

Lost And Found One Womans Story Of Losing Her Money And Finding Her Life

One Woman's Journey through a Challenging Century is the beautiful, true story of a strong, resilient woman. Born six days before WWI ended, Edrel grew up in the heart of that century and shares ninety years of her experiences. Edrel was one of eight children, whose parents instilled in them the need to have faith and trust in God. This is the story of a little timid girl who took more than twenty years to come out of her shell. But when she did, she accepted every challenge that came her way. The challenges ranged from initiating the first anti-drug club for children in the 1960s to serving on various national committees. The club, called Help Dan, grew in popularity and was implemented in thirty-eight states. This, and other accomplishments, earned her several major awards including Alaska Mother of the Year and also Military Wife of the Year for all five branches of the military. Edrel toured with Art Linkletter and his entourage across the United States, was twice an honored guest in the White House, and is an honoree in the National Women's History Museum. Inspiring and bold, One Woman's Journey through a Challenging Century takes you along on a remarkable life journey that spans the twentieth century, two continents, and seven states.

Millions of us are locked into an unwinnable weight game, as our self-worth is shredded with every diet failure. Combine the utter inefficacy of dieting with the lack of spiritual nourishment and we have generations of mad, ravenous self-loathing women. So says Geneen Roth, in her life-changing new book, *Women, Food and God*. Since her 1991 bestseller, *When Food Is Love*, was published, Roth has taken the sum total of her experience and combined it with spirituality and psychology to explain women's true hunger. Roth's approach to eating is that it is the same as any addiction - an activity to avoid feeling emotions. From the first page, readers will be struck by the author's intelligence, humour and sensitivity, as she traces the path of overeating from its subtle beginnings through to its logical end. Whether the drug is booze or brownies, the problem is the same: opting out of life. She powerfully urges readers to pay attention to what they truly need - which cannot be found in a supermarket. She provides seven basic guidelines for eating (the most important is to never diet) and shares reassuring, practical advice that has helped thousands of women who have attended her highly successful seminars. Truly a thinking woman's guide to eating - and an anti-diet book - women everywhere will find insights and revelations on every page.

Synopsis Short stories, memoir and poems are all, for this author, ways of reflecting on the search for what is lost and on the surprises along the way to discovery. One woman finds strength in an unlikely place...a casino. Another begins to trust again, tentatively, perhaps ill-advisedly, in the husband who builds a road for her. There is insight, compassion and humor in this collection which makes it a good companion for the bedside table.

In *Dancing the Deep Hum*, Connie Pwll examines the sometimes delightful and sometimes painful lessons she has learned in her sixty-five years of life, and humbly presents some ideas about how to live life joyfully. Weaving in and out between the personal and the public, the individual and the whole - the universe, the infinite, and the here and now, she searches for the definition of that unnamable something that hums, uses her own experiences and other people's stories found in books, film and the media, to suggest a set of principles for living that just might bring us personal happiness while moving us toward a solution to the world's ecological and social justice problems.

One Woman's Journey: Finding Hope is an inspirational autobiography about the ability to push through the challenges of life with a strong grasp on hope.

Her journey of recovery from bipolar disorder and her insights are described in this book, an autobiography of Carol Noyes. When Carol went through mid-life crisis in the spring of 2006

her world was turned upside-down. Carol was able to wean herself off drugs, after over four years on psychiatric medications. She found natural alternatives that effectively helped her to recover and to lead a productive life. Carol believes that the current medical paradigm is inadequate and often unable to help individuals to heal and to bounce back. Carol nearly died from a combination of the swine flu and lithium poisoning. Her descent to the bottom of the metaphorical well provided the impetus for her to research non-drug therapies. These therapies, along with faith, hope, and courage, brought Carol back to a peaceful life. Carol recounts her life and investigates the factors that precipitated imbalance. She writes about her extraordinary experiences during expanded states of consciousness. She also delves into the world of symbols and mythologies, describing how they became poignant for her. Carol calls her experience a time of spiritual awakening; a time of developing self-esteem, learning to love herself, and finding her true purpose. She hopes that her insights will help others going through spiritual crisis. Those interested in humanistic psychology, personal growth, and spirituality may find this book fascinating.

