“Maybe you have to know the darkness before you can appreciate the light.” ~ Madeleine L’Engle
Darkness has fallen upon the Sparrow world. What seemed secure was breached, and what was assumed unattainable is possible. In this dangerous underground world, we Sparrows took our power by force. As dusk gave way to dark, we Sparrows are once again determined to use any means necessary to recover what is ours, secure our stronghold, and defeat those who appear unconquerable. The gauntlet has been thrown. We will not retreat. Darkness be damned. It is time for triumph. I am Reid Murray. For my wife and my brothers-in-arms, nothing, not even darkness, will stop the Sparrows from victory. From New York Times bestselling author Aleatha Romig comes a brand-new dark romantic suspense trilogy, *Dangerous Web*. *DARK*, book #2, is set in the dangerous world of the Sparrows. You do not need to read *Web of Sin*, *Tangled Web*, or *Web of Desire* to get caught up in this dangerous and intriguing new romantic suspense saga, *Dangerous Web*. *DARK* is book two of the *DANGEROUS WEB* trilogy that began in *DUSK* and concludes in *DAWN*. Have you been Aleatha’d?

Tracing a circular course that echoes Bach’s *Goldberg Variations*, Luis Sagasti’s second book to appear in English takes the guise of a musical *scheherazade*, recounting story after story, vibrating to celestial harmonies. From the music born of the sun to the music sent into space on the *Voyager* mission, from Rothko to rock music, from the composers of the concentration camps to a weeping room for Argentinian conscripts in the Falklands, *A Musical Offering* traverses the shifting sands of fiction and history.

A compelling, harrowing, but ultimately uplifting story of resilience and self-discovery. "A Two-Spirit Journey" is Ma-Nee Chacaby’s extraordinary account of her life as an Ojibwa-Cree lesbian. From her early, often harrowing memories of life and abuse in a remote Ojibwa community riven by poverty and alcoholism, Chacaby’s story is one of enduring and ultimately overcoming the social, economic, and health legacies of colonialism. As a child, Chacaby learned spiritual and cultural traditions from her Cree grandmother and trapping, hunting, and bush survival skills from her Ojibwa stepfather. She also suffered physical and sexual abuse by different adults, and in her teen years became alcoholic herself. At twenty, Chacaby moved to Thunder Bay with her children to escape an abusive marriage. Abuse, compounded by racism, continued, but Chacaby found supports to help herself and others. Over the following decades, she achieved sobriety; trained and worked as an alcoholism counsellor; raised her children and fostered many others; learned to live with visual impairment; and came out as a lesbian. In 2013, Chacaby led the first gay pride parade in Thunder Bay. Ma-Nee Chacaby has emerged from hardship grounded in faith, compassion, humour, and resilience. Her memoir provides unprecedented insights into the challenges still faced by many Indigenous people.

Jane has lived a mostly ordinary life, raised by her recently deceased aunt Magnolia, whom she counted on to turn life into an adventure. Without Aunt Magnolia, Jane is lost. So she's easily swept away when a glamorous, capricious, and wealthy acquaintance from years ago asks Jane to accompany her to a gala at the extravagant island mansion called Tu Reviens. Jane remembers her aunt telling her: "If anyone ever invites to you to Tu Reviens, promise me that you'll go." What Jane doesn't know is that the house will offer her five choices that could ultimately determine the course of her life. One choice leads Jane into a heist mystery. Another takes her into a spy thriller. She finds herself in a gothic horror story, a space opera, and an extraordinary fantasy realm. She might fall in love, she might lose her life, she might come face-to-face with herself. Every choice comes with a price. But together, all the choices will lead her to the truth. One house. Five choices. Limitless possibilities. Read *Jane, Unlimited* and remember why The New York Times has raved, "Some authors can tell a good story; some can write well. NEW YORK TIMES BESTSELLER • Red Rising hit the ground running and wasted no time becoming a sensation. Golden Son continues the stunning saga of Darrow, a rebel forged by tragedy, battling to lead his oppressed people to freedom. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR, BUZZFEED, AND BOOKLIST • “Gripping . . . On virtually every level, this is a sequel that hates sequels—a perfect fit for a hero who already defies the tropes. Go to the ball, meet the prince, and secure his patronage for my favorite charity. But beneath the mask, the brooding beast of a man was not at all who I expected. He was dark and intense and eerily quiet. When I left, I could still feel the ghost of his touch branded into my skin. He haunted my dreams, but I never expected to see him again. Then he came for me. And he took me. And I learned that his darkness was a void I never could have conceived. He's the crown prince. And, now, I'm his captive. This is a full length standalone with dark themes.

