AA. VV.

Empire Gore Vidal, 2011-02-23 Empire, the fourth novel in Gore Vidal's monumental six-volume chronicle of the American past, is his prodigiously detailed portrait of the United States at the dawn of the twentieth century as it begins to emerge as a world power. -----While America struggles to define its destiny, beautiful and ambitious Caroline Sanford fights to control her own fate. One of Vidal's most inspired creations, she is an embodiment of the complex, vigorous young nation. From the back offices of her Washington newspaper, Caroline confronts the two men who threaten to thwart her ambition: William Randolph Hearst and his protégé, Blaise Sanford, Caroline's half brother. In their struggles for power the lives of brother and sister become intertwined with those of Presidents McKinley and Roosevelt, as well as Astors, Vanderbilts, and Whitneys--all incarnations of America's Gilded Age. -----Mr. Vidal demonstrates a political imagination and insider's sagacity equaled by no other practicing fiction writer, said The New York Times Book Review. Like the earlier novels in his historical cycle, Empire is a wonderfully vivid documentary drama. -----With a new Introduction by the author.

America's Response to China Warren I. Cohen, 1980

Connecting and Distancing Ho Khai Leong, 2009 Connecting and distancing have been two prominent themes permeating the writings on the historical and contemporary developments of the relationship between Southeast Asia and China. As neighbours, the nation-states in Southeast Asia and the giant political entity in the north communicated with each other through a variety of diplomatic overtures, political agitations, and cultural nuances. In the last two decades with the rise of China as an economic powerhouse in the region, Southeast Asia's need to connect with China has become more urgent and necessary as it attempts to reap the benefit from the successful economic modernization in China. At the same time, however, there were feelings of ambivalence, hesitation and even suspicions on the part of the Southeast Asian states vis-a-vis the rise of a political power which is so less understood or misunderstood. The contributors of this volume are authors of various disciplinary backgrounds: history, political science, economics and sociology. They provide a spectrum of perspectives by which the readers can view Sino-Southeast Asia relations.

Making China Policy Ramon Hawley Myers, Michel Oksenberg, David L. Shambaugh, 2001 The study focuses

systematically on the range of domestic influences, but also considers less obvious but vital roles played by European and Asian nations, as well as Taiwan and China Itself.

Present Dangers Robert Kagan, William Kristol, 2000 This original collection of essays offers hope to those who believe that the cause of world peace requires a new American foreign policy and repairing our depleted military. The twelve contributors to this book show why America must take another look at our possible adversaries and real strategic partners. *Present Dangers* offers practical strategies for policymakers eager to disarm adversaries like North Korea and Iraq and head off the terrorist threat. Intellectuals, historians and policy-makers such as James Ceasar, Ross Munro, Peter Rodman, Richard Perle, Reuel Marc Gerech, Nicholas Eberstadt, Jeffrey Gedmin, Aaron Friedberg, Elliott Abrams, Frederick Kagan, William Schneider, William Bennett, Paul Wolfowitz, and Donald Kagan all challenge America to make sure that foreign affairs, a sleeping issue for the last eight years, gets a wake-up call in election year 2000. Table of contents, notes, bibliographic essay.

Tajikistan Mohammad Reza Djalili, Frédéric Grare, Shirin Akiner, 1998 Examines the causes of the post-independence turmoil, and analyses social and political dynamics at work throughout Central Asia.

Tangled Titans David L. Shambaugh, 2013 *Tangled Titans* offers the most current and comprehensive assessment available of United States-China relations. In this definitive book, leading experts consider the past, present, and future of this complex relationship through an in-depth exploration of its historical, domestic, bilateral, regional, and global contexts. Never in modern history have two great powers been so deeply intertwined, yet so suspicious and potentially antagonistic. Readers will find *Tangled Titans* essential reading to understand the current dynamics and future direction of relations between the world's two most important powers.--Page 4 of cover.

Shock and Awe: Achieving Rapid Dominance James P. Wade, Harlan K. Ullman, 2018-09-12 The military posture and capability of the United States of America are, today, dominant. Simply put, there is no external adversary in the world that can successfully challenge the extraordinary power of the American military in either regional conflict or in conventional war as we know it once the United States makes the commitment to take whatever action may be needed. To be sure, the first phase of a crisis may be the most difficult-if an aggressor has attacked and U.S. forces are not in place. However, it will still be years, if not decades, before potential adversaries will be able to deploy systems with a full panoply of capabilities that are equivalent to or better than the aggregate strength of the ships, aircraft, armored vehicles, and weapons systems in our inventory. Even if an adversary could deploy similar systems, then matching and overcoming the superb training and preparation of American service personnel would still be a daunting task.

