Law & Order meets Men in Black in this graphic novel adaptation of an unproduced TV pilot script by the author of A Game of Thrones—a never-before-seen story brought to life for the first time! SECOND CITY. FIRST CONTACT. Ten years ago, representatives from an interstellar collective of 314 alien species landed on Earth, inviting us to become number 315. Now, after seemingly endless delays, the Starport in Chicago is operational, a destination for diplomats, merchants, and tourists alike. Inside, visitors are governed by intergalactic treaty. Outside, the streets belong to Chicago's finest. Charlie Baker, newly promoted to the squad that oversees the Starport district, is eager to put to practical use his enthusiasm for all things extraterrestrial; he just never expected to arrive on his first day in the back of a police cruiser. Lieutenant Bobbi Kelleher is married to the job, which often puts her in conflict with Lyhanne Nhar-Lys, security champion of Starport and one of the galaxy's fiercest warriors. Undercover with a gang of anti-alien extremists, Detective Aaron Stein has no problem mixing business with pleasure—until he stumbles upon evidence of a plot to assassinate a controversial trade envoy with a cache of stolen ray guns. Now the Chicago PD must stop these nutjobs before they piss off the entire universe. Based on a TV pilot script written by George R. R. Martin in 1994 and adapted and illustrated by Hugo Award–nominated artist Raya Golden, this bold and brilliant graphic novel adaptation at last brings Martin's singular vision to rollicking life. With all the intrigue, ingenuity, and atmosphere that made A Game of Thrones a worldwide phenomenon, Starport launches a new chapter in the career of a sci-fi/fantasy superstar.

For over 25 years, the Wild Cards universe has been entertaining readers with stories of superpowered people in an alternate history. "Berlin is Never Berlin" by Marko Kloos draws upon the seedier side of the city, beyond the dance club lights and all-night parties, as one bodyguard with a certain feline distinction goes on the prowl.... Khan only had one job: chauffeur and guard an American wealthy socialite and her friends. When his client Natalie Scuderi gets nabbed by the Georgian mafia, this joker-ace has no choice but to go underground and rescue her. "Losing the man's daughter on the job would be a fatal black mark on his professional resume. Khan had never lost a client, and he wasn't about to start a habit." Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

The Vagrant is his name. He has no other.

The battle against the Lankies has been won. Earth seems safe. Peacetime military? Not on your life. It's been four years since Earth threw its full military prowess against the Lanky incursion. Humanity has been yanked back from the abyss of extinction. The solar system is at peace. For now. The future for Major Andrew Grayson of the Commonwealth Defense Corps and his wife, Halley? But when an offer comes down from above, Andrew has to make a choice: continue pushing papers into retirement, or jump right back into the fight? What's a podhead to do? The remaining Lankies may have retreated in fear, but the threat isn't over. They need to be wiped out for good before they strike again. That'll take a new offensive deployment. Aboard an Avenger warship, Andrew and the special tactics team under his command embark on the ultimate search-and-destroy mission. This time, it'll be on Lanky turf. No big heroics. No unnecessary risks. Just a swift hit-and-run raid in the hostile Capella system. Blow the alien seed ships into oblivion and get the hell back to Earth. At least, that's the objective. But when does anything in war go according to plan?
