US-Mexico border region area has unique social, demographic and policy forces at work that shape the health of its residents as well as serves as a microcosm of migration health challenges facing an increasingly mobile and globalized world. This region reflects the largest migratory flow between any two nations in the world. Data from the Pew Research Center shows over the last 25 years there has never been lower than 140,000 annual immigrants from Mexico to the United States (with peaks over 700,000). This migratory route is extremely hazardous due to natural (e.g., arid and hot desert regions) and human made barriers as well as border enforcement practices tied to socio-political and geopolitical pressures. Also, reflecting the national interdependency of public health and human services needs, during the most recent five year period surveyed the migratory flow between the US and Mexico has equaled that of the flow of Mexico to the US--both around 1.4 million persons. Of particular public health concern, within the US-Mexico region of both nations there is among the highest disparities in income, education, infrastructure and access to health care--factors within the World Health Organization's conceptualization of the Social Determinants of Health, and among the highest rates of chronic disease. For instance obesity and diabetes rates in this region are among the highest of those monitored in the world, with adult population estimates of the former over 40% and estimates in some population sub-groups for the latter over 20%. The publications reflected in this Research Topic, all reviewed from experts in the field, addressed many of the public health issues in the US Mexico Border Health Commission's Healthy Border 2020 objectives. Those objectives-- broad public health goals used to guide a diverse range of government, research and community-based stakeholders--include Non Communicable Diseases (including adult and childhood obesity-related ones; cancer), Infectious Diseases (e.g., tuberculosis; HIV; emerging diseases--particularly mosquito borne illnesses), Maternal and Child Health, Mental Health Disorders, and Motor Vehicle Accidents. Other relevant public health issues affecting this region, for example environmental health, binational health services coordination (e.g., immunization), the impact of migration throughout the Americas and globally in this region, health issues related to the physical climate, access to quality health care, discrimination/mistreatment and well-being, acculturative/immigration stress, violence, substance use/abuse, oral health, respiratory disease, and well-being from a social determinants of health framework, are critical areas addressed in these publications or for future research. Each of these Research Topic publications presented applied solutions (e.g., new programs, technology or infrastructure) and/or public health policy recommendations relevant to each public health challenge addressed.

Vence tus temores con la fe Para muchas personas, la preocupación, la ansiedad y el miedo son compañeros constantes: miedo a la muerte, miedo al peligro, miedo a la enfermedad... y muy a menudo estos miedos nos imposibilitan; nos impiden vivir la vida que Dios nos ha llamado a vivir. Pero no tiene que ser así, dice el doctor David Jeremiah. A nosotros como cristianos se nos ha dado todo que necesitamos para enfrentar hasta los obstáculos más espantosos, inesperados y aplastantes en la vida. En este libro, el doctor David Jeremiah explora los diez mayores miedos que frenan a muchas personas y los impide experimentar la vida que Dios los ha llamado a vivir. Jeremiah comparte secretos sobrenaturales para confrontar estos miedos con la fe. For many people, worry, anxiety, and fear are constant companions: fear of death, fear of danger, fear of disease. And too often, these fears are crippling, keeping us from the life God has called us to live. But it doesn't have to be that way, says Dr. David Jeremiah. As Christians, we have been given all we need in order to face down even the most frightening, unexpected, and overwhelming obstacles in life. In his new book, *What Are You Afraid Of?*, Dr. Jeremiah explores the top ten fears that are holding so many of us back from the life God has called us to live and shares the supernatural secrets for facing down these fears with faith.

For too many believers, God's wonderful creation of sex has become a source of spiritual slavery rather than a liberating blessing. Neil T. Anderson presents a clarifying, refreshing look at God's plan for sex and how Christians can release a distorted view of physical intimacy and embrace a pure, godly view of this gift. With biblical advice and compassion, Anderson points to the way out of confusion and shame by exposing the guilt, anger, and fear involved in sexual struggles showing how believing the truth breaks the sexual and emotional lies giving practical steps to overcome spiritual entrapment with God's Word As Christians grasp what the Bible says about who they really are—God's loved children and new creations in His Son—they will be able to enjoy and value His marvelous design for their emotions and bodies. A newly updated and expanded version of *Finding Freedom In a Sex-Obsessed World*.

