Il presente volume è nato per permettere al lettore di rivolgere uno sguardo consapevole verso il sapere psicologico. Cos'è la psicologia generale? Perché la psicologia è definita una scienza? Come si svolge una ricerca? Come sentiamo, come percepiamo, come impariamo, come ricordiamo, come comunichiamo, come ci emozioniamo? Rispondere a questi interrogativi sarà lo scopo di questo libro, trasmettere passione e stimolare la vostra curiosità ad approfondire sempre di più la conoscenza della psiche dell'uomo è l'esito auspicato.

Enter a magical world where dinosaurs and knights have come to life in this fact-filled, lift-the-flap caper! It's midnight in the museum and there's a mammoth on the loose! Can Oscar catch him before the witching hour is up?

Non si parla di religione e di fede in questo libro. Molti pensano che la Bibbia sia solo un codice di leggi e precetti rituali. Per altri è solo un libro di storia o di religione. Altri ancora la ritengono solo un libro di racconti, miti e leggende. Che dire invece della conoscenza che la Bibbia dimostra di avere della natura umana? Avete mai considerato la Bibbia come un libro di psicologia? Lo è? Sono efficaci i suoi consigli per l'uomo moderno? Sarai tu stesso a rispondere a queste domande dopo aver letto questo libro. Attraverso le sue pagine sarai aiutato a compiere un viaggio avventuroso nei meandri della mente accompagnato dai concetti di psicologia racchiusi negli scritti delle cosiddette 'Sacre Scritture'. Si parlerà di pensieri, emozioni, sentimenti e comportamenti umani, di relazioni sociali e familiari, e di crescita personale alla ricerca della propria libertà e indipendenza emotiva, della propria realizzazione e del conseguimento del successo personale e della felicità.

Have you heard about the man who lived with a hole in his head? Or the boy raised by his parents as a girl? From the woman with multiple personalities, to the man with no brain, this collection of case studies provides a compelling insight into the human mind. This is a fascinating collection of human stories. Some are well-known case studies that have informed clinical practice, others are relatively unknown. For this edition, Rolls has added recent research findings on each case study plus four brand new cases: the story of Washoe, the ape who could communicate; the much debated case of Holly Ramona and repressed memory; and Kim Peek, the real 'Rainman'. Classic Case Studies in Psychology is for everyone who has ever wondered about the stranger side of life. No prior knowledge of psychology is required, just an open mind. For those who wish to use this book as part of their studies, or who are just keen to learn more, fun multiple choice questions, fascinating further reading, helpful web links, and self-assessment questions are all available free on our website, [www.routledge.com/cw/rolls](http://www.routledge.com/cw/rolls). Prepare to be amazed ...

From the country's leading couple therapist duo, a practical guide to what makes it all work. In 10 Principles for Doing Effective Couples Therapy, two of the world's leading

## Get Free Libro Di Psicologia Generale

couple researchers and therapists give readers an inside tour of what goes on inside the consulting rooms of their practice. They have been doing couples work for decades and still find it challenging and full of learning experiences. This book distills the knowledge they've gained over their years of practice into ten principles at the core of good couples work. Each principle is illustrated with a clinically compiled case plus personal side-notes and storytelling. Topics addressed include: • You know that you need to “treat the relationship,” but how are you supposed to get at something as elusive as “a relationship”? • How do you empathize with both clients if they have opposite points of view? Later on, if they end up separating does that mean you've failed? Are you only successful if you keep couples together? • Compared to an individual client, a relationship is an entirely different animal. What should you do first? What should you look for? What questions should you ask? If clients give different answers, who should you believe? • What are you supposed to do with all the emotional and personal history that your clients stir up in you? • How can you make your work research-based? No one who works with couples will want to be without the insight, guidance, and strategies offered in this book.

Neuroeconomics, neuromarketing, neuroaesthetics, and neurotheology are just a few of the novel disciplines that have been inspired by a combination of ancient knowledge along with recent discoveries about how the human brain works. This fascinating and thought provoking new book critically questions our love affair

with brain imaging.

Mai sentito parlare dell'uomo che visse con un buco nella testa? O del ragazzo cresciuto dai suoi come se fosse una ragazza? Della donna dalle molteplici personalità o dell'uomo senza cervello? Questa raccolta di casi è ricca di affascinanti intuizioni sulla mente umana; alcuni sono poco conosciuti mentre altri sono più famosi e hanno guidato la pratica clinica. Per questa seconda edizione, presentata per la prima volta in versione italiana, l'autore Geoff Rolls ha incluso recenti scoperte su ciascuna delle storie presentate e ha aggiunto casi completamente nuovi come la storia di Washoe, la scimmia che poteva comunicare, il caso dibattuto di Holly Ramona e della memoria repressa o la storia di Kim Peek, il vero "Rainman". Casi classici in psicologia è rivolto sia agli studenti di psicologia, che potranno così approfondire la loro conoscenza su questi studi, sia a tutti coloro che desiderano apprendere qualcosa di nuovo sul comportamento umano. Il volume infatti è corredato da un glossario di termini psicologici in modo da rendere i contenuti accessibili a tutti.

Essentials of Social Psychology provides a clear, concise and engaging introduction to the field. Covering all the major topics and theoretical perspectives, this exciting new book provides straightforward explanation of key terms and concepts in a lively and student-friendly manner. Debates and

controversies are brought to life and the wider practical relevance of the subject is emphasised throughout. Pedagogical features that appear across the book include Research Classic sections which describe classic studies, Research Applications boxes that highlight more contemporary developments in social psychological research and their practical applications, Real World features that look at the everyday relevance of social psychology, and Literature, Film and TV features that demonstrate how social psychological concepts are dealt with in popular media. An international balance of research alerts students to the cross cultural dimensions of social psychology. *Essentials of Social Psychology* is accompanied by MyPsychLab, an interactive online study resource designed to help students to consolidate and further their understanding. Together, the book and online support make this an ideal resource for those studying the subject for the first time, or as part of a more general programme of study.

As Bowlby himself points out in his introduction to this seminal childcare book, to be a successful parent means a lot of very hard work. Giving time and attention to children means sacrificing other interests and activities, but for many people today these are unwelcome truths. Bowlby's work showed that the early interactions between infant and caregiver have a profound impact on an infant's social, emotional, and intellectual growth. Controversial yet powerfully influential to this day, this classic collection of
