An inside look at LeBron James's youth and high school years, when he was basketball's hottest young prospect, poised at the brink of superstardom. Sportswriter David Lee Morgan covered the LeBron phenomenon from the beginning and had unequaled access to LeBron, his family, and his close friends.

After 52 long years, the city of Cleveland finally has a new championship team, thanks to LeBron James and his Cavaliers. Scott Raab—Cleveland super-fan—has suffered for every one of those five decades of drought. In the tradition of Frederick Exley's cult-classic sports book *A Fan's Notes*, *The Whore of Akron* is Raab's hilarious and unhinged plea for deliverance from all those years of pain. Traveling from Cleveland to Miami and back again, Raab heads out on an obsessive quest to uncover the soul of one of today's greatest basketball players: LeBron James, the man who finally brought Cleveland out of sporting exile.

Because the NBA now relies more on a pace and space game that requires all five guys out on the floor to have a complete set of skills on both ends of the floor,

players with refined tools now trump those with raw athletic and physical talents. Size and athleticism are still critical factors for crafting an NBA star or successful basketball talent. Especially in today's fast-paced game, you need someone who can provide you with speed and length on both ends of the court. However, those with refined skills are now just as important or even more vital to the success of an NBA team because their tools fit the way the game is being played today. As the league trends towards a more position-less style, you can virtually interchange positions but still expect the same results if you have players with a complete package of skills. In that sense, you want all five players on the floor to handle the ball, make plays, and shoot. Otherwise, there will be weak points in your pace and space offense. And when you talk about players with complete skills, you cannot just forget about international players and stars coming out of Europe. Over the last two decades, some of the most refined offensive players have come out of Europe or other similar international countries. Manu Ginobili, who hails from Argentina, has enjoyed a stellar NBA career with his crafty scoring moves and mastery of the Eurostep. His former teammate Tony Parker, a quick guard who was not exactly big or athletic, maneuvered himself to several All-Star appearances and a lot of NBA titles with his ability to finish near the basket with precision moves. And who could ever forget Dirk Nowitzki, who is arguably the best European player in NBA history? The legendary German has made a career out of redefining the big man position by hitting long jumpers like a guard at seven feet tall and introducing his patented one-legged fading shot.

who first met on a youth basketball team of the same name when they were ten and eleven years old. United by their love of the game and their yearning for companionship, they quickly forged a bond which would carry them through thick and thin (a lot of thin) and, at last, to the brink of a national championship. They were a motley group who faced challenges all too typical of inner-city America. LeBron grew up without a father and had moved with his mother more than a dozen times by the age of 10. Willie McGee, the quiet one, had left both his parents behind in Chicago to be raised by his older brother in Akron. Dru Joyce was outspoken, and his dad, who was ever-present, would end up coaching all five of the boys in high school. Sian Cotton, who also played football, was the happy-go-lucky enforcer, while Romeo Travis was unhappy, bitter, even surly, until he finally opened himself up to the bond his team mates offered. In the summer after seventh grade, the DREAM TEAM tasted glory when they qualified for a national championship tournament in Memphis. But they lost their focus, and had to go home early. They promised each other they would stay together and do whatever it took to win a national title. They had no idea how hard it would be to pursue that promise. In the years that followed, they would endure jealousy, hostility, exploitation, resentment from the black community (because they went to a "white" high school), and the consequence of their own over-confidence. Not least, they would all have to wrestle with LeBron's outsize success, which brought too much attention and even a whiff of scandal their way. But together these five boys became men as they sought a national championship. Kobe lives and breathes basketball. While other basketball legends fade into obscurity after retirement, Kobe is out there pursuing new endeavors and building a business empire. It's a testament to his relentless thirst for knowledge and never-ending quest to be better. This book

