italy (and the basis for the story of Romeo and Juliet). Mad Blood Stirring is a gripping account and analysis of this event, as well as the social structures and historical conflicts preceding it and the subtle shifts in the mentality of revenge it introduced. This new reader's edition offers students and general readers an

abridged version of this classic work which shifts the focus from specialized scholarly analysis to the book's main theme: the role of vendetta in city and family politics. Uncovering the many connections between the carnival motifs, hunting practices, and vendetta rituals, Muir finds that the Udine massacre occurred because, at that point in Renaissance history, violent revenge and allegiance to factions provided the best alternative to failed political institutions. But the carnival massacre also marked a crossroads: the old mentality of vendetta was soon supplanted by the emerging sense that the direct expression of anger should be suppressed—to be replaced by duels.

Destination marketing is more challenging than other goods and services. The basis of competitive advantage shifts from tourism resources only (destination marketing) to a location-based or city-wide integrated management (place marketing). In this book, tourism scholars Metin Kozak and Seyhmus Baloglu discuss and synthesize theories, models, techniques, and principles for strategic marketing and management of tourist destinations, and demonstrate ways in which to further develop the concept of destination competitiveness for application within these destinations. The authors highlight the need for managing brand equity, tourist experience, and information systems, as well as involving internal and external stakeholders in strategic planning and implementation. This book offers practical information directly related to the tourism industry, using the examples of real-world cases to bridge marketing theory with practice. With its international focus and applications for developing a competitive advantage in

today's global marketplace, this research will be indispensable to students and scholars of tourism, hospitality, and leisure and recreation programs, as well as practitioners within these industries.

Human history has often been described as a progressive relinquishment from environmental constraints. Now, it seems, we have come full circle. The ecological irrationalities associated with industrial societies have a lengthy history, and our purpose in the proposed book is not to catalogue this litany of wrongs. Rather, this book is about political responses to global environmental crisis at a crucial turning point in history, by focusing on the political discourses surrounding the tar sands in Alberta, Canada.

The product of over thirty years of research on the American Civil War by Italy's most renowned authority on the subject, this study synthetically analyzes the great drama that from 1861 to 1865 devastated the United States and gave life to the modern American nation. The book also highlights how the Civil War was the first conflict of the industrial age and an often neglected premonition of the two great world wars that shook the world in the twentieth century. The short essays presented here are the texts of five lectures delivered several years ago at the Istituto Italiano di Studi Filosofici in Naples and published in Italy in 1997.
