The 'knight in shining armour' has become a staple figure in popular culture, and images of bloody battlefields, bustling feasting halls and courtly tournaments have been creatively interpreted many times in film and fiction. But what was the medieval knight truly like? In this fascinating title, former Senior Curator at the Royal Armouries Christopher Gravett describes how knights evolved over three centuries of English and European history, the wars they fought, their lives both in peacetime and on campaign, the weapons they fought with, the armour and clothing they wore and their fascinating code and mythology of chivalry. The text is richly illustrated with images ranging from manuscript illustrations to modern artwork reconstructions and many photographs of historic artefacts and sites.

Once the legendary knights of the Gabala defended the nine duchies. Their hearts were beautiful; their armor was beyond compare. They were greater than princes, more than men. But they were gone, disappeared through a demon-haunted gateway between worlds. Only one held back -- Manannan, whose every instinct told him to stay. Now he was the coward knight, and in torment. Murder and black magic beset the land. Rumors circulated that the king was enchanted, changed, that his soul was dead . . . and that a reign of terror was about to begin. Now Manannan realized he would have to face his darkest fears: he had no choice but to ride through that dreaded gate and seek out his vanished companions. And the secret he would learn there would tear his soul apart . . . "A sharp, distinctive medieval fantasy. Dramatic, colorful, taut." -- Locus
