Analysing developments in digital technologies and institutional changes, this book provides an overview of the current frenetic state of transformation within the global automobile industry. An ongoing transition brought about by the relocation of marketing, design and production centres to emerging economies, and experimentation with new mobility systems such as electrical, autonomous vehicles, this process poses the question as to how original equipment manufacturers (OEMs) and newcomers can remain competitive and ensure sustainability. With contributions from specialists in the automobile sector, this collection examines the shifts in power and geographical location occurring in the industry, and outlines the key role that public policy has in generating innovation in entrepreneurial states. Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry, this book will provide valuable reading for those researching internationalization and emerging markets, business strategy and more specifically, the automotive industry.

Le mythe aryen, thème bien connu de l'histoire des idéologies en Allemagne et en France, reste un objet de recherche ignoré dans les développements qu'il a subis à l'Est de l'Europe, et plus spécifiquement en Russie. L'objectif de cet ouvrage est donc d'éclairer un aspect méconnu de l'histoire intellectuelle russe concernant son expansion coloniale mais également de contribuer à une réflexion comparative, au niveau européen, sur l'histoire des nationalismes au XIXe siècle. Il espère prouver l'importance d'une ouverture sur la Russie pour une histoire des courants politiques et intellectuels de l'Occident qui ignore trop souvent l'Europe de l'Est, et réinscrire cette analyse du cas russe dans des schèmes idéologiques qui touchent l'ensemble du continent. Ce livre retrace l'histoire, tout au long du XIXe siècle, du mythe aryen russe et de ses liens étroits avec l'avancée impériale en Asie centrale et en Extrême-Orient. Certains milieux intellectuels inspirés du slavophilisme ont en effet cherché à justifier la colonisation tsariste en affirmant qu'elle n'était que le juste retour des plus purs Aryens, les Slaves, dans leur patrie originelle, la Haute-Asie. Les arguments développés à cette fin, qui empruntent à l'histoire, l'archéologie, la linguistique et l'ethnologie, révèlent à quel point le mythe aryen russe a été profondément ancré dans l'évolution des sciences humaines de son époque. À la différence du cas allemand, l'aryanisme russe, obsédé par l'idée d'un berceau originel asiatique, n'a pas servi de fondement doctrinal à des théories ou des pratiques raciales.

This collection of twenty-eight essays presents an up-to-date survey of pre-Islamic Iran, from the earliest dynasty of Illam to the end of Sasanian empire, encompassing a rich diversity of peoples and cultures. Historically, Iran served as a bridge between the earlier Near Eastern cultures and the later classical world of the Mediterranean, and had a profound influence on political, military, economic, and cultural aspects of the ancient world. Written by international scholars and drawing mainly on the field of practical archaeology, which traditionally has shared little in the way of theories and methods, the book provides crucial pieces to the puzzle of the national identity of Iranian cultures from a historical perspective. Revealing the wealth and splendor of ancient Iranian society – its rich archaeological data and sophisticated artistic craftsmanship – most of which has never before been presented outside of Iran, this beautifully illustrated book presents a range of studies addressing specific aspects of Iranian archaeology to show why the artistic masterpieces of ancient Iranians rank among the finest ever produced. Together, the authors analyze how archaeology can inform us about our cultural past, and what remains to still be discovered in this important region. *Persepolis: Discovery and Afterlife of a World Wonder* presents the first full study of the history of archaeological exploration at Persepolis after its destruction in 330 BC. Based in part on archival evidence, anecdotal information, and unpublished documents, this book describes in detail the history of archaeological exploration, visual documentation, and excavations at one of the most celebrated sites of the ancient world. The book addresses a broad audience of readers ranging from students of the archaeology, history, and art history of ancient, medieval, and modern Iran to scholars in Classical Studies and Ancient Near Eastern Studies.

Industriële films worden gezien als een apart filmgenre van de twintigste eeuw. Ze werden geproduceerd en gesponsord door de overheid en grote bedrijven en moesten vooral aan de wensen van de sponsors voldoen, en niet zo zeer aan die van de filmmakers. In de hoogtijdagen werkten er duizenden mensen aan deze industriële films. Zo zijn er vakbladen en filmfestivals ontstaan door samenwerking met grote bedrijven als Shell en AT & T. Daarnaast hebben belangrijke regisseurs, zoals Buster Keaton, John Grierson en Alain Resnais, aan deze films meegewerkt. Toch lijkt de industriële film geen spoor te hebben achtergelaten in het filmische culturele discours. *Films that Work* is het eerste boek waarin de industriële film en zijn opmerkelijke geschiedenis worden onderzocht.