With Mexico's War on Crime as the backdrop, *Making Things Stick* offers an innovative analysis of how surveillance technologies impact governance in the global society. More than just tools to monitor ordinary people, surveillance technologies are imagined by government officials as a way to reform the national state by focusing on the material things—cellular phones, automobiles, human bodies—that can enable crime. In describing the challenges that the Mexican government has encountered in implementing this novel approach to social control, Keith Guzik presents surveillance technologies as a sign of state weakness rather than strength and as an opportunity for civic engagement rather than retreat.

This book highlights historical explanations to and roots of present phenomena of violence, insecurity, and law enforcement in Central America. Violence and crime are among the most discussed topics in Central America today, and sensationalism and fear of crime is as present as the increase of private security, the re-militarization of law enforcement, political populism, and *mano dura* policies. The contributors to this volume discuss historical forms, paths, continuities, and changes of violence and its public and political discussion in the region. This book thus offers in-depth analysis of different patterns of violence, their reproduction over time, their articulation in the present, and finally their discursive mobilization.

Neil Anderson, author of the bestselling *Bondage Breaker*, teams up with Robert Saucy to present an extraordinary book on how Christ transforms the life of a believer. Here, the authors help resolve the confusion about our perfect identity in Christ and our imperfect living in the world.

There is extraordinary diversity, depth, and complexity in the encounter between theatre, performance, and human rights. Through an examination of a rich repertoire of plays and performance practices from and about countries across six continents, the contributors to this volume seek to open the way toward understanding the character and significance of this encounter. Divided into three interrelated sections, the book focuses on a range of critical and timely human rights questions as they relate to transitional justice, memory politics, citizenship, the 'War on Terror,' transnational spectatorship, and the global economic order. Authors ask what artists, audiences and readers imagine, expect, and desire from the engagement of theatre and performance with these crucial questions. Ultimately, this book aims to provide nuanced, global perspectives on the emerging and transformative aesthetics, ethics and effects of this encounter at the turn of the twenty-first century.

The online economy offers challenges to traditional businesses as well as incredible opportunities. Known as "Freemium," this combination of free and paid is emerging as one of the most powerful digital business models. In *Free*, Chris Anderson explores this radical idea for the new global economy and demonstrates how it can be harnessed for the benefit of consumers and businesses alike. In the twenty-first century, *Free* is more than just a promotional gimmick: It's a business strategy that is essential to a company's successful future. Download the audiobook of *Free* for free! Striking at the very roots of fear and anxiety, bestselling authors Anderson and Miller reveal how readers can overcome their fears through the power of Jesus Christ. Even believers can let the normal concerns of life get blown out of proportion, becoming ensnared in worry and anxiety: What if something happens to my spouse? What if something

were to happen to one of my children? What if this plane crashes? Uncovering the surprising scope of fear in the body of Christ and how many Christians who believe in the Lord's care and love are being kept from God's best by their fears, *Freedom from Fear* shows readers how to take back their lives. This eye-opening book examines the roots of worry and anxiety, such as fear of rejection, disapproval, failure, and the unknown. Readers will learn how fear-filled strongholds develop and discover the tools they need to tear down the prison walls. Reaching out to anyone crippled by worries, Anderson and Miller share how the fear of God dispels all unhealthy fears and leads believers to joyous freedom. Includes a 21-day devotional guide to help readers on their journey from fear to peace.

An exploration of social movement media practices in an increasingly complex media ecology, through richly detailed cases of immigrant rights activism. For decades, social movements have vied for attention from the mainstream mass media—newspapers, radio, and television. Today, many argue that social media power social movements, from the Egyptian revolution to Occupy Wall Street. Yet, as Sasha Costanza-Chock reports, community organizers know that social media enhance, rather than replace, face-to-face organizing. The revolution will be tweeted, but tweets alone do not the revolution make. In *Out of the Shadows, Into the Streets!* Costanza-Chock traces a much broader social movement media ecology. Through a richly detailed account of daily media practices in the immigrant rights movement, the book argues that there is a new paradigm of social movement media making: transmedia organizing. Despite the current spotlight on digital media, Costanza-Chock finds, social movement media practices tend to be cross-platform, participatory, and linked to action. Immigrant rights organizers leverage social media creatively, even as they create media ranging from posters and street theater to Spanish-language radio, print, and television. Drawing on extensive interviews, workshops, and media organizing projects, Costanza-Chock presents case studies of transmedia organizing in the immigrant rights movement over the last decade. Chapters focus on the historic mass protests against the anti-immigrant Sensenbrenner Bill; coverage of police brutality against peaceful activists; efforts to widen access to digital media tools and skills for low-wage immigrant workers; paths to participation in DREAM activism; and the implications of professionalism for transmedia organizing. These cases show us how savvy transmedia organizers work to strengthen movement identity, win political and economic victories, and transform public consciousness forever.

