Dagli approcci tradizionali al Quadro comune europeo di riferimento Cristina Bosisio, 2005-01-01 Questo lavoro trae spunto dai moduli n° 9 e n° 10 del corso progredito (delle 130 ore) nell'ambito del Progetto Ministeriale "Italiano L2: lingua di contatto, lingua di culture", in corso di sperimentazione e quindi di stampa a cura del MIUR, in convenzione con ventuno Università del nostro Paese. L'Università Cattolica di Milano ha avuto mandato di elaborare due dei tredici moduli di secondo livello, in particolare il primo dedicato ad Approcci e metodi glottodidattici e il secondo relativo al Quadro comune europeo di riferimento per le lingue. Tali moduli sono stati elaborati in collaborazione con le Università di Bari e di Trieste e sono qui presentati per un uso interno all'Università Cattolica ed in particolare alle cattedre di Glottodidattica e di Didattica dell'italiano come seconda lingua. Cristina Bosisio, titolare del secondo di tali insegnamenti presso la nostra Università e principale autrice dei moduli, è l'ideatrice unica delle attività e delle esercitazioni relative ai due capitoli, che trasformano un testo storico-teorico in un "laboratorio" di sperimentazione sul campo. Il lavoro è dunque affidato non solo agli sperimentatori nazionali, ma anche agli allievi dell'Università Cattolica in questa prima fase di studio e di sperimentazione dei materiali. Con l'augurio che le pagine che seguono possano essere utili per l'affermazione di una giovane disciplina nel nostro Paese, Bona Cambiaghi, responsabile scientifico dell'Università Cattolica e membro del Comitato Tecnico Scientifico del Progetto nazionale "Italiano L2: lingua di contatto, lingua di culture" consegna riflessioni e considerazioni linguistico-pedagogiche agli allievi dell'Università Cattolica e attende riscontro e valutazione. The Fear of Barbarians Tzvetan Todorov,2010-10-15 The relationship between Western democracies and Islam, rarely entirely comfortable, has in recent years become increasingly tense. A growing immigrant population and worries about cultural and political assimilation—exacerbated by terrorist attacks in the United States, Europe, and around the world—have provoked reams of commentary from all parts of the political spectrum, a frustrating majority of it hyperbolic or even hysterical. In *The Fear of Barbarians*, the celebrated intellectual Tzvetan Todorov offers a corrective: a reasoned and often highly personal analysis of the problem, rooted in Enlightenment values yet open to the claims of cultural difference. Drawing on history, anthropology, and politics, and bringing to bear examples ranging from the murder of Theo van Gogh to the French ban on headscarves, Todorov argues that the West must overcome its fear of Islam if it is to avoid betraying the values it claims to protect. True freedom, Todorov explains, requires us to strike a delicate balance between protecting and imposing cultural values, acknowledging the primacy of the law, and yet strenuously protecting minority views that do not interfere with its aims. Adding force to Todorov's arguments is his own experience as a native of communist Bulgaria: his admiration of French civic identity—and Western freedom—is vigorous but non-nativist, an inclusive vision whose very flexibility is its core strength. The record of a penetrating mind grappling with a complicated, multifaceted problem, *The Fear of Barbarians* is a powerful, important book—a call, not to arms, but to thought.

Aligning Tests with the CEFR Waldemar Martyniuk,2010-11-11 This volume explores the process of aligning language tests with the Common European Framework of Reference (CEFR).

Italian Project 1a Telis Marin,Sandro Magnelli,2013 The Italian project 1 is the first level of a modern multimedia course of Italian language. Suitable to adolescent and adult students. It provides a balanced information, with pleasant and amusing conversation and useful grammatical examples. Introduces students to modern Italy and its culture.

The Queue Vladimir Sorokin,1988 Vladimir Sorokin's first published novel, *The Queue*, is a sly comedy about the late Soviet "years of stagnation." Thousands of citizens are in line for . . . nobody knows quite what, but the rumors are flying. Leather or suede? Jackets, jeans? Turkish, Swedish, maybe even American? It doesn't matter-if anything is on sale, you better line up to buy it. Sorokin's tour de force of ventriloquism and formal daring tells the whole story in snatches of unattributed dialogue, adding up to nothing less than the real voice of the people, overheard on the street as they joke and curse, fall in and out of love, slurp down ice cream or vodka, fill out crossword puzzles, even go to sleep and line up again in the morning as the queue drags on.--Amazon.com.

