Michelangelo's adventure in Constantinople, from the "mesmerizing" (New Yorker) and "masterful" (Washington Post) author of *Compass In 1506*, Michelangelo—a young but already renowned sculptor—is invited by the sultan of Constantinople to design a bridge over the Golden Horn. The sultan has offered, alongside an enormous payment, the promise of immortality, since Leonardo da Vinci's design has been rejected: "You will surpass him in glory if you accept, for you will succeed where he has failed, and you will give the world a monument without equal." Michelangelo, after some hesitation, flees Rome and an irritated Pope Julius II—whose commission he leaves unfinished—and arrives in Constantinople for this truly epic project. Once there, he explores the beauty and wonder of the Ottoman Empire, sketching and describing his impressions along the way, as he struggles to create what could be his greatest architectural masterwork. *Tell Them of Battles, Kings, and Elephants*—constructed from real historical fragments—is a thrilling page-turner about why stories are told, why bridges are built, and how seemingly unmatched fragments, seen from the opposite sides of civilization, can mirror one another. Ever since 1759, when Voltaire wrote "Candide" in ridicule of the notion that this is the best of all possible worlds, this world has been a gayer place for readers. Voltaire wrote it in three days, and five or six generations have found that its laughter does not grow old. "Candide" has not aged. Yet how different the book would have looked if Voltaire had written it a hundred and fifty years later than 1759. It would have been, among other things, a book of sights and sounds. A modern writer would have tried to catch and fix in words some of those Atlantic changes which broke the Atlantic monotony of that voyage from Cadiz to Buenos Ayres. When Martin and Candide were sailing the length of the Mediterranean we should have had a contrast between naked scarped Balearic cliffs and headlands of Calabria in their mists. We should have had quarter distances, far horizons, the altering silhouettes of an Ionian island. Colored birds would have filled Paraguay with their silver or acid cries. Dr. Pangloss, to prove the existence of design in the universe, says that noses were made to carry spectacles, and so we have spectacles. A modern satirist would not try to paint with Voltaire's quick brush the doctrine that he wanted to expose. And he would choose a more complicated doctrine than Dr. Pangloss's optimism, would study it more closely, feel his destructive way about it with a more learned and caressing malice. His attack, stealthier, more flexible and more patient than Voltaire's, would call upon us, especially when his learning got a little out of control, to be more than patient. Now and then he would bore us. "Candide" never bored anybody except William Wordsworth. Voltaire's men and women point his case against optimism by starting high and falling low. A modern could not go about it after this fashion. He would not plunge his people into an unfamiliar misery. He would just keep them in the misery they were born to.

What would you risk to be free? It's 1776 and Isabel, Curzon, and Ruth have only ever known life as slaves. But now the young country of America is in turmoil—there are whisperings, then cries, of freedom from England spreading like fire, and with it is a whole new type of danger. For freedom being fought for one isn't necessarily freedom being fought for all...especially if you are a slave. But if an entire nation can seek its freedom, why can't they? As war breaks out, sides must be chosen, death is at every turn, and one question forever rings in their ears: Would you risk everything to be free? As battles rage up and down the Eastern seaboard, Isabel, Curzon, and Ruth flee, separate, fight, face unparalleled heartbreak and, just like war, they must depend on their allies—and each other—if they are to survive. Which leads to a second, harrowing question: Amidst so much pain and destruction, can they even recognize who their allies are?