The odd thing about Walter Schoen, German born but now running a butcher shop in Detroit, he's a dead ringer for Heinrich Himmler, head of the SS and the Gestapo. They even share the same birthday. Honey Deal, Walter's American wife, doesn't know that Walter is a member of a spy ring that sends U.S. war production data to Germany and gives shelter to escaped German prisoners of war. But she's tired of telling him jokes he doesn't understand—it's time to get a divorce. Along comes Carl Webster, the hot kid of the Marshals Service. He's looking for Jurgen Schrenk, a former Afrika Korps officer who escaped from a POW camp in Oklahoma. Carl's pretty sure Walter's involved with keeping Schrenk hidden, so Carl gets to know Honey, hoping she'll take him to Walter. Carl then meets Vera Mezwa, the nifty Ukrainian head of the spy ring who's better looking than Mata Hari, and her tricky lover Bohdan with the Buster Brown haircut and a sly way of killing. Honey's a free spirit; she likes the hot kid marshal and doesn't much care that he's married. But all Carl wants is to get Jurgen Schrenk without getting shot. And then there's Otto—the Waffen-SS major who runs away with a nice Jewish girl. It's Elmore Leonard's world—gritty, funny, and full of surprises.

Best-selling author shares his inspirational journey Today known as the author of the mega-seller *The Bondage Breaker* and the founder of Freedom in Christ ministries, Neil Anderson didn't always know that he was called to serve the Lord as a Christian minister. Though he is sure of his calling now, he readily admits that he has never sought a position in ministry and though he has founded and led a successful international parachurch organization, he refuses to spend a minute of his time to keep it in business. The son and grandson of Norwegian farmers,

Anderson grew up in rural Minnesota. He was a fun-loving, sports-crazy child, and no one suspected that God had planted a seed in him that would lead first to years as a pastor, then to teach in seminary, write or coauthor sixty books, and found a global ministry. Here he honestly shares his journey, complete with struggles and trials as he learns to be guided by the Holy Spirit. Though he still asks God, "Why me?" he continues to set people on the path to true freedom in Christ.

This popular text gives students a comprehensive and readable introduction to contemporary issues in learning and behaviour, while providing balanced coverage of classical and instrumental conditioning.

A state-of-the-art collection of works on institutional discourse across the Spanish-speaking world. This volume focuses on how language is used in the media, politics and the workplace; what discursive identities are constructed; and how interpersonal relations are negotiated.

Mapping literature from Spanish-speaking sub-Saharan African and Afro-Latinx Caribbean diasporas, Decolonizing Diasporas argues that the works of diasporic writers and artists from Equatorial Guinea, Puerto Rico, the Dominican Republic, and Cuba offer new worldviews that unsettle and dismantle the logics of colonial modernity. With women of color feminisms and decolonial theory as frameworks, Yomaira C. Figueroa-Vásquez juxtaposes Afro-Latinx and Afro-Hispanic diasporic artists, analyzing work by Nelly Rosario, Juan Tomás Ávila Laurel, Trifonia Melibea Obono, Donato Ndongo, Junot Díaz, Aracelis Girmay, Loida Maritza Pérez, Ernesto Quiñonez, Christina Olivares, Joaquín Mbomio Bacheng, Ibeyi, Daniel José Older, and María Magdalena Campos-Pons. Figueroa-Vásquez's study reveals the thematic, conceptual, and liberatory tools these artists offer when read in relation to one another. Decolonizing Diasporas examines how themes of intimacy, witnessing, dispossession, reparations, and futurities are remapped in these works by tracing interlocking structures of oppression, including public and intimate forms of domination, sexual and structural violence, sociopolitical and racial exclusion, and the haunting remnants of colonial intervention. Figueroa-Vásquez contends that these diasporic literatures reveal violence but also forms of resistance and the radical potential of Afro-furutures. This study centers the cultural productions of peoples of African descent as Afro-diasporic imaginaries that subvert coloniality and offer new ways to approach questions of home, location, belonging, and justice.

The groundbreaking bestseller that redefines intelligence and success Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us.
