The third Canadian edition addresses the key concepts that nurses must know to practice knowledgeably, accurately, legally, ethically, and with sensitivity and compassion in the dynamic Canadian health care system. Fundamentals of Canadian Nursing focuses on 3 important tenets: process, such as critical thinking, clinical reasoning, decision making; concepts like health promotion, disease prevention, and caring; and skills, such as health assessment, hygiene, and safety. Additionally, the textbook highlights basic nursing care across the lifespan in a variety of settings. Written in clear and accessible language, beginning nurses learn about best practices with real-world applications from the experts. Representing a pan-Canadian experience, the lead editors enlisted two authors, each from different provinces to reflect different geographical experiences, for many chapters. Special features facilitate learning and highlight the 5 major themes that form the framework for this edition—Primary Health Care, Critical Thinking, Clinical Reasoning, Nursing Process, and Lifespan Considerations. Whether you are in law school or a senior partner at an Am Law 100 firm, this book can help you revitalize your career to find the perfect job and create your ideal career. According to a 2014 Gallup poll, only 32.4% of professionals in the United States were engaged with their jobs. And over 15% were actively disengaged. If you want to realize your dreams of a perfect job and ideal career, the career revitalization process provides the framework. Use the framework, follow the process, and take the actions. You will get your perfect job and create your ideal career. A career giving you the freedom to do the work you want to do. When you want to do it. And, with the people you want to do it with. Imagine getting up in the morning looking forward to your day. Being rested and full of energy. Controlling your schedule. Working on projects that interest and excite you. personally fulfilled. You will live your dreams by implementing the career revitalization process. "To change the way students see the world: this is my goal in teaching economics and in writing this book. Three facts about students are my guiding principles. First, they want to learn, but they are over-whelmed by the volume of claims on their time and energy. So, they must see the relevance to their lives and future careers of what they are being asked to learn. Second, students want to get it, and get it quickly. So, they must be presented with clear and succinct explanations. And third, students want to make sense of today's world and be better prepared for life after school. So, they must be shown how to apply the timeless principles of economics and its models to illuminate and provide a guide to understanding today's events and issues, and the future challenges they are likely to encounter. The organization of this text arises directly from these guiding principles"--