Supplementing Kobe's heartfelt words, highlighting his passion for basketball and the debt he owes those who came before him, Kobe's life philosophy was simple: You can't pay it back, but you can pay it forward. Inspiring adults and children alike, Kobe's poem, an ode to basketball, won him an Oscar when adapted as an animated feature. Basketball's Greatest Small Forwards, you'll read about the inspirational story of basketball's star, Scottie Pippen. This short unauthorized biography of Scottie Pippen highlights the greatest moments of his career. Scottie Pippen was one of the underdog stories of the NBA when he first entered the league, drafted surprisingly as the fifth overall pick by the Seattle SuperSonics before being traded on draft night to the Chicago Bulls. He would become a central figure alongside Michael Jordan in the Bulls' historic championship runs of the 90s. Even after the Bulls dynasty dismantled, Scottie would impress as he spent the later part of his career seeking championship number seven as part of the Portland Trail Blazers. Read on to learn about the days of when Scottie Pippen played alongside Michael Jordan, Dennis Rodman, Toni Kukoc, Ron Harper and Steve Kerr in some of the greatest times of Chicago Bulls' basketball history. Here is a preview of what is inside this book: Childhood and High School Years College Years at the University of Central Arkansas Scottie's NBA Career Pippen's Personal Life Scottie Pippen's Impact on Basketball Pippen's Most Memorable Moments Pippen's Legacy & Future An excerpt from the book: Tom and Jerry. Lone Ranger and Tonto. Sherlock Holmes and Dr. Watson. Batman and Robin. Jordan and Pippen. It's hard to describe a man who many have believed was a mere sidekick to Michael Jordan. However, like Jerry, Tonto, Dr. Watson, and Robin, Scottie Pippen also established a name for himself in the game of basketball. Most of his career happened in the shadows of Jordan and people fail to realize that without Pippen, Chicago potentially would not have created the winning Bulls dynasty. Pippen once said, "Sometimes a player's greatest challenge is coming to grips with his role on the team." He not only came to grips with his role, but embraced it, quietly racking up impressive statistics while giving his teammates the spotlight. The 6-time NBA Champion

