The story of Maria Eugenia Alonso, a girl brought up in France and forced to return to Venezuela when her father dies. Having had her inheritance stolen by an uncle, the family puts her up for marriage. Written in 1924.

Radical in its day and long overdue in English this rare French classic traces the journey of fictional British Lord Clarisdall to the exotic island nation of Icaria. To his delight, Clarisdell discovers an ideal utopian democracy prospering amid peace and harmony. Devoid of competition or property, Icaria triumphs over the social evils of nineteenth-century capitalism. Clarisdell's amazement is constant.

Foreign affairs are conducted by the community. Money and domestic commerce do not exist. Everyone gives to and draws from the common pot in equal measure. No pastoral idyll, the narrative describes a modern machine-age economy with social policies free education, equality for the sexes, strict family/moral ties that reflect enlightenment. Crime here is a myth; arts and culture are treasured commodities. Cabet described a totally integrated "community of goods" in the fifty years following the great revolution of 1782. Published at personal risk, his bold allegory gave birth to a real Icarian community that lasted into the late 1800s.

The buttonhole method for the cannulation of the arteriovenous fistula was discovered more than 40 years ago and was soon adopted on a wide scale due to its obvious benefits of decreased puncture pain and extension of the life of the arteriovenous fistula. Following reports of complications such as a higher incidence of access-related infections, the method has lately been the subject of intense scrutiny; recent research has focused on the mechanisms of buttonhole access-related infections and newer techniques that may have bearing on the future use of the buttonhole method. This book presents an easily accessible overview of information relevant to the subject, including history, benefits and the latest research results related to the buttonhole cannulation method. To date, there has been no comprehensive analysis of the disperse research on the squatters' movement in Europe. In *Squatters in the Capitalist City*, Miguel A. Martínez López presents a critical review of the current research on squatting and of the historical development of the movements in European cities according to their major social, political and spatial dimensions. Comparing cities, contexts,

and the achievements of the squatters' movements, this book presents the view that squatting is not simply a set of isolated, illegal and marginal practices, but is a long-lasting urban and transnational movement with significant and broad implications. While intersecting with different housing struggles, squatters face various aspects of urban politics and enhance the content of the movements claiming for a 'right to the city.' *Squatters in the Capitalist City* seeks to understand both the socio-spatial and political conditions favourable to the emergence and development of squatting, and the nature of the interactions between squatters, authorities and property owners by discussing the trajectory, features and limitations of squatting as a potential radicalisation of urban democracy.

This book contains a fascinating collection of dialogues between one of the greatest mystics of the twentieth century and other great influential thinkers.

The infamous Parker–Hulme murder case inspired this frightening tale of adolescent transgression in an English seaside town. When a thirteen-year-old girl returns from boarding school to her small hometown in Merseyside for summer break, her best friend, Harriet, is not back yet, and she's restless, anxious for something—anything—to happen. In this state of troubled anticipation, she visits the beach and encounters Peter Biggs, an elegant yet disheveled man in the throes of middle age and an unhappy

marriage. A stirring inside of the budding woman makes her feel irresistibly attracted to this man . . . and simultaneously repulsed. But she doesn't dare do anything about it until Harriet arrives. One year older and much more mischievous, Harriet returns to find her friend in a state of confused obsession. The two girls hatch a plan to "humble" Biggs. At Harriet's command they proceed to methodically spy on him and his wife, manipulate his desires, and ensnare him in an act of incriminating humiliation, all on the premise that this will be their most daring summer yet. But the power these young women possess is perhaps more sinister and unwieldy than anyone realizes. Award-winning British author Beryl Bainbridge's first novel, *Harriet Said* is loosely based on the Parker–Hulme teenage murder case in New Zealand dramatized in the Kate Winslet film *Heavenly Creatures*. It was originally completed in 1958; however, editors were so scandalized by its gruesome and amoral content that the book was not published until 1972. It has since become a horror classic.