Profiles in Terror Aaron Mannes, 2004 This valuable new title profiles more than twenty terrorist organizations operating in the Middle East and their affiliate groups worldwide. Designed as a complete, indispensable guide, the book's profiles describe essential characteristics, external relations and financial support and more.

The Transformation of Central Asia Pauline Jones Luong,2018-08-06 With the fall of the Soviet Union in 1991, former Communist Party leaders in Central Asia were faced with the daunting task of building states where they previously had not existed: Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. Their task was complicated by the institutional and ideological legacy of the Soviet system as well as by a more actively engaged international community. These nascent states inherited a set of institutions that included bloated bureaucracies, centralized economic planning, and patronage networks. Some of these institutions survived, others have mutated, and new institutions have been created. Experts on Central Asia here examine the emerging relationship between state actors and social forces in the region. Through the prism of local institutions, the authors reassess both our understanding of Central Asia and of the state-building process more broadly. They scrutinize a wide array of institutional actors, ranging from regional governments and neighborhood committees to transnational and non-governmental organizations. With original empirical research and theoretical insight, the volume's contributors illuminate an obscure but resource-rich and strategically significant region.

Caucasian Battlefields William Edward David Allen,Paul Muratoff,2011-02-17 The authoritative description and analysis of four major wars which took place in the Caucasus region between 1828 and 1921.

The Messina Strait Bridge Fabio Brancaleoni,Giorgio Diana,Ezio Faccioli,Giuseppe Fiammenghi,Ian P.T. Firth,Niels J. Gimsing,Michele Jamiolkowski,Peter Sluszk,Giovanni Solari,Gianluca Valensise,Enzo Vullo,2009-09-23 This book describes the enormous depth of work carried out since the early 1970s on the Messina Strait Bridge, up to the recent award of the detailed design and construction contract. This important work has included extensive studies, concepts and design developments, with far reaching applications, which have all confirmed the feasibility of this

Cool War Noah Feldman,2013 Argues that the United States and China are in a contest for dominance, alliances, and resources, focusing on the global economic impact of this cool war instead of the political consequences.

Changing Urban Landscapes AA. VV.,2013-09-02T00:00:00+02:00 The vast territory from Asia to Eastern Europe that was part of or under the influence of the Soviet Union comprised cities, which have undergone profound changes in the last twenty years. The opening of borders combined with the affirmation of market dynamics, privatization and concentration of wealth, and the emergence of nationalist discourses have upset ways of life and value systems leaving deep marks on the urban landscape and organization of living space. These essays take an in-depth look at specific cases - Samarkand, Sarajevo, Berlin, Almaty, and others - to offer a complex picture of the transformations affecting the post-communist city.

The New World: Problems in Political Geography Isaiah Bowman,1928

Julian Gore Vidal,2018-08-22 Julian the Apostate was the nephew of Emperor Constantine the Great. Julian ascended to

the throne in A.D. 361, at the age of twenty-nine, and was murdered four years later after an unsuccessful attempt to rebuke Christianity and restore the worship of the old gods. Now this historical tapestry is brought to vibrant life by the dazzling talent of Gore Vidal.

Creation Gore Vidal,2018-08-22 Once again the incomparable Gore Vidal interprets and animates history -- this time in a panoramic tour of the 5th century B.C. -- and embellishes it with his own ironic humor, brilliant insights, and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy, and adventure . . . There isn't a page of CREATION that doesn't inform and very few pages that do not delight. -- John Leonard, The New York Times

1876 Gore Vidal,2018-08-22 The third volume of Gore Vidal's magnificent series of historical novels aimed at demythologizing the American past, 1876 chronicles the political scandals and dark intrigues that rocked the United States in its centennial year. -----Charles Schermerhorn Schuyler, Aaron Burr's unacknowledged son, returns to a flamboyant America after his long, self-imposed European exile. The narrator of Burr has come home to recoup a lost fortune by arranging a suitable marriage for his beautiful daughter, the widowed Princess d'Agrigente, and by ingratiating himself with Samuel Tilden, the favored presidential candidate in the centennial year. With these ambitions and with their own abundant charms, Schuyler and his daughter soon find themselves at the centers of American social and political power at a time when the fading ideals of the young republic were being replaced by the excitement of empire. -----A glorious piece of writing, said Jimmy Breslin in Harper's. Vidal can take history and make it powerful and astonishing. Time concurred: Vidal has no peers at breathing movement and laughter into the historical past. -----With a new Introduction by the author.
