"Everything you need to know about English verbs."

The Tempest is a short play...and a confusing one. There is no one single central plot (there are three main plots that alternate throughout the story). Long story short: it's easy to get lost! And the Shakespearean language doesn't help. If you have struggled in the past reading Shakespeare, then BookCaps can help you out. This book is a modern translation of The Tempest. The original text is also presented in the book, along with a comparable version of both text. We all need refreshers every now and then.

Whether you are a student trying to cram for that big final, or someone just trying to understand a book more, BookCaps can help. We are a small, but growing company, and are adding titles every month.
