This fully revised and updated edition of an award-winning classic traces the history of Hollywood from the silent era to the present day. The Hollywood Story comprehensively covers every aspect of movie-making in America, taking in nickelodeans, drive-ins and multiplexes; the transition from silent to sound, black and white to color; the relationships of producers, directors, stars and technicians; and the function and output of the studios - their major hits and most expensive flops. Praise for the first edition: 'The Hollywood Story is a must for the movie buff... Never has so much information been compiled into one, easy to read, accessible volume.' Bob Dorian, American Movie Classics 'A book that more than lives up to its claims... For all those unable to store sixty years of Variety under the bed, Mr Finler has performed an invaluable service. The two-volume Cambridge History of Atheism offers an authoritative and up to date account of a subject of contemporary interest. Comprised of sixty essays by an international team of scholars, this History is comprehensive in scope. The essays are written from a variety of disciplinary perspectives, including religious studies, philosophy, sociology, and classics. Offering a global overview of the subject, from antiquity to the present, the volumes examine the phenomenon of unbelief in the context of Christian, Islamic, Buddhist, Hindu, and Jewish societies. They explore atheism and the early modern Scientific Revolution, as well as the development of Charles Darwin's theory of evolution and its continuing implications. The History also includes general survey essays on the impact of scepticism, agnosticism and atheism, as well as contemporary assessments of thinking. Providing essential information on the nature and history of atheism, The Cambridge History of Atheism will be indispensable for both scholarship and teaching, at all levels.

Every Dog: A Book of Over 450 Breeds packs in a lot of information. Illustrations, text, charts, tables and icons make it an ideal reference for all dog lovers, who will enjoy flipping through the pages. The over 450 breeds are thoroughly researched and represent canines from around the world. They range from rare breeds for the dog lover that wants something different, to the favorite breeds that make for a reliable choice. There are ancient breeds and modern breeds, including the "designer dogs" that have become so popular in recent years. The over 450 breeds are organized into various categories, such as type (which share loosely common ancestry and traits), purpose, and more. For example, Spitz-Type Dogs typically have thick and dense fur, pointed ears and muzzles, and puffy tails that curl up and over their rears. They descend from ancient breeds that came from Arctic regions. Spitz dogs include the Akita, Canaan, American Eskimo, and the Pomeranian. Each breed is described on one page and includes these details: English and any alternative names, place of origin and year of first known introduction Icons and keys indicating all available coat colors; exercise requirements; graph indicating average weight, height and life expectancies At a Glance chart rating Intelligence; Ease of training; Affection; Playfulness; Good guard dogs; Good with children; Good with other dogs; and Grooming required. Descriptive text and a brief history of the breed Two color photographs, one adult and one puppy. Every Dog: A Book of Over 450 Breeds is a fabulous reference. In addition to the hundreds of breeds of all type, origin and purpose, the book includes the many designer breeds developed over the last couple of decades, making it undoubtedly the most up to date and detailed breed book currently available.

What do you do when your whole spiritual life falls apart? It is in these heart-hungry moments--when we feel overwhelmed or alone, struggle with unanswered prayers, aren't sure what to do, or are crying out for God's help--that we are surprisingly poised to pray the most effective kinds of prayers possible. *Extreme Prayer* taps into that longing for connection with God when we need it most by teaching us to pray the kinds of prayers Jesus promised to answer with unlimited power. It's not about how to pray more . . . it's about praying differently, and intentionally tapping into all of Jesus's open-ended promises in a way that achieves maximum Kingdom impact. In *Extreme Prayer*, Greg Pruettt searches the Scriptures to discover the kinds of prayers that God has promised to answer, challenging you to access their power and see His immeasurable glory unleashed in your prayer life.

In October 1985, at age twenty-seven, Danny Meyer, with a good idea and scant experience, opened what would become one of New York City's most revered restaurants—Union Square Cafe. Little more than twenty years later, Danny is the CEO of one of the world's most dynamic restaurant organizations, which includes eleven unique dining establishments, each at the top of its game. How has he done it? How has he consistently beaten the odds and set the competitive bar in one of the toughest trades around? In this landmark book, Danny shares the lessons he's learned while developing the winning recipe for doing the business he calls "enlightened hospitality." This innovative philosophy emphasizes putting the power of hospitality to work in a new and counterintuitive way: The first and most important application of hospitality is to the people who work for you, and then, in descending order of priority, to the guests, the community, the suppliers, and the investors. This way of prioritizing stands the more traditional business models on their heads, but Danny considers it the foundation of every success that he and his restaurants have achieved. Some of Danny's other insights: Hospitality is present when something happens for you. It is absent when something happens to you. These two simple concepts—for and to—express it all. Context, context, context, trumps the outdated location, location, location. Shared ownership develops when guests talk about a restaurant as if it's theirs. That sense of affiliation builds trust and invariably leads to repeat business. Err on the side of generosity: You get more by first giving more. Wherever your center lies, know it, name it, believe in it. When you cede your core values to someone else, it's time to quit. Full of behind-the-scenes history on the creation of Danny's most famous restaurants and the anecdotes, advice, and lessons he has accumulated on his long and ecstatic journey to the top of the American restaurant scene, *Setting the Table* is a treasure trove of innovative insights that are applicable to any business or organization.