A wild, baroque adventure into the margins of Buenos Aires, where poverty, corruption, and gender identity meet a vision of the Virgin Mary.

Mark Spragg grew up on the oldest dude ranch in Wyoming - a remote spread in the Shoshone National Forest. It is a sublime but unforgiving landscape, a place of unrelenting winds, pitiless blizzards, fierce rivers, and the men who work there have to be tough to survive. Spragg writes lyrically of this world, its animals - horses, bears, elk - and of its people, in particular his parents and John, an old cowboy who becomes the

An “amazing” novel about the diaspora of Sephardic Jews amid the tumult of twentieth century history (The Washington Post Book World). From one of Spain’s most celebrated writers, this extraordinary blend of fiction, history, and memoir tells the story of the Sephardic diaspora through seventeen interlinked chapters. “If Balzac wrote The Human Comedy, [Antonio] Muñoz Molina has written the adventure of exile, solitude, and memory,” Arturo Pérez-Reverte

observed of this “masterpiece” that shifts seamlessly from the past to the present along the escape routes employed by Sephardic Jews across countries and continents as they fled Hitler’s Holocaust and Stalin’s purges in the mid-twentieth century (The New York Review of Books). In a remarkable display of narrative dexterity, Muñoz Molina fashions a “rich and complex story” out of the experiences of people both real and imagined: Eugenia Ginzburg and Greta Buber-Neumann, one on a train to the gulag, the other heading toward a Nazi concentration camp; a shoemaker and a nun who become lovers in a small Spanish town; and Primo Levi, bound for Auschwitz (Milwaukee Journal-Sentinel). From the well-known to the virtually unknown, all of Muñoz Molina’s characters are voices of separation, nostalgia, love, and endless waiting. “Stories that vibrate beneath the burden of history, that lift with the breath of human life.” —Los Angeles Times Book Review “A magnificent novel about the iniquity and horror of fanaticism, and especially the human being’s indestructible spirit.” —Mario Vargas Llosa “Moving and often astonishing.” —The New York Times

Both in the Asia Pacific region and in Latin America, considerable confusion

surrounds the concept of 'open regionalism' and casts doubt on its relevance for practical purposes. This study surveys the literature on the subject.

This study examines contemporary Spanish dystopian literature and films (in)directly related to the 2008 financial crisis from an urban cultural studies perspective. It explores culturally-charged landscapes that effectively convey the zeitgeist and reveal deep-rooted anxieties about issues such as globalization, consumerism, immigration, speculation, precarity, and political resistance (particularly by Indignados [Indignant Ones] from the 15-M Movement). The book loosely traces the trajectory of the crisis, with the first part looking at texts that underscore some of the behaviors that indirectly contributed to the crisis, and the remaining chapters focusing on works that directly examine the crisis and its aftermath. This close reading of texts and films by Ray Loriga, Elia Barceló, Ion de Sosa, José Ardillo, David Llorente, Eduardo Vaquerizo, and Ricardo Menéndez Salmón offers insights into the creative ways that these authors and directors use spatial constructions to capture the dystopian imagination. These retellings of the ancient Greek legends recreate the labours of Zeus' much-loved son and mythology's mightiest hero. Illustrations including a map of the sites of Hercules' 12 labours accompany the text.

This collection brings together some of the most influential sociologists of law to

confront the challenges of current transnational constitutionalism. It shows the constitution appearing in a new light: no longer as an essential factor of unity and stabilisation but as a potential defence of pluralism and innovation. The first part of the book is devoted to the analysis of the concept of constitution, highlighting the elements that can contribute from a socio-legal perspective, to clarifying the principle meanings attributed to the constitution. The study goes on to analyse some concrete aspects of the functioning of constitutions in contemporary society. In applying Luhmann's General Systems Theory to a comparative analysis of the concept of constitution, the work contributes to a better understanding of this traditional concept in both its institutionalised and functional aspects. Defining the constitution's contents and functions both at the conceptual level and by taking empirical issues of particular comparative interest into account, this study will be of importance to scholars and students of sociology of law, sociology of politics and comparative public law.

