“A book of great value for every daughter and every mother; useful for sons, too.”—Benjamin Spock, M.D. From the Introduction: The goal of this book is to help readers achieve that separation so that they can either find a way to be friends with their mothers, or at least recognize and accept that their mothers did the best they could—even if it wasn't “good enough”—and to stop blaming them. Among the issues to be covered: • To understand how a daughter's attachment to her mother—more so than her relationship with her father—colors all her other relationships, and to analyze why it is more difficult for daughters than sons to separate from their mothers, as well as why daughters are more subject than sons to a mother's manipulation • To recognize the difference between a healthy and a destructive mother-daughter connection, and to define clearly the “bad mommy,” in order to help readers who have trouble acknowledging their childhood losses to begin to comprehend them • To conjugate what I call the “Bad Mommy Taboo”—why our culture is more eager to protect the sanctity of maternity than it is to protect emotionally abused daughters • To describe the evolution of the “unpleasable” mother—in all likelihood, she was bereft of maternal love as a child—and to recognize the huge, and often poignant, stake she has in keeping her grown daughter dependent and off-balance • To illustrate the consequent controlling behavior—in some cases, cloaked in fragility or good intentions—of such mothers, which falls into general patterns, including: the Doormat, the Critic, the Smotherer, the Avenger, the Deserter • To understand that the daughter has a similar stake in either being a slave to or hating her mother—the two sides of her dependency and

immaturity • To illustrate the responsive behavior—and survival mechanisms —of daughters, which is determined in part by such variables as birth rank, family history, and temperament, and which also falls into patterns, including: the Angel, the Superachiever, the Cipher, the Troublemaker, the Defector • To show how to redefine the mother-daughter relationship, so that each can learn to see and accept the other as she is today, appreciating each other's good qualities and not being snared by the bad • Finally, to demonstrate that a redefined relationship with one's mother—adult to adult—frees you from the past, whether that re definition ultimately results in real friendship, affectionate truce, or divorce.

From esteemed teacher Adyashanti, a collection of writings on the search for the ultimate reality beneath the narrative of our lives “Our inner lives are every bit as astonishing, baffling, and mysterious as the infinite vastness of the cosmos.” —Adyashanti We all define our lives through the lens of stories. Whether we see ourselves as heroes or victims, good people or bad, everyone lives according to interwoven strands of narrative. “And yet,” teaches Adyashanti, “the truth is bigger than any concept or story.” Drawn from intimate, deep-dive talks, *The Most Important Thing* presents writings devoted to the search for the ultimate reality of a self that exists beyond the bounds of storytelling. Here you will find vivid anecdotes and teaching stories that illuminate the felt experience of Adyashanti's teachings—those moments of grace in which every stone, tree, ray of light, and fraught silence reveal that none of us is alone and no one is ever truly isolated from the whole of existence. These selections consider: Exploration of the true meaning of birth, life, and death Why grace can arrive both through struggle and as an unexpected gift Meditation as the art of “listening with one's entire being” Why a good

Complicated Lives focuses on the lives of sixty-five drug-using girls in the juvenile justice system (living in group homes, a residential treatment center, and a youth correctional facility) who grew up in families characterized by parental drug use, violence, and child maltreatment. Vera Lopez situates girls' relationships with parents who fail to live up to idealized parenting norms and examines how these relationships change over time, and ultimately contribute to the girls' future drug use and involvement in the justice system. While Lopez's subjects express concerns and doubt in their chances for success, Lopez provides an optimistic prescription for reform and improvement of the lives of these young women and presents a number of suggestions ranging from enhanced cultural competency training for all juvenile justice professionals to developing stronger collaborations between youth and adult serving systems and agencies.

If I thought things were difficult before, they were about to get a whole lot more complicated. Oh, and those rumors? Holy f....., were they true ...

Buffalo at the Crossroads is a diverse set of cutting-edge essays. Twelve authors highlight the outsized importance of Buffalo, New York, within the story of American urbanism. Across the collection, they consider the history of Buffalo's built environment in light of contemporary developments and in relationship to the evolving interplay between nature, industry, and architecture. The essays examine Buffalo's architectural heritage in rich context: the Second Industrial Revolution; the City Beautiful movement; world's fairs; grain, railroad, and shipping industries; urban renewal and so-called white flight; and the larger networks of labor and production that set the city's economic fate. The contributors pay attention to currents that connect contemporary architectural work in Buffalo to the legacies established by its esteemed architectural founders: Richardson, Olmsted, Adler, Sullivan, Bethune, Wright, Saarinen, and others. Buffalo at the Crossroads is a compelling introduction to Buffalo's architecture and developed landscape that will frame discussion about the city for years to come. Public–private partnerships have been in use for a long time, and in many countries, to build roads and bridges, clean rivers, and manage waste. In the last two decades, they have slowly begun to make their presence felt in the field of public education. Several countries, including the United States and India, have recently enacted laws that include partnerships with private entities as a vehicle for education reform. PPP Paradox discusses a swathe of PPPs in education and assesses their approach and contribution to genuine school change. This broad and even-handed survey of a variety of policy positions is followed by specific accounts of reform efforts in two case studies—one from a partnership in middle-school change in curriculum and instruction that took place in the state of Michigan in the United States, and the other from a partnership to bring Montessori education to government-run schools in Chennai, a large Indian city.

