In 1844 a German scholar traveled ten days by camel to a monastery guarded by the 1,100-year-old skeleton of a janitor, where the scholar discovered the world's oldest complete copy of the New Testament. In 1947 the oldest complete manuscript of Hebrew Scripture disappeared in Syrian riots. Part of it was later recovered, and a full page and a fragment were also discovered in Brooklyn, New York. In 1536 William Tyndale was burned at the stake for the crime of publishing the New Testament in English. They have also brought comfort, conviction, and challenge. Today at least one book of the Bible is translated into more than 2,400 of the world's 6,900 living languages. The Story of the Bible is a sweeping panorama of the Bible's 3,500-year history, answering questions such as: How accurate are the manuscripts we have? Do all translations say the same thing? Was America really founded on the Bible? Why are the Dead Sea Scrolls so important? The Problem of God is written by a skeptic who became a Christian and then a pastor, all while exploring answers to the most difficult questions raised against Christianity. Mark grew up in an atheistic home, and after his father's death, began a skeptical search for truth through exploring science, philosophy, and history, asking the big questions of life, and eventually finding answers in Christianity. In a disarming, winsome, and persuasive way, The Problem of God responds to the top ten questions people raise against God, and Christianity, including, among others: The Problem of Science The Problem of God's Existence The Problem of the Bible The Problem of Evil and Suffering The Problem of Hell The Problem of Sex The Problem of Hypocrisy Each chapter answers the specific challenge using a mix of theology, philosophy, and science on the one hand, while also using stories, illustrations, and anecdotes. It's apologetics for the rest of us, focused on both convincing the skeptic, and informing the Christian.

The Ethiopic version provides a window into the state of the Greek Bible as it circulated in East Africa at the end of the fourth century. It is, therefore, an extremely important witness to the Bible's early transmission history, yet its testimony has typically been ignored or misunderstood by text critics. This study examines the history of the book of Acts in Ethiopia and reconstructs its earliest attainable text, which then is assessed using the latest text-critical methods. It therefore provides a solid base for interpreting the data of this key witness and lays the groundwork for future text-critical work in Ethiopic and other early versions.
