In a one-of-a-kind graphic novel collaboration between the #1 New York Times bestselling author of *The Martian* and the beloved illustrator behind *Sarah's Scribbles*, Alice, Wendy, and Dorothy team up to save the multiverse, from Wonderland to Neverland and Oz. Originating as fan fiction from the brilliant imagination of Andy Weir, now brought to vivid life by Sarah Andersen, *Cheshire Crossing* is a funny, breakneck, boundlessly inventive journey through classic worlds as you've never seen them before. Years after their respective returns from Wonderland, Neverland, and Oz, the trio meet here, at Cheshire Crossing—a boarding school where girls like them learn how to cope with their supernatural experiences and harness their magical world-crossing powers. But Alice, Wendy, and Dorothy—now teenagers, who've had their fill of meddling authority figures—aren't content to sit still in a classroom. Soon they're dashing from one universe to the next, leaving havoc in their wake—and, inadvertently, bringing the Wicked Witch and Hook together in a deadly supervillain love match. To stop them, the girls will have to draw on all of their powers . . . and marshal a team of unlikely

allies from across the magical multiverse. Advance praise for Cheshire Crossing “Deliciously funny . . . a shrewd and spirited adaptation that will leave audiences hoping for another installment . . .

Andersen’s delightful cartoon drawing style meshes perfectly with Weir’s prose, allowing the work to broaden its appeal beyond middle graders to young adults and adults.”—Kirkus Reviews (starred review)

Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format. This revised edition of Bookmarks reflects the end of the coordination of the youth campaign by the Council Europe. The campaign may be officially over, but the education and awareness-raising to counter hate speech and promote human rights values remain an urgent task for young people of all ages. The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate

speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks was originally published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

Angus Wells carved a place for himself on the shelves of hundreds of thousands of fantasy readers. Now, with *Lords Of The Sky*, it is clear that he has saved his most sweeping and imaginative tale for an epic more powerful than anything he has written before. For centuries, the Dhar have had to face the Ahn, fierce warriors who would lay claim to Dharbek, the land they call their ancestral home. Now, in fantastic airships powered by magic, the Ahn have begun their greatest campaign yet. In preparation for the coming onslaught, Storymen like Daviot travel the land collecting tales and sharing the history it's their responsibility to safeguard. But Daviot's travels show him the dark side of Dharbek, and inspire him to be a catalyst for change, to overcome doubt and fear, and pursue the one dream that has eluded Dharbek. Using his special gifts for storytelling and world-building, Angus Wells reaches new heights with a story as ambitious as it is broad in scope. *Lords Of The Sky* has all the action, adventure and magic a fantasy-lover could desire, and tackles social change, prejudice, the value of genuine friendship and the power of enduring love.

A New York Times Notable Book: "Combining cyberpunk's grit with dystopic fantasy, this iconoclastic hybrid is a standout piece of storytelling" (Library Journal). Jane is trapped as a changeling in an industrialized Faerie ruled by aristocratic high elves and populated by ogres, dwarves, night-gaunts, and hags. She is the only human in a factory where underage forced labor builds cybernetic, magical dragons that are weaponized and sent off to war. When the damaged dragon Melanchthon tempts Jane with promises of freedom, the stage is set for a daring escape that will shake the foundations of existence. Combining alchemy and technology, a coming-of-age story like no other, *The Iron Dragon's Daughter* takes place against a dystopic mindscape of dark challenges and class struggles that force Jane to make costly decisions at every turn. A finalist for the Arthur C. Clarke Award, the World Fantasy Award for Best Novel, and the 1994 Locus Award, *The Iron Dragon's Daughter* is one-of-a-kind melding of grimdark fantasy and cyberpunk grit from the Nebula Award-winning author of *Stations of the Tide*. It engages the reader in a nihilistic world in which nothing is as it seems and everything comes at a steep and often horrific price.

