Les jeux vidéos peuvent-ils être des outils pédagogiques ? Partant du postulat que le jeu est la meilleure pédagogie qui soit, et actualisant ce principe à l'ère du numérique, cet ouvrage propulse les jeux vidéo au-devant de la scène scolaire : il introduit et soutient l'usage des serious games dans l'éducation ! Dès lors qu'ils équilibrent parfaitement les aspects ludique et éducatif, les jeux vidéo constituent un support d'apprentissage privilégié. Or, s'ils sont omniprésents dans la société actuelle, leurs véritables enjeux et atouts restent largement méconnus, voire dissimulés derrière cette peur socialement partagée d'un univers prétendument violent. L'auteure s'adresse donc aux enseignants, aux formateurs et à tous ceux qui sont impliqués dans l'éducation des jeunes (et des moins jeunes). Elle les convainc de l'intérêt qu'ils ont à considérer les serious games comme un outil pédagogique des plus pertinents et en parfaite cohérence avec les pédagogies actives prônées actuellement. Loin de l'auteure donc, l'idée de procéder à une complète gamification du système scolaire ou d'évincer les enseignants au profit du multimédia : l'enjeu est d'utiliser au mieux ces nouveaux outils afin de faciliter l'apprentissage chez une génération entièrement tournée vers les technologies nouvelles. Un ouvrage complet, fouillé et richement documenté sur l'univers des serious games !

We live in a dynamic economic and commercial world, surrounded by objects of remarkable complexity and power. In many industries, changes in products and technologies have brought with them new kinds of firms and forms of organization. We are discovering new ways of structuring work, of bringing buyers and sellers together, and of creating and using market information. Although our fast-moving economy often seems to be outside of our influence or control, human beings create the things that create the market forces. Devices, software programs, production processes, contracts, firms, and markets are all the fruit of purposeful action: they are designed. Using the computer industry as an example, Carliss Y. Baldwin and Kim B. Clark develop a powerful theory of design and industrial evolution. They argue that the industry has experienced previously unimaginable levels of innovation and growth because it embraced the concept of modularity, building complex products from smaller subsystems that can be designed independently yet function together as a whole. Modularity freed designers to experiment with different approaches, as long as they obeyed the established design rules. Drawing upon the literatures of industrial organization, real options, and computer architecture, the authors provide insight into the forces of change that drive today's economy.

Comment expliquer le succès planétaire de l'iPad ? Qu'est-ce qui explique l'écart de performance entre Gap et Zara, Ikea et Conforama, ou Toyota et Ford ? Et, au bout du compte, qu'est-ce qui va permettre à certaines entreprises de traverser la crise avec succès et de sortir gagnantes de l'après-crise ? La réponse selon Henri de Bodinat tient en un mot : l'offre. Négligée par les théoriciens de la stratégie d'entreprise, elle est pourtant la clé des échecs ou des grands succès d'aujourd'hui. Voilà pourquoi elle méritait ce travail d'analyse concret, minutieux et passionnant ! Beaucoup d'entreprises, avance Henri de Bodinat, préfèrent une stratégie de domination ou de surpromesse à une stratégie de valeur. Celles qui ont choisi la domination captent une rente de monopole ou d'oligopole et s'affranchissent du marché ; les adeptes de la surpromesse prospèrent en vendant l'illusion de l'offre à défaut de sa réalité. La stratégie de valeur de l'offre, modèle choisi par des entreprises très performantes, est la plus rentable et la plus " vertueuse ", mais implique une concentration absolue sur l'offre et un talent exceptionnel dans l'exécution. La crise actuelle renforce les exigences des consommateurs, mieux informés qu'avant grâce à Internet. Résultat : les stratégies de domination et de surpromesse sont fragilisées et la stratégie de valeur de l'offre devient étonnamment pertinente. Multipliant les exemples, Henri de Bodinat en explique les conditions de succès, de l'empathie sociale à l'intimité client. Cette troisième édition, entièrement mise à jour et actualisée, intègre les " nouvelles tendances " : open source, crowdsourcing, importance accrue de la consommation locale et de la qualité comme critères d'achat, du CRM, impact de la technologie sur l'offre (besoin clients/possibilité techniques), innovation, " vrais besoins " (énergie, eau, nourriture), la crise de l'euro, la guerre des brevets, les tablettes, les systèmes d'exploitation ouverts. Elle regorge d'exemples qui correspondent à l'actualité économique et l'essor des NTIC dans celle-ci. Un nouveau chapitre aborde l'offre de rupture et l'offre de continuité.