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

**\*\*Picked as One of the Best Books So Far in 2020 by the Sunday Times\*\*** 'A continuously astonishing and ultimately moving account of a unique figure, the stuff of great literature' Simon Callow, THE SUNDAY TIMES 'Gripping . . . jaw-dropping story, brilliantly told' Ysenda Maxtone Graham, THE TIMES 'A truly wonderful read' Lynda La Plante, DAILY EXPRESS 'The most extraordinary, racy life' William Boyd, DAILY TELEGRAPH 'Hugo Vickers has ensured that Marlborough's last duchess won't return to obscurity any time soon by giving us this richly anecdotal and oddly captivating book' Miranda Seymour, FINANCIAL TIMES 'At the end of the book the reader can only say, "Whew! What a story!"' Anne de Courcy, SPECTATOR 'Hugo Vickers's life of Gladys Marlborough is an extraordinary and tragic story, with special resonance today' EVENING STANDARD \*\*\*\*\* One of the most beautiful and brilliant women of her time, Gladys Deacon dazzled and puzzled the glittering social circles in which she moved. Born in Paris to American parents in 1881, Gladys emerged from a traumatic childhood - her father having shot her mother's lover dead when Gladys was only eleven - to captivate and inspire some of the greatest literary and artistic names of the Belle Epoque. Marcel Proust wrote of her, 'I never saw a girl with such beauty, such magnificent intelligence, such goodness and charm.' Berenson considered marrying her, Rodin and Monet befriended her, Boldini painted her and Epstein sculpted her. She inspired love from diverse Dukes and Princes, and the interest of women such as the Comtesse Greffulhe and Gertrude Stein. In 1921, when Gladys was forty, she achieved the wish she had held since the age of fourteen to marry the 9th Duke of Marlborough, then freshly divorced from fellow American Consuelo Vanderbilt. Gladys's circle now included Lady Ottoline Morrell, Lytton Strachey and Winston Churchill, who described her as 'a strange, glittering being'. But life at Blenheim was not a success: when the Duke evicted her in 1933, the only remaining signs of Gladys were two sphinxes bearing her features on the west terraces and mysterious blue eyes in the grand portico. She became a recluse, and the wax injections she'd had to straighten her nose when she was 22 had by now ravaged her beauty. Gladys was to spend her last years in the psycho-geriatric ward of a mental hospital, where she was discovered by a young Hugo Vickers. Intrigued and compelled to unmask the truth of her mysterious life, Vickers visited her over the course of two years, eventually publishing Gladys, Duchess of Marlborough, a biography of her life - and his first book - in 1979, two years after Gladys's death. Forty years on, Vickers has now completely rewritten and revised his original biography, updating it with previously unavailable material and drawing on his own personal research all over Europe and America. He once asked Gladys, 'Where is Gladys Deacon?' She answered him slowly, 'Gladys Deacon? . . . She never existed.' The Sphinx is a fascinating portrait of this elusive but brilliant woman who was at the centre of a now bygone era of wealth and privilege - and a tribute to one of the brightest stars of her age.

The Diary of a Young Girl, also known as The Diary of Anne Frank, is a book of the writings from the Dutch language diary kept by Anne Frank while in 1942, with zis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. The family was apprehended in 1944, and Anne Frank died of typhus in the Bergen-Belsen concentration camp in 1945. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short. The diary was retrieved by Miep Gies, who gave it to Anne's father, Otto Frank, the family's only known survivor, just after the war was over. The diary has since been published in more than 60 languages.

'Not only haunted by death, but also by beauty and the strangeness of being alive. A deeply memorable novel' Colm Tóibín

While exploring a strange place near her new home, ten-year-old Chihiro is horrified when her mother and father turn into pigs and, hoping to save them, soon finds herself working in a bath house for Japanese spirits.

IN a little place called Le Monastier, in a pleasant highland valley fifteen miles from Le Puy, I spent about a month of fine days. Monastier is notable for the making of lace, for drunkenness, for freedom of language, and for unparalleled political dissension. There are adherents of each of the four French parties - Legitimists, Orleanists, Imperialists, and Republicans - in this little mountain-town; and they all hate, loathe, decry, and calumniate each other. Except for business purposes, or to give each other the lie in a tavern brawl, they have laid aside even the civility of speech. 'Tis a mere mountain Poland. In the midst of this Babylon I found myself a rallying-point; every one was anxious to be kind and helpful to the stranger. This was not merely from the natural hospitality of mountain people, nor even from the surprise with which I was regarded as a man living of his own free will in Le Monastier, when he might just as well have lived anywhere else in this big world; it arose a good deal from my projected excursion southward through the Cevennes. A traveller of my sort was a thing hitherto unheard of in that district. I was looked upon with contempt, like a man who should project a journey to the moon, but yet with a respectful interest, like one setting forth for the inclement Pole. All were ready to help in my preparations; a crowd of sympathisers supported me at the critical moment of a bargain; not a step was taken but was heralded by glasses round and celebrated by a dinner or a breakfast.

