A NEW YORK TIMES NOTABLE BOOK • A NEW YORK TIMES EDITORS' CHOICE • A tense, stunningly well-observed novel of a young American on the run, from Lawrence Osborne, “an heir to Graham Greene” (The New York Times Book Review) “Bangkok is the star of this accomplished novel. Its denizens are aliens to themselves, glittering on the horizon of their own lives, moving—restless and rootless and afraid—though a cityscape that has more stories than they know.”—Hilary Mantel, Booker Prize-winning author of *Wolf Hall* and *Bring Up the Bodies* Escaping New York for the anonymity of Bangkok, Sarah Mullins arrives in Thailand on the lam with nothing more than a suitcase of purloined money. Her plan is to lie low and map out her next move in a high-end apartment complex called the Kingdom, whose glass-fronted façade boasts views of the bustling city and glimpses into the vast honeycomb of lives within. It is not long before she meets the alluring Mali doing laps in the apartment pool, a fellow tenant determined to bring the quiet American out of her shell. An invitation to Mali’s weekly poker nights follows, and—fueled by shots of yadong, good food, and gossip—Sarah soon falls in with the Kingdom’s glamorous circle of ex-pat women. But as political chaos erupts on the streets below and attempted uprisings wrack the city, tensions tighten within the gilded compound. When the violence outside begins to invade the Kingdom in a series of strange disappearances, the residents are thrown into suspicion: both of the world beyond their windows and of one another. And under the constant surveillance of the building’s watchful inhabitants, Sarah’s safe haven begins to feel like a snare. From a master of atmosphere and mood, *The Glass Kingdom* is a brilliantly unsettling story of civil and psychological unrest, and an enthralling study of karma and human greed.

One-by-one, the members of the Shivers family disappear from the inside of their chilly refrigerator home.

A Message from Mike Rowe, the Dirty Jobs Guy: Just to be clear, *About My Mother* is a book about my grandmother, written by my mother. That’s not to say it’s not about my mother—it is. In fact, *About My Mother* is as much about my mother as it is about my grandmother. In that sense, it’s really a book about “mothers.” ...It is not, however, a book written by me. True, I did write the foreword. But it doesn’t mean I’ve written a book about my mother. I haven’t. Nor does it mean my mother’s book is about her son. It isn’t. It’s about my grandmother. And my mother. Just to be clear.—Mike A love letter to mothers everywhere, *About My Mother* will make you laugh and cry—and see yourself in its reflection. Peggy Rowe’s story of growing up as the daughter of Thelma Knobel is filled with warmth and humor. But Thelma could be your mother—there’s a Thelma in everyone’s life. Shes the person taking charge—the one who knows instinctively how things should be. Today Thelma would be described as an alpha personality, but while growing up, her daughter Peggy saw her as a dictator—albeit a benevolent, loving one. They clashed from the beginning—Peggy, the horse-crazy tomboy, and Thelma, the genteel-yet-still-controlling mother, committed to raising two refined, ladylike daughters. Good luck. When major league baseball came to town in the early 1950s and turned sophisticated Thelma into a crazed Baltimore Orioles groupie, nobody was more surprised and embarrassed than Peggy. Life became a series of compromises—Thelma tolerating a daughter who pitched manure and galloped the countryside, while Peggy learned to tolerate the whacky Orioles fan who threw her underwear at the television, shouted insults at umpires, and lived by the orange-and-black schedule taped to the refrigerator door. Sometimes, we’re more alike than we know. And in case you’re wondering, Peggy knows a thing or two about dirty jobs herself...

Life on the Refrigerator Door is a poignant and deeply moving first novel about the bonds of love and frustration that tie mothers and daughters together. Told entirely in a series of notes left on the kitchen fridge—some casual, some intimate, some funny, some angry—it is the story of nine months in the life of 15-year-old Claire and her single mother. Preoccupied with their busy separate lives, rarely in the same room at the same time, they talk to each other in a series of short snippets that reflect the daily drama of school, boyfriends, work and chores that make up their days. Yet the mundane soon becomes extraordinary when a crisis overtakes their lives—a momentous change that will redefine their relationship and unfold in their exchanges on the refrigerator door. Short, powerful and unforgettable, Kuipers’ novel looks deep into the complex relationship between mothers and daughters, and the distances that can open up between people who live together but exist in their own worlds. Unfolding in a wonderfully simple and intimate narrative, *Life on the Refrigerator Door* will appeal to readers across the generations, delivering universal lessons about love.

