"He either enchants or antagonizes everyone he meets. But even his enemies agree there are three things Ray Kroc does damned well: sell hamburgers, make money, and tell stories." --from Grinding It Out Few entrepreneurs can claim to have radically changed the way we live, and Ray Kroc is one of them. His revolutions in food-service automation, franchising, shared national training, and advertising have earned him a place beside the men and women who have founded not only businesses, but entire empires. But even more interesting than Ray Kroc the business man is Ray Kroc the man. Not your typical self-made tycoon, Kroc was fifty-two years old when he opened his first franchise. In Grinding It Out, you'll meet the man behind McDonald's, one of the largest fast-food corporations in the world with over 32,000 stores around the globe. Irrepressible enthusiast, intuitive people person, and born storyteller, Kroc will fascinate and inspire you on every page.

The Autobiography of Benjamin Franklin is the traditional name for the unfinished record of his own life written by Benjamin Franklin from 1771 to 1790; however, Franklin himself appears to have called the work his Memoirs. Although it had a

tortuous publication history after Franklin's death, this work has become one of the most famous and influential examples of an autobiography ever written. Franklin's account of his life is divided into four parts, reflecting the different periods at which he wrote them. There are actual breaks in the narrative between the first three parts, but Part Three's narrative continues into Part Four without an authorial break (only an editorial one).

'Refreshingly honest [...] a highly enjoyable, fascinating read.' Horse and Hound "To ride into that arena, next to a sea of British flags and hear the roar of clapping and cheering, was so exciting. It's a sound I will never, ever forget." Charlotte Dujardin and her charismatic horse Valegro burst onto the international sports scene with their record-breaking performance at the London, 2012 Olympics. The world was captivated by the young woman with the dazzling smile and her dancing horse. But no one quite knew what it took to get there, nor how hard the path to success would be – until now. Dujardin began riding horses at the age of two, but dressage was firmly the domain of the wealthy, not the life of a girl from a middle-class family. Her parents sacrificed all and with a undeterred focus, Charlotte left school at 16 to follow her dream. When she was invited to be a groom for the British Olympian Carl Hester, she began to ride Valegro, a dark bay gelding and an unbreakable bond was formed. This is their incredible story.

The year 2010 marked the 100th anniversary of Mark Twain's death. In celebration of this important milestone and in honor of the cherished tradition of publishing Mark Twain's works, UC Press published *Autobiography of Mark Twain, Volume 1*, the first of a projected three-volume edition of the complete, uncensored autobiography. The book became an immediate bestseller and was hailed as the capstone of the life's work of America's favorite author. This Reader's Edition, a portable paperback in larger type, republishes the text of the hardcover *Autobiography* in a form that is convenient for the general reader, without the editorial explanatory notes. It includes a brief introduction describing the evolution of Mark Twain's ideas about writing his autobiography, as well as a chronology of his life, brief family biographies, and an excerpt from the forthcoming *Autobiography of Mark Twain, Volume 2*—a controversial but characteristically humorous attack on Christian doctrine.

Thousands of black cowpunchers drove cattle up the Chisholm Trail after the Civil War, but only Nat Love wrote about his experiences. Born to slaves in Davidson County, Tennessee, the newly freed Love struck out for Kansas after the war. He was fifteen and already endowed with a reckless and romantic readiness. In wide-open Dodge City he joined up with an outfit from the Texas Panhandle to begin a career riding the range and fighting Indians, outlaws, and

the elements. Years later he would say, "I had an unusually adventurous life". That was rare understatement. More characteristic was Love's claim: "I carry the marks of fourteen bullet wounds on different parts of my body, most any one of which would be sufficient to kill an ordinary man, but I am not even crippled". In 1876 a virtuoso rodeo performance in Deadwood, Dakota Territory, won him the moniker of Deadwood Dick. He became known as DD all over the West, entering into dime novels as a mysteriously dark and heroic presence. This vivid autobiography includes encounters with Bat Masterson and Billy the Kid, a soon-after view of the Custer battlefield, and a successful courtship. Love left the range in 1890, the year of the official closing of the frontier. Then, as a Pullman train conductor he traveled his old trails, and those good times bring his story to a satisfying end.

