From the 2015 winner of the ALA William C. Morris Award comes a humorous chapter book series about a not-so-attractive cat and his well-dressed mouse friend. Ugly Cat is dying for a paleta, or ice pop, and his friend Pablo is determined to help him get one by scaring a little girl who is enjoying a coconut paleta in the park. Things go horribly wrong when, instead of being scared, the little girl picks Pablo up and declares that he would make a great snack for her pet snake. Oh and there's also the small problem that Ugly Cat may have inadvertently swallowed Pablo in all of the commotion! Ugly Cat and his impeccably dressed mouse friend, Pablo, are an unlikely and dynamic duo who will win young readers over with their ridiculously silly antics and their search for tasty treats.

A big, inside look at the shocking lack of regulation within the pet food industry, and how readers can dramatically improve the quality of their dogs' lives through diet. What's really going into commercial dog food? The answer is horrifying. Big Kibble is big business: \$75 billion globally. A handful of multi-national corporations dominate the industry and together own as many as 80% of all brands. This comes as a surprise to most people, but what's even more shocking is how lax the regulations and guidelines are around these products. The guidelines—or lack thereof—for pet food allow producers to include ever-cheaper ingredients, and create ever-larger earnings. For example, "legal" ingredients in kibble include poultry feces, saw dust, expired food, and diseased meat, among other horrors. Many vets still don't know that kibble is not the best food for dogs because Big Kibble funds the nutrition research. So far, these corporations have been able to cut corners and still market and promote feed-grade food as if it were healthful and beneficial—until now. Just as you are what you eat, so is your dog. Once you stop feeding your dog the junk that's in kibble or cans, you have taken the first steps to improving your dog's health, behavior and happiness. You know the unsavory side of Big Tobacco and Big Pharma. Now Shawn Buckley, Dr. Oscar Chavez, and Wendy Paris explain all you need to know about unsavory Big Kibble—and offer a brighter path forward for you and your pet.

A book about every dog breed. "Breeds both familiar and unfamiliar are positively bursting out of this oversize volume... Dog lovers will spend hours poring over these winsome illustrations." -- School Library Journal The book brings together charming drawings of 300 domestic dog breeds, including every breed recognized by the American Kennel Club in the seven official groupings -- Working, Toy, Hound, Terrier, Herding, Sporting and Non-Sporting. Also included is a selection of purebreds not officially recognized by the American Kennel Club as well as some of the most popular "designer" dogs, such as the Labradoodle and Chiweenie. There are also breeds less familiar to North Americans but recognized by kennel clubs in other countries; for example, the Canadian Eskimo Dog and the Australian Silky Terrier. Jim Medway's color drawings are accurate and engaging. At the end of the book is an entertaining Puppy Identifier where children can test their ability to recognize the breed of 30 puppies. There is also a Dog Breed Fact Index with interesting trivia about all of the breeds. More than one-third of American households have a dog. With Big Dogs, Little Dogs, children and adults alike will enjoy learning and identifying the dogs that they encounter. It is fun and informative and it might instill a lifelong interest in "man's best friend."

In season four of Darren Star's hit TV Land series *Younger*, the editors at Empirical Press are shocked and deeply moved when they read *Marriage Vacation*, an autobiographical novel by the publisher's estranged wife, Pauline Turner Brooks. Knowing the book will cause a sensation, they decide they must publish it. Now you can read what the hype is about—including page 58 that had everyone buzzing (...and blushing). *Marriage Vacation* is for anyone who has ever fantasized about what it would be like to run away from it all. By all appearances, Kate Carmichael has the perfect life: two adorable daughters, a prewar townhouse on the Upper East Side, and a husband who runs one of the most successful publishing companies in New York. But when Kate attends a wedding and reconnects with successful friends from graduate school, she suddenly sees her life in a different light: the career she didn't pursue, the dreams she's locked away, the empty veneer of her privilege. When the wedding weekend ends, instead of heading home to her husband and family, Kate gets on a plane and flies halfway around the world. She claims it's just going to be for a week—two max—just so she can clear her head and reconnect with her lost dreams. But the adventure doesn't go quite as planned. This provocative and gripping novel asks: Is a wife and mother allowed to have a midlife crisis? And, if she does, can she ever be forgiven? PRAISE FOR *Marriage Vacation* "Marriage Vacation has everything you want in a novel: fascinating characters, drama, secrets, emotional reckonings, and far-flung adventure. If you love *Younger*, you'll love this book. If you've never watched an episode of *Younger* (you should change that), you'll still love this book. And just wait until you read page 58!" —Darren Star, creator of *Sex and The City* and *Younger* "This brilliant romp helps us understand why Liza was so excited to discover the manuscript, how any woman could leave the dreamy Charles, and what exactly Pauline—by way of her fictional alter ego, Kate Carmichael—did on that mysterious *Marriage Vacation*. Pack this heartfelt, insightful, funny, sexy book when you take a vacation of your own." —Pamela Redmond Satran, author of *Younger*

The relationship between humans and animals has always been strong, symbiotic and complicated. Animals, real and fictional, have been a mainstay in the arts and entertainment, figuring prominently in literature, film, television, social media, and live performances. Increasingly, though, people are anthropomorphizing animals, assigning them humanoid roles, tasks and identities. At the same time, humans, such as members of the furry culture or college mascots, find pleasure in adopting animal identities and characteristics. This book is the first of its kind to explore these growing phenomena across media. The contributors to this collection represent various disciplines, to include the arts, humanities, social sciences, and healthcare. Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving.

An eccentric woman who is great with numbers—but not so great with people—realizes it's up to her to pull a community together in this charming, big-hearted, "fun read, full of unique characters" (Associated Press)—perfect for fans of Eleanor Oliphant Is Completely Fine and The Rosie Project. Germaine Johnson doesn't need friends. She has her work and her Sudoku puzzles. Until, that is, an incident at her insurance company leaves her jobless—and it turns out that there are very few openings these days for senior mathematicians with zero people skills. Desperate, Germaine manages to secure a position at City Hall answering calls on the Senior Citizens Helpline. But it turns out that the mayor has something else in mind for Germaine: a secret project involving the troublemakers at the senior citizens center and their feud with the neighboring golf club—which happens to be run by the dashing yet disgraced national Sudoku champion, Don Thomas. Don and the mayor want the senior center closed down and at first, Germaine is dedicated to helping them out—it makes sense mathematically, after all. But when Germaine actually gets to know the group of elderly rebels at the senior center, they open her eyes to a life outside of boxes and numbers and for the first time ever, Germaine realizes she may have miscalculated. Filled with a unique and (occasionally) cranky cast of characters you can't help but love, The Helpline is "delightful feel-good fun" (Toni Jordan, author of Addition) that is bound to capture your heart.
