Arguing that the pursuit of happiness is futile, the Jungian perspective asserts that the goal of life is not in happiness, but in meaning which is real, rather than a fruitless ideal. This book shows how to find life's dignity by uncovering its deepest meaning and discovering errors made.

What guides us when our world is changing? Discover the path to deeper meaning and purpose through depth psychology and classical thought. How did we get to this crossroads in history? And will we make it through—individually and as a species? “We all assumed that learning, rationality, and good intentions would prove enough to bring us to the promised land,” says Dr. James Hollis. “But they haven’t and won’t. Yet what we also do not recognize sufficiently is that this human animal is equipped for survival. In time, as we have seen of life’s other insolubles, we grow large enough to contain what threatened to destroy us.” Dr. Hollis’s readers know him as a penetrating thinker who brings profound insight and sophistication to the inner journey. In *Living Between Worlds*, he broadens his lens to encompass the relationship between our

inner struggles and the rapidly shifting realities of modern human existence. You will learn to invoke the tools of depth psychology, classical literature, philosophy, dream work, and myth to gain access to the resources that supported our ancestors through their darkest hours. Through these paths of inner exploration, you will access your “locus of knowing”—an inner wellspring of deep resilience beyond the ego, always available to guide you back to the imperatives of your soul. Though many of the challenges of our times are unique, the path through for us, personally and collectively, will always rely on our measureless capacity for creativity, wisdom, and connection to a reality larger than ourselves. Here you will find no easy answers or pat reassurances. Yet within the pages of *Living Between Worlds*, you will encounter causes for hope. “We can find what supports us when nothing supports us,” Hollis teaches. “By bearing the unbearable, we go through the desert to arrive at a nurturing oasis we did not know was there.”

What does it really mean to be a grown up in today’s world? We assume that once we “get it together” with the right job, marry the right person, have children, and buy a home, all is settled and well. But adulthood presents varying levels of growth, and is rarely the respite of stability we expected. Turbulent emotional shifts can take place anywhere between the age of thirty-five and seventy when we question the choices we’ve made, realize our limitations, and feel stuck—commonly known as the “midlife crisis.” Jungian psycho-analyst James Hollis believes it is only in the second half of life

that we can truly come to know who we are and thus create a life that has meaning. In *Finding Meaning in the Second Half of Life*, Hollis explores the ways we can grow and evolve to fully become ourselves when the traditional roles of adulthood aren't quite working for us, revealing a new way of uncovering and embracing our authentic selves. Offering wisdom to anyone facing a career that no longer seems fulfilling, a long-term relationship that has shifted, or family transitions that raise issues of aging and mortality, *Finding Meaning in the Second Half of Life* provides a reassuring message and a crucial bridge across this critical passage of adult development.

*Sayings of a Sage* is a modern day anthology of sayings and instructions. Be it witnessing the deaths of hundreds on the battlefields of Iraq, or while traversing through the streets of ghettos across America, many of the sayings, and perhaps some instructions, were composed during the most trying of times. The origin of the material, however, need not be imagined. All came manifestations of experience, yet much of the wisdom and observations could surely have been elaborated and re-expressed by learned scribes of antiquity whom I have studied over the past couple decades. There can be no doubt, however, that *Sayings of a Sage* is thought provoking literature that wins readers with its compelling portrait of wisdom and inviting them to see life afresh, "wisely," through its wit, originality, and shrewd observation. The primary purpose of the book is to teach wisdom, not only to the young and inexperienced, but to also welcome the older generation into a school of thought often ignored. Wisdom in the ancient Near

Living an Examined Life Wisdom for the Second Half of the Journey Sounds True

One day I woke up and realized that I had been lost for quite some time. I had got comfortable with how life was treating me. I no longer cared about how I presented myself, stuck between life and death, you know Purgatory. The real me had left long ago and the figure that I saw before me was just a shell that protects me until I could be found again. I had everything a woman could ask for and more yet somehow and somehow I forgot about myself and ended up in the purgatory of living. When I had my epiphany, I discovered some things that I should have seen all along but was too busy allowing life to consume me that I didn't care to pay attention. You know, taking care of kids, husband, family, work, friends and oh yeah, then me if I'm not too tired.... Me! One day I found myself on the outside of the milk carton... Lost, hanging in the purgatory of living. It was the shock of my life yet not a shock for everyone else. Most often others can see what's going on in your life even when you cannot (or you think you do). Don't let that to happen to you or to allow it to continue. You can step out of the purgatory of living and into a new beginning. It could be easier than you think it is. For me... I have

some changing to do and the changing can only be done by me for me. I cannot change you or the rest of the world but we can help each other with the process of changing for the better.... TOGETHER! And look who we shall find! (You and me too) Let's begin... how did I lose myself?