THE OFFICIAL, ALL-ORIGINAL, ALL-OUT THRILLING PREQUEL TO THE MUCH-ANTICIPATED NEW GAME HITMAN: ABSOLUTION Since the devastating conclusion of Hitman: Blood Money, Agent 47 has been MIA. Now fans awaiting the return of the blockbuster videogame and film phenomenon can pinpoint the location of the world's most brutal and effective killer-for-hire before he reemerges in Hitman: Absolution. When the Agency lures him back with a mission that will require every last ounce of his stealth, strength, and undercover tactics, they grossly underestimate the silent assassin's own agenda. Because this time, Agent 47 isn't just going to bite the hand that feeds him. He's going to tear it off and annihilate anyone who stands in his way.

The official novel of Naughty Dog's award-winning videogame franchise! In the ancient world there was a myth about a king, a treasure, and a hellish labyrinth. Now the doors to that hell are open once again. Nathan Drake, treasure hunter and risk taker, has been called to New York City by the man who taught him everything about the "antiquities acquisition business." Victor Sullivan needs Drake's help. Sully's old friend, a world-famous archaeologist, has just been found murdered in Manhattan. Dodging assassins, Drake, Sully, and the dead man's daughter, Jada Hzuajak, race from New York to underground excavations in Egypt and Greece. Their goal: to unravel an ancient myth of alchemy, look for three long-lost labyrinths, and find the astonishing discovery that got Jada's father killed. It appears that a fourth labyrinth was built in another land and another culture—and within it lies a key to unmatched wealth and power. An army of terrifying lost warriors guards this underground maze. So does a monster. And what lies beyond—if Drake can live long enough to reach it—is both a treasure and a poison, a paradise and a hell. Welcome to *The Fourth Labyrinth*.

Retour sur Sonic, le plus célèbre hérisson bleu ! Rival éternel de Mario, l'icône du constructeur japonais Nintendo, Sonic n'a pas connu un parcours aussi flamboyant que son homologue moustachu. Aussi porte étendard d'un consolier (de l'époque) nippon, SEGA, le hérisson bleu le plus rapide de la planète a pourtant navigué entre gloire et déboire. Pour la première fois, un ouvrage complet reviendra donc sur son histoire, de ses origines jusqu'à nos jours pour son dernier titre *Sonic Forces*. Découvrez, dans cet ouvrage complet et documenté, l'histoire de Sonic, l'éternel rival de Mario. EXTRAIT *Sonic le Hérisson* représente une myriade de choses : un personnage, l'avatar de dizaines de jeux, un héros de dessins animés à la qualité variable, le cheval de Troie qui renverse l'industrie du jeu vidéo au tournant des années 1990, un fort sujet de nostalgie, l'une des cibles de moqueries préférées de la presse spécialisée, et même un curieux objet de culture de fans. Les vingt-cinq premières années de Sonic l'ont fait rebondir d'un média à un autre. Il est l'objet de commentaires et de discussions, réussissant à s'émanciper rapidement du statut de « bête rivale » de Mario imposée par le marché vidéoludique. Quinze ans après sa naissance, Sonic est la star déchue, laissé dans l'ombre. Son succès ne semble plus qu'un mirage lointain, impossible à reproduire. Pour toute une génération, il fut un modèle de réussite, d'inventivité, de conception et de plaisir de jeu. Ainsi, si l'on se penche sur l'histoire de cette icône, on se rend compte qu'elle est bien plus qu'un simple objet de discussion. *Sonic le Hérisson* s'avère avant tout la mascotte d'une entreprise qui a, durant un temps, conquis sa propre industrie, au terme d'une collaboration entre Orient et Occident. Et ce, il y a plus de soixante-dix ans, dans des conditions qui, elles aussi, sont ironiques. À PROPOS DE L'AUTEUR « Indépendant de corps et d'esprit. » Une manière polie de dire : « Il est bizarre, mais c'est pour ça qu'on l'aime. » Né en plein été 1990 et après environ vingt ans d'études – dont du droit, un master de lettres et un autre de journalisme numérique –, Benjamin Benoît s'obstine à intégrer, à pas de loup, une profession moribonde : c'est décidé, il sera journaliste. Passé par le *Journal du Japon* où il fait ses premières armes, puis par *Le Figaro*, *L'Express*, il travaillait encore pour *Le Monde* quand les planètes se sont alignées. On peut aussi le lire dans *Libération*, *Numerama*, le *Journal du Geek* et l'entendre dans *Les Croissants* pour une expérience sensorielle complète. Ses dominantes : le high-tech, le grand éventail des cultures et des sons. Un jour, peut-être, il cultivera ce petit goût pour le judiciaire. Il possède ses mots fétiches, comme « prescriptif », « débauche » ou... « fétiche » ! S'il a l'air d'un zombie le jour, c'est parce que la nuit, il devient « Super-Fac-De-Lettres » et il rappelle à tout le monde ce que « positivisme » veut vraiment dire. Son anxiolytique alpha ? Parler devant un micro en direct. Passionné de radio, de podcasts et de musique, il a mené plusieurs projets dont le plus important a été la co-production du podcast mensuel de pop-culture japonaise, *LOLJAPON*. Vous y remarquerez son goût pour les longs formats, le grand n'importe quoi à peu près maîtrisé et une synthèse de tout ce qui constitue sa vie : les cultures de niche, la culture Internet, la culture otaku – pas toujours la plus reluisante ou mainstream – et les jeux vidéo. Toujours un casque vissé sur la tête, il vit dans l'UGC le plus proche de chez lui. Il n'est pas très fort pour regarder les gens dans les yeux ni pour parler de lui à la troisième personne. Un jour, il arrivera à passer une journée sans écran. Un jour...

