As former CIA agents and bestselling authors of *Spy the Lie*, Philip Houston, Mike Floyd, and Susan Carnicero are among the world's best at detecting deceptive behavior and eliciting the truth from even the most accomplished liars. *Get the Truth* is a step-by-step guide that empowers readers to elicit the truth from others. It also chronicles the fascinating story of how the authors used a methodology Houston developed to elicit the truth in the counterterrorism and criminal investigation realms, and how these techniques can be applied to our daily lives. Using thrilling anecdotes from their careers in counterintelligence, and with easy-to-follow instructions, the authors provide a foolproof means of getting absolutely anybody to give an honest answer. *Get the Truth* is the easy and effective way to learn how to get the truth every time.

As contrary as it sounds, "planning" -- as we traditionally understand the term--can be the worst thing a company can do. Consider that volatile weather events disrupt trusted supply chains, markets, and promised delivery schedules. Ever-shifting geo-political tensions, as well as internal political upheaval within U.S. and global governments, derail long-planned new ventures. Technology failures block opportunities. Competitors suddenly change their product or release date; your team cannot meet the pace of innovations in your market niche, leaving you sidelined. There are myriad ways in the current business environment for a company's well-considered business plans to go awry. Most business schools continue to prepare managers to be effective in stable and predictable environments, conditions that, if they ever existed at all, are long gone. The Agility Shift shows business leaders exactly how to make the radical

mindset and strategy shift necessary to create an agile, entrepreneurial organization that can innovate and thrive in complex, ever-changing contexts. As author Pamela Meyer explains, there is much more involved than a reconfiguration of the org chart and job descriptions. It requires relinquishing the illusion of control at the very foundation of most management training and business practice. Despite most leaders' approaches, "Agility is not simply accelerated planning." Unlike many agility books on the market, *The Agility Shift* provides specific, actionable strategies and tactics for leaders at all levels of the organization to put into practice immediately to improve agility and achieve results.

Lena wrote *You're Lying!* because no matter what your profession or life circumstances, you need the skills to take control of a situation, detect deception, and reveal the truth. While you probably won't ever have to interrogate a detainee who doesn't want to tell you about an upcoming terrorist attack—as Lena has—*You're Lying!* will help you deal with that salesperson trying to rip you off, the kid bullying your child who claims innocence, a cheating spouse, or dissembling boss. As the adage says, knowledge is power. Lena interrogated numerous members of Al Qaeda and the Taliban while stationed at Guantanamo Bay, Cuba, then taught those skills to Defense Department personnel for years afterward. Her ability to build rapport, accurately read body language, and employ effective questioning techniques led to numerous successes that saved American lives. You will also learn her easy-to-follow five-step program on how to

The tools to achieve this vision are more than 70 patterns for rebellious change written by industry leaders of thought and practice. Each pattern represents an aspirational, future-oriented ideal for a key aspect of a neighborhood. At once an urgent call to action and a guidebook for change, *Sustainable Nation* is an essential resource for urban designers, planners, and architects.

There's nothing better than a book you can't put down—or better yet, a book you'll never forget. This book puts the power of transformational reading into your hands. Jack Canfield, cocreator of the bestselling Chicken Soup for the Soul® series, and self-actualization pioneer Gay Hendricks have invited notable people to share personal stories of books that changed their lives. What book shaped their outlook and habits? Helped them navigate rough seas? Spurred them to satisfaction and success? The contributors include Dave Barry, Stephen Covey, Malachy McCourt, Jacquelyn Mitchard, Mark Victor Hansen, John Gray, Christiane Northrup, Bernie Siegel, Craig Newmark, Michael E. Gerber, Lou Holtz, and Pat Williams, to name just a few. Their richly varied stories are poignant, energizing, and entertaining. Author and actor Malachy McCourt tells how a tattered biography of Gandhi, stumbled on in his youth, offered a shining example of true humility—and planted the seeds that would help support his sobriety decades later. Bestselling author and physician Bernie Siegel, M.D., tells how William Saroyan's *The Human Comedy* helped him realize that, in order to successfully treat his patients with life-threatening illnesses, "I had to help them live—not just prevent them from dying." Actress Catherine Oxenberg reveals how,

Rafe Esquith, the award-winning teacher whose inner-city students have performed Shakespeare all over the world, recounts his deep self-doubt in the midst of his success—and how reading *To Kill a Mockingbird* strengthened him to continue teaching. Beloved librarian and bestselling author Nancy Pearl writes how, at age ten, Robert Heinlein's science fiction book *Space Cadet* impressed on her the meaning of personal integrity and gave her a vision of world peace she'd never imagined possible. Two years later, she marched in her first civil rights demonstration and learned that there's always a way to make "a small contribution to intergalactic harmony." If you're looking for insight and illumination—or simply for that next great book to read—*You've Got to Read This Book!* has treasures in store for you.

A new set of organizations has discovered a new formula: they combine customer-centricity with innovative power. These organizations have created a completely outside-in approach to the market. Not driven by what they're good at, they start with the market and design their strategy around it, replacing practices of the past with a new set of capabilities which enable them to be ahead of the curve in discovering new market opportunities. Whereas the traditional value chain model regards the market as the end-outcome of the efforts of the organization, the reversed value chain model starts there. The customer is the starting point and the value chain is the result of understanding customer needs

and requirements. Customer Innovation presents this unique case for developing the outside-in organization to drive your business success, combining market orientation with innovation to enable actionable positive change in the way your company does business. Winner of the Innovation and Entrepreneurship category of the 2015 CMI Management Book of the Year Awards, Customer Innovation provides every business with the framework it needs to combine customer focus with innovation to achieve success. It is packed with real world examples from a range of leading global companies including Disney, Coca-Cola, LEGO, Eurex, Netflix, KLM, Carglass, Komatsu, Callebaut and more to help you put market awareness at the heart of your business.