War is inevitable and the person with the biggest stick more often than not wins. Before all that though, Pytheas is sitting at his desk at the famous hero agency of Istros dreaming of a chance to prove himself . . . and obviously the fame and fortune that automatically comes after proving yourself. A simple quest to deliver a letter throws him into the opportunity he always thought he wanted. Joining forces with a princess and a giant, his journey takes him to every corner of this fantasy world, from desert lands, vast forests and even a temple above the clouds. His destiny now pulls him towards an ancient weapon and a race against time to stop an attack by the dark warriors, an evil army that has travelled from afar with one objective . . . to destroy everything. Pytheas really shows you how there is another world out there, if you are only brave enough to leave your desk. Prepare to be shocked. From the man The Wall Street Journal hailed as a "Swiftean satirist" comes the most shocking book ever written! The Borowitz Report: The Big Book of Shockers, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too controversial,

too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

Traditional philosophical discussions of knowledge have focused on the epistemic status of full beliefs. Sarah Moss argues that in addition to full beliefs, credences can constitute knowledge. For instance, your 0.4 credence that it is raining outside can constitute knowledge, in just the same way that your full beliefs can. In addition, you can know that it might be raining, and that if it is raining then it is probably cloudy, where this knowledge is not knowledge of propositions, but of probabilistic contents. The notion of probabilistic content introduced in this book plays a central role not only in epistemology, but in the philosophy of mind and language as well. Just as tradition holds that you believe and assert propositions, you can believe and assert probabilistic contents. Accepting that we can believe, assert, and know probabilistic contents has significant consequences for many philosophical debates, including debates about the relationship between full belief and credence, the semantics of epistemic modals and conditionals, the contents of perceptual experience, peer disagreement, pragmatic encroachment, perceptual dogmatism, and transformative experience. In addition, accepting probabilistic knowledge can help us discredit negative evaluations of female speech, explain why merely statistical evidence is insufficient for legal proof, and identify epistemic norms violated by acts of racial profiling. Hence the central theses of this book not only help us better understand the nature of our own mental states, but also help us better understand the nature of our responsibilities to each other.

This "deeply immersive novel" (The Washington Post) from the author of the award-winning Preparation for the Next Life is an "epic coming-of-age tale filled with pain, heartache, fear, and undying love" (The Associated Press), as a young man's yearning to protect his dying mother requires him to risk destroying his estranged, enigmatic, powerful father. "From its hypnotic opening pages, we find ourselves in the sure hands of a roaming omniscient narrator, one who knows intimately the beating hearts of its two central characters" —Andre Dubus III, The New York Times Book Review Corey Goltz grows up in the working-class outskirts of Boston as the only child of Gloria, whose ambitions were derailed early but who has always given her son everything she can. Corey, restless, dreams of leaving home for a great adventure. Instead, when he is fifteen, the world comes crashing down upon him, when Gloria is diagnosed with ALS and, too late, his estranged father, Leonard—a man of great charisma but dubious moral character—reenters the picture. Determined to be his mother's hero at any cost, Corey begins shouldering responsibility for her expensive medical care, pushing himself to his physical and emotional limits as her disease cruelly progresses. And as Leonard's influence over Corey grows, Corey must dismantle the myth of his father's genius and confront the evil that lurks beneath it. Gritty, visceral, and profoundly stirring, The War for Gloria tells the story of a

young man, straddling childhood and adulthood, whose yearning to protect his mother requires him to risk destroying his father. An indelible work from a strikingly original voice in American fiction.

Praised by The New York Times; O, The Oprah Magazine; Bitch Magazine; Slate; Publishers Weekly; and more, this is “a bracing corrective to a national mythology” (New York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History* award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a “helpmate” but a lifelong economic justice and peace activist who pushed her husband’s activism in these directions. Moving from “the histories we get” to “the histories we need,” Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the work and disruption it took; the role of the media and “polite racism” in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. *A More Beautiful and Terrible History* will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. There are some difficult and dark scenes that may upset some readers.

Over the past decades, environmental problems have attracted enormous attention and public concern. Many actions have been taken by the U.S. Environmental Protection Agency and others to protect human health and ecosystems from particular threats. Despite some successes, many problems remain unsolved and new ones are emerging. Increasing population and related pressures, combined with a realization of the interconnectedness and complexity of environmental systems, present new challenges to policymakers and regulators. Scientific research has played, and will continue to play, an essential part in solving environmental problems. Decisions based on incorrect or incomplete understanding of environmental systems will not achieve the greatest reduction of risk at the lowest cost. This volume describes a framework for acquiring the knowledge needed both to solve current recognized problems and to be prepared for the kinds of problems likely to emerge in the future. Many case examples are included to illustrate why some environmental control strategies have succeeded where others have fallen short and how we can do better in the future.