The chapters chart a route through life that make for interesting reading from innocent beginnings to the bitter end and Willidau hopes youll be just killing yourself laughing by the end of it all, too. Throughout the course of the book, Here Goes Nothing The First Weak, The Deformative Years, Friends and Enemas, Sporting A Black Eye, Proxy Morons and Th-Th-Th-Thats All Fooks are just a few of the given takes on the stages of life youll encounter. Making a Joke Out of Ones Life is a perfect read for one of those dismal days when that lonely bottle of wine just isnt enough and adding some cheese would, at least, make it look like youre a happy party of one, anyway, and not just your own funeral party waiting to happen.

The stories we tell about ourselves are guided by cultural patterns and enduring elements. The current interest in mythology has made evident how the classic hero's journey represents a theme not only common to all the world's myths, but

also our own lives today. The Gift of Stories offers a clear concise basis for understanding the nature and potential of sharing our stories. It provides specific, practical, instructional details for telling our own stories and gives the necessary guidelines for assisting others in telling their life stories. Its basic framework enables individuals with little experience to begin writing about the really important aspects of their lives and understanding how and why the universal elements of the stories we tell contribute to our continuing growth.

An Autobiography of British Cinema tell the story of British film by those who made it. Bypassed medical and health technologies that are safer and more effective than those in current use in our medical system. Topics include therapeutic devices utilizing electricity, magnetism, color and sound frequencies. Also includes a description of the world's most powerful microscope which was built in the 1930s and then disappeared. Use of this microscope would change the direction of research and therapeutic approaches for all of today's major health problems.

Taking a fresh look at the state of autobiography as a genre, The Phenomenology of Autobiography: Making it Real takes a deep dive into the experience of the reader. Dr. Schmitt argues that current trends in the field of life writing have taken the focus away from the text and the initial purpose of autobiography as a means for the author to communicate with a reader and narrate an experience. The study puts autobiography back into a communicational context, and putting forth the notion that one of the reasons why life writing can so often be aesthetically unsatisfactory, or difficult to distinguish from novels, is because it should not be

considered as a literary genre, but as a modality with radically different rules and means of evaluation. In other words, not only is autobiography radically different from fiction due to its referentiality, but, first and foremost, it should be read differently.

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or

Online Library Making It Happen The Autobiography

lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Investigates the use of plays as a form of autobiography, looking at how the line between real-life and fiction can become blurred.

Each of us plays many roles. If we are not real we will not be successful in playing any of those roles. The title contains a series of roles I have played in my life. I will be successful to the degree that I am REAL. Each of us is asked to make the presence of God REAL. We can do that only if we are real. I have been described by others as being half poet, horse trader, family. The title I liked best was given to me by a group of youngsters who asked me: "Why don't you teach us? You're REALWe are REAL when we are born but we quickly lose that sense of reality when we encounter difficulties in life. When we learn to not simply deal with the difficulties of life but transform those difficulties into a deeper understanding of who we are we become a little more REAL. William Crumley asks questions few other persons ask. As a result he has answers many others do not have. The titles of his books reflect some of those

questions and answers. Why We Are Always Broke, Must We Always Remain Broke? Restoring the Common WEALTH. The last book is a novel which expresses the conditions which have caused our economic crisis and suggest solutions ordinary people can do to avert economic problems. He also authored another book Ordinary People Tuning In On Needs. His writings also reflect that we have more than just a body. We are mind and spirit also. Our minds and spirits are sometimes troubled by the events of our bodies. One of his books is entitled Keep On Trucking: even if you do not have a truck. A book entitled Letters From God reflect a spiritual solution to some of the common problems our bodies present to us. Ecolections: reflections on the ecology is a series of poems which aim to help us restore our environment. " On October 13, 1951 my father died. He had been operated on twice and both times they found cancer. Between the operations he was able to return to work. After the second operation he was no longer able to work. I saw him wasting away and tried to avoid thinking about it. Whenever anyone asked about him I would say that he was doing all right. One night about two months before he died I was in the front yard watering the lawn. I always looked for an excuse to get out of watering the lawn. Dad came out and said: "I want to talk to you." I knew what he wanted to talk about and I did not want to hear it. I replied: "I have to water the lawn." Dad said: "You can continue watering the lawn but sit here on the step, I want to talk to you". When I sat down dad said: "I heard you tell Mr. Cook when he asked how I was doing, that I was doing ok." Now I was certain what he wanted to talk about. I did not want to give him the opening his question was leading toward. I also did not want to lie to my father and deny I had said it, so I simply remained quiet. After a few seconds dad said: "You know I am going to die." My father's simple statement was difficult. However, it was also freeing. I did