"Space is vast, dark, and not your friend. Gamma rays and neutrino bursts erupt from dying stars to cook you alive, black holes tear you apart, and the void itself boils your blood and seizes your brain. Try to scream and no one can hear you - hold your breath and you rupture your lungs. Space isn't as empty as you'd think, either - its frontiers are ever expanding. Rival governments wage a cold war of aggression while greedy corporations vie for valuable resources. Colonists reach for the stars and gamble with their lives - each new world tamed is either feast or famine. And there are things lurking in the shadows of every asteroid - things strange and different and deadly. Things alien. This is the official *ALIEN* tabletop roleplaying game - a universe of body horror and corporate brinkmanship, where synthetic people play god while space truckers and marines serve host to newborn ghoulish creatures. It's a harsh and unforgiving universe and you are nothing if not expendable. Stay alive if you can"--Back cover.

'The Ministry of Magic felt strongly, however, that to construct an additional wizarding station in the middle of London would stretch even the Muggles' notorious determination not to notice magic when it was exploding in front of their faces.' - J.K. Rowling *Pottermore Presents* is a collection of J.K. Rowling's writing from the *Pottermore* archives: short reads

originally featured on pottermore.com. These eBooks, with writing curated by Pottermore, will take you beyond the Harry Potter stories as J.K. Rowling reveals her inspiration, intricate details of characters' lives and surprises from the wizarding world. *Hogwarts An Incomplete and Unreliable Guide* takes you on a journey to Hogwarts School of Witchcraft and Wizardry. You'll venture into the Hogwarts grounds, become better acquainted with its more permanent residents, learn more about lessons and discover secrets of the castle . . . all at the turn of a page.