Undeterred by the loss of her first baby and with the support of her husband and family, the author gathered her courage and underwent a repeated round of In-Vitro Fertilisation (IVF) and found herself pregnant once again, this time, with twins. Unfortunately, her happiness was short-lived. Faced with the imminent threat of Cervical Incompetence (CI), she opted to undergo a Cervical Cerclage to increase her odds of carrying her babies to term. Tragedy soon struck and she found herself stricken with grief once more. Lost And Found is the personal story of one woman's arduous journey to parenthood, her anguish at the heart-wrenching loss of her babies, and how she eventually found faith, peace and hope. The book includes experts' contributions in the areas of chiropractic in pregnancy, coping with grief, and pre/post-pregnancy exercises, as well as real-life tales of other mothers who had been in a similar predicament. Lost And Found is a comforting companion for women who are trying for a baby and mothers whose dream has been shattered and wondering how to find hope again...

The #1 New York Times bestselling author of *Women Food and God* maps a path to meeting one of our greatest challenges-how we deal with money. When Geneen Roth and her husband lost their life savings in the Bernard Madoff debacle, Roth joined the millions of Americans dealing with financial turbulence, uncertainty, and abrupt reversals in their expectations. The resulting shock was the catalyst for her to explore how women's habits and behaviors around money-as with food-can lead to exactly the situations they most want to avoid. Roth identified her own unconscious choices: binge shopping followed by periods of budgetary self-deprivation, "treating" herself in ways that ultimately failed to sustain, and using money as a substitute for love, among others. As she examined the deep sources of these habits, she faced the hard truth about where her "self-protective" financial decisions had led. With irreverent humor and hard-won wisdom, she offers provocative and radical strategies for transforming how we feel and behave about the resources that should, and can, sustain and support our lives.

Gifted harpist Edna Phillips (1907–2003) joined the Philadelphia Orchestra in 1930, becoming not only that ensemble's first female member but also the first woman to hold a principal position in a major American orchestra. Plucked from the Curtis Institute of Music in the midst of her studies, Phillips was only twenty-three years old when Leopold Stokowski, one of the twentieth century's most innovative and controversial conductors, named her principal harpist. This candid, colorful account traces Phillips's journey through the competitive realm of Philadelphia's virtuoso players, where she survived--and thrived--thanks to her undeniable talent, determination, and lively humor. Drawing on extensive interviews with Phillips, her family, and colleagues as well as archival sources, *One Woman in a Hundred* chronicles the training, aspirations, setbacks, and successes of this pioneering woman musician. Mary Sue Welsh recounts numerous insider stories of rehearsal and performance with Stokowski and other renowned conductors of the period such as Arturo Toscanini, Fritz Reiner, Otto Klemperer, Sir Thomas Beecham, and Eugene Ormandy. She also depicts Phillips's interactions with fellow performers, the orchestra management, and her teacher, the wily and brilliant Carlos Salzedo. Blessed with a nimble wit, Phillips navigated a plethora of challenges, ranging from false conductors' cues to the advances of the debonair Stokowski and others.

She remained with the orchestra through some of its most exciting years from 1930 to 1946 and was instrumental in fostering harp performance, commissioning many significant contributions to the literature. This portrait of Phillips's exceptional tenure with the Philadelphia Orchestra also reveals the behind-the-scenes life of a famous orchestra during a period in which Rachmaninoff declared it "the finest orchestra the world has ever heard." Through Phillips's perceptive eyes, readers will watch as Stokowski melds his musicians into a marvelously flexible ensemble; world-class performers reach great heights and make embarrassing flubs; Greta Garbo comes to Philadelphia to observe her lover Leopold Stokowski at work; and the orchestra encounters the novel experience of recording for Walt Disney's *Fantasia*. A colorful glimpse into a world-class orchestra at the height of its glory, *One Woman in a Hundred* tells the fascinating story of one woman brave enough and strong enough to overcome historic barriers and pursue her dreams.