In this revelatory, authoritative portrait of Donald J. Trump and the toxic family that made him, Mary L. Trump, a trained clinical psychologist and Donald’s only niece, shines a bright light on the dark history of their family in order to explain how her uncle became the man who now threatens the world’s health, economic security, and social fabric. Mary Trump spent much of her childhood in her grandparents’ large, imposing house in the heart of Queens, New York, where Donald and his four siblings grew up. She describes a nightmare of traumas, destructive relationships, and a tragic combination of neglect and abuse. She explains how specific events and general family patterns created the damaged man who currently occupies the Oval Office, including the strange and harmful relationship between Fred Trump and his two oldest sons, Fred Jr. and Donald. A firsthand witness to countless holiday meals and interactions, Mary brings

an incisive wit and unexpected humor to sometimes grim, often confounding family events. She recounts in unsparing detail everything from her uncle Donald's place in the family spotlight and Ivana's penchant for regifting to her grandmother's frequent injuries and illnesses and the appalling way Donald, Fred Trump's favorite son, dismissed and derided him when he began to succumb to Alzheimer's. Numerous pundits, armchair psychologists, and journalists have sought to parse Donald J. Trump's lethal flaws. Mary L. Trump has the education, insight, and intimate familiarity needed to reveal what makes Donald, and the rest of her clan, tick. She alone can recount this fascinating, unnerving saga, not just because of her insider's perspective but also because she is the only Trump willing to tell the truth about one of the world's most powerful and dysfunctional families.

From the New York Times bestselling author Catherynne Valente comes a ferocious riff on the women in superhero comics. The Refrigerator Monologues is a collection of linked stories from the points of view of the wives and girlfriends of superheroes, female heroes, and anyone who's ever been "refrigerated": comic book women who are killed, raped, brainwashed, driven mad, disabled, or had their powers taken so that a male superhero's storyline will progress. In an entirely new and original superhero universe, Valente subversively explores these ideas and themes in the superhero genre, treating them with the same love, gravity, and humor as her fairy tales. After all, superheroes are our new fairy tales and these six women have their own stories to share.

"What happened, Unca Dave?" Young people today deserve an answer. To restate our hypothesis: on November 4 1953, Theodore F. Schism climbed into his mother's defrosting refrigerator and shut the door. He was 9 years old. The first book of his story was appropriately called In. Now comes the middle, the "unloved child," and yet its pages introduce the villain of the piece, a role which by definition is far more interesting than that of any so-called hero. As for getting ... out? Young Theo might succeed, or maybe not. Looked at in that way, his is the only hope we have. So start with In, or don't and take your chances. Bifurcated Proceedings are just that, a lucky break for all of us, so how bad can it be? And if you need fortification, you can always Hoist a Few Cold Ones: Book Three.

The daughter of one of the South's most famous Baptist preachers discovers a shocking secret about her father that puts her at odds with both her faith and her family in this "tender and wise" (Ann Patchett, author of Commonwealth) debut novel. Every summer, fifteen-year-old Miriam Horton and her family pack themselves tight in their old minivan and travel through small southern towns for revival season: the time when Miriam's father—one of the South's most famous preachers—holds massive healing services for people desperate to be cured of ailments and disease. This summer, the revival season doesn't go as planned, and after one service in which Reverend Horton's healing powers are tested like never before, Miriam witnesses a shocking act of violence that shakes her belief in her father—and in her faith. When the Hortons return home, Miriam's confusion only grows as she discovers she might have the power to heal—even though her father and the church have always made it clear that such power is denied to women. Over the course of the next year, Miriam must decide between her faith, her family, and her newfound power that might be able to save others, but, if discovered by her father, could destroy Miriam. Celebrating both feminism and faith, Revival Season is a story of spiritual awakening and disillusionment in a Southern, black, Evangelical community. Monica West's transporting coming-of-age novel explores complicated family and what it means to live among the community of the faithful.