Heartbreaking, hilarious, and brutally honest, *Going There* is the deeply personal life story of a girl next door turned household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she's never shared, until now. Of the medium she loves, the one that made her a household name, she says, "Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is." Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn't afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest "get"—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric's position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her "welcome" was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even

the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn't happen. If you thought you knew Katie Couric, think again. *Going There* is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

Named a Most Anticipated Book of Fall 2021 by The New York Times, USA Today, Vulture, The Week, and more! "There's some kind of genius sorcery in this novel. It's startlingly original, hilarious and harrowing by turns, finally transcendent. Watkins writes like an avenging angel. It's thrilling and terrifying to stand in her wake." —Jenny Offill, author of *Dept. of Speculation* and *Weather* A darkly funny, soul-rending novel of love in an epoch of collapse—one woman's furious revisiting of family, marriage, work, sex, and motherhood. Since my baby was born, I have been able to laugh and see the funny side of things. a) As much as I ever did. b) Not quite as much now. c) Not so much now. d) Not at all. Leaving behind her husband and their baby daughter, a writer gets on a flight for a speaking engagement in Reno, not carrying much besides a breast pump and a spiraling case of postpartum depression. Her temporary escape from domestic duties and an opportunity to reconnect with old friends mutates into an extended romp away from the confines of marriage and motherhood, and a seemingly bottomless descent into the past. Deep in the Mojave Desert where she grew up, she meets her ghosts at every turn: the first love whose self-destruction still haunts her; her father, a member of the most famous cult in American history; her mother, whose native spark

gutters with every passing year. She can't go back in time to make any of it right, but what exactly is her way forward? Alone in the wilderness, at last she begins to make herself at home in the world. Bold, tender, and often hilarious, *I Love You but I've Chosen Darkness* reaffirms Watkins as one of the signal writers of our time.

The National Book Critics Circle Award-winning author delivers a collection of essays that serve as the perfect "antidote to mansplaining" (*The Stranger*). In her comic, scathing essay "Men Explain Things to Me," Rebecca Solnit took on what often goes wrong in conversations between men and women. She wrote about men who wrongly assume they know things and wrongly assume women don't, about why this arises, and how this aspect of the gender wars works, airing some of her own hilariously awful encounters. She ends on a serious note—because the ultimate problem is the silencing of women who have something to say, including those saying things like, "He's trying to kill me!" This book features that now-classic essay with six perfect complements, including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original inquiry into marriage equality, and a terrifying survey of the scope of contemporary violence against women. "In this series of personal but unsentimental essays, Solnit gives succinct shorthand to a familiar female experience that before had gone unarticulated, perhaps even unrecognized." —*The New York Times* "Essential feminist reading." —*The New Republic* "This slim book hums with power and wit." —*Boston Globe* "Solnit tackles big themes of gender and power in these accessible essays. Honest and full of wit, this is an integral read that furthers the conversation on feminism and contemporary society." —*San Francisco Chronicle* "Essential." —*Marketplace* "Feminist, frequently funny, unflinchingly honest and often scathing in its conclusions." —*Salon*

Aggressive policing and draconian sentencing have disproportionately imprisoned millions of African Americans for drug-related offenses. Michael Javen Fortner shows that in the 1970s these punitive policies toward addicts and pushers enjoyed the support of many working-class and middle-class blacks, angry about the chaos in their own neighborhoods.

Drawn from a thousand photos taken over fifteen years, *We Animals* illustrates and investigates animals in the human environment: whether they're being used for food, fashion and entertainment, or research, or are being rescued to spend their remaining years in sanctuaries. Animalkind Remarkable Discoveries about Animals and Revolutionary New Ways to Show Them Compassion Simon & Schuster

The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with "admiration and empathy" (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding beings with intelligence, emotions, intricate communications networks, and myriad abilities. In Animalkind, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish "sing" underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it's medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. Animalkind provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.

BOOK ONE OF THE DARK DUET: Caleb is a man with a singular interest in revenge.

Kidnapped as a young boy and sold into slavery by a power-hungry mobster, he has thought of nothing but vengeance. For twelve years he has immersed himself in the world of pleasure slaves searching for the one man he holds ultimately responsible. Finally, the architect of his suffering has emerged with a new identity, but not a new nature. If Caleb is to get close enough to strike, he must become the very thing he abhors and kidnap a beautiful girl to train her to be all that he once was. Eighteen-year-old Olivia Ruiz has just woken up in a strange place. Blindfolded and bound, there is only a calm male voice to welcome her. His name is Caleb, though he demands to be called Master. Olivia is young, beautiful, naïve and willful to a fault. She has a dark sensuality that cannot be hidden or denied, though she tries to accomplish both. Although she is frightened by the strong, sadistic, and arrogant man who holds her prisoner, what keeps Olivia awake in the dark is her unwelcome attraction to him.

Transhumanists would have humanity's creation of posthumanity be our governing aim. Susan B. Levin challenges their overarching commitments regarding the mind, brain, ethics, liberal democracy, knowledge, and reality. Her critique unmask their notion of humanity's self-transcendence via science and technology as pure, albeit seductive, fantasy.