Born in Nebraska in 1875, Kate Barnard spent most of her childhood in Kansas, where family dislocation and financial failure darkened her early life. After Barnard and her father moved to Oklahoma Territory in the 1890s, Kate had unsatisfying stints as a schoolteacher and a stenographer before she discovered her life work in politics and social reform. *One Woman's Political Journey: Kate Barnard and Social Reform, 1875—1930* details the life's work—including the political successes and failures—of a complex and courageous woman who appreciated that she was on the cutting edge of new and novel opportunities for women. Crusading for the disadvantaged, Barnard became a spokeswoman for child labor laws, a compulsory school attendance law, a juvenile justice system, and a modern penal structure. In 1907, at age thirty-two, she became the first woman in the nation elected to a state post—Commissioner of Charities and Corrections, a post created specifically for her by Oklahoma's constitutional convention. Her dramatic rhetoric and favorable publicity attracted national attention and the admiration of Oklahomans. Convinced that women could effect positive change, she encouraged them to move into the public arena and embrace social justice reform. She also formed a coalition of farmers and laborers that led to the creation of Oklahoma's Democratic Party. In her first term, Barnard persuaded Oklahoma's all-male legislature to pass reforms announcing state responsibility for the welfare of children and forced changes in the state's humanitarian institutions. In her second term, she sought protection for property rights of American Indian children. But Barnard's career was not without obstacles. Her lack of control over budgets and personnel, along with her frequent clashing with male politicians limited her effectiveness and fueled her growing discouragement with politics. Named by *Oklahoma Today* as one of the fifty most influential Oklahomans in the past one hundred years, Kate Barnard is finally the deserved focus of a full-length scholarly biography.

"I recommend this book highly as one of the 10 most important 'must read' books published this year," Robert Plotkin, Founding President, World Trade Center San Diego. "Three Steps to Wealth & Financial Security – All That Glitters Isn't Gold" is a back to basics, easy to use guide to reassert financial control and secure your financial future. The book draws on real world examples that husband-and-wife authors attorney Gary Laturno, Esq. and Victoria Kuick, MBA, have encountered in counseling over two thousand homeowners in financial distress since 2007. As a result, the book will be an easy read for people who find financial matters confusing or even frightening. The authors' straightforward guidance and recommendations will help many take charge of their financial futures. Comments by Readers: I read your book last night. I'm incredibly impressed! It's a huge undertaking to present an enormous wealth of REALLY important and helpful information in a streamlined way...but you guys did it! And, I think your readers will really appreciate the genuine tone and straightforward approach—life changing stuff. Great job! I see this book distributed in high schools, colleges (law schools particularly—some lawyers are not great when it comes to financial matters), vocational schools, and the like. I hope you're aiming to reach the masses with this one—the subject matter is so salient right now, and this information is really resonating with people. Jennifer Manganello, Esq., University of California, Hastings College of the Law I just finished reading your book. Outstanding! I love the unique way it was written in PowerPoint format—original, straightforward, and easy to follow. The information the book contains, and how it is explained, makes it stand out. You do not allow the reader to blame others or make excuses about their financial situation. You tell them to look in the mirror, take responsibility, and you show them that money problems are not hopeless but fixable. The stock and real estate investing sections are informative and easy to understand. You take the complexity out of stock market investing. You show real estate investors the pitfalls to avoid. Readers will especially benefit from how you compare and contrast real estate investing with the stock market and other investments — bonds, precious metals and cash. It's evident the book was written from firsthand experience, making it truly authentic. I am impressed both by your credentials and your experience counseling over 2,000 homeowners in financial distress since 2007. This book cuts to the core of what people need to know and do to put their financial house in order. I highly recommend your book! Read it and you will substantially increase your financial I.Q. Dory Laramore, Certified Registered Tax Preparer, and author of Get Your Finances Right: The Foundation for Success "Three Steps to Wealth & Financial Security" is well written, concise and provides a wealth of financial advice for every American. The authors ask and answer a number of profound questions.