When a remote mountain community is suddenly beset by a rash of grisly murders, the Special Tactics and Rescue Squad--a paramilitary unit--is dispatched to investigate. How many video games have you played during your life? Do you think games are a form of art that should be preserved? What if we told you that there are thousands of interesting games you'll never play, all of which could be lost forever? It's true, there are many cancelled titles that are often lost to video game history. While video games may not be largely considered to be on par with paintings and statues, they are still art on their own, just like books, movies, and music, and like other works of art, video games have their own lost works. Games that were cancelled, never released, and often not even known by the general public. Unfortunately, there is no proper museum dedicated on saving them. Unseen64 is an online archive to preserve articles, screens and videos for cancelled, beta & unseen videogames. Every change and cut creates a different gaming experience: we would like to save some documents of this evolution for curiosity, historic and artistic preservation. Over the course of almost 500 pages, the 45+ writers and editors of this crowdsourced book hope to educate the gaming world on the history of video games as an ephemeral art form, by showcasing more than 200 lost games that could have been forgotten. Starting from early '90s PC titles, to 8-bit games for the NES and Sega Master System, and all the way through to the 7th generation of consoles with PS3, X360 and Wii, there are many unseen games that you will discover in this book. Also included are essays about the preservation of cancelled games, how to research for these unseen titles, and 20 interviews with museums and developers who worked on lost games. In this book there's plenty of examples of what gaming history is losing every day. Hopefully, by reading this book, more gamers, developers, youtubers, gaming journalists and historians can look back at what could have been and as a result raise awareness on the preservation of lost games: to see the hidden stories that played a part in leading gaming culture to where it is now. This is the black / white version of the book, the content is identical to the full-color version, the only difference is the cover and the interior color. Before to read this book, please keep in mind that: - The lost games featured in this book are just a small sample of all the titles we will never play. It would be impossible to list them all in just one book. - We are a collective of gamers from all around the world. - This book is fully in English, but most articles were written by Italians and people from other non-English countries. Each article was proofread by English native speakers, but there could still be typos and random engrish. - This book was made with love and sleep deprivation.

“An entertaining and refreshingly honest . . . exploration of business strategy, personal growth, and civic responsibility” by a former Microsoft executive (Publishers Weekly). From Microsoft’s former Chief Xbox Officer, Robbie Bach, comes a unique book that provides a simple yet robust framework that can be used to tackle almost any problem. In *Xbox Revisited: A Game Plan for Corporate and Civic Renewal*, Bach takes business, non-profit, and community-engaged readers on the Xbox journey—a triumphant and personal saga from garage-shop beginnings to business success. Using the 3P Framework of Purpose, Principles, and Priorities developed by the Xbox team, Bach describes the process used to revitalize a beleaguered business and then applies those lessons to our most difficult community issues and the challenges of a nation at a crossroads. Bach is turning his strategic and leadership skills to a new opportunity: helping individuals and organizations drive transformational change in business and civic institutions. The book is packed with common sense thinking and a strategic framework that can set change in motion at every level of community life. *Xbox Revisited* is a wake-up call, a challenge to every citizen to become a “civic engineer” addressing the issues we face in our communities and across our country. “A highly effective, common-sense strategy to address difficult business and community issues . . . Seen through the lens of the creation of the Xbox, the story he tells from personal experience is both engaging and inspirational.” —Jeff Raikes, co-founder, Raikes Foundation, former CEO, Bill & Melinda Gates Foundation and president, Microsoft Business Division

Quel joueur ne s'est pas essayé à Final Fantasy VII ? Ce titre, sorti en 1997, est aujourd'hui le porte-étendard de toute une génération et le jeu qui a propulsé la PlayStation de Sony sur le devant de la scène. Pour fêter les quinze ans de ce jeu de rôle mythique, Third Editions se propose de replonger dans son univers incroyable. Cet ouvrage, façonné avec soin, revient sur l'ensemble des titres qui ont contribué à forger la mythologie de Final Fantasy VII et décrypte leur contenu à travers des réflexions et des analyses originales. Un ouvrage incontournable pour (re)découvrir l'univers de la série mythique Final Fantasy ! EXTRAIT Pour célébrer l'un des RPG les plus marquants de l'histoire du jeu vidéo, Third Éditions a décidé de publier un livre hommage : un ouvrage de cœur, mais aussi une vraie analyse des jeux gravitant autour du RPG de légende. En effet, ne sera pas ici traité le seul cas de Final Fantasy VII, mais bien l'ensemble des productions de la Compilation of Final Fantasy VII, d'Advent Children à Before Crisis, en passant par Crisis Core et Dirge of Cerberus, sans oublier Last Order. Pour bien commencer ce voyage et rafraîchir vos souvenirs, nous avons choisi de vous livrer en premier lieu l'ensemble du scénario de l'univers Final Fantasy VII. Pour la première fois, l'intégralité de l'intrigue vous sera contée en détail de façon chronologique : des origines de la Planète au réveil de Génésis dans l'épilogue caché de Dirge of Cerberus. L'histoire bien assimilée, vous aurez par la suite l'occasion de plonger dans les coulisses de la création des jeux de la compilation. Des personnalités impliquées aux décisions inattendues qui bouleversèrent l'élaboration de ces titres, l'ensemble du développement et un grand nombre d'anecdotes vous seront dévoilés. Puis sera fait un décryptage complet de chaque titre afin de poser les jalons de nombreuses réflexions. À PROPOS DES AUTEURS Passionnés depuis l'enfance par la presse papier, Nicolas Courcier et Mehdi El Kanafi n'ont pas tardé à lancer leur premier magazine, Console Syndrome, au cours

