Mirna Cicioni, Nicoletta Di Ciolla

Loredana Diario intimo di una Trav Loredana, 2016-10-12 Come vive una Trav? Quali sono i suoi pensieri, i suoi desideri, le sue paure? Quando una Trav diventa Trans? Come reagisce il mondo esterno a questo? Per la seconda volta Loredana si spoglia di ogni pregiudizio e finto pudore e ci apre le porte di questo eclettico mondo Transgender. Il tutto ambientato in una Milano che di notte cambia volto: un volto affascinante ed adrenalino che nasconde però trappole e che a poco a poco ti inghiotte. Dea di notte... in contrapposizione alle discriminazioni nella vita di tutti i giorni, sul lavoro, per strada, vittima di insulti e derisione. Loredana si scopre sempre più donna, e come tale vuole vivere. Vuole una vita normale, un rapporto affettivo stabile, la tranquillità quotidiana. Ma lei non è una donna, ed ogni giorno qualcuno glielo ricorda. Inizia così la sua lotta personale, per sopravvivere e per realizzarsi. La storia di Loredana è la storia di tante Transgender come lei, raccontata giorno per giorno in questo suo diario.

The Connector Manager Jaime Roca, Sari Wilde, 2019-09-19 The best managers work smarter, not harder After conducting a unique global study of over 9,000 people, analysts at the world-leading sales research firm Gartner identified four distinct types of manager. Incredibly, they found one type consistently performs far better than the rest, and it wasn't the one they were expecting. Connector Managers understand that it's not enough for managers to just encourage and teach employees themselves, and that providing constant coaching to employees can actually be detrimental to their independent development. Instead, by connecting employees to others in the team or organisation, Connector Managers can help their employees develop a range of skills beyond their own areas of expertise. Although the four types of managers are more or less evenly distributed, employees with Connector Managers perform significantly better than others. Employees with

Always-on Managers who provide constant feedback and coaching perform significantly worse. Drawing on their groundbreaking data-driven research, as well as in-depth case studies and extensive interviews with thousands of managers, you'll discover what behaviours define Connector Managers and how you can use them yourself to build brilliant, powerhouse teams.

The Prank of the Good Little Virgin of Via Ormea Amara Lakhous, 2016-05-03 A fun and farcical novel, this new whodunit about life in multicultural Italy by Amara Lakhous will delight fans of Lakhous' earlier bestseller, *Clash of Civilizations Over an Elevator in Piazza Vittorio*, and readers of novels such as *The Yacoubian Building* by Alaa Al Aswany. Bittersweet, like any self-respecting Italian comedy, *The Prank* is a Pirandellian exploration of identity in today's multicultural, polyglot societies. Lakhous draws inspiration from everyday reality, describing his approach to writing as total literature, a term he has adapted from soccer's total football. He plays in attack, describing in this work the realities of an Italy of the future with colorful characters portrayed in limpid but lively prose. From the Trade Paperback edition.

Italy's Eighteenth Century Paula Findlen, Wendy Wassing Roworth, Catherine M. Sama, 2009 In the age of the Grand Tour, foreigners flocked to Italy to gawk at its ruins and paintings, enjoy its salons and cafés, attend the opera, and revel in their own discovery of its past. But they also marveled at the people they saw, both male and female. In an era in which castrati were rock stars, men served women as ciccisbei, and dandified Englishmen became macaroni, Italy was perceived to be a place where men became women. The great publicity surrounding female poets, journalists, artists, anatomists, and scientists, and the visible roles for such women in salons, academies, and universities in many Italian cities also made visitors wonder whether women had become men. Such images, of course, were stereotypes, but they were nonetheless grounded in a reality that was unique to the Italian peninsula. This volume illuminates the social and cultural landscape of eighteenth-century Italy by exploring how questions of gender in music, art, literature, science, and medicine shaped perceptions of Italy in the age of the Grand Tour.

Cuba between Empires, 1878-1902 Louis A. Pérez Jr., 1983-06-15 Cuban independence arrived formally on May 20, 1902, with the raising of the Cuban flag in Havana - a properly orchestrated and orderly inauguration of the new republic. But something had gone awry. Republican reality fell far short of the separatist ideal. In an unusually powerful book that will appeal to the general reader as well as to the specialist, Louis A. Pérez, Jr., recounts the story of the critical years when Cuba

won its independence from Spain only to fall in the American orbit. The last quarter of the nineteenth century found Cuba enmeshed in a complicated colonial environment, tied to the declining Spanish empire yet economically dependent on the newly ascendant United States. Rebellion against Spain had involved two generations of Cubans in major but fruitless wars. By careful examination of the social and economic changes occurring in Cuba, and of the political content of the separatist movement, the author argues that the successful insurrection of 1895-98 was not simply the last of the New World rebellions against European colonialism. It was the first of a genre that would become increasingly familiar in the twentieth century: a guerrilla war of national liberation aspiring to the transformation of society. The third player in the drama was the United States. For almost a century, the United States had pursued the acquisition of Cuba. Stepping in when Spain was defeated, the Americans occupied Cuba ostensibly to prepare it for independence but instead deliberately created institutions that restored the social hierarchy and guaranteed political and economic dependence. It was not the last time the U.S. intervention would thwart the Cuban revolutionary impulse.