One Man One Woman takes an in-depth look at the marriage relationship of one man and one woman and how it reflects the beauty of Christs relationship with his church. One Man One Woman is a book about what was in Gods mind as he made the first man and the first woman and subsequently, how we can discover the closest relationship possible with both God and spouse. In this book, we explore how pornography, adultery, homosexuality, and judging one another breaks the oneness relationship and distracts us from focusing on what we should be focusing on that is, spreading the Gospel and calling others to repentance and a turning away from sin. One Man One Woman is also about learning how to handle some of the many relationship challenges we face as imperfect beings living in an ever-corrupting world. While Christianity seemingly slumbers on, sexual identity is becoming a matter of subjective preference and choice rather than birthright and blessing. Traditional marriage is ever weakening under fire and conventional sex is taking a back seat to alternative sexual exploration. Consequently, divorce rates are accelerating, and Christian marriage values are succumbing into a minority view. But God had a plan in the beginning, and marriage was and still is an integral part of that plan. In the Gospel of John, Jesus uses an Eastern wedding custom when announcing he was leaving to prepare a place for you, thus signaling the beginning of the end, the impending wedding ceremony, and the imminent start of eternity with him. People, get ready Jesus is returning soon!

"On September 2, 2013, at the age of 64, Diana Nyad emerged onto the shores of Key West after completing a 110 mile, 53 hour, record-breaking swim through shark-infested waters from Cuba to Florida. Her memoir shows why, at 64 she was able to achieve what she couldn't at 30 and how her repeated failures contributed to her success."--

When There Is No Wind, Row tells the story about the remarkable career path the author traveled to become a lawyer. When she began that journey in the 1960s, social and cultural barriers were high - women were supposed to become wives and mothers not lawyers - forcing her to tack to different careers. She faced financial barriers as well. The author tells about growing up poor in the 1950s in Kennebunk, Maine. When she left for college, scholarship awards and a student loan with savings from her summer jobs didn't cover her first-year college costs. But she made it, graduating Phi Beta Kappa in 1966, even though married and supporting her widowed mother by her junior year. Her plans for law school were thwarted by the lack of financial aid for women for professional schools. When she began her job search in Boston, want ads were segregated by gender. She landed interviews for "male" jobs through an employment agent who failed to disclose she was female. The first interviewer refused to see her and, at her next interview, she was made to wait for seven hours. She finally landed a job as computer programmer at an insurance company even though she didn't know what a computer was. Her qualification for the job - she could play bridge! At age 30, the author left her computer career for law school - student aid for women had become available with passage of Title IX of the Civil Rights Act. The barriers for entry into the legal profession in Boston for a lawyer with her unusual "credentials" - female, mid-30s, married, a mother, a public school education and a prior career - were too high to overcome. She tacked to a unique job with the consulting firm, Arthur D. Little, Inc. supporting the company's international projects at the outset of economic globalization. At age 40, she finally began practicing law, building up an international tax practice well before fax, email and the Internet. At age 50, she parlayed her career experiences to found a successful tax software company with her husband.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer,

meaning that the planet Mars “mangal Graha” was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