When Miss Norma was diagnosed with uterine cancer, she was advised to undergo surgery, radiation, and chemotherapy. But instead of confining herself to a hospital bed for what could be her last stay, Miss Norma—newly widowed after nearly seven decades of marriage—rose to her full height of five feet and told the doctor, “I’m ninety years old. I’m hitting the road.” And so Miss Norma took off on an unforgettable around-the-country journey in a thirty-six-foot motor home with her retired son Tim, his wife Ramie, and their dog Ringo. As this once timid woman says “yes” to living in the face of death, she tries regional foods for the first time, reaches for the clouds in a hot air balloon, and mounts up for a horseback ride. With each passing mile (and one educational visit to a cannabis dispensary), Miss Norma’s health improves and conversations that had once been taboo begin to unfold. Norma, Tim, and Ramie bond in ways they had never done before, and their definitions of home, family, and friendship expand. Stop by stop, state by state, they meet countless people from all walks of life—strangers who become fast friends and welcome them with kindness and open hearts. Infused with this irrepressible nonagenarian’s wisdom, courage, and generous spirit, *Driving Miss Norma* is the charming, infectiously joyous chronicle of their experiences on the road. It portrays a transformative journey of living life on your own terms that shows us it is never too late to begin an adventure, inspire hope, or become a trailblazer.

History in your hands... Charles Darwin single-handedly revolutionised the way humanity viewed itself. His theory of natural selection, though shocking and controversial at the time, paved the way for a whole new understanding of both the planet and our place on it. Charles Darwin reveals the famous scientist's life in compelling detail as never before. From his early expedition aboard the *Beagle* leading to his research in the Galapagos Islands, which brought him into contact with some of nature's most extraordinary creatures, this book examines Darwin's own experiences to show how he created the theories for which he became famous. Drawing on recent studies, it also features at least 30 rare and newly researched removable items of facsimile memorabilia, such as diaries, maps, letters, newspapers, sketches and pages from scientific notebooks. You have heard of the man who changed the world, now you can witness how he did it.

The first volume of *Viaggiatori “Curatele”* series seeks to recreate some scientific dialogues, namely meetings, exchanges and acquisition of theoretical and practical scientific knowledge, thus linking the cultural, historical and geographical context of America, Asia, Europe and Mediterranean Sea between the 16th and the 20th century. More specifically, the main objective is to consider the role of travellers as passeurs, as “intermediaries” for building and allowing the circulation of knowhow and the practical and theoretical knowledge from one continent to another.

A New York Times Bestseller "*The Wild Truth* is an important book on two fronts: It sets the record straight about a story that has touched thousands of readers, and it opens up a conversation about hideous domestic violence hidden behind a mask of prosperity and propriety."—NPR.org The spellbinding story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but also the rest of the nation. Krakauer's book, *Into the Wild*, became an international bestseller, translated into thirty-one languages, and Sean Penn's inspirational film by the same name further skyrocketed Chris McCandless to global fame. But the real story of Chris's life and his journey has not yet been told - until now. The missing pieces are finally revealed in *The Wild Truth*, written by Carine McCandless, Chris's beloved and trusted sister. Featured in both the book and film, Carine has wrestled for more than twenty years with the legacy of her brother's journey to self-discovery, and now tells her own story while filling in the blanks of his. Carine was Chris's best friend, the person with whom he had the closest bond, and who witnessed firsthand the dysfunctional and violent family dynamic that made Chris willing to embrace the harsh wilderness of Alaska. Growing up in the same troubled household, Carine speaks candidly about the deeper reality of life in the McCandless family. In the many years since the tragedy of Chris's death, Carine has searched for some kind of redemption. In this touching and deeply personal memoir, she reveals how she has learned that real redemption can only come from speaking the truth.

First published in 1943, *The Little Prince* by Antoine de Saint-Exupéry has been translated into more than 250 languages, becoming a global phenomenon. The Sahara desert is the scenery of Little Prince's story. The narrator's plane has crashed there and he has scarcely some food and water to survive. Trying to comprehend what caused the crash, the Little Prince appears. The serious blonde little boy asks to draw him a sheep. The narrator consents to the strange fellow's request. They soon become friends and the Little Prince informs the pilot that he is from a small planet, the asteroid 325, talks to him about the baobabs, his planet volcanoes and the mysterious rose that grew on his planet. He also talks to him about their friendship and the lie that evoked his journey to other planets. Often puzzled by the grown-ups' behavior, the little traveler becomes a total and eternal symbol of innocence and love, of responsibility and devotion. Through him we get to see how insightful children are and how grown-ups aren't. Children use their heart to feel what's really important, not the eyes. Heart-breaking, funny and thought-provoking, it is an enchanting and endlessly wise fable about the human condition and the power of imagination. A book about both childhood and adulthood, it can be read as a parable, a war story, a classic children's fairy-tale, and many more things besides: *The Little Prince* is a book for everyone; after all, all grown-ups were children once.