When new children are brought into the Social Welfare Agency, their minds are wiped and their bodies enhanced with the latest in cutting edge cybernetics. They are blank slates ready to be molded and conditioned as their handlers see fit. Yet for Angelica, the first of the Agency's cyborg assassins, memories of the life she once knew have started

The LOUD nightclub. A latecomer stripper, a pissed waitress, a hitmen couple, a suspension bondage performer, a pregnant teenager, a clan of vampires, a pedophile, a lesbian junkie, a divorcing middle-aged woman, a sadistic dominatrix, and many other souls in search of love, drugs, and blood converge at the hottest club in town on a night that none will ever forget. Modern technology is pitted against ancient dinosaurs in this scientific thriller James Rollins calls "Jurassic Park set amid the paradox of time travel." Paleontologist Richard Leyster is perfectly content in his position with the Smithsonian excavating dinosaur fossil sites and publishing his findings . . . until the mysterious Harry Griffin appears in his office with a cooler containing the head of a freshly killed Stegosaurus. The enigmatic stranger offers Leyster the opportunity to travel back in time to study living dinosaurs in their original habitats—but with strings attached. Soon, the paleontologist finds himself, along with a select team of colleagues—including his chief rival, the ambitious and often ruthless Dr. Gertrude Salley—making discoveries that would prove impossible working from fossils alone. But when Leyster and his team are stranded in the Cretaceous, they must learn to survive while still keeping alive the joy of scientific discovery. This shocking novel spans hundreds of millions of years and deals with the ultimate fate not only of the dinosaurs but also of all humankind. the Earth cements author Michael Swanwick as an author who “proves that sci-fi has plenty of room for wonder and literary values” (San Francisco Chronicle). Ten-year-old Chamdi has rarely ventured outside his orphanage and entertains a fantasy of what Bombay is like beyond its garden walls – a paradise he calls Kahunsha, “the city of no sadness.” He runs away to search for his long-lost father and finds himself thrust into chaos. Moving, poignant, and wonderfully rich in the sights and sounds of Bombay, this novel is the story of Chamdi's struggle for survival on the city's dangerous streets.

Istanbul has long been a place where stories and histories collide, where perception is as potent as fact. From the Koran to Shakespeare, this city with three names--Byzantium, Constantinople, Istanbul -- resonates as an idea and a place, real and imagined. Standing as the gateway between East and West, North and South, it has been the capital city of the Roman, Byzantine, and Ottoman Empires. For much of its history it was the very center of the world, known simply as "The City," but, as Bettany Hughes reveals, Istanbul is not just a city, but a global story. In this epic new biography, Hughes takes us on a dazzling historical journey from the Neolithic to the present, through the many incarnations of one of the world's greatest cities--exploring the ways that Istanbul's influence has spun out to shape the wider world. Hughes investigates what it takes to make a city and tells the story not just of emperors, viziers, caliphs, and sultans, but of the poor and the voiceless, of the women and men whose aspirations and dreams have continuously

reinvented Istanbul. Written with energy and animation, award-winning historian Bettany Hughes deftly guides readers through Istanbul's rich layers of history. Based on meticulous research and new archaeological evidence, this captivating portrait of the momentous life of Istanbul is visceral, immediate, and authoritative -- narrative history at its finest.

"In this brief biography, Caryl Emerson amends many of the canonical interpretations of Musorgsky as "victim," "martyr," and "savage genius." If his life was tragic, it is not only because he was misunderstood but also because he was impoverished: by the Emancipation of the serfs, by the loss of his parents and by loneliness, by his impracticality and his addictions. These very deprivations were instrumental in shaping his vision and the book emphasizes the psychological and socioeconomic factors that contributed to the composer's remarkable autodidactic rise and tragic, premature end."--Jacket.

Michael Emerson draws on a rare experience of Europe's new political and economic structures - from Brussels to Moscow - to explain Europe's contradictory

tendencies towards both integration and conflict. He confronts the two strategic issues for the Europe of the early 21st century: how to ensure success for the Euro and how to stabilise the wider Europe with a strong structure for EU-Russian relations. He draws distinctions between the different Europes - geographic Europe, the European Union, 'Security Europe' (based around NATO) and the emerging 'Civil Europe'. The author argues that 'Civil Europe' could be the basis of a new European golden age, and outlines the far-reaching institutional and cultural changes required to achieve this.