and all-leader in steals and assists among forwards, is one of the most versatile players in NBA history. Although Pippen averaged over 20 points a game along with 7 rebounds, he was continually overshadowed by the shooting guard god, Jordan. It wasn't until Pippen was charged with guarding Magic Johnson in the 1991 NBA Finals that everyone began to take notice and see Pippen in his own right. The world soon began to uncover the mystery surrounding Pippen's rise to fame in the basketball world. In the height of his prime, Pippen made 10 consecutive All-NBA First Defensive teams, and was only one of three NBA players to record 200 steals and 100 blocks in a single season. He was known to block the lanes of opposing teams with his unusually long wingspan (2.2m) and jumping ability. Coach Phil Jackson once described him as a "one man wrecking crew." His tireless work ethic and selfless playing style often resulted in him leading the Bulls in blocks and assists. He finished 23rd in all-time assists in his career. Pippen is truly one of the league's greatest treasures and few players in NBA history have actually matched his versatility. He was an incredibly unique player. On defense, he combined his height with strength and athleticism and there was no area he didn't excel in. KG A to Z, published ahead of Garnett's induction into the Basketball Hall of Fame, he looks back on his life and career with the same raw candor. Garnett describes the adversity he faced growing up in South Carolina before ultimately relocating to Chicago, where he became one of the top prospects in the nation. He details his headline-making decision to skip college and become the first player in two decades to enter the draft directly from high school, starting a trend that would be followed by future superstars like Kobe Bryant and LeBron James. He shares stories of playing with and against Bryant, James, Michael Jordan, and other NBA greats, and he chronicles his professional ups and downs, including winning a championship with the Boston Celtics. He also speaks his mind on a range of topics beyond basketball, such as fame, family, racism, spirituality, and music. Garnett's draft decision wasn't the only way he'd forever change the game. His ability to play on the perimeter as a big man foreshadowed the winning strategy now universally adopted by the league. He applies this same innovative spirit here, organizing the contents alphabetically as an encyclopedia. Their physical appearance and sometimes even their disease history become part of who we are. Most of the time, we also copy their attitudes and mannerisms. In the case of Wardell Stephen "Steph" Curry, one cannot help but wonder if he also inherited the shooting touch of his father, Dell Curry. An NBA pundit said that great shooters are not made, they are born. The same can be said about Stephen Curry, to some degree. His father, Dell Curry, was always a great shooter. Dell tallied a total of 1,245 three-pointers in an NBA career that spanned a decade and a half. Steph obviously got a lot of his shooting abilities from the genetics that his father passed on to him. However, the younger Curry is not all genetics. He has taken what his father gave him and raised it to a whole new level because of his insane work ethic. In a sense, Steph is a shooter who was born to be made. basketball's premier shooting guards, Jimmy Butler. Since quickly emerging as one of the key leaders of the Chicago Bulls franchise, Jimmy Butler has established himself as one of the best two-way players to play in today's game. While Derrick Rose was the leader of the Chicago Bulls for the first few years of Butler's career, it could be argued that Butler has since become the main leader of the Bulls when Rose unfortunately came down with a series of tough injuries. Once overlooked in the NBA Draft, as Butler was drafted with the 30th overall pick in 2011, Butler has proven all the scouts wrong on their initial assessments of his abilities, as Butler had demonstrated a high degree of athleticism, basketball intelligence, and influence over games. It will be interesting to watch as Jimmy Butler continues to develop his basketball career, what accomplishments he will be able to achieve. Here is a preview of what is inside this book: Early Life and Childhood College Years (Freshman, Sophomore, Junior, and Senior Year) Jimmy Butler's NBA Career (through halfway of the 2015-2016 season) Butler's Personal Life Jimmy Butler's Impact on Basketball Butler's Legacy and Future An excerpt from the book: Finding the true road to success usually comes with a few bumps along the road. Those can include having to deal with a period of not having a permanent home and trying to find places to stay on a nightly basis. Or having your family kick you out of the home and forcing you to rely on yourself. But sometimes, rewards await those who persevere, and Jimmy Butler is a perfect example of that. The thing about Jimmy Butler is that he has started to become one of the many stars of the National Basketball Association. His debut didn't carry the same weight as some of his peers who came straight out of high school, or after just one season in college basketball. In fact, Butler played his freshman year at a junior college and then three years at Marquette University, where he finished his studies in communication studies. He rarely played

