By far the biggest change to *The UK Pesticide Guide* in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. Beloved Nebraska folklorist Roger Welsch explores our passion and love for dogs. Many issues in food and agriculture are portrayed as increasingly polarized. These include industrial vs. sustainable agriculture, conventional vs. organic production methods, and global vs. local food sourcing, to name only three. This book addresses the origins, validity, consequences, and potential resolution of these and other divergences. Political and legal actions have resulted in significant monetary and psycho-social costs for groups on both sides of these divides. Rhetoric on many issues has caused misinformation and confusion among consumers, who are unsure about the impact of their food choices on nutrition, health, the environment, animal welfare, and hunger. In some cases distrust has intensified to embitterment on both sides of many issues, and even to violence. The book uses economic principles to help readers better understand the divisiveness that prevails in the agricultural production, food processing and food retailing industries. The authors propose solutions to promote resolution and depolarization between advocates with seemingly irreconcilable differences. A multifaceted, diverse, but targeted approach to food production and consumption is suggested to promote social well-being, and reduce or eliminate misinformation, anxiety, transaction costs and hunger.

The Sacred is the Profane collects nine essays by William Arnal and Russell McCutcheon that advance current scholarly debates on secularism-debates. The essays return, again and again, to the question of what "religion"—word and concept—accomplishes, now, for those who employ it, whether at the popular, political, or scholarly level. The focus here is on the efficacy, costs, and the tactical work carried out by dividing the world between religious and political, church and state, sacred and profane.

Reginald Washington, a lonely, politically correct, rich and highly esteemed English civil servant, nearing retirement age, meets by chance a strangely attractive Asian lady in an English pub. She is young enough to be his daughter and comes from the poorest region of Thailand, the Isaan. They begin a passionate love affair and despite many differences and family conflict, they fall deeply in love. She has a well buried past which

she does not want him to know anything about. A holiday in Thailand which takes them to Bangkok, Chiang Mai, Chiang Rai and a small village near Buriram begins happily enough but a series of events leads to a completely unforeseen conclusion. Even before they can struggle to come to terms with their changing relationship and attempt to gain insight and resilience, bad luck - or karma - takes control and seems intent on ruining their love. Separated and alienated, Reginald finds himself journeying alone to Pattaya, Thailand's notorious, red-light city, where he tries to piece together his true love's past. She knows he is there and rushes to join him. Against the backdrop of The Extreme City, they are reunited - briefly - but there is no Fun, and Sin City exacts a dreadful revenge. Jonathan Finch's ironic and tragic novel depicts England full of itself, a world leader, with confident, affluent, successful and conceited people everywhere, and Thailand a country with social ills and problems galore. East is east and west is west. Can the two ever meet? Can Reginald L. Washington and his future Thai bride ever bridge the gap? In a world where divisions and differences abound, unity seems an unobtainable goal. Consistently given four and five stars by reviewers, Finch's latest novel is stylistically innovative and literary. Its irony is directed against vanity, over-reaching societies and politically correct conformism as well as being critical of one of Thailand's most characteristic ways of coping with poverty.