de l'année 2004. Après cinq numéros à la distribution limitée à la région toulousaine, ils décident de créer une maison d'édition du même nom. Un an plus tard, la petite entreprise sera rachetée par Pix'n Love, éditeur leader sur le marché des ouvrages consacrés au médium du jeu vidéo. Au cours de ces quatre années dans le monde de l'édition, Nicolas et Mehdi auront édité plus de vingt ouvrages consacrés à des séries phares, dont ils auront eux-mêmes rédigé un grand nombre : Zelda. Chroniques d'une saga légendaire, Resident Evil. Des zombies et des hommes et La Légende Final Fantasy VII et IX. Depuis 2015, ils poursuivent leur démarche éditoriale articulée autour de l'analyse des grandes sagas du jeu vidéo au sein de la nouvelle maison d'édition qu'ils ont cofondée : Third.

I know what youOre thinking. You hate me. You got a glimpse of my ring and youOre pissed. I know your kind because I was once your kind. Every time I saw a happy couple I could feel last nightOs dinner coming up. When I saw wedding magazines I wanted to take a blowtorch to each one of them. Engagement rings? The only way you could talk to me about OkaratsO was if you were going to feed one to your pet rabbit. Yes, I was sick. Sick of set-ups, match-ups, and break-ups. IOd been on blind dates and IOve been on dates where I wish I were blind. But I finally did find Mr. Right. And IOm going to show you how. Through humor, empowerment, and basic common sense clinical social worker ""Professor Kelli"" instills confidence in women, makes them laugh at their situation (or the men theyOve dated), and teaches them the process of letting go and staying present. Sure, it's about finding a husband but it's more about finding you first.

The Fighter, the Sorceress, the Elf, the Wizard, the Amazon, and the Dwarf. These six heroes have come together to quest for riches, for glory, and for the honor of the kingdom of Hydeland! In the concluding chapter of this fantastic epic, our heroes face off against the demonic Gazer, the towering Golem, and finally, the hulking Ancient Dragon! 'Minerva was the Roman goddess of warriors and wisdom. William McGonagall is celebrated as the worst poet in British history. There was something irresistible to me about his name, and the idea that such a brilliant woman might be a distant relative of the buffoonish McGonagall.' - J.K. Rowling Pottermore Presents is a collection of J.K. Rowling's writing from the Pottermore archives: short reads originally featured on pottermore.com with some exclusive new additions. These eBooks, with writing curated by Pottermore, will take you beyond the Harry Potter stories as J.K. Rowling reveals her inspiration, intricate details of characters' lives and surprises from the wizarding world. These stories of heroism, hardship and dangerous hobbies profile two of the Harry Potter stories' most courageous and iconic characters: Minerva McGonagall and Remus Lupin. J.K. Rowling also gives us a peek behind the closed curtains of Sybill Trelawney's life, and you'll encounter the reckless, magical-beast-loving Silvanus Kettleburn along the way.

The highly acclaimed novel based on America's most infamous unsolved murder case. Dive into 1940s Los Angeles as two cops spiral out of control in their hunt for The Black Dahlia's killer in this powerful thriller that is "brutal and at the same time believable" (New York Times). On January 15, 1947, the torture-ravished body of a beautiful young woman is found in a Los Angeles vacant lot. The victim makes headlines as the Black Dahlia -- and so begins the greatest manhunt in California history. Caught up in the investigation are Bucky Bleichert and Lee Blanchard: Warrants Squad cops, friends, and rivals in love with the same woman. But both are obsessed with the Dahlia -- driven by dark needs to know everything about her past, to capture her killer, to possess the woman even in death. Their quest will take them on a hellish journey through the underbelly of postwar Hollywood, to the core of the dead girl's twisted life, past the extremes of their own psyches -- into a region of total madness.