What motivates those few scientists who rise above their peers to achieve breakthrough discoveries? They include: • Dan

Shechtman, the 2011 Nobel laureate and discoverer of quasicrystals; • James D. Watson, the Nobel laureate and codiscoverer of the double helix structure of DNA; • Linus Pauling, the Nobel laureate remembered most for his work on the structure of proteins; • Edward Teller, a giant of the 20th century who accomplished breakthroughs in understanding of nuclear fusion; • George Gamow, a pioneering scientist who devised the initially ridiculed and now accepted Big Bang. In each case, the author has uncovered a singular personality characteristic, motivational factor, or circumstance that, in addition to their extraordinary drive and curiosity, led these scientists to make outstanding contributions. For example, Gertrude B. Elion, who discovered drugs that saved millions of lives, was motivated to find new medications after the deaths of her grandfather and later her fiancé. F. Sherwood Rowland, who stumbled upon the environmental harm caused by chlorofluorocarbons, eventually felt a moral imperative to become an environmental activist. Rosalyn Yalow, the codiscoverer of the radioimmunoassay always felt she had to prove herself in the face of prejudice against her as a woman. These and many more fascinating revelations make this a must-read for everyone who wants to know what traits and circumstances contribute to a person's becoming the scientist who makes the big breakthrough.

This book aims to provide some general understandings towards persons with visual disability as well as provide some contextual insights of their marriage, focusing on the phenomena of happiness. A common stigma surrounding persons with visual disability is that their lives might be filled with challenges, and thus facing difficulties in managing familial institution. The authors would like to provide a different perspective, focusing on the positive aspects of the lives of persons with visual disabilities, hence highlighting that such population is equal to the non-disabled. This book is divided into six chapters, which encompasses topics such as the theoretical viewpoints of happiness, the phenomena of marital happiness illustrated through three cases which include the dimensions and sources of marital happiness, as well as the strategies applied to improve or maintain marital happiness.

Hillel Halkin is widely admired for his works of literary criticism, biography, fiction, and nonfiction, as well as for his celebrated achievements as a translator. Born and raised in New York City, he has lived most of his life in Israel. His complex sensibility, deeply rooted in Jewish literature and history no less than in his own personal experience, illuminates everything it touches. In *A Complicated Jew*, Halkin assembles a selection of essays that form, if not a conventional memoir, a haunting and intimate record of a profoundly Jewish life that defies categorization. It is a banquet for the mind. "Hillel Halkin is a master storyteller and a brilliant cultural critic, and in *A Complicated Jew* he combines both talents to take his readers on an intellectual

thrill ride through his encounters with Jewish thought, art, and life. I envy him his lifetime of adventures and am grateful to him for sharing them with all of us.” Dara Horn, novelist and author of *Eternal Life* and *People Love Dead Jews* “I have been reading Hillel Halkin for well on to half a century, always deriving pleasure from his stately prose, intellectual profit from his deep learning, and inspiration from his integrity. I am pleased to think of him as my contemporary.” Joseph Epstein, author of *Life Sentences: Literary Essays*, *Narcissus Leaves the Pool* and *Fabulous Small Jews*, and former editor of *The American Scholar*. “Hillel Halkin himself has always been even more interesting to me than his highly interesting subjects, and here he gives us full access to his adventurous mind, the dazzling range of his learning, and his passionate spirit. More than a collection of essays, this book charts the intellectual journey of one of our most original Jewish writers.” Ruth Wisse, Professor emeritus of Yiddish and Comparative Literature at Harvard University and author of *If Am Not for Myself: The Liberal Betrayal of the Jews*, *Jews and Power*, and *No Joke: Making Jewish Humor*. “Even when Hillel Halkin exasperates, there is no voice on the contemporary Jewish scene more intellectually alert or lucid. The work of a cultural critic of rare breadth, this keenly personal, fiercely argued volume is as trenchant of tour of Jewry’s dilemmas of the last half-century as any I know.” Steven J. Zipperstein, Professor of Jewish Culture and History at Stanford University and author of *Imagining Russian Jewry and Pogrom: Kishinev and the Tilt of History*. First published in 1994. sober mother, a sister, a sense of home, and the game of football. But during the years that David John spent in prison for his part in a brutal hate crime, Jessup came to realize that his stepfather is also a source of lethal poison for his family. Now it's Jessup's senior year, and all he wants to do is lay low until he can accept one of the football scholarships that will be his ticket out of town. So when his stepfather is released from prison, Jessup is faced with an impossible choice: condemn the man who saved his family or accept his part in his family's legacy of bigotry. Before he can choose a side, Jessup will cause a terrible accident and cover it up--a mistake with the power to ruin them all. Told with relentless honesty and a ferocious gaze directed at contemporary America's darkest corners, *Copperhead* vibrates with the energy released by football tackles and car crashes and asks uncomfortable questions about the price we pay--and the mistakes we'll repeat--when we live under the weight of a history we've yet to reckon with. Alexi Zentner unspools the story of boys who think they're men and of the entrenched thinking behind a split-second decision, and asks whether hatred, prejudice, and violence can ever be unlearned. She needed to be loved...He needed to be saved.