A meditation on the trauma and possibility of searching for connection in a world that enforces bland norms of gender, sexual, and social conformity. When you turn the music off, and suddenly you feel an unbearable sadness, that means turn the music back on, right? When you still feel the sadness, even with the music, that means there's something wrong with this music. Sometimes I feel like sex without context isn't sex at all. And sometimes I feel like sex without context is what sex should always be.--The Freezer Door The Freezer Door records the ebb and flow of desire in daily life. Crossing through loneliness in search of communal pleasure in Seattle, Mattilda Bernstein Sycamore exposes the failure and persistence of queer dreams, the hypocritical allure of gay male sexual culture, and the stranglehold of the suburban imagination over city life. Ferocious and tender, The Freezer Door offers a complex meditation on the trauma and possibility of searching for connection in a world that relentlessly enforces bland norms of gender, sexual, and social conformity while claiming to celebrate diversity.

Winner of the 2014 John Collier Jr. Award Winner of the Jo Anne Stolaroff Cotsen Prize Life at Home in the Twenty-First Century cross-cuts the ranks of important books on social history, consumerism, contemporary culture, the meaning of material culture, domestic architecture, and household ethnoarchaeology. It is a distant cousin of Material World and Hungry Planet in content and style, but represents a blend of rigorous science and photography that these books can claim. Using archaeological approaches to human material culture, this volume offers unprecedented access to the middle-class American home through the kaleidoscopic lens of no-limits photography and many kinds of never-before acquired data about how people actually live their lives at home. Based on a rigorous, nine-year project at UCLA, this book has appeal not only to scientists but also to all people who share intense curiosity about what goes on at home in their neighborhoods. Many who read the book will see their own lives mirrored in these pages and can reflect on how other people cope with their mountains of possessions and other daily challenges. Readers abroad will be equally fascinated by the contrasts between their own kinds of materialism and the typical American experience. The book will interest a range of designers, builders, and architects as well as scholars and students who research

various facets of U.S. and global consumerism, cultural history, and economic history.

The self-help industry tells you that if you're positive, if you put your best foot forward and if you just believe in yourself that you will find happiness. Let's be real, you can read all the inspirational quotes you want. You can spend your days giving yourself affirmations in your heart-shaped mirror and trying to learn to love yourself. You can say your mantra over and over again while sitting cross-legged on a yoga mat in a Whole Foods parking lot. But the truth is, you're not a badass and you still don't have the life you want. That's where You're Not That Great (but neither is anyone else) comes in. This book teaches you how to harness all the negativity in the world and use it to improve your life, taking everyday feelings like self-loathing, regret and shame and making them work for you. Positive thinking is for assholes. Negative thinking is for winners.

“Uh-oh” embraces “Here we go again” and “Now What?” and “You never can tell what’s going to happen next” and “So much for plan A” and “Hang on, we’re coming to a tunnel” and “No sweat” and “Tomorrow’s another day” and “You can’t unscramble an egg” and “A hundred years from now it won’t make any difference.” “Uh-oh” is more than a momentary reaction to small problems. “Uh-oh” is an attitude—a perspective on the universe. It is a power of an equation that summarizes my view of the conditions of existence: “Uh-huh” + “oh-wow” + “uh-oh” + “oh, God” = “ah-hah!”

The selected correspondence of the brilliant poet, one of the twentieth century's last great letter writers. "I don't keep a journal, not after the first week," James Merrill asserted in a letter while on a trip around the world. "Letters have got to bear all the burden." A vivacious correspondent, whether abroad, where avid curiosity and fond memory frequently took him, or at home, he wrote eagerly and often, to family and lifelong friends, American and Greek lovers, confidants in literature and art about everything that mattered--aesthetics, opera and painting, housekeeping and cooking, the comedy of social life, the mysteries of the Ouija board and the spirit world, and psychological and moral dilemmas--in funny, dashing, unrevised missives, composed to entertain himself as well as his recipients. On a personal nemesis: "the ambivalence I live with. It worries me less and less. It becomes the very stuff of my art"; on a lunch for Wallace Stevens given by Blanche Knopf: "It had been decided by one and all that nothing but small talk would be allowed"; on romance in his late fifties: "I must stop acting like an orphan gobbling cookies in fear of the plate's being taken away"; on great books: "they burn us like radium, with their decisiveness, their terrible understanding of what happens." Merrill's daily chronicle of love and loss is unfettered, self-critical, full of good gossip, and attuned to the wicked irony, the poignant detail--a natural extension of the great poet's voice.

