

Ks1 Problem Solving Book 1 Ks1 Ages 5 7

Problem SolvingKS1 Problem Solving

Ma has made a dozen delicious cookies. It should be plenty for her two children. But then the doorbell rings -- and rings and rings. Each ring of the doorbell brings more friends to share the delicious cookies Ma has made. "Refreshing, enjoyable and unpredictable." -- School Library Journal. Also available in a Spanish-language edition, Llamen a la puerta.

Intended for Key Stage Level 1, this book features exercises that help build children's confidence in their mental maths skills. These exercises cover a range of key areas from the National Curriculum such as Number Sequences, Money, Measurement, Times Tables, and more.

This spiral bound photocopiable book contains 25 problem-solving activities, each activity is presented so that it can be cut up to make a collection of cards. The cards are written specifically for children operating at levels 3 to 6 of the National Curriculum in mathematics and as such will be appropriate for use in both primary and early secondary phases of education.

Graded activities reinforcing calculation skills; reading is kept to a minimum.

This Literacy Activity Book covers a term's work and contains ten units of word, sentence and text level activities to enable you to plan lessons quickly and effectively. Self-assessment units help each child to check their progress and a list of high frequency words at the back help pupils to consolidate their learning.

Two learning workbooks that help children to learn the times tables specified in the Primary Framework for mathematics at Key Stages 1 and 2. Each unit begins with a list of multiplication facts, then helps children to learn them using different methods.

The Times Tables Tests series helps to secure children's knowledge and application of essential multiplication and division facts - as appropriate to their Key Stage - and to develop their understanding of number vocabulary.

Intended for Key Stage Level 1, this book features exercises with picture comprehension, stories and poems designed to develop reading for understanding. It aims to help children apply their reading skills to new tasks such as using reference material, reading maps and graphs as well as relating to everyday life skills.

Try these Letts 7+ Problem Solving Practice Workbook with Assessment Tests and get practising for the 7+ Independent School Entrance Exams. Level: 7+ Subject: Problem Solving However you like to learn, Letts will get you through.* Get practising for the 7+* Have a go at test-style questions* Take a look at worked examples* Get tips along the way* Find explanations for all answers inside

Bond Maths No Nonsense for 10-11+ years has been designed by Bond to provide a thorough grounding in core maths skills for children in Key Stage 2. Matched to the National Curriculum, No Nonsense can be used to reinforce school learning, help children to get ahead in class and boost performance in SATs, 11+ and Common Entrance assessment.

Pupils can quickly get to grips with KS1 problem solving and reasoning by completing activities categorised by topic and question type. Fully in line with the new National Curriculum.

A little girl and her canine assistant set out to make the most magnificent thing. But after much hard work, the end result is not what the girl had in mind. Frustrated, she quits. Her assistant suggests a long walk, and as they walk, it slowly becomes clear what the girl needs to do to succeed. A charming story that will give kids the most magnificent thing: perspective!

Key Stage 2 Comprehension provides a unique collection of stimulating texts that appeal strongly to both boys and girls, together with questions that both build and stretch comprehension skills and widen vocabulary.

In a step-by-step approach, children are taught how to add three, four and five and bigger single-digit numbers. This enables them to gain solid calculation skills without being confused about decimal places. Building basic addition skills is vital to later understanding of the decimal system, which is the foundation of higher level arithmetic concepts and skills taught at school. The purpose of this book is to prepare children for school-level mathematics.

The format of Mental Arithmetic differs from that of traditional mental arithmetic materials in that pupils read the questions themselves, use rough paper for workings out, and write down their answers. It provides intensive practice in all areas of the maths curriculum.

Kids learn and stay engaged, thanks to word problems, mazes, along with challenging math problems and gain the confidence to improve their math comprehension and testing.

This book is written to match the objectives of the new National Curriculum and features weekly tests that provide regular mental maths practice.

Provides teachers with a range of practical tools to improve the mathematical learning for all students

Reinforces language skills, such as vocabulary, dictionary work, comprehension and punctuation.

Aimed at Key Stage Level 1, this book features graded activities covering a range of mathematical areas. Book 1 of a five part series, this book covers topics, such as number and algebra, measurement - use and application, and more.

Reinforces letter formation, from patterning to joined-up writing.

Real-life number and word problems, attractively presented, supporting the Primary Framework for mathematics.

Graded activities help the child to find the question in the story, reduce it to a simple equation and solve the problem. Addition, subtraction, multiplication and division problems are covered thoroughly. Measurement, money and shape are included.

Teach children problem-solving strategies with these imaginative and creative maths problems. This book shows how once children have learned the different approaches they can become independent creative thinkers and systematically apply their skills. * Problems are set in creative contexts to engage and motivate children. * Plenty of visual and hands-on resources used to cater for different learning styles. *

Support for more and less able provided. * Plenty of follow-up suggestions for further work for children to apply their knowledge. * Full colour examples of pupil work included.

Level: KS1 Subject: Maths An engaging problem solving and reasoning activity book to help boost your child's progress at every stage of their

learning! Fully in line with the national curriculum, this Maths book provides reassurance whilst supporting your child's learning at home. Each fun activity is designed to give your child a real sense of achievement. Included in this book: * questions that enable children to practise the important skills learned at school* colourful activities that make learning fun and motivate children to learn at home* helpful tips and answers so that you can support your child's learning

Brought to an American audience for the first time, How I Wish I'd Taught Maths is the story of an experienced and successful math teacher's journey into the world of research, and how it has entirely transformed his classroom.

Maths Problem-Solving Level: KS1 Subject: Maths Help children learn key maths skills with the friendly students of Ladybird Class! Join Zara Penguin, Tao Meerkat, Ali Lion, Olivia Crocodile, Noah Panda and Nia Hedgehog as they have fun with maths problem-solving. Included in this book: · Engaging questions, colourful illustrations and fun, motivating activities aligned with primary learning and Key Stage 1 (KS1), perfect for supporting your child's home learning alongside school. · All the key skills your child needs to confidently develop their maths problem-solving including number sequences, patterns, measurements, as well as addition, multiplication and division in different contexts. · Fun extension activities, helpful parent notes and activity answers support your child's learning and give them a sense of achievement. A perfect follow-on title to Mental Maths: A Learn with Ladybird Activity Book 5-7 years.

Level: KS1 Subject: Maths An engaging Times Tables activity book to really help boost your child's progress at every stage of their learning! Including helpful questions and answers, this Maths book provides reassurance whilst supporting your child's learning at home.

Hundreds of mathematical events, jokes, riddles, puzzles, investigations and experiments showing maths is relevant and fun. Spend just 10 minutes a day learning and master your maths skills Set the clock and off you go! Young learners excel in short bursts, so 10 Minutes a Day Problem Solving KS2 Ages 7-9 is the perfect maths workbook for younger children. Games and tests take a short amount of time so you get maximum fun for maximum effect. There are 10 minute activities on graphs, time tables and the 24-hour clock. Plus the "parents' notes" section gives the answers, explains common pitfalls and gives guidance on how to avoid them. 10 Minutes a day workbooks are the perfect at home reinforcement for subjects learned in school and support the new National Curriculum. So, set the funky orange timer to test your child in fun 'beat the clock' exercises - and let 10 Minutes a Day Problem Solving KS2 show your child how much fun maths can be.

Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review
