Using a consistent, logical, and step-by-step approach, MEDICAL TERMINOLOGY: A LIVING LANGUAGE, 5/e introduces students to the anatomy and physiology of body systems and the corresponding medical terms related to them. For each body system, broad coverage of anatomy, physiology, pathology, diagnostic procedures, treatment procedures, and pharmacology is provided. The author emphasizes both terms built from Latin and Greek word parts, and modern English terms, helping students develop a full working word part vocabulary they can use to interpret any new term. This edition contains many new terms, and has been reorganized for more efficient learning. To eliminate confusion, Word Building tables have been removed from each chapter and the terms have been distributed throughout the pathology, diagnostic procedure, and treatment procedure tables, where they are more immediately relevant to students.

Living Languages is simply bursting with practical and original ideas aimed at teachers and trainee teachers of foreign languages in primary schools. Written by a team of experienced linguists, this book will inspire and motivate the foreign language classroom and the teachers who work within it. Living Languages comprises eight chapters and is structured around the integrated classroom, merging language learning with different aspects of the wider curriculum such as multimedia, performance, celebrations and festivals, creativity and alternative approaches to teaching languages. A DVD is also included with the book containing additional teaching materials and the associated films and audio recordings which make this a fully-developed and effective teaching resource. Over 50 real-life case studies and projects are presented, all of which have been tried and tested in the classroom with several having won recent educational awards. Ideas and activities outlined in this unique resource include: Languages across the curriculum helping to cement cross-curricular links and embed new languages in different contexts linking subjects such as history, science, PE and mathematics with French, German and Spanish; Arts and crafts projects in Languages, making and doing, including making books, creating beach huts and cooking biscuits; Languages, celebrations and festivals projects including the German Christmas market, Spanish Day of the Dead, celebrating Mardi Gras and the European Day of Languages among many others; Continuing Professional Development to inspire primary teachers to continue their individual professional development. The chapter contains concrete examples of others’ experiences in this area and includes details of support organisations and practical opportunities. Each project is explored from the teachers’ perspective with practical tips, lesson plans and reflections woven throughout the text such as what to budget, how to organise the pre-event period, how to evaluate the activity and whom to contact for further advice in each case. Activities and examples throughout are given in three languages – French, German and Spanish.