know he was going to die. He freed me from the burden of continuing to deny something I knew was true. He also said it so calmly and peacefully. He told me in effect that it was all right for him to die. The day before he died dad asked to go to the hospital. That night mom and I went to see him in the hospital. He sent us home very quickly. I never understood why he asked to go to the hospital and why he sent us home so quickly. Years later as I began to help families accept the death of a loved one I finally understood why he went to the hospital and sent us home so quickly. In my later ministry I came to realize that someone will not die until they are allowed to die by their family. My mother and my sister were not allowing dad to die. He could not go on any longer. He had to go where he could die in peace.

I've had a more-than-little crush on Jacksepticeye for just about as long as I've been a YouTuber. Which is a long time. It began as more of a celebrity crush, the admiration from afar. Finally being able to meet him in person would be a total dream... One that may come true sooner than I would think.

FINALIST FOR THE NATIONAL BOOK AWARD IN NONFICTION Solitary is the unforgettable life story of a man who served more than four decades in solitary confinement—in a 6-foot by 9-foot cell, 23 hours a day, in notorious Angola prison in Louisiana—all for a crime he did not commit. That Albert Woodfox survived was, in itself, a feat of extraordinary endurance against the violence and deprivation he faced daily. That he was able to emerge whole from his odyssey within America's prison and judicial systems is a triumph of the human spirit, and makes his book a clarion call to reform the inhumanity of solitary confinement in the U.S. and around the world. Arrested often as a teenager in New Orleans, inspired behind bars in his early twenties to join the Black Panther Party because of its social commitment and code of living, Albert was serving a 50-year sentence in Angola for armed robbery when on April 17, 1972, a white guard was killed. Albert and another member of the Panthers were accused of the crime and immediately put in solitary confinement by the warden. Without a shred of actual evidence against them, their trial was a sham of justice that gave them life sentences in solitary. Decades passed before Albert gained a lawyer of consequence; even so, sixteen more years and multiple appeals were needed before he was finally released in February 2016. Remarkably self-aware that anger or bitterness would have destroyed him in solitary confinement, sustained by the shared solidarity of two fellow Panthers, Albert turned his anger into activism and resistance. The Angola 3, as they became known, resolved never to be broken by the grinding inhumanity and corruption that effectively held them for decades as political prisoners. He survived to give us *Solitary*, a chronicle of rare power and humanity that

proves the better spirits of our nature can thrive against any odds.

Jess has been in love with her best friend, Kate, for seven years, but her feelings have never been returned. One night they sleep together, and Jess finds out how much it is possible to be hurt by someone close. Jess and Kate struggle to redefine their friendship. They spend a week at Jess's family holiday house in a small seaside town, Awatangi, intending to make the time to talk things through, but the conversations never happen. Kate makes vague promises, but begins to have second thoughts. Jess wants Kate, and nothing else, and is heartbroken that isn't enough. Jess decides – while everything is changing in her life – that she doesn't want to go on living in the city, that she wants to return to Awatangi. Part of her hopes some physical distance between them may help things with Kate, and part of her – frustrated and upset – simply wants to leave Kate behind. In Awatangi, Jess meets Keri, a local lawyer who has also recently returned home. Like Jess, Keri surfs, and like Jess, she seems to feel some attachment to her family roots in Awatangi. Jess is drawn to Keri, but forces herself not to let anything happen. Despite everything, Kate is still Jess's closest friend, and she has loved Kate all her life. She feels she has to give the situation with Kate as long as she can to work itself out. Awatangi is about coping with feelings for a close friend that are not returned, set in a small holiday township on the West Coast of the South Island of New Zealand. It is an exploration of getting what you've always wanted and it not being enough, of being in love with one person and wanting another, and of finding out that life doesn't always turn out as expected.

education, Phillips worked as a newspaper reporter in Cincinnati, Ohio before moving on to New York City where he was employed as a columnist and editor with the New York World until 1902. In his spare time, he wrote a novel, *The Great God Success* that was published in 1901. The book sold well enough that his royalty income was sufficient enough to allow him to work as a freelance journalist while dedicating himself to writing fiction. Writing articles for various prominent magazines, he began to develop a reputation as a competent investigative journalist. Considered a progressive, Phillips' novels often commented on social issues of the day and frequently chronicled events based on his real-life journalistic experiences.

