"This volume challenges those who see gender inequalities invariably defining and constraining the lives of women. But it also broadens the conversation about the degree to which business is a gender-blind institution, owned and managed by entrepreneurs whose gender identities shape and reflect economic and cultural change." – Mary A. Yeager, Professor Emerita, University of California, Los Angeles This is the first book to consider nineteenth-century businesswomen from a global perspective, moving beyond European and trans-Atlantic frameworks to include many other corners of the world. The women in these pages, who made money and business decisions for themselves rather than as employees, ran a wide variety of enterprises, from micro-businesses in the 'grey market' to large factories with international reach. They included publicans and farmers, midwives and property developers, milliners and plumbers, pirates and shopkeepers. *Female Entrepreneurs in the Long Nineteenth Century: A Global Perspective* rejects the notion that nineteenth-century women were restricted to the home. Despite a variety of legal and structural restrictions, they found ways to make important but largely unrecognised contributions to economies around the world - many in business. Their impact on the economy and the economy's impact on them challenge gender historians to think more about business and business historians to think more about gender and create a global history that is inclusive of multiple perspectives. This volume highlights North American animated television series broadcast between 1948 and 2016, providing credits for their original broadcast period and significant members of the cast and crew, as well as short descriptive and critical analyses. Twenty-five-year-old Jack Sparrow is a clean-cut merchant seaman pursuing a legitimate career as a first mate for the East India Trading Company. He sometimes thinks back to his boyhood pirating days, but he doesn't miss Teague's scrutiny or the constant threat of the noose. Besides, he doesn't have much choice—he broke the Code when he freed a friend who had been accused of rogue piracy, and he can no longer show his face in Shipwreck Cove. When Jack's ship is attacked by pirates and his captain dies in the altercation, he suddenly finds himself in command.

Horseshoe crabs, those mysterious ancient mariners, lured me into the sea as a child along the beaches of New Jersey. Drawn to their shiny domed shells and spiked tails, I could not resist picking them up, turning them over and watching the wondrous mechanical movement of their glistening legs, articulating with one another as smoothly as the inner working of a clock. What was it like to be a horseshoe crab, I wondered? What did they eat? Did they always move around together? Why were some so large and others much smaller? How old were they, anyway? What must it feel like to live underwater? What else was out there, down there, in the cool, green depths that gave rise to such intriguing creatures? The only way to find out, I reasoned, would be to go into the ocean and see for myself, and so I did, and more than 60 years later, I still do.

Michael Bloomberg's achievements attract superlatives. He is one of America's richest men and one of its most generous philanthropists. He is a self-made mogul who devised a sophisticated data system that became the basis of his trail-blazing information company. He made himself mayor of the country's most demanding city without any prior political experience, prevailing in a Democratic stronghold as a Republican and, once in City Hall, vainly promoting a list of bold projects that refused to recognize limits. In fact, when Bloomberg did run into a limit - a two-term limit for New York's mayors - he changed the law to overcome it. Yet Bloomberg is a most unconventional super-achiever. He has never won over a crowd with his speaking prowess. Rooms do not hush with anticipation when he enters. Celebrity stalkers do not haunt him. He jealously guards his privacy and somehow New Yorkers have adjusted. Though accustomed to flamboyant politicians, they elected and re-elected him without ever really warming to him. This is the central paradox of Michael Bloomberg that Joyce Purnick traces in her biography. He is a great success who has repeatedly defied the standard models for success. He bends to convention only to suit his self-interest, otherwise stubbornly charting his own paths. He is Bloomberg, the willful center of his world, confident in his right to be there.