"Brad Ricca's Olive MacLeod is my favorite sort of woman from history—bold and unconventional, utterly unsinkable—and her story is so full of adventure and acts of courage, it's hard to believe she actually lived. And yet she did! Brad Ricca has found a heroine for the ages, and written her tale with a winning combination of accuracy and imagination." — Paula McLain, author of *Love and Ruin* and *The Paris Wife* From the Edgar-nominated author of the bestselling *Mrs. Sherlock Holmes* comes the true story of a woman's quest to Africa in the 1900s to find her missing fiancé, and the adventure that ensues. In 1910, Olive MacLeod, a thirty-year-old, redheaded Scottish aristocrat, received word that her fiancé, the famous naturalist Boyd Alexander, was missing in Africa. So she went to find him. *Olive the Lionheart* is the thrilling true story of her astonishing journey. In jungles, swamps, cities, and deserts, Olive and her two companions, the Talbots, come face-to-face with cobras and crocodiles, wise native chiefs, a murderous leopard cult, a haunted forest, and even two adorable lion cubs that she adopts as her own. Making her way in a pair of ill-fitting boots, Olive awakens to the many forces around her, from shadowy colonial powers to an invisible Islamic warlord who may hold the key to Boyd's disappearance. As these secrets begin to unravel, all of Olive's assumptions prove wrong and she is forced to confront the darkest, most shocking secret of all: why she really came to Africa in the first place. Drawing on Olive's own letters and secret diaries, *Olive the Lionheart* is a love story that defies all boundaries, set against the backdrop of a beautiful, unconquerable Africa. Being Lost is the First Step to Getting Found As a marriage and family therapist, one of Nicole Zasowski's greatest joys is helping her clients grow in emotional freedom. And often, on the far side of pain we don't prefer, we find transformation we would not trade. In *From Lost to Found*, Nicole shares her story as she helps us name what we fear losing most, identify how our reactive behaviors are failing us, discover what joy we can find in letting go, and move forward in the freedom God has for us. God is writing a story of redemption in your life too. Find out for yourself that sometimes the greatest joy is found when we are drained of all misplaced hope and shallow identities. When applying for her driver's license at an Illinois DMV, Keathley inadvertently said "yes" to the form question of registering to vote, and subsequently received a voter registration card in the mail. With this card, Keathley voted in a midterm congressional election, violating U.S. election law. When the mistake was discovered at her citizenship hearings, the Department of Homeland Security ordered her deportation. Elizabeth Keathley's case went from Chicago Immigration Court all the way to the U.S. Court of Appeals for the Seventh Circuit. Created from verbatim transcripts, THE COURTROOM is an uncanny examination of the U.S. immigration system and one woman at its mercy.

"With a broken marriage and two children, a southern woman builds a successful business career in New York and eventually remarries." Cf. Hanna, A. Mirror for the nation.

Found is Jennifer Lauck's sequel to her New York Times bestseller *Blackbird: A Childhood Lost and Found*. More than one woman's search for her biological parents, *Found* is a story of loss, adjustment, and survival. Lauck's investigation into her own troubled past leads her to research that shows the profound trauma undergone by infants when they're separated from their birth mothers—a finding that provides a framework for her writing as well as her life. Though Lauck's story is centered around her search for her birth mother, it's also about her quest to overcome her displacement, her desire to please and fit in, and her lack of a sense of self—all issues she attributes to having been adopted, and also to having lost her adoptive parents at the early age of nine. Throughout her thirties and early forties, she tries to overcome her struggles by becoming a mother and by pursuing a spiritual path she hopes will lead to wholeness, but she discovers that the elusive peace she has been seeking can only come through investigating—and coming to terms with—her past. *Found* is a powerful story of belonging, connectedness, and personal truths, in which Lauck lays bare the experience of a woman searching for her identity. Her assertions about mother and child will be a comfort to some in the adoptive community, and distressing to others; but her primary motive is to offer another perspective, and to give voice to the adoptive children who may be having trouble making sense of their own experience.

What would it be like to be an adventurous woman living for ten years on a spaceship bound for a distant star? What adventures would be in store for an intrepid female scientist and her male paramour exploring a vast unknown planet half permanently frozen and dead, the other half warm and teeming with life? What would it be like for space travelers to live in an advanced matriarchal civilization where Earths dominant patriarchal values are considered alien and are questioned and suppressed? These are some of the questions raised in Valpartha: One Womans Quest;: An Interstellar Romance. The first-person protagonist, Swedish geologist Astrid Svenson, leaves Earth behind forever to explore and record scientific findings on unknown planets for the European Space Agency. She experiences adventure, triumph, terror, mishap, but above all, love and romance, as she and her husband, French botanist Henri Brule, share their lives and love together, exploring two planets and two cultures at opposite ends of the continuum of civilization. Both the highly civilized matriarchal Valparthans and the hunter-gatherer Arkenuans welcome the space travelers onto their planets to share their cultures. On the matriarchal planet of Valpartha, good will go only so far in dealing with fundamental cultural differences and the expectations of their host society. On the wild and unknown planet of Arkenu, friendly natives sometimes rescue their expedition from hostile tribes, though at other times, they must fight alone for survival on an alien world.
