Once a lawman, always a lawman Ty McCord is a flint-hard lawman hell-bent on outrunning a dangerous and often violent past. He travels on a long journey that takes him through Texas and eventually to the far reaches of the lawless Kansas frontier. His plan is straightforward. A quiet new life as a rancher will begin when he arrives in the remote and sparsely settled ocean of Kansas prairie grass. As he works his way along in the rugged territory, Ty's designs for a peaceful existence are soon set upon by his years of wearing a badge. Nearly a year following his arrival in the tallgrass he weds Liz, a refined and headstrong beauty. Abruptly their world is bushwhacked by a band of military-style horse thieves preying on the prairie ranches. In no time a desperate shorthanded marshal begs Ty for his help in putting an end to the night-riding raiders and the threat of angry ranchers taking matters into their own hands. Against the dead set wishes of Liz and their new child Ty reluctantly agrees to join Marshall Seward's failing struggle to bring the savage outlaws to justice. In due time the raids become personal and deadly.

It was called the Steadfast sword. In truth it was never really given a name by its creator. It was a weapon fit for the gods, and yet the gods have never seen it. To the gods the Steadfast sword remains a mystery. What vexes the gods most was that there are rumors that humans have found and used the sword. Again the gods were disappointed. All they heard was, "It was here. The hero had used it, but when the task was done, the sword disappeared without a trace. The sword was being sought again by two competing forces. One group was made up of seasoned raiders and lead by the Iron Thegn. The warlord had plans for the sword. He would use its great power to conquer and enslave the world, then he would ascend to the realm of the gods. The other group was an odd paring of a priestess and a hunter. These two seek the sword to protect it. A thousand years have passed since anyone has seen the sword. The only source of information about the sword is a group called the wanderers.

'Ever your own, Johnnie, North Africa, 1942-43' is a sequel to 'Ever your own, Johnnie, Britain, 1938-42' and recounts the day-to-day life of R.S.M. John Kemp of the 76th Heavy Anti Aircraft Regiment, Royal Artillery, through retrospective accounts and letters written to his wife. It covers the period in his military service from landing in Algiers as part of 'Operation Torch', the Allied Forces' invasion of Vichy French North Africa, until his departure for Sicily under 'Operation Husky'. The book vividly describes experiences of working in a foreign country under wartime conditions, and of the frequent advances to defeat the German and Italian Armies in North Africa. Many of the letters are written to entertain and amuse his wife at home, and to hide the realities of the war that he was experiencing. The book, however, contains notes and commentary to give context to his writing and the campaign as it unfolded as his regiment moved east to Bizerte, and the preparations for the invasion of Sicily.

The last century has seen a dramatic increase in ramblers, mountaineers, cyclists and hill walkers enjoying the British countryside. This remarkable book charts the history of the outdoor movement from its late Victorian origins to its present status. Harvey Taylor describes how the active participants in the movement combined to create a loosely constructed entity, held together by common areas of interest and shared campaigning concerns. From the formation of Footpath Protection Societies and the development of a Countryside Access campaign in the inter-war years, he emphasises that the movement was very much more than just a 'craze' or a reaction against creeping industrialisation and urbanisation as was portrayed at the time. This is a fascinating introduction to a particularly British recreational phenomenon.
