A dense black cloud boiled up in the southeastern sky. It rose high and fast, like a time-lapse movie of the birth of a thunderhead. But it was no rain cloud. Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.

Since high school everyone thought Jake Bender would end up behind bars; after all, he comes from a long line of bad boys. He spent years away from the place he called home. When he finally comes back, everyone thinks he's just a punk kid all grown up who's now running a dive bar called The Night Club. What they don't know is he heads up a special task force, which cleans up neighborhoods and makes them safe again. Stormy Ryan has always felt more comfortable with her books than with people. She loves to spend her days within the pages of her books. When her second-hand bookstore is robbed for the third time in as many months, her employees quit leaving her to run the shop on her own. With the pressure of having to deal with her shop and people, not to mention the declining neighborhood, she is at the end of her rope. When closing up her shop late one night, she is held up and the neighborhood bad boy saves her, putting both of them at the forefront of a psychotic's obsession. Being bad has never looked so good.

Vivid. Passionate. Witty. Poignant. No one tells a story like Tony Campolo. Why stories? Stories have the power to sneak up on us, catch us unaware, and in the process draw us closer to our fellow human beings . . . and to God. And when Tony Campolo tells a story, we are captivated and entertained by the amazing characters and situations he describes. You'll laugh (or wince) at how one particular missions offering was raised. You'll feel the tragedy of a friend Tony didn't stand up for. You'll thrill to the "Sunday's comin' " sermon. You'll be moved when you learn about the childhood event that caused Bishop Tutu to become a priest. These are stories of hope, doubt, faith, failure, and triumph. Of people standing up for justice, showing mercy, and living for God. But don't just expect to be entertained by Tony Campolo-though you will be. He just might change your heart and your life's priorities. Listen well. You might overhear God talking to you.

The story is about two moms and their children. One mom says "no" all the time, while the other says "yes" to everything. It is cute and engaging all in one, and designed not to take up too much of a parents valuable time, with the idea being to try and imprint wholesome ideals while kids are young. Reading this just a few times to your boy or girl at bedtime will ensure you don't have any misunderstandings with your children about the word "NO" as they grow older. This really is: The Amazing Book of No!

Sometimes, the things that a child hears about himself or herself is confusing to him or her. That is the case with the young boy in Almond Eyes. As a young child, he is constantly told that he has "beautiful Almond Eyes". He doesn't understand what this means until he asks his mother. She explains that his eyes are shaped like almonds because he is Korean. The boy then notices the different eye shapes of all of his friends. This is a wonderful book about celebrating the differences among friends. Joby's life has been nothing but chaos since the day she was born. Left with the forest tribes as a baby, her childhood as a free-spirited young girl is violently thrust into adulthood when the King of the kingdom bordering her tribe's forest threatens her people's safety and peace. Joby will have to learn to fight, lead, and survive, all while having to endure loss and the trials of becoming a woman. Everyone is counting on Joby, and she cannot afford to let them down. Let Me Tell A Story is quite a departure from the military crime fiction Betit has published in the past. Written in the same tight but detailed style characteristic of his earlier books, this collection is a mix of short fiction and memoir, first-person stories that take place over a period of nearly 60 years. Although written in the first person, the narrator of one story is not necessarily the narrator of the next story in the book. It starts with a tale about a 12-year-old boy who learns some important life lessons during a

family trip to Maine's northern-most Aroostook County in the 1950s. It ends with a piece about an elderly Maine couple learning some lessons of their own while coming to grips with old age in the near present. In between there are stories about young soldiers and old soldiers, husbands and wives, mothers and fathers and other sordid types. Half of the ten stories in the book take place in Maine. A lot of the pieces were based on Betit's experiences during the Vietnam War and its aftermath "I call them woulda-coulda-shoulda stories," he said. "All of them contain more than one grain of truth. Usually, a lot more." Previously, Betit published *Phu Bai*, *Kagnew Station* and *The Man In The Canal*, military crime novels set in South Vietnam, Ethiopia and Sweden, respectively, during the late 60s and early 70s. That series follows the adventures of U.S. Army CID investigator John Murphy. During book talks promoting his crime novels Betit sometimes read early versions of a few of the stories in *Let Me Tell A Story* at his events. "It was a good change of pace and the stories were well received," he said. "Like my other books, this book can be classified as a good read."

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? The Missing Years of Thomas Pritchard August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. * * * * * August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before

the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

From their 1974 debut at New York's premier punk dive, through the classic albums and blistering live sets, The Ramones cut an unforgettable swathe through two decades of pop, setting the scene for punk and hardcore with honed-down songs and ferocious 20 minute sets, but always putting the music first. Seen through the eyes of the people who were there at the time, including musicians, managers, producers, publicists and New York punk scenesters, this book shows the heroic Ramones staying faithful to their own unique musical vision right to the bitter end. This updated edition now climaxes with the sad death of guitarist Johnny Ramone.

The authors firmly believe that the human brain best learns new concepts and internalizes information that can change one's perspective and alter behavior through story-telling. . Scientific findings and statistics are churned out at an ever-quickening pace. Recent estimates state that the entire body of scientific knowledge has doubled just since the year 2000. It has become unmanageable to keep up with all the science on health, nutrition, fitness, and wellness. So many people just throw up their hands in frustration, not knowing what to believe, while continuing to follow lifestyles and diets that are often toxic. Yet knowledge is power; you and your loved ones need this information if you are to thrive in this 21st century environment that is so foreign to our genetic identity." Although start-ups represent a major phenomenon in the USA, they also create skepticism and even suspicion, perhaps because of the excesses of the Internet bubble. Apple, Microsoft, Intel, Cisco, Yahoo and Google were all start-ups and these success stories show that the phenomenon is not mere speculation. The goal of this book is to show start-ups from a different angle. Start-ups are created by individuals who are passionate and who have dreams. Therefore this work should not only be read by specialists of innovation or by high tech entrepreneurs, but also by anyone interested in the history and economics of start-ups. The book is presented in two parts: it begins with a presentation of Silicon Valley start-ups, which ends with a description of the ecosystem of this region. The second part is dedicated to Europe, where the start-up phenomenon has failed in comparison. The main message is that it is absolutely necessary to take more inspiration from Silicon Valley.