Charlie Chaplin's Last Dance Fabio Stassi,2014-04-03 'A day without laughter is a day wasted.' It is Christmas Day when Charlie Chaplin receives a visit from Death. The great actor is 82 years old, but not yet ready to face the final curtain. Desperate to see his teenage son grow up, the actor strikes a deal: if he manages to make Death laugh, he will win an extra year of life. As he awaits his final, fatal encounter, Chaplin composes an impassioned letter to his son, in which he attempts to tell him about his past, from his impoverished childhood in England (with an alcoholic father and a mother who went mad) to the heights of success on the silver screen in America, via stints in the circus and vaudeville, and odd jobs as a newspaper hawker, printer, boxer and embalmer. As well as being the story of the evolution of a comic genius, this is the story of the evolution of cinema and how a beam of light on a white screen fired the imagination of an entire nation. As in his silent films, Charlie's adventures are simultaneously tragic and comic. The narrative flickers at a frenetic clip from false starts and early failures to eventual triumph in the magical moment when - before the eyes of a stupefied film crew - Charlie became the Tramp: with a little moustache, a shuffling slantwise walk, a cane and a dusty bowler hat, one of the most iconic figures of the golden age of cinema was born.

Culture in Communication Aldo Di Luzio,Susanne Günthner,Franca Orletti,2001-01-01 An analysis of the extent to which culture plays a part in communication. This title explores topics such as context and culture in theoretical issues in intercultural communication, and incorporates a number of case studies from East and West German communication, collaboration and pleasure at work, and negotiation to address the relation of culture to communication.

Pragmatic Approaches to Latin and Ancient Greek Camille Denizot,Olga Spevak,2017-10-15 Pragmatics forms nowadays an integral part of the description not only of modern languages but also of ancient languages such as Latin and Ancient Greek. This book explores various pragmatic phenomena in these two languages, which are accessible through corpora consisting of a broad range of text types. It comprises empirical synchronic studies that deal with three main topics: (i) speech acts and pragmatic markers, (ii) word order, and (iii) discourse markers and particles. The specificity of this book consists in the discussion and application of various methodological approaches. It provides new insights into the pragmatic phenomena encountered, compares, where possible, the results of the investigation of the two languages, and draws conclusions of a more general nature. The volume will be of interest to linguists working on pragmatics in general and to scholars of Latin and Ancient Greek in particular.

Collocations in a Learner Corpus Nadja Nesselhauf,2005-01-27 Collocations are both pervasive in language and difficult

for language learners, even at an advanced level. In this book, these difficulties are for the first time comprehensively investigated. On the basis of a learner corpus, idiosyncratic collocation use by learners is uncovered, the building material of learner collocations examined, and the factors that contribute to the difficulty of certain groups of collocations identified. An extensive discussion of the implications of the results for the foreign language classroom is also presented, and the contentious issue of the relation of corpus linguistic research and language teaching is thus extended to learner corpus analysis.

Arabs and Normans in Sicily and the South of Italy Adele Cilento, Alessandro Vanoli, 2007 This book is written by two expert scholars. It tells a fascinating story about a period during the Middle Ages when cultures collided and made war on each other over issues of politics, religion, and wealth (much like the present day). With many views of the famous mosaics in Cefal, Monreale, and Palermo, its 275 color illustrations and four maps provide a beautiful visual complement to an authoritative text.

Language Policy and Linguistic Justice Michele Gazzola, Torsten Templin, Bengt-Arne Wickström, 2018-09-03 Language policies are increasingly acknowledged as being a necessary component of many decisions taken in the areas of the labor market, education, minority languages, mobility, and social inclusion of migrants. They can affect the democratic control of political organizations, and they can either entrench or reduce inequalities. These are the central topics of this book. Economists, philosophers, political scientists, and sociolinguists discuss – from an interdisciplinary perspective – the distributive socio-economic effects of language policies, their impact on justice and inequality at the national or international level, as well as the connection between language choices and an inclusive access to public services. The range of social and economic issues raised by linguistic diversity in contemporary societies is large, and this requires new approaches to tackle them. This book provides new input to design better, more efficient, and fair language policies in order to manage linguistic diversity in different areas. Topics covered include: theoretical models of linguistic justice and linguistic disadvantage; the assessment of the socio-economic consequences of language policies; the evaluation of the costs, benefits, and degree of inclusion of language planning measures; the politics of migrants’ linguistic integration; as well as multilingualism and economic activities. These topics are discussed in different contexts, including the areas inhabited by linguistic minorities, cities receiving migrants, and supranational organizations.

Language Learning in Distance Education Cynthia White, 2003-11-20 Distance learning presents language teachers and learners with a new set of challenges, opportunities and practical realities. This book presents a comprehensive overview of important issues within the field and explores the ways in which all participants are adapting their practices in response to the new learning environment.

Classroom-based Language Assessment Dina Tsagari, Ildikó Csépes, 2011 While research into aspects of standardised language tests is growing, the area of classroom-based language assessment (CBLA) is still not well-defined and relatively under-researched. Studies investigating CBLA practices within the ESL/EFL school contexts as well as the tertiary level have stressed the need for further research as the picture is not yet complete. The volume aims to address this challenge by presenting a wide scope of research interests that discuss theoretical and practical underpinnings of CBLA. It is also meant to promote the notion of CBLA for a wide membership of the language teaching and testing community covering topics that consider both realities and prospects of CBLA in the assessment world.
