This enthralling WWII biography combines a downed B-17 bombardier's unfinished memoir with letters from the French girl who saved his life. Susan Tate Ankeny's father was a World War II veteran bombardier who had bailed from a burning B-17 over Nazi-occupied France in 1944. After he died, she found his unfinished memoir, stacks of envelopes, black-and-white photographs, mission reports, dog tags, and the fake identity cards he used in his escape. Ankeny spent more than a decade tracking down letter writers, their loved ones, and anyone who had played a role in her father's story, culminating in a trip to France where she retraced his path with the same people who had guided him more than sixty years ago. While piecing together her father's wartime experience, Ankeny discovered a remarkable hero. Godelieve Van Laere was just a teenaged girl when she saved the fallen Lieutenant Dean Tate, risking her life and forging a friendship that would last into a new century. The result is a fascinating and dramatic World War II tale enhanced by personal interviews with participants. It traces the transformation of a small-town American boy into a bombardier, the thrill and chaos of aerial warfare, and the horror of bailing from a flaming aircraft over enemy territory. It distinguishes the actions of a little-known French resistance network for Allied airmen known as Shelburne. And it shines a light on the courage and cunning of a young woman who risked her life to save another.

Mau Mau from Within is told by Karari Njama, a school teacher who was directly involved in the struggles for freedom from colonial rule, to anthropologist Donald L Barnett. As the late Basil Davidson put it: "Njama writes of the forest leaders' efforts to overcome dissension, to evolve effective tactics, to keep discipline (including sexual discipline) and mete out justice ... His narrative is crowded with excitement. Those who know much of Africa and those who know little will alike find it compulsive reading. Some 10,000 Africans died fighting in those years . Here, in the harsh detail of everyday experience, are the reasons why." Originally published as Mau Mau From Within: An analysis of Kenya's Peasant Revolt, it is a story of courage, passion, heroism, combined with recounting of colonial terror, brutality and betrayal. Far from being just an analysis of a peasant revolt, this is the inside story of the struggles of Kenya's Land and Freedom Army told from within by a person who worked closely with Dedan Kimathi. This new expanded edition includes new commentary by Karari Njama, and contributions from Ngugi wa Thiong'o, Micere Githae Mugo as well as a statement from Gitu Wa Kahengeri, Secretary General of the Mau Mau War Veterans Association.

Pele and Hiiaka are Hawaii's most spectacular female deities, and this story of their conflict over the mortal Lohi'au stands at the fountainhead of Hawaiian myth, oral tradition, and dance. For centuries, however, it was a varied collection of disparate versions told by widely scattered Hawaiian poets, raconteurs, and dancers. Author, Dr. Nathaniel Emerson spent years traveling, talking to Hawaiians, and compiling notes in an attempt to organize and preserve its text. The result of his efforts, Pele and Hiiaka: A Myth from Hawaii was published in 1915, and that edition has since become a rare and expensive collector's item. This digital edition of that book contains all of Emerson's original text as well as a new introduction and new photographs. Pele the fire goddess, who dwells in the Kilauea firepit, is quick-tempered and violent. Hiiaka, her sister, is calm and benevolent and given to wandering through groves of scarlet-blossomed 'ohi'a trees. Pele's roaming dream-spirit falls in love with the handsome chieftain Lohi'au, and Hiiaka is sent to bring him back from Kaua'i to Pele's waiting immortal body In the saga of Hiiaka's arduous journey are the exploits of stirring romance.

Le storie di Maui. 111 gradini verso la felicitàAltrimondiLe storie di Maui111 gradini verso la felicitàEdizioni Lindau The ancient wisdom of Hawai'i has been guarded for centuries -- handed down through lines of kinship to form the tradition of Huna. Dating back to the time before the first missionary presence arrived in the islands, the tradition of Huna is more than just a philosophy of living -- it is intertwined and deeply connected with every aspect of Hawaiian life. Blending ancient Hawaiian wisdom with modern practicality, Serge Kahili King imparts the philosophy behind the beliefs, history, and foundation of Huna. More important, King shows readers how to use Huna philosophy to attain both material and spiritual goals. To those who practice Huna, there is a deep understanding about the true nature of life -- and the real meaning of personal power, intention, and belief. Through exploring the seven core principles around which the practice revolves, King passes onto readers a timeless and powerful wisdom.