"In 1844 the French painter and poet Gerard de Nerval travelled to the Levant, to Cairo, Beirut and Constantinople, the 'font of drug-taking', in search of hashish, new and wondrous experiences, the occult, encounters with the culture of the Middle East and, especially, the pursuit of the Eternal Female." "Journey to the Orient is the result of these adventures. Whether he is describing the return of the pilgrims from Mecca or the niceties of buying a Javanese slave-girl, Nerval has an eye for the real which is at once fantastic and humorous." "Impressionistic and lively, immediate and nervous, the style has not dated, and with his wild fluctuations of mood, the swashbuckling narrator reminds the reader of Henry Miller. Journey to the Orient is one of the most important literary rediscoveries of the past half-century."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France's--and literature's--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of Journey to the End of the Night move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that's lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.

The 4th novel in the easiest series of French novels in existence for beginning students. Sixteen-year-old Jean-Luc Bartolin of Denver, Colorado, goes to Switzerland with his family. "My heart is afraid that it will have to suffer," the boy told the alchemist one night as they looked up at the moonless sky." Tell your heart that the fear of suffering is worse than the suffering itself. And that no heart has ever suffered when it goes in search of its dreams." Every few decades a book is published that changes the lives of its readers forever. The Alchemist is such a book. With over a million and a half copies sold around the world, The Alchemist has already established itself as a modern classic, universally admired. Paulo Coelho's charming fable, now available in English for the first time, will enchant and inspire an even wider audience of readers for generations to come. The Alchemist is the magical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure as extravagant as any ever found. From his home in Spain he journeys to the markets of Tangiers and across the Egyptian desert to a fateful encounter with the alchemist. The story of the treasures Santiago finds along the way teaches us, as only a few stories have done, about the essential wisdom of listening to our hearts, learning to read the omens strewn along life's path, and, above all, following our dreams.

The narrator arrives in his 117th rented room at the end of an epic journey, abandoned by his lover, almost broke and certainly feverish. His obsession with the insects he shares the room with and his beautifully articulated observations of himself on the edge of physical and mental collapse extend out to include the insect-like habitus of the local cafe - the charlatans, the indolent landowners, and even a levitating priest who has been dead for six years. This razor-sharp chronicle of experience, which grew out of Bouvier's seven-month stay on the island of Ceylon (now Sri Lanka), shows that if you travel, you must be prepared to discover not only delights but also the worst as well.

Winner of the 2011 Flaherty-Dunn First Novel Prize Lamb traces the self-discovery of David Lamb, a narcissistic middle aged man with a tendency toward dishonesty, in the weeks following the disintegration of his marriage and the death of his father. Hoping to regain some faith in his own goodness, he turns his attention to Tommie, an awkward and unpopular eleven-year-old girl. Lamb is convinced that he can help her avoid a destiny of apathy and emptiness, and even comes to believe that his devotion to Tommie is in her best interest. But when Lamb decides to abduct a willing Tommie for a road trip from Chicago to the Rockies, planning to initiate her into the beauty of the mountain wilderness, they are both shaken in ways neither of them expects. Lamb is a masterful exploration of the dynamics of love and dependency that challenges the boundaries between adolescence and adulthood, confronts preconceived notions about conventional morality, and exposes mankind's eroded relationship with nature.

Like his subject, Napoleon, author Jean-Paul Kauffmann has experienced captivity, as a three-year hostage in Beirut. He brings his insider's knowledge to this moving account of the most famous French soldier's last years in seclusion on a tropical island. After his defeat at Waterloo in 1815, Napoleon was exiled and imprisoned by the British on the island of St. Helena. He became increasingly withdrawn, surviving on a diet of memories that he recounted to the few people around him. But the book -- part history, part travelogue -- portrays the leader as a prisoner also of his mind, poisoned by nostalgia for his triumphs and grief over his defeats. "A haunting, unforgettable book....Kauffmann captures the desolate atmosphere of Napoleon's last home with evocative precision." -- Boston Globe
