#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection,

and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. *Marine Maxims* is a collection of fifty principle-based leadership lessons that Thomas J. Gordon acquired commanding Marines over a career spanning three decades of service. Dealing with the complexities and challenges of the contemporary operating environment requires an internal moral compass fixed true. These maxims focus on developing inner citadels of character, moral courage, and the resilience to persevere in a contested domain where information is key. Its purpose is to provide future leaders with a professional development plan that will steel their resolve and enable them to lead with honor. Thematically, these maxims build upon a foundation of character, courage, and will. To be effective, a leader must model and inspire the will to persevere in the face of danger or adversity. The essence of effective leadership is credibility. A leader's credibility is derived from a congruence of competence and character. Exceptional leaders are not remembered for what they accomplished, but how they did it.

Those that lead with integrity will be remembered as a leader worth following.

This book presents leaders and aspiring leaders in community colleges with a theoretical and practical framework for analyzing their leadership styles, and determining the dimensions of leadership they need to improve in order to strengthen their capacity to resolve complex issues and effectively guide their institutions. It does so through presenting theories about leadership that are congruent with the notions of equity, access, diversity, ethics, critical inquiry, transformational change, and social justice that drive the missions of community colleges, and at the same time provides the reader with the strategic skills to prepare for and navigate the profound changes ahead. Readers will gain an understanding of how to use theory as a tool to guide their practice, better understand the intricacies of the issues confronting

them, the power dynamics and organizational context in which they operate, predict potential outcomes, and develop processes to achieve desired outcomes. Utilizing theory in conjunction with case study analysis provides community college leaders with the tools needed to comprehensively interrogate and inform decision-making processes. The authors provide a number of rich and realistically complex case studies, all of which are situated in a community college environment, to which readers can apply the various theories and perspectives, develop their view about the principles and actions most likely to lead to satisfactory outcomes, and hone the approaches to leadership that are authentic to them, and effective. The authors aim to help readers develop the multi-faceted approach to leadership that is essential to running complex organizations. They aim to promote development of the “whole” leader through a three-fold framework of theory, practice, and introspection in context of institutional change. In doing so, leaders will be better equipped to lead community colleges in challenging times. The authors tie AACCC’s competencies to the leadership theories they cover, as well as to the analysis of the case studies, and leadership inventories, as an essential framework for developing the skill sets to enact the community college mission. The book is suitable for personal reading and reflection, institutional leadership retreats and training, and as a text for higher education courses.
