the object of his tormentor's obsession. Fourteen years later in 1905 the Tsar instigates riots - pogroms - against the poor, teeming Jewish villages. Now a husband and father, Avi takes to the barricades to defend his village from the mob coming to kill the men, rape the women, and burn down his village. Armed, he again faces Viktor Askinov, who is leading the mob. But he has been warned that if he kills Viktor Askinov, he puts his beautiful young wife Sara and newborn son Itzhak in deadly peril. Avi must decide this night what he stands for. Is it survival at any cost, for himself and those he loves? Or is it righteous vengeance for his people?

The European Women's History Reader is a fascinating collection of seminal articles and extracts, exploring the social, economic, religious and political history of women across Europe since the late eighteenth century. This ambitious volume is arranged into four chronological sections all with their own introductions, which provide context for the chapters that follow. The collection also includes a useful general introduction, which makes the articles accessible to students and helps to define this increasingly important area of study.

Using innovative methodologies and theories to rethink American Indian history, this book challenges previous scholarship about Native Americans and their communities. The Coordinating Council for Women in History evolved from a cohort of women historians who turned their scholarly focus to the recovery of women's experiences. In so doing, they created and legitimated the field of women's history. The contributors to

this volume, former CCWH officers, mark the 30th anniversary of the organization while commemorating three decades of feminist activism and scholarship. Recording the diverse paths women have taken to become historians, the essays contained in this book describe how a particular group of women negotiated the often competing demands of being a woman, a professional, and a political activist from the turbulent 1960s through the challenges of the 1990s. But beyond the celebration of personal and professional progress, this collection contributes to the emerging historiography of women's history and the literature on women in the professions. Who says women don't go to war? From Vikings and African queens to cross-dressing military doctors and WWII Russian fighter pilots, these are the stories of women for whom battle was not a metaphor. The woman warrior is always cast as an anomaly—Joan of Arc, not GI Jane. But women, it turns out, have always gone to war. In this fascinating and lively world history, Pamela Toler not only introduces us to women who took up arms, she also shows why they did it and what happened when they stepped out of their traditional female roles to take on other identities. These are the stories of women who fought because they wanted to, because they had to, or because they could. Among the warriors you'll meet are: * Tomyris, ruler of the Massagetae, who killed Cyrus the Great of Persia when he sought to invade her lands * The West African ruler Amina of Hausa, who led her warriors in a campaign of territorial

expansion for more than 30 years * Boudica, who led the Celtic tribes of Britain into a massive rebellion against the Roman Empire to avenge the rapes of her daughters * The Trung sisters, Trung Trac and Trung Nhi, who led an untrained army of 80,000 troops to drive the Chinese empire out of Vietnam * The Joshigun, a group of 30 combat-trained Japanese women who fought against the forces of the Meiji emperor in the late 19th century * Lakshmi Bai, Rani of Jhansi, who was regarded as the “bravest and best” military leader in the 1857 Indian Mutiny against British rule * Maria Bochkareva, who commanded Russia’s first all-female battalion—the First Women’s Battalion of Death—during WWII * Buffalo Calf Road Woman, the Cheyenne warrior who knocked General Custer off his horse at the Battle of Little Bighorn * Juana Azurduy de Padilla, a mestiza warrior who fought in at least 16 major battles against colonizers of Latin America and who is a national hero in Bolivia and Argentina today * And many more spanning from ancient times through the 20th century. By considering the ways in which their presence has been erased from history, Toler reveals that women have always fought—not in spite of being women but because they are women.

The story of an English princess, a Danish king and a wall. Before she became a legend she was just known as Thyra, the unimportant daughter of the English king. She was no fool and knew what her future held for her: marriage or a nunnery. Neither option particularly appealed to her. Then an offer for her hand is made by a mischievous looking lord from across the sea. Despite her family's wishes she refuses to sell herself

In time she would be called the Pride of Denmark but for now she is just Thyra... This book is part of the Forgotten Women of History series but can be read as a standalone.

