**It's Not the Stork!** Robie H. Harris, 2011-08-09 In their previous landmark volumes . . . Harris and Emberley established themselves as the purveyors of reader-friendly, straightforward information on human sexuality for readers as young as

seven. Here they successfully tackle the big questions . . . for even younger kids. – The Horn Book (starred review) Young children are curious about almost everything, especially their bodies. And young children are not afraid to ask questions. What makes me a girl? What makes me a boy? Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? IT'S NOT THE STORK! helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began. Through lively, comfortable language and sensitive, engaging artwork, Robie H. Harris and Michael Emberley address readers in a reassuring way, mindful of a child's healthy desire for straightforward information. Two irresistible cartoon characters, a curious bird and a squeamish bee, provide comic relief and give voice to the full range of emotions and reactions children may experience while learning about their amazing bodies. Vetted and approved by science, health, and child development experts, the information is up-to-date, age-appropriate, and scientifically accurate, and always aimed at helping kids feel proud, knowledgeable, and comfortable about their own bodies, about how they were born, and about the family they are part of.

Research shows that children are learning about sex at an increasingly young age and often from undesirable sources. The Q&A format, with questions posed in the child's voice and answers starting simply and becoming gradually more in-depth, allows the adult to guide the conversation to a natural and satisfying conclusion. Additional questions at the back of the book allow for further discussion. Child psychologist Dr. Jillian Roberts designed the *Just Enough* series to empower parents/caregivers to start conversations with young ones about difficult or challenging subject matter. Other books in the series deal with diversity, death, separation and divorce.

One day fourteen-year-old Sophie Amundsen comes home from school to find in her

mailbox two notes, with one question on each: Who are you? and Where does the world come from? From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.

Irena Sendler Judy Greenspan,2019-08 Irena Sendler was a social worker who wanted to help people. World War II left many vulnerable. Irena helped them get medical care and necessities to live. Then she took the greatest risk. Learn more about the woman who smuggled Jewish children to safety.

**Let's Talk About the Birds and the Bees** Molly Potter,2017-10-19 From the author of *How Are You Feeling Today?* and *Will You Be My Friend?* comes a brand new picture book all about the birds and the bees (sex education). It's natural for young children to have questions about their bodies and where they came from, but it can seem a daunting task to answer honestly so that they understand the subtleties of puberty, sex, reproduction and relationships, and are comfortable with their bodies. This books uses clear, easy to understand language to answer complex questions about sex and relationships, and covers all manner of tricky subjects from puberty to consent with delicate accuracy and honesty. Filled with bright, fun illustrations and helpful advice for parents and carers, *Let's Talk About the Birds and Bees* is the perfect book for explaining the facts of life to small children.

*We Are Family* Susan Golombok,2020-10-06 From one of the world's leading experts, this absorbing narrative history of the changing structure of modern families shows how children can flourish in any kind of loving home. The past few decades have seen extraordinary change in the idea of a family. The unit once understood to include two straight parents and their biological children has expanded vastly—same-sex marriage, adoption, IVF, sperm donation, and other forces have enabled new forms to take shape. This has resulted in enormous upheaval and controversy, but as Susan Golombok shows in this compelling and important book, it has also meant the health and happiness of parents and children alike. Golombok's stories, drawn from decades of research, are compelling and dramatic: family secrets kept for years and then inadvertently revealed; children reunited with their biological parents or half siblings they never knew existed; and painful legal battles to determine who is worthy of parenting their own children. Golombok explores the novel moral questions that changing families create, and ultimately makes a powerful argument that the bond between family members, rather than any biological or cultural factor, is what ensures a safe and happy future. *We Are Family* is unique, authoritative, and deeply humane. It makes an important case for all families—old, new, and yet unimagined.

*Will Puberty Last My Whole Life?* Julie Giesy Metzger,Robert Lehman,2012-01-01 This flip book for boys and girls

between the ages of 9 and 12 has questions asked by girls in one half of the book; flip it over and questions asked by boys are on the other side. Contains honest, informative, and reassuring answers to questions pre-adolescents have about puberty, friends, feelings, sex, pimples, babies, body hair, menstruation, bras, and much more. Straightforward, age-appropriate answers to REAL questions from preteens are provided by an experienced nurse-and-physician team who have been giving popular seminars to moms and daughters, and dads and sons, in Seattle and Palo Alto for more than twenty years. Each of the questions in the book has been asked--many of them frequently!--by kids during their seminars. Filled with fun, full-color illustrations throughout.