Say Hello to Your Incoming Class—They're Not Millennials Anymore Generation Z is rapidly replacing Millennials on college campuses. Those born from 1995

through 2010 have different motivations, learning styles, characteristics, skill sets, and social concerns than previous generations. Unlike Millennials, Generation Z students grew up in a recession and are under no illusions about their prospects for employment after college. While skeptical about the cost and value of higher education, they are also entrepreneurial, innovative, and independent learners concerned with effecting social change. Understanding Generation Z's mindset and goals is paramount to supporting, developing, and educating them through higher education. *Generation Z Goes to College* showcases findings from an in-depth study of over 1,100 Generation Z college students from 15 vastly different U.S. higher education institutions as well as additional studies from youth, market, and education research related to this generation. Authors Corey Seemiller and Meghan Grace provide interpretations, implications, and recommendations for program, process, and curriculum changes that will maximize the educational impact on Generation Z students. *Generation Z Goes to College* is the first book on how this up-and-coming generation will change higher education.

Engaging science writing that bravely approaches a new frontier in medical science and offers a whole new way of looking at the deep kinship between animals and human beings. *Zoobiquity: a species-spanning approach to medicine* bringing doctors and veterinarians together to improve the health of all species and their habitats. In the tradition of Temple Grandin, Oliver Sacks, and Neil Shubin, this is a remarkable narrative science book arguing that animal and human commonality can be used to diagnose, treat, and ultimately heal human patients. Through case studies of various species--human and animal kind alike--the authors reveal that a cross-species approach to medicine makes us not only better able to treat psychological and medical conditions but helps us understand our deep connection to other species with whom we share much more than just a planet. This revelatory book reaches across many disciplines--evolution, anthropology, sociology, biology, cutting-edge medicine and zoology--providing fascinating insights into the connection between animals and humans and what animals can teach us about the human body and mind. Highlighted by two hundred full-color photographs, a celebration of American crafts and decorative arts and the artists who create them showcases masterpieces of furniture, wood, ceramics, glass, fiber, jewelry, metal, and basketry from the past two centuries, along with a look at how craft has shaped American history, arts, vitality, and identity. 25,000 first printing.

Vol. 3- includes v. 190- of the Transactions.

Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of

socially engaged participatory art, known in the US as “social practice.” Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

Presenting a vivid historical account of the contributions that black psychiatrists have made to American psychiatry, this important book documents the growth and influence of the group in tandem with the advancement of the field as a whole. It provides us with a deep appreciation for what these pioneers accomplished and the hurdles they overcame. Spurlock and the book's many distinguished contributors provide an overview of the history spanning generations and various areas of psychiatry. This volume documents early and contemporary pioneers and their contributions to modern psychiatry. Surveys of black psychiatrists in academia, child psychiatry, psychiatric research, forensic psychiatry, and psychoanalysis provide an enlightening view of their experiences. From a collection of descriptive essays, readers can step into the shoes of several pioneers and experience how they lived. These personal reflections provide enormous insight into the history of American psychiatry. Finally, the book addresses current mental health issues affecting African Americans as well as the barriers black psychiatrists face and the coping mechanisms they use. This work should be of particular interest to psychiatry students or residents and to anyone interested in the history of American psychiatry. It discusses the widening opportunities for professional growth for black psychiatrists and the important place black psychiatrists have reached in the present mental health arena.

At the turn of the past century, the main function of a newspaper was to offer “menus” by which readers could make sense of modern life and imagine how to order their daily lives. Among those menus in the mid-1910s were several that mediated the interests of movie manufacturers, distributors, exhibitors, and the rapidly expanding audience of fans. This writing about the movies arguably played a crucial role in the emergence of American popular film culture, negotiating among national, regional, and local interests to shape fans' ephemeral experience of moviegoing, their repeated encounters with the fantasy worlds of “movieland,” and their attractions to certain stories and stars. Moreover, many of these weekend pages, daily columns, and film reviews were written and consumed by women, including one teenage girl who compiled a rare surviving set of scrapbooks. Based on extensive original research, *Menus for Movieland* substantially revises what moviegoing meant in the transition to what we now think of as Hollywood.