You know the women of the Bible, but you don't know them like this... It's easy for Christian women—young and old—to get lost between the opportunities and demands of the present and the biblical teachings of the past. They live in a confusing world, caught in the crossfire between church and culture. Although home and family still remain central, more women than ever, by choice or by necessity, are blending home, career, and ministry. They need strong biblical role models to help them meet these challenges. Building on solid scholarship and a determination to wrestle honestly with perplexing questions, author Carolyn Custis James sheds new light on ancient stories that brings the women of the Bible into the twenty-first century. This fresh look at the women in the Bible unearths surprising new insights and a powerful message that will leave readers feeling challenged, encouraged, and deeply valued. Rediscover and be

The 1970s was a decade when matters previously considered private and personal became public and political. These shifts not only transformed Australian politics, they engendered far-reaching cultural and social changes. Feminists challenged 'man-made' norms and sought to recover lost histories of female achievement and cultural endeavour. They made films, picked up spanners and established printing presses. The notion that 'the personal was political' began to transform long-held ideas about masculinity and femininity, both in public and private life. In the spaces between official discourses and everyday experience, many sought to revolutionise the lives of Australian men and women. Everyday Revolutions brings together new research on the cultural and social impact of the feminist and sexual revolutions of the 1970s in Australia. Gay Liberation and Women's Liberation movements erupted, challenging almost every aspect of Australian life. The pill became widely available and sexuality was both celebrated and flaunted. Campaigns to decriminalise abortion and

homosexuality emerged across the country. Activists set up women's refuges, rape crisis centres and counselling services. Governments responded to new demands for representation and rights, appointing women's advisors and funding new services. *Everyday Revolutions* is unique in its focus not on the activist or legislative achievements of the women's and gay and lesbian movements, but on their cultural and social dimensions. It is a diverse and rich collection of essays that reminds us that women's and gay liberation were revolutionary movements.

Chronicles the Germany's and Japan's struggles to reclaim a defeated national past. This book compares the ways German and Japanese scholars revised national history after World War-II in the shadows of fascism, surrender and American occupation. It shows that the focus on the nation can be understood only within a transnational context.

This book addresses the 'autobiographical' literature, visual, and performance art of postcolonial women from Maghreb and Southeast Asia including Leila Sebbar, Assia Djebar, and Theresa Hak Kyung Cha. Karina Eileraas critically examines how contemporary postcolonial artists participate in the violence of representation in order to re-imagine the relationship between image and identity.

uses of gender as a conceptual tool for cultural and historical analysis. Joan Wallach Scott offers a trenchant critique of the compartmentalization of women's history, arguing that political and social categories are always fundamentally shaped by gender and that questions of gender are essential to considerations of difference in history. Exploring topics ranging from language and class to the politics of work and family, *Gender and the Politics of History* is a vital contribution to feminist history and historical methodology that also speaks more broadly to the ongoing redefinition of gender in our political and cultural vocabularies. This anniversary edition of a classic text in feminist theory and history shows the evergreen relevance of Scott's work to the humanities and social sciences. In a new preface, Scott reflects on the book's legacy and implications for contemporary politics as well as what she has reconsidered as a result of her engagement with psychoanalytic theory. The book also includes a previously unpublished essay, "The Conundrum of Equality," which takes up issues concerning affirmative action.

hears voices from God, leads the French army to victory, is burned at the stake for heresy, and eventually becomes a saint. But unlike the traditional narrative, a story already shaped by the knowledge of what Joan would become and told in hindsight, Castor's *Joan of Arc: A History* takes us back to fifteenth century France and tells the story forwards. Instead of an icon, she gives us a living, breathing woman confronting the challenges of faith and doubt, a roaring girl who, in fighting the English, was also taking sides in a bloody civil war. We meet this extraordinary girl amid the tumultuous events of her extraordinary world where no one—not Joan herself, nor the people around her—princes, bishops, soldiers, or peasants—knew what would happen next. Adding complexity, depth, and fresh insight into Joan's life, and placing her actions in the context of the larger political and religious conflicts of fifteenth century France, *Joan of Arc: A History* is history at its finest and a surprising new portrait of this remarkable woman. *Joan of Arc: A History* features an 8-page color insert.