In the tradition of Phil Knight's *Shoe Dog* comes the incredible untold story of how Netflix went from concept to company - all revealed by co-founder and first CEO Marc Randolph.

"Engaging and insightful." --Reed Hastings, CEO of Netflix "As the founding CEO, Marc Randolph's leadership defined the culture of Netflix and laid the groundwork for successive, global revolutions in how we make and consume entertainment." --Gina Keating, author of *Netflixed: The Epic Battle for America's Eyeballs*

"Charming, fascinating and very funny. If you've ever wondered how to turn an idea into a global household name, Marc Randolph will demystify the world of Silicon Valley start-ups, and make you laugh a lot along the way."

--Decca Aitkenhead, *The Sunday Times* "A charming first-person account of the early days of one of the most successful tech start-ups ever. An engaging read that will engross any would-be entrepreneur." --*The Washington Post* Once upon a time, brick-and-mortar video stores were king. Late fees were ubiquitous, video-streaming unheard of, and widespread DVD adoption seemed about as imminent as flying cars. These were the widely accepted laws of the land in 1997 when Marc Randolph had an idea. It was a simple thought - leveraging the

internet to rent movies - and was just one of many more proposals, like personalised baseball bats and a shampoo delivery service, that Randolph would pitch to his business partner, Reed Hastings, on their commute to work each morning. But Hastings was intrigued, and the pair - with Hastings as the primary investor and Randolph as the CEO - founded a company. Now with over 150 million subscribers, Netflix's triumph feels inevitable but the twenty-first century's most disruptive start-up began with few believers and calamity at every turn. From having to pitch his own mother on being an early investor, to the motel conference room that served as a first office, to server crashes on launch day, to the now-infamous meeting when they pitched Blockbuster to acquire them, Marc Randolph's transformational journey exemplifies how anyone with grit, gut instincts and determination can change the world - even with an idea that many think will never work. What emerges, however, isn't just the inside story of one of the world's most iconic companies. Full of counter-intuitive concepts and written in binge-worthy prose, it answers our most fundamental questions about taking that leap of faith in business or in life: How do you begin? How do you weather disappointment and failure? How do you deal with success? What even is success? From idea generation to team building to knowing when it's time to let go, *That Will Never Work* is not only the ultimate follow-your-dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time. "Marc wastes no time cutting through the noise. He understands what is important whether it is your product, your marketing, or your business plan. A remarkable and one of a kind visionary." --Mitch Lowe, founder of RedBox and CEO of MoviePass "An entertaining chronicle of creativity, luck, and unflagging perseverance." --Kirkus

#1 NATIONAL BESTSELLER Far more than a superb memoir about the highest levels of professional tennis, *Open* is the engrossing story of a remarkable life. Andre Agassi had his life mapped out for him before he left the crib. Groomed to be a tennis champion by his moody and demanding father, by the age of twenty-two Agassi had won the first of his eight grand slams and achieved wealth, celebrity, and the game's highest honors. But as he reveals in this searching autobiography, off the court he was often unhappy and confused, unfulfilled by his great achievements in a sport he had come to resent. Agassi writes candidly about his early success and his uncomfortable relationship with fame, his marriage to Brooke Shields, his growing interest in philanthropy, and—described in haunting, point-by-point detail—the highs and lows of his celebrated career.

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment surrounding us also

Online Library Making It Happen The Autobiography

has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book Paradise Lost, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.

New York Times bestselling author, superstar comedian, and Hollywood box office star Kevin Hart turns his immense talent to the written word by writing some words. Some of

Online Library Making It Happen The Autobiography

those words include: the, a, for, above, and even even. Put them together and you have a “hilarious but also heartfelt” (Elle) memoir on survival, success, and the importance of believing in yourself. The question you’re probably asking yourself right now is: What does Kevin Hart have that a book also has? According to the three people who have seen Kevin Hart and a book in the same room, the answer is clear: A book is compact. Kevin Hart is compact. A book has a spine that holds it together. Kevin Hart has a spine that holds him together. A book has a beginning. Kevin Hart’s life uniquely qualifies him to write this book by also having a beginning. It begins in North Philadelphia. He was born an accident, unwanted by his parents. His father was a drug addict who was in and out of jail. His brother was a crack dealer and petty thief. And his mother was overwhelmingly strict, beating him with belts, frying pans, and his own toys. The odds, in short, were stacked against our young hero. But Kevin Hart, like Ernest Hemingway, J.K. Rowling, and Chocolate Droppa before him, was able to defy the odds and turn it around. In his literary debut, he takes us on a journey through what his life was, what it is today, and how he’s overcome each challenge to become the man he is today. And that man happens to be the biggest comedian in the world, with tours that sell out football stadiums and films that have collectively grossed over \$3.5 billion. He achieved this not just through hard work, determination, and talent. “Hart is an incredibly magnetic storyteller, on the page as he is onstage, and that’s what shines through [in this] genial, entertaining guide to a life in comedy” (Kirkus Reviews).

Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as Weirdo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

This story of The Author's unconventional lifestyle gives valuable lessons to the many people who leave school and University with no plans for their careers, and are just content to be buffeted along life's highways, waiting for the miracle which will never happen. For the many people who have probably wasted their time at school and University, it is never too late to take charge of their life by positive thinking. Henry Ford was 40 years old when he formed the Ford Motor Company . John Eaton was 26 years old when he decided to throw off the shackles of a comfortable and conventional career as a Design Engineer and ventured into the world of Show Business by opening up a closed down Dance hall. The newfound exctasy of being in charge of his own destiny drove him on to success in other business ventures and a period on the fringes of The Political Scene where he came into contact with Members Of The Cabinet. In addition,

the detailed descriptions of of life during his childhood provide an intriguing insight into a way of life which has now become history and will fascinate readers who are accustomed to everyday use of Telephones, TVs, Computers and Motor Vehicles. The lessons learned by The Author about the complexities of human nature, as he navigated through The University Of Life, are well illustrated and invaluable to the reader who wants to "Make Life Happen" rather than let it wash over him. If this book can upgrade the chances of success in a career or improve the quality of life of a reader, then his work will not have been in vain.

Anyone who wishes to understand what has happened in India in the twentieth century - politically and culturally - must read Nirad C. Chaudhuri. Among her men of letters he is unique; for the fertility of his mind and the polymathic range of his interests, as well as for the lucidity of his prose and his sheer integrity. — Geoffrey Moorhouse (Chaudhuri) has spent a lifetime kicking against the myths and shibboleths held by the majority of his fellow countrymen: he has ridiculed the pacifism of Mahatma Gandhi...he has castigated Indian nationalism for being corrupt, self-seeking, and destructive... (he has) vented his spleen at the stupidity and philistinism of the British in India. His latest (book) is almost a thousand pages long. It testifies to (his) eloquence, wit, and intellectual brilliance that he can go on at such length without once becoming a bore. — Ian Buruma, The New York Review of Books

to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Marie Claire In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation’s highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune’s Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man’s bet with history, the faith of

a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama’s conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

Carl Hester is one of the greatest ever equestrians, leading Great Britain to Gold Medal victory at the London 2012 Olympics. In these vibrant memoirs, he tells the incredible story of the passion for horse-riding which revolutionised his life and made him the champion he is today. Carl grew up on the remote Channel Island of Sark, moving to the UK mainland at the age of 16 to work with horses, mainly as a way to leave home. He could never have predicted what a great affinity he would have for dressage. Carl's career enjoyed a stratospheric rise as he

progressed from working as a groom/rider to riding international dressage horses full time for renowned owners Dr and Mrs Bechtolsheimer, to training his own horses, and other top riders, to international success. Carl's early career revealed someone capable of monumental achievements. He provides a rare insight into both the people and the horses that drove him to victory, initially the skewbald mare Jolly Dolly on which he won the 1985 Young Riders Dressage Championship. During the early 1990s he rode in the World Championships, the European Championships and the 1992 Barcelona Olympics, becoming Great Britain's youngest ever rider to compete in the Games. His riding skills have increased with age, culminating in the hugely successful years as part of the Gold Medal teams that won the 2011 European Dressage Championships and, of course, that made history at London 2012. He achieved both feats on the same extraordinary horse, Uthopia, while as a trainer he produced the even more remarkable combination of Charlotte Dujardin and Valegro. A first-class sportsman and a witty and engaging writer, Carl now offers his admirers the opportunity to read an intelligent, humorous and, above all, inspiring account of his life - from the ups and downs of his career to the motivations and techniques which have helped him to win 66 national titles, represent Team GB at four Olympic Games, two World Championships and seven European Championships, and become one of the best riders - and horsemen - in the world.