Presents a recreation of the Greek myth about Jason and his perilous journey with the Argonauts to the kingdom of Colchis in search of the Golden Fleece. Analyzes informality in Latin America, exploring root causes and reasons for and implications of its growth. This book uses two distinct but complementary lenses. It concludes that reducing informality levels and overcoming the "culture of

informality" will require actions to increase aggregate productivity in the economy. Get lost in northern Greece with one of the greatest travel writers of the 20th century as he travels to monasteries, among shepherds, and throughout the hills, mountains, and rugged coastline of this enchanted land. Roumeli is not to be found on present-day maps. It is the name once given to northern Greece—stretching from the Bosphorus to the Adriatic and from Macedonia to the Gulf of Corinth, a name that evokes a world where the present is inseparably bound up with the past. Roumeli describes Patrick Leigh Fermor's wanderings in and around this mysterious and yet very real region. He takes us with him among Sarakatsan shepherds, to the monasteries of Meteora and the villages of Krakora, and on a mission to track down a pair of Byron's slippers at Missolonghi. As he does, he brings to light the inherent conflicts of the Greek inheritance—the tenuous links to the classical and Byzantine heritage, the legacy of Ottoman domination—along with an underlying, even older world, traces of which Leigh Fermor finds in the hills and mountains and along stretches of barely explored coast. Roumeli is a companion volume to Patrick Leigh Fermor's famous *Mani: Travels in the Southern Peloponnese*.

When jazz pianist Santiago Biralbo meets the wife of an American art dealer he begins not only an obsessional love affair but an odyssey that will strip him of his

identity in his quest to understand love and music. A C zanne painting; the name Burma; a jazz musician who has passed into legend and oblivion; murder; and a mysterious woman - these are just a few of the tantalizing elements that converge in *Winter in Lisbon*. Infused with the melodrama of film noir and the rhythms of jazz, this is a haunting exploration of the lethal extremes to which we can be driven by love, art and money.

The *New Black* is Darian Leader's compassionate and illuminating exploration of melancholy What happens when we lose someone we love? A death, a separation or the break-up of a relationship are some of the hardest times we have to live through. In so doing, we can loosen the grip it may have upon our lives. 'His orthodox, psychoanalytical approach, produces an unpredictable, occasionally brilliant book. Today's world is characterized by a set of overarching trends that often come under the rubric of social change. In this innovative volume, Rainer K. Silbereisen and Xinyin Chen bring together, for the first time, international experts in the field to examine how changes in our social world impact on our individual development. Divided into four parts, the book explores the major socio-political and technological changes that have taken place around the world - from post-

from the rapid upheavals in 1990s Europe to the gradual changes in parts of East Asia - and explains how these developments interplay with human development across the lifespan. Human Development and Social Change is a useful resource for students and researchers involved in all areas of human development, including developmental psychology, sociology and education.

In the recent economic history of Latin America no country has yet found the means to combine effectively economic growth with equity. Latin American countries on the road to healthy economies. Fernando Fajnzylber argues that technological and industrial progress is the driving force of a positive relationship among dynamism, competitiveness, austerity, and equity. Latin America's failure to master this technological progress underlies its economic difficulties. To overcome the inheritance of past mistakes, the author maintains, Latin America must undergo not only macroeconomic stabilization and a reduction of the debt burden, but also a complete transformation of the production structure. The role of the state and the institutional setup need to be modified and new social and sectoral policies devised. Fajnzylber sees this radical restructuring as an unavoidable step if Latin America is ever to achieve a workable balance between growth and equity.

The publication examines the main characteristics of Argentine manufacturing industry and the development phases (going back more than a century), especially, concentrates on its structural features during the 1980s and on the changes that have occurred since the Convertibility Plan was introduced - between 1991 and 2001 - the most recent transformations between 2002 and 2006 and, finally, in the last section it analyses the possibilities of strengthening the development of competitiveness and the ways to industrial development.
