The author grew up in Jamaica and as a child was taught to make soaps by her grandmother. They grew all the plants they needed to scent and colour their soaps and even used wood ash from the stove to make caustic potash when none was available in the shops. This background helped Maxine develop a passion for soap making and a unique type of natural soaps and toiletries, both of which she shares in Make Your Own Natural Soaps. It is intended for beginners, includes both hot- and cold-process soap making, with careful step-by-step instructions. There are extensive bar, liquid and cream soap recipes, full details of the equipment needed to make a start and a re-batching chapter just in case anything goes wrong! And for anyone interested in turning their new skills to profit there is information on the legislation and regulations you need to comply with to be able to sell soap.

It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

Do you know what is the advantage of natural handmade soaps and why more and more people create organic handmade soap at home with their own hands? First of all, it is a creative product, with a piece of your heart and soul. Soap crafting is an occupation for your soul and it brings joy and pleasure for those people who are engaged in this process. Soap produced in large volumes, in chemical industries, cleans so well, that it washes, along with dust and dirt, all the protective oils from our skin. And we end up with dry, prematurely aging skin. Our book with handmade soap recipes will teach you how to create the best handmade soap - a soap that contains natural oils and organic additives - honey, oats, calendula flowers, chocolate and more. Homemade soap is enriched with oils such as olive, sea buckthorn, peach, wheat germ oil and many more oils that have a moisturizing, rejuvenating and anti-cellulite effect. Easy natural homemade soap is a great and original gift, which hardly anyone could remain indifferent about. Natural ingredients, the basis of which skin handmade soap is created, have a beneficial effect on the skin. Natural handmade soap is devoid of drawbacks. Cleansing the skin with organic soap, you can get rid of peeling and dryness. By experimenting with different oils, you can create a soap that is suitable for your skin. Scrub effect, moisturizing effect, vitaminizing effect, anti-cellulite effect-all this is achieved by simply adding an ingredient. The aesthetic side is also important. With our recipes for homemade soap, you will find out how to create any shape: heart, flower, oval, car and so on. In addition, mixing colored masses, adding dry flower petals, using other methods of decoration, you can create a truly unique soap that will delight others and will be a real decoration of your bathroom. Homemade soap can be a powerful means of aromatherapy, because it often includes natural essential oils. Now it will not be difficult to create a soap with your favorite smell. Vanilla and lavender, Lily of the valley and lilac - the smell of soap made with your own hands, will be totally unlike the "chemical" smells of soap made industrially. So once again the advantages of natural handmade soap include: 1. Clear skin; 2. Hydration and nutrition, thanks to natural oils; 3. Aromatherapy while using soap; 4. Aesthetic pleasure; 5. Making your own choices in creating handmade soap, you are able to choose an eco-friendly product. If you are looking for the best recipes for handmade soap, for a soap making book with step by step instructions for the cold soap making process, how to design, wrap and store homemade soap, and of course how to choose the best natural ingredients and lye, You

written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base.

have never tried it before. The use of lye may be slightly exaggerated. Most of the methods and cautionary notes are pure common sense. It's the same thing as saying, 'Your oven could cause hazards if it's used in the wrong way,' or, 'Take care when deep frying, so you don't spill hot oil on yourself.' I can assure you, therefore, that the procedure has been made very clear on how to use lye in a novel. Anyday, the risks outweigh the benefits. As a result of the process, you become the recipient of good-looking, natural, genuinely moisturizing and organic soap bars. The definitive resource for making vegetable-based soaps from scratch, from buying supplies to cutting the final bars. The title begs the question, If soap, like the famed 99.44 percent pure Ivory, isn't natural, then what is? Ittner clarifies the answer in her introductory chapter, explaining that she intended to "avoid all animal and petroleum-based products, synthetic colorants and fragrances." That said, the rest is amazingly easy. Take run-of-the-mill kitchen equipment such as measuring spoons and double boilers, mix, then heat in the stove or microwave; add other techniques, from embedding objects to layering and swirling; and it's soap. She spends many pages detailing the natural materials, colorants, additives, and scents for a good foundation; the next four chapters are devoted to 45 recipes, each with color photographs, lists of materials and tools, and easy-to-follow numbered instructions. Choose among the different soap properties (soft, smooth, exfoliation, cleanse, and luxurious). --Booklist