Excerpt from Notable Women in History: The Lives of Women Who in All Ages, All Lands, and in All Womanly Occupations Have Won Fame and Put Their Imprint on the World's History Lord Raglan or Florence Nightingale did the more to reanimate the drooping spirits of the English soldiers in the Crimea. And as a dashing leader, a beaux sabreur, Sheridan in no degree surpassed Joan of Arc. Her white armor and ?owing tresses rallied her waver ing troops as effectively as did that terrible oath which Little Phil. Is practically reputed to have ripped out on the twenty - mile ride to Winchester. These are extreme instances of course - extreme as to men as well as to women. But I think no one can read these sketches of seventy Women of History - it would not have been hard to collect three times as many - without appreciating some of the heights to which the feminine mind is capable of rising and the infinite variety of its ?ights. Let it be remembered that in all times and amidst all peoples of which we have knowledge the woman has been held the weaker vessel and the study of man has been to keep her weak. Not necessarily physically weak by any means. Wit ness the lordly husband of the tropics lolling at ease while his various wives till the fields. But weak in all that makes for personal initiative and independence. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. “Pope Joan has all the elements one wants in a historical drama—love, sex, violence, duplicity, and long-buried secrets. Cross has written an engaging book.”—Los Angeles Times Book Review In this international bestseller and basis for the 2009 movie of the same name, Donna Woolfolk Cross brings the Dark Ages to life in all their brutal splendor and shares the dramatic story of a woman whose strength of vision led her to defy the social restrictions of her day. For a thousand years her existence has been denied. She is the legend that will not die—Pope Joan, the ninth-century woman who disguised herself as a man and rose to become the only female ever to sit on the throne of St. Peter. Now in this riveting novel, Cross paints a sweeping portrait of an unforgettable heroine who struggles against restrictions her soul cannot accept. Brilliant and talented, young Joan rebels against medieval social strictures forbidding women to learn. When her brother is brutally killed during a Viking attack, Joan takes up his cloak—and his identity—and enters the monastery of Fulda. As Brother John Anglicus, Joan

distinguishes herself as a great scholar and healer. Eventually, she is drawn to Rome, where she becomes enmeshed in a dangerous web of love, passion, and politics. Triumphant over appalling odds, she finally attains the highest office in Christendom—wielding a power greater than any woman before or since. But such power always comes at a price . . . “Brings the savage ninth century vividly to life in all its alien richness. An enthralling, scholarly historical novel.”—Rebecca Fraser, author of *The Brontës*

*Includes pictures and art depicting Joan of Arc and important people, places, and events in her life. *Discusses her life, career, trial, and death. "King of England, if you do not do these things, I am the commander of the military; and in whatever place I shall find your men in France, I will make them flee the country, whether they wish to or not." - Joan of Arc A lot of ink has been spilled covering the lives of history's most influential figures, but how much of the forest is lost for the trees? In Charles River Editors' French series, readers can get caught up to speed on the lives of France's most important men and women in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. Joan of Arc is one of the most famous women in history: a French folk legend, a Catholic saint, and a military heroine. Yet almost nothing is truly known about the Maid of Orleans besides her ultimate fate, being burned at the stake

when she was still a teenager. The Hundred Years War between France and England was one of the great wars of the feudal ages, a conflict literally spanning a century in which an untold number of men on each side died. That makes it all more amazing that a teenaged peasant girl came to the front lines. Claiming God instructed her to save France from England, she convinced the uncrowned Charles to send her to the siege of Orleans, and she subsequently led the French army to a string of important victories that made it possible for Charles VII to be coronated as the King of France. Joan then exited the stage almost as quickly as she entered it, being captured by the Burgundians and handed over to the English to be put to death for heresy. Over the centuries, the memory of Joan of Arc has been firmly embedded in French lore, where she is still constantly invoked, and she remains a staple of world history and pop culture. While she is constantly portrayed in film and art, scholars debate the accuracy of historical accounts about her, and her legend and mythology hang above all of it. French Legends: The Life and Legacy of Joan of Arc looks at the life of the famous French heroine, attempting to separate fact from fiction and analyzing her legacy. Along with pictures of important people, places, and events, you will learn about Joan of Arc like you never have before, in no time at all.