“Reminiscent of Toni Morrison’s *The Bluest Eye*.” —The New York Times “One of the best books I have ever read...will live in the hearts of readers for the rest of their lives.” —Colby Sharp, founder of Nerdy Book Club “An emotional, painful, yet still hopeful adolescent journey...one that needed telling.” —Kirkus Reviews (starred review) “I really loved this.” —Sharon M. Draper, author of the New York Times bestseller *Out of My Mind* This deeply sensitive and “compelling” (BCCB) debut novel tells the story of a thirteen-year-old who must overcome internalized racism and a verbally abusive family to finally learn to love herself. There are ninety-six reasons why thirteen-year-old Genesis dislikes herself. She knows the exact number because she keeps a list: -Because her family is always being put out of their house. -Because her dad has a gambling problem. And maybe a drinking problem too. -Because Genesis knows this is all her fault. -Because she wasn’t born looking like Mama. -Because she is too black. Genesis is determined to fix her family, and she’s willing to try anything to do so...even if it means harming herself in the process. But when Genesis starts to find a thing or two she actually likes about herself, she discovers that changing her own attitude is the first step in helping change others.

"A masterfully written memoir-meets-educational-meets-inspirational tale that I couldn't put down." Ashley Smith, PhD, coauthor of *Childhood Anxiety Disorders* A gripping memoir that gives voice to the invisible, life-destroying power of obsessive-compulsive disorder, and how one woman stood up to fear, embraced the unknown, and reclaimed her life. Even at nine years old, Shala Nicely knew there was nothing normal about the horrifying thoughts that tormented her at bedtime, or the nightly rituals she summoned to beat

them back. More importantly, she knew to obey her mind's Rule #1: keep its secret, or risk losing everything and everyone she loved. It would be almost two decades before she learned the name of the menacing monster holding her hostage: obsessive-compulsive disorder (OCD). It would take years longer to piece together the keys to recovery that would change her life forever, beginning with the day she broke her monster's silence. Writing with wry wit, unflinching candor, and resounding insight, Shala takes readers on a riveting journey into the dark and dimly understood inner workings of OCD and its frequent co-conspirator, body dysmorphic disorder (BDD). Thwarted repeatedly as she struggles to escape the clutches of these formidable foes, she finally stumbles upon an unexpected path to freedom. As she journeys into the heart of fear to reclaim her life, she weaves a self-compassionate roadmap to recovery: to living in an uncertain world and being happy anyway. With an Afterword by Reid Wilson, PhD offering powerful guidance for applying Shala's strategies in daily life, *Is Fred in the Refrigerator?* will leave legions of those affected by mental illness feeling seen, understood, and empowered. "A memoir ... about all of us with this kind of mind." Jon Hershfield, MFT, author of *Overcoming Harm OCD* "One of the clearest descriptions of the experience of OCD ... you'll cry, you'll cheer, and you'll put your shoulders back with Shala as she conquers the OCD demon." Randy O. Frost, PhD, Harold and Elsa Siipola Israel Professor of Psychology at Smith College and coauthor of the New York Times bestseller *Stuff: Compulsive Hoarding and the Meaning of Things*

Recounts the author's experiences hitchhiking on a bet all the way around Ireland with a small refrigerator, and shares his impressions of the people and places along the way. Seventeen-year-old Alice, released from prison with a new identity after serving six years for murdering a child, tries to keep her anonymity from the British tabloids, while haunted by memories of her past trauma.

IN OFFICE HOURS is the story of Stella and Bella, two intelligent working women who each fall for impossible lovers--at work. Kellaway's keen observations on the way in which affairs move from state to state are a sort of masterclass in office love, bringing to life both the excitement of illicit romance and the ridiculousness of business behavior and language with a sharp sense of humor. *IN OFFICE HOURS* is intelligent, funny, moving and agonizing, but it's also so painfully recognizable to any woman who has ever worked in an office or ever been in love. Kellaway hits a real nerve with her depictions of how people come to get into the emotional messes that we do and then how very difficult it is to get out again.