From Atari to Sega, from Apple to Nintendo DS, this full colour book takes not a regional, or European, but a global view on 33 years of onscreen fun and interaction and presents hardware from Japan, USA, UK, France, Germany and Korea, along with classic software in its authentic, pixellated glory. Including over 600 pictures, exclusively shot for Game.Machines, the book contains extensive indices, as well as 20 pages of technical data and explanations. This greatly enhanced and revised edition provides a time journey across the video game era: from the 4-bit beginnings to the broadband future. More than 400 dream machines and million sellers, bizarre slip-ups and exotic variants are profiled in full colour chapters with extensive appendixes.

What gamer hasn't tried Final Fantasy VII? The game, released in 1997, is now the standard-bearer of a whole generation, and it's also the one which catapulted Sony's PlayStation onto center stage. To celebrate this mythic video game's 15th anniversary, Third Editions wanted to throw itself back into this unbelievable universe. This carefully crafted publication takes a look back at all the titles that helped forge Final Fantasy VII's mythology (including the Compilation of FF VII), and deciphers their content through examination and original analysis. This book was written by Nicolas Courcier and Mehdi El Kanafi, former authors and now publishers. The first print was release in 2011. An essential book to (re) discover the universe of the mythical series Final Fantasy! EXTRACT To celebrate one of the most important RPGs in the history of video games, Third Editions has decided to publish a tribute book: a heartfelt edition, but also one that truly analyzes the games that revolve around this legendary RPG. Indeed, the subject of this book is not only Final Fantasy VII, but the entire Compilation of Final Fantasy VII, from Advent Children to Before Crisis, including Crisis Core and Dirge of Cerberus, without forgetting Last Order. To get this journey off on the right foot and refresh your memory, we begin by summarizing the Final Fantasy VII saga. For the first time ever, the full story will be told in chronological order: from the Planet's origins to the awakening of Genesis, as depicted in the secret ending of Dirge of Cerberus. Once the entire saga has been told, we will take you behind the scenes so that you can discover how the video game compilation was created. You will learn about the people whose unexpected decisions changed the game's design. We will also provide a number of anecdotes pertaining to the game's overall development. A complete interpretation will then be offered for each title, paving the way for numerous reflections. ABOUT THE AUTHORS Nicolas Courcier and Mehdi El Kanafi - Fascinated by print media since childhood, Nicolas Courcier and Mehdi El Kanafi wasted no time in launching their first magazine, Console Syndrome, in 2004. After five issues with distribution limited to the Toulouse region of France, they decided to found a publishing house under the same name. One year later, their small business was acquired by another leading publisher of works about video games. In their four years in the world of publishing, Nicolas and Mehdi published more than twenty works on major video game series, and wrote several of those works themselves: Metal Gear Solid. Hideo Kojima's Magnum Opus, Resident Evil Of Zombies and Men, and The Legend of Final Fantasy VII and IX. Since 2015, they have continued their editorial focus on analyzing major video game series at a new publishing house that they founded together: Third. Grégoire Hellot is a French freelance journalist who specializes in video games. He began his career in the field more than twenty years ago when he joined Joypad magazine. As a pioneer dealing in Japanese video games, he has contributed to the French public's acceptance of these unique titles. Today, he contributes to the Gamekult website and is also the

Managing Director of Kurokawa Editions, created in 2005 by the publishing house Univers Poche. Grégoire is also known for his role as the Silver Mousquetaire in the TV series France Five. "Crash Bandicoot. Jak and Daxter. Uncharted. The Last of Us. One studio has been responsible for the most iconic video game experiences of this generation. Now, Dark Horse Books invites you on a thirty-year retrospective tour, observing Naughty Dog's ascension to its place as one of the most influential production studios in the world!"--Publisher's website.

In the early days of Pong and Pac Man, video games appeared to be little more than an idle pastime. Today, video games make up a multi-billion dollar industry that rivals television and film. The Video Game Theory Reader brings together exciting new work on the many ways video games are reshaping the face of entertainment and our relationship with technology. Drawing upon examples from widely popular games ranging from Space Invaders to Final Fantasy IX and Combat Flight Simulator 2, the contributors discuss the relationship between video games and other media; the shift from third- to first-person games; gamers and the gaming community; and the important sociological, cultural, industrial, and economic issues that surround gaming. The Video Game Theory Reader is the essential introduction to a fascinating and rapidly expanding new field of media studies.