Singapore and Malaysia are rapidly modernising, globalising Asian states which,

although being distinct nations since 1965, share common elements in the ongoing struggle over the meaning of gender and sexuality in their societies. This is the first book to discuss a range of discourses around gender in these two countries. *Women and the Politics of Representation in Southeast Asia: Engendering Discourse in Singapore and Malaysia* seeks to give an overview of how gender and representation come together in various configurations in the history and contemporary culture of both nations. It examines the discursive construction of gender, sexuality and representation in a variety of areas, including the politics of everyday life, education, popular culture, literature, film, theatre and photography. Chapters examine a range of tropes such as the Orientalist "Sarong Party Girl," the iconic "Singapore Girl" of Singapore Airlines, and the figure of pious Muslim femininity celebrated by Malaysian NGO IMAN, all of which play important roles in delineating limitations for gender roles. The collection also draws attention to resistance to these gender boundaries in theatre, film, blogs and social media, and pedagogy. Bringing together research from a variety of humanistic and social science fields, such as film, material culture, semiotics, literature and pedagogy, the book is a comprehensive feminist survey that will be of use for students and scholars of Women's Studies and Asian Studies, as well as on courses on gender, media and popular culture in

Asia.

Throughout history women have caused wars, defied the rules, and brought men to their knees. The famous and the infamous, queens, divorcées, actresses, and outlaws have created a ruckus during their lifetimes-turning heads while making waves. Scandalous Women tells the stories of the risk takers who have flouted convention, beaten the odds, and determined the course of world events. *When Cleopatra (69 BC-30 BC) wasn't bathing in asses' milk, the last pharaoh of the Ptolemaic dynasty ruled Egypt and forged an important political alliance with Rome against her enemies-until her dalliance with Marc Antony turned the empire against her. *Emilie du Châtelet (1706-1748), a mathematician, physicist, author, and paramour of one of the greatest minds in France, Voltaire, shocked society with her unorthodox lifestyle and intellectual prowess-and became a leader in the study of theoretical physics in France at a time when the sciences were ruled by men. *Long before Rosa Parks refused to give up her seat on the bus, Ida B. Wells-Barnett (1862-1928) fought to end discrimination and the terrible crime of lynching and helped found the NAACP, but became known as a difficult woman for her refusal to compromise and was largely lost in the annals of history. *Gertrude Bell (1868-1926) had a passion for archaeology and languages, and left her privileged world behind to become one of the foremost

chroniclers of British imperialism in the Middle East, and one of the architects of the modern nation of Iraq.

In 1933, Joan Harrison was a twenty-six-year-old former salesgirl with a dream of escaping both her stodgy London suburb and the dreadful prospect of settling down with one of the local boys. A few short years later, she was Alfred Hitchcock's confidante and one of the Oscar-nominated screenwriters of his first American film, *Rebecca*. Harrison had quickly grown from being the worst secretary Hitchcock ever had to one of his closest collaborators, critically shaping his brand as the "Master of Suspense." Forging her own public persona as the female Hitchcock, Harrison went on to produce numerous Hollywood features before becoming a television pioneer as the producer of Alfred Hitchcock Presents. A respected powerhouse, she acquired a singular reputation for running amazingly smooth productions—and defying anyone who posed an obstacle. She built most of her films and series from the ground up. She waged rough-and-tumble battles against executives and censors, and even helped to break the Hollywood blacklist. She teamed up with many of the most respected, well-known directors, writers, and actors of the twentieth century. And she did it all on her own terms.
