After a family friend bought one of his drawings for 20p, six-year-old Jack came up with the idea to 'draw anything' in return for donations to the hospital that treats his two-year-old brother. His parents set up a website and thought they might make £100. After two weeks, Jack had over 500 picture requests and had raised over £10,000 for the Sick Kids Friends Foundation. Parents Ed and Rose with Jack, Toby and Noah appeared on the Fern Britton Show and Jack's project was featured on Russell Howard's Good News four times. Coverage by STV news, BBC news, and CBBC Newsround have all helped spread the word about this creative and generous little boy. Jack is slowly but steadily drawing the requested pictures which range from a 'dinosaur diving into a pool of jelly' (#1) to 'my (extremely bald) friend Brian dancing like a crazy man' (#80). He doesn't draw every day, only when he wants to, and his parents estimate that he'll finish at the end of August. For the latest drawings, or to make a donation yourself, visit jackdrawsanything.com. Drawing can be such a fun and healthy activity to do with your children. As a parent, have you ever looked into your 5 years old eyes and say: "I am sorry sweetheart, but I have no idea how to draw a dragon or a dinosaur?" This is the exact reason why our book exists. Don't ever feel again like you are failing your kids. Simply let them know although you are a super parent, you don't know everything. However, you know just the guide to pull out of your bookshelf to help them learn along with you. Make this drawing adventure a family affair. Come on kids and parents start this journey with us and let's draw some very special images and create one in a lifetime memories.

Why teach your kid to draw? There are so many reasons. Not only is it a relaxing and enjoyable experience for a child, but it improves their skills. Many children assume that you can either draw or you can't, but of course this isn't true. All great artists start somewhere - by observing instructions and practicing. The idea of this book is to provide an easily accessible starting point. Often, seeing an elaborate drawing is intimidating for kids. It is important to break down the process into smaller steps, so that they can learn that the finished product is made up of different elements. Through doing this, they understand that creating impressive art is a journey in itself. Like all skills, it doesn't happen immediately. However, with the right amount of practice and encouragement, your child will improve. It takes weeks, months or even years but the path will be exciting and rewarding for both you and your child. Who knows where it may lead? Maybe there is a budding painter, photographer or sculptor waiting to shine. The only way to find out is to allow them to express themselves and enjoy the process. Use this book to encourage them, amuse them and most importantly let them explore the possibilities that learning to draw has to offer!