at first, at least before others above him were injured. Then he became accustomed to the difficulty of playing in the NBA, and now he averages more than 20 points per game with playoff contenders, the Chicago Bulls. He hasn't won any championships, Most Valuable Player nominations, or any scoring titles like other superstar players who became synonymous with the franchise - like a certain "Airness" out of North Carolina. And yet he continues to get better. Consider it the fruits of labor of someone who didn't want to fail. Maybe those fruits were planted by seeds from someone who wanted to not let his rough childhood define who he was; a young teenager who became homeless because his mom couldn't stand to look at him. Fans know him as the member of the Chicago Bulls who is more than willing to play every second of the game - including overtime - just to help the team get another win, no matter if they are playing in the season-opener against the worst team in the league, or in a game against the defending NBA champions. the league as a sharp shooter. Klay Thompson and Stephen Curry form arguably the most dangerous backcourt in the NBA due to their impressive ability to shoot and make three-pointers. It isn't uncommon to find the Warriors down more than ten points with only a few minutes to go, and yet still win the game behind a three-point shoot out led by the Splash Brothers. With a new four-year, \$70 million contract as of the 2014-2015 NBA season, Klay Thompson still has much to prove, with his prime still to come. It will be incredibly exciting to follow the young career of this sharp shooter. the player he will become. Growing up in Oregon, he was always with his brothers playing in a multitude of leagues, which included baseball and basketball. In addition, you would always find the Thompson brothers playing hoops in their backyard or in the front driveway. Klay lived a great life with his family and was brought up in a nice neighborhood. There was not much tragedy that Klay had to overcome to get to where he is now. He was not living in a bad neighborhood where rival gangs and drugs were rampant. He did not have to worry where his next meal would come from or whether his dad would ever return back into his life. Nevertheless, Klay's journey is inspirational in itself and he deserves to be exactly where he is because of his poise and character. Growing up with father Mychal Thompson, who was a 2-time NBA Champion, had its benefits and perks. For one, Klay was taught valuable lessons in all areas in life as well as life as a pro from his very own dad. Naturally, Klay was as intrigued as he was curious to know what it was like to play professionally; to play with the best of them. This eventually increased his desire to make it to the NBA and to experience what his father did successfully. One milestone at a time, Klay worked his way through high school, even setting a few records along the way. fast-paced style that did not have a three-point line, NBA basketball transformed into a more structured defensive style of play in the '70s. Then, during the '80s and '90s, the game became more physical as teams relied more on a grind-it-out style that involved a lot of one-on-one, man-to-man defense. During the 2000s, we saw teams relying more on superstars as names such as Kobe Bryant, LeBron James, Dirk Nowitzki, Kevin Garnett, and Dwyane Wade emerged as players you can give the ball to if you want your team to get buckets. This steadily transitioned into a different style of play over the next decade as franchises began to create super teams with three or more All-Stars. However, though there are still super teams in today's era, the style has become more reliant on overall team play instead of just putting the ball in the hands of the team's three All-Stars. We saw the Golden State Warriors playing that way since they won the NBA title in 2015. Though they had many stars on their team, they relied more on spacing and ball movement to win games. This led to the current pace-and-space era where teams rely more on increasing the tempo of the game while spacing the floor with four or more shooters. This pace-and-space era led to the introduction of positionless basketball that demands all five players to bring the ball up, make plays for others, and shoot the ball from the perimeter. You are now seeing frontcourt players 6'7" or taller spacing the floor with their three-point

the book: On April 4, 2014, the Houston Rockets were in trouble. With the arrival of superstar center Dwight Howard, the Rockets were looking to win a championship for the first time in 20 years. Yet while the 2013-14 NBA season had gone smoothly for the Rockets, a potential catastrophe loomed on the horizon. They had just lost three straight games for the first time all season. Dwight Howard was not playing due to ankle issues. And if that was not bad enough, the Oklahoma City Thunder, led by probable MVP Kevin Durant, were in town. The Thunder had defeated the Rockets in all three of their earlier games, blowing them out by 31 points in the first contest. Houston faced the very real possibility of losing the first-round home court advantage that they fought so hard all season to earn. But James Harden would have none of it. He knew how important it was for the Rockets to break the three game losing streak, and he also knew that Houston would clinch a playoff spot with a win. So he got to work immediately. On the first possession, he passed the ball so Terrence Jones could hit a wide-open jump shot. On the second possession, he drove the ball in for a layup. Whenever Houston needed points, Harden was there hitting 3-point shots, drilling free throws, and charging to the basket. His former teammate Kevin Durant finished with 28 points for the night, his 40th straight 25-point game - but it was James Harden, with 39 points, who led Houston to the huge 111-107 win. As

greatest players in league history have had to endure poverty before they found success in the NBA. Allen Iverson barely had a home growing up before he starred at Georgetown. In his MVP speech back in 2014, Kevin Durant said that his mother raised him and his brother alone while the family moved from roof to roof. The same was true for LeBron James, who was raised alone by his mother when she was still 16 years old. These players not only earned millions as NBA superstars, but have also become fan favorites because of how they worked themselves up to get to the league. Likewise, the NBA has also found a liking for players that were seemingly genetically engineered to dominate in the game of basketball. These are the types of players that, at a glance, were naturally destined to be a great because of the physical tools they possess. If the NBA was a horse race, these kinds of players are your thoroughbreds judging by how much more physically gifted and talented they are than the rest of the competition.