Basquiat is a moving depiction of a troubled artist's life for those interested in both the art and the man who made it. – More Praise for Basquiat: A Graphic Novel – Loving the shit out of Black culture, Italian illustrator Paolo Parisi is paying homage to some of the most prolific Black artists of the 20th century with a series of graphic novels. Inspired totally by Basquiat's own aesthetic, the graphic novel is depicted through the use of primary and secondary colors – a favorite of JMB's and his contemporaries at the time." Afropunk "Those unfamiliar with Basquiat will eagerly seek out his work upon completion of the book." Booklist "Parisi's visuals are powerful – sometimes jarringly so, as with the image of the artist in chains – and his design choices effective. In other spreads, comics are juxtaposed with facsimile notebook pages of Jean-Michel's writings. It's this type of visual, verbal, textural play that makes the graphic novel an interesting form for the Basquiat story." Hyperallergic "Parisi offers a vibrant biography of iconic New York artist Jean-Michel Basquiat, briefly touching on his childhood and examining how he struggled, achieved fame, and made a lasting legacy in the art world. A mesmerizing account of a creative phenomenon." School Library Journal "In vividly drawn panels of red, electric yellow, green, and indigo, Paolo Parisi's Basquiat makes striking use of the graphic novel medium to immerse readers in the story of how a young graffiti artist from Brooklyn emerged to become one of the rising stars of the 1980s art scene. With searing images and sharp captions that give life to Jean-Michel Basquiat's frenetic drug-fueled creativity, keen sense of irony, and celebrity flare, the author chronicles how the artist parlayed attention-grabbing spray-paint designs clandestinely placed all over downtown New York." The Millions "...an engrossing chronicle of one of the world's most celebrated artists, one gone too soon. The story by Paolo Parisi is heartbreaking, epic and intense. The art by Parisi is very much in the spirit of its subject, giving the reader a surreal kaleidoscopic vision. Altogether, a biography of an artist whose story has not been given justice until now with Parisi's deft hands and vision." Graphic Policy

From generation to generation, people experience their landscapes differently. Humans depend on their natural environment: it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities (such as droughts, famines, floods and landslides) need to be appeased. We presume that, in many societies, lakes, rivers, rocks, mountains, caves and groves were considered sacred. Individual sites and entire landscapes are often associated with divine actions, mythical heroes and etiological myths. Throughout human history, people have also felt the need to monumentalize their sacred landscape. But this is where the similarities end as different societies had very different understandings, beliefs and practices. The aim of this new thematic appraisal is to scrutinize carefully our

evidence and rethink our methodologies in a multi-disciplinary approach. More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east. They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it. We see the role of performance, ritual, orality, textuality and memory in people's sacred landscapes. A diachronic view allows us to study how landscapes were 'rewritten', adapted and redefined in the course of time to suit new cultural, political and religious understandings, not to mention the impact of urbanism on people's understandings. A key question is how was the landscape manipulated, transformed and monumentalized – especially the colossal investments in monumental architecture we see in certain socio-historic contexts or the creation of an alternative humanmade, seemingly 'non-natural' landscape, with perfectly astronomically aligned buildings that define a cosmological order? Sacred Landscapes therefore aims to analyze the complex links between landscape, 'religiosity' and society, developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic, holistic, contextual and historical perspective.

"This book is the first peer-reviewed collection of papers focusing on the potential of myth storylines to yield data and lessons that are of value to the geological sciences. Building on the nascent discipline of geomythology, scientists and scholars from a variety of disciplines have contributed to this volume. The geological hazards (such as earthquakes, tsunamis, volcanic eruptions and cosmic impacts) that have given rise to myths are considered, as are the sacred and cultural values associated with rocks, fossils, geological formations and landscapes. There are also discussions about the historical and literary perspectives of geomythology. Regional coverage includes Europe and the Mediterranean, Afghanistan, Cameroon, India, Australia, Japan, Pacific islands, South America and North America. Myth and Geology challenges the widespread notion that myths are fictitious or otherwise lacking in value for the physical sciences." -- BOOK JACKET.