Working with the Shadow is not working with evil, per se. It is working toward the possibility of greater wholeness. We will never experience healing until we can come to love our unlovable places, for they, too, ask love of us. How is it that good people do bad things? Why is our personal story and our societal history so bloody, so repetitive, so injurious to self and others? How do we make sense of the discrepancies between who we think we are—or who we show to the outside world—versus our everyday behaviors? Why are otherwise ordinary people driven to addictions and compulsions, whether alcohol, drugs, food, shopping, infidelity, or the Internet? Why are interpersonal relationships so often filled with strife? Exploring Jung's concept of the Shadow—the unconscious parts of our self that contradict the image of the self we hope to project--Why Good People Do Bad Things guides you through all the ways in which many of our seemingly unexplainable behaviors are manifestations of the Shadow. In addition to its presence in our personal lives, Hollis looks at the larger picture of the Shadow at work in our culture—from organized religion to the suffering and injustice that abounds in our modern world. Accepting and examining the Shadow as part of one's self, Hollis suggests, is the first step toward wholeness. Revealing a new way of understanding our darker selves, Hollis offers wisdom to help you to acquire a more conscious conduct of your life and bring a new level of awareness

Psychologist and best-selling author Charles Garfield shares an uplifting vision as he takes us on a journey of a lifetime. Some of the most profound growth of our lives can happen in the home stretch, the years after age sixty or so. It's a time when we can finally crystallize the meaning of what we've been and done and fully expand into the self we've always intended to be. But, says psychologist Charles Garfield, that can only happen if we first loosen the grip of the life we've led so far, the one that's been focused outwardly—on activity, achievement, and the idea of success—and let our souls lead the way. In *Our Wisdom Years*, Dr. Garfield skillfully and practically guides readers through nine tasks that can transform the struggles of aging, bringing fulfillment, joy, and serenity. Drawing on the understandings that come from both his work as acclaimed “success guru” in the 1980s and the truths distilled from volunteering with those at the end of life, Garfield offers a fresh, uplifting vision of the wholeness that awaits us. Dr. Garfield shares how we can gracefully let go of the younger selves we've been and walk through the opening that keeps beckoning toward this soul-driven version of later life. He encourages us to take the risk of being fully alive as our years pass. This is no small task—aging is not for the faint of heart! The beautiful paradox of growing older is that none of the gifts of age are available without the kind of loss that forces us to confront mortality in a way we can't deny. In the face of loss, we're changed and expanded by truths that come from the heart, not the mind. We learn that we're more than our bodies, part of

something much larger than we are, and that love and kindness matter most of all.

Outlines an approach to achieving happiness that counsels on ways to overcome fear-based hurdles, explains how to evaluate one's internal beliefs, and reveals the importance of pursuing growth rather than security.

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

What does life ask of us, and how are we to answer that summons? Are we here just to propagate the species anew? Do any of us really believe that we are here to make money and then die? Does life matter, in the end, and if so, how, and in what fashion? What guiding intelligence weaves the threads of our individual biographies? What hauntings of the invisible world invigorate, animate, and direct the multiple narratives of daily life? In *Hauntings*, James Hollis considers how we are all governed by the presence of invisible forms-spirits, ghosts, ancestral and parental influences, inner voices, dreams, impulses, untold stories, complexes, synchronicities, and mysteries-which move through us, and through history. He offers a way to understand them psychologically, examining the persistence of the past in influencing our present, conscious lives and noting that engagement with mystery is what life asks of each of us. From such engagements, a deeper, more thoughtful, more considered life may come.

Discover the wonder of a life with God you can't contain. The pages of scripture are full of ordinary people who walked with God as he poured himself out through them to a world in need. What if God never changed? What if he is still speaking to us and longing to work miraculously through us? What if it isn't a matter of more training or effort but simply receiving and releasing everything he already purchased? "Life in the Overflow" invites you to know God intimately as your Daddy in a way that spills out of you naturally. Filled with disarming honesty and fervent expectation, this book mirrors a reflection of who you are, who your God is and what he actually longs to do through "ordinary, messy kids" today!

Living the good life doesn't require a lot of money or even any faith. The Ten Golden Rules condenses the wisdom of the ancient Greeks into 10 memorable and easy-to-understand rules that, if lived by, can enable modern readers to have rich, meaningful lives. Each chapter examines a rule:

1. Examine life
2. Worry only about those things under your control
3. Treasure friendship
4. Experience true pleasure
5. Master yourself
6. A void excess
7. Be a responsible human being
8. Don't be a prosperous fool
9. Don't do evil to others
10. Kindness to others tends to be rewarded

All chapters begin with a quote from one of the great Greek philosophers who inspired the rule, followed by a story or explanation of the rule and its importance in life, and end with teaching points on which to meditate and reflect. Any reader searching for