Environment, Health, and Safety Lari A. Bishop, 1997

The War of 1898 Louis A. Pérez, 1998 A century after the Cuban war for independence was fought, Louis Pérez examines the meaning of the war of 1898 as represented in one hundred years of American historical writing. Offering both a critique of the conventional historiography and an alternate

Divorce Islamic Style Amara Lakhous, 2012-09-10 It's 2005. The Italian secret service has received intel that a group of Muslim immigrants based in Rome's Viale Marconi neighborhood is planning a terrorist attack. Chirsitan Mazzari, a young Sicilian court translator who speaks perfect Arabic, goes undercover to infiltrate the group and learn who its leaders are. Christian poses as Issa, a recently arrived Tunisian in search of looking for a place to sleep and a job. He soon meets Sofia, a young Egyptian immigrant whose life with her husband, Said a.k.a. Felice, an architect who has reinvented himself as a pizza cook, is anything but fulfilling. In alternating voices, with an anthropologist's keen eye and sparkling wit Lakhous examines the commonplaces and stereotypes typical of life in multicultural societies. *Divorce Islamic Style* mixes the rational and the absurd as it describes the conflicts and contradictions of today's world. Marvelous set pieces, episodes rich in pathos, brilliant dialogue, and mordant folk proverbs combine as the novel moves towards an unforgettable and surprising finale that will have readers turning back to the first page of Lakhous's stunning novel to begin the ride all over again.

Year of the Elephant Barbara Parmenter, 2009-09-15 Includes glossary and interview with the author.

With All, and for the Good of All Gerald E. Poyo, 1989-03-28 Cuban-Americans are beginning to understand their long-standing roots and traditions in the United States that reach back over a century prior to 1959. This is the first book-length confirmation of those beginnings, and it places the Cuban hero and revolutionary thinker José Martí within the political and socioeconomic realities of the Cuban communities in the United States of that era. By clarifying Martí's relationship with

those communities, Gerald E. Poyo provides a detailed portrait of the exile centers and their role in the growth and consolidation of nineteenth-century Cuban nationalism. Poyo differentiates between the development of nationalist sentiment among liberal elites and popular groups and reveals how these distinct strains influenced the thought and conduct of Martí and the successful Cuban revolution of the 1890s.

Wizards and Scientists Stephan Palmié,2002-03-19 In *Wizards and Scientists* Stephan Palmié offers a corrective to the existing historiography on the Caribbean. Focusing on developments in Afro-Cuban religious culture, he demonstrates that traditional Caribbean cultural practices are part and parcel of the same history that produced modernity and that both represent complexly interrelated hybrid formations. Palmié argues that the standard narrative trajectory from tradition to modernity, and from passion to reason, is a violation of the synergistic processes through which historically specific, moral communities develop the cultural forms that integrate them. Highlighting the ways that Afro-Cuban discourses serve as a means of moral analysis of social action, Palmié suggests that the supposedly irrational premises of Afro-Cuban religious traditions not only rival Western rationality in analytical acumen but are integrally linked to rationality itself. Afro-Cuban religion is as “modern” as nuclear thermodynamics, he claims, just as the Caribbean might be regarded as one of the world’s first truly “modern” locales: based on the appropriation and destruction of human bodies for profit, its plantation export economy anticipated the industrial revolution in the metropolis by more than a century. Working to prove that modernity is not just an aspect of the West, Palmié focuses on those whose physical abuse and intellectual denigration were the price paid for modernity’s achievement. All cultures influenced by the transcontinental Atlantic economy share a legacy of slave commerce. Nevertheless, local forms of moral imagination have developed distinctive yet interrelated responses to this violent past and the contradiction-ridden postcolonial present that can be analyzed as forms of historical and social analysis in their own right.

On the Cultures of Exile, Translation, and Writing Paolo Bartoloni,2008 The hypothesis of Paolo Bartoloni's book is based on the belief that a substantial and innovative discussion of the philosophical notions of immanence and potentiality is not only overdue but also necessary to address the social, political, cultural, and ethical aporia confronting us today. The phenomenon of globalization with its countless sub-narratives such as mobility, migration, security, authenticity, and inauthenticity can be thought and contextualized through a close reading and articulation of immanence and potentiality. The author provides a tangible and workable philosophical and cultural discourse within which to present an alternative understanding of subjectivity by engaging in a theoretical discussion with the philosophical discourse on potentiality and immanence, of which the writings of Gilles Deleuze and Giorgio Agamben are among the most advanced and innovative examples to date. Secondly, Bartoloni presents a virtual insight into the potential immanent subject and community through exploring a radically new interpretation of exile, translation, and temporality. Finally, the author shows how the experience

of potentiality and immanence, and their ontological statuses have been explored and realized in literature through a close reading and articulation of a series of selected texts, especially works by Giorgio Caproni and Maurice Blanchot. The methodology of the study is interdisciplinary, ranging across literary theory, postmodern cultural analysis, hermeneutics, and comparative culture analysis.

Differences, Deceits and Desires Mirna Cicioni, Nicoletta Di Ciolla, 2008 Italian crime fiction (known as gialli in Italy) has developed from a popular genre to a fully-fledged literary genre; and in the past thirty years it has gradually become the focus of growing interest from literary critics as well as the reading public. This collection of twelve essays is the first one in English to deal exclusively with Italian crime fiction. The essays are scholarly yet accessible contributions to the growing research in this field. They analyze texts by well-known authors (such as Umberto Eco, Leonardo Sciascia and Andrea Camilleri) as well as works by younger writers. They bring together four of the most significant strands of Italian gialli: the way gialli develop or subvert the tradition and conventions of the crime genre; regional specificity within Italian crime fiction; gialli by and about women, lesbians and gay men; and representations of Italy in gialli written by English-speaking writers.
