Adam Walker is not your everyday record-breaking sportsman. He took on arguably the toughest extreme sport on the planet – to swim non-stop across seven of the world's deadliest oceans wearing only swim trunks, cap and goggles. It is not a test for the faint-hearted. In 2007, Adam, then a toaster salesman, was inspired by a film about a man attempting to change his life by swimming the English Channel to try to emulate the feat. After a year of rigorous training without a coach, Adam achieved his goal in 11 hours 35 minutes, despite a ruptured bicep tendon leading to medical advice to give up long-distance swimming. In 2011, after two operations and a change to his swimming style to take pressure off his injured shoulder, he became the first Briton to achieve a two-way crossing from Spain to Morocco and back. In the process, he broke the British record one way. Shortly afterwards, the Ocean's Seven challenge was born, a gruelling equivalent to the Seven Summits mountaineering challenge. At first it seemed that injury would prevent Adam from participating but, ignoring medical advice, he developed an innovative technique – the Ocean Walker stroke – that would enable him to continue with the ultimate aim of completing this seemingly impossible feat. Whether man would triumph over ocean, or fail in the attempt, forms the core of this extraordinary autobiography. Always intriguing, sometimes terrifying, and occasionally very funny, Adam's story is about sport in its truest form: rather than competitions between teams and individuals, it is about man against nature – and against his own failings and demons. In that, it is truly inspirational.

PNBA BESTSELLER * "A powerful and inspiring story. Guido Rahr's mission to save the wild Pacific salmon leads him into adventures that make for a breathtakingly exciting read."--Ian Frazier, author of *Travels in Siberia* Editors' Choice: The New York Times Book Review * Outside Magazine * National Book Review * Forbes In the tradition of *Mountains Beyond Mountains* and *The Orchid Thief*, *Stronghold* is Tucker Malarkey's eye-opening account of one of the world's greatest fly fishermen and his crusade to protect the world's last bastion of wild salmon. From a young age, Guido Rahr was a misfit among his family and classmates, preferring to spend his time in the natural world. When the salmon runs of the Pacific Northwest began to decline, Guido was one of the few who understood why. As dams, industry, and climate change degraded the homes of these magnificent fish, Rahr saw that the salmon of the Pacific Rim were destined to go the way of their Atlantic brethren: near extinction. An improbable and inspiring story, *Stronghold* takes us on a wild adventure, from Oregon to Alaska to one of the world's last remaining salmon strongholds in the Russian Far East, a landscape of ecological richness and diversity that is rapidly being developed for oil, gas, minerals, and timber. Along the way, Rahr contends with scientists, conservationists, Russian oligarchs, corrupt officials, and unexpected allies in an attempt to secure a stronghold for the endangered salmon, an extraordinary keystone species whose demise would reverberate across the planet. Tucker Malarkey, who joins Rahr in the Russian wilderness, has written a clarion call for a sustainable future, a remarkable work of natural history, and a riveting account of a species whose future is closely linked to our own. NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. *A New York Times Notable Book* *One of the Best Books of the Year* *The Boston Globe*, *The Christian Science Monitor*, *The Denver Post*, *The Kansas City Star*, *Los Angeles Times*, *New York, People*, *Rocky Mountain News*, *Time*, *The Village Voice*, *The Washington Post*

Meet Michael Skelly, the man boldly harnessing wind energy that could power America's future and break its fossil fuel dependence in this "essential, compelling look into the future of the nation's power grid" (Bryan Burrough, author of *The Big Rich*). The United States is in the midst of an energy transition. We have fallen out of love with dirty fossil fuels and want to embrace renewable energy sources like wind and solar. A transition from a North American power grid that is powered mostly by fossil fuels to one that is predominantly clean is feasible, but it would require a massive building spree—wind turbines, solar panels, wires, and billions of dollars would be needed. Enter Michael Skelly, an infrastructure builder who began working on wind energy in 2000 when many considered the industry a joke. Eight years later, Skelly helped build the second largest wind power company in the United States—and sold it for \$2 billion. Wind energy was no longer funny—it was well on its way to powering more than 6% of electricity in the United States. Award-winning journalist, Russel Gold tells Skelly's story, which in many ways is the story of our nation's evolving relationship with renewable energy. Gold illustrates how Skelly's company, Clean Line Energy, conceived the idea for a new power grid that would allow sunlight where abundant to light up homes in the cloudy states thousands of miles away, and take wind from the Great Plains to keep air conditioners running in Atlanta. Thrilling, provocative, and important, *Superpower* is a fascinating look at America's future.

Undaunted—both the book and movie—chronicles the riveting true story of a young farm boy named Josh who carried unspeakable memories of an alcoholic father and a farmhand's abuse, causing him to defy God's existence. Yet God redeemed a horrible situation with his unbelievable grace. Today Josh McDowell is one of the most popular evangelists in the world who defends the reality of Jesus Christ to millions through his presentations and classic book *More Than a Carpenter*. *Undaunted* unfolds the dramatic spiritual transformation in Josh's life when he faces his past head-on and puts everything entirely in God's hands. The result is an undaunted faith, a gift freely offered to everyone who seeks it.

The trip took eight years, involved stops in 40 different countries and included several romances, two near-disasters, nude volleyball in the Caribbean, two trips through the Panama Canal, pool games with tattooed Maori tribesmen in New Zealand, solo trombone serenades in mid-ocean, all-night musicales with native pearl divers in the Tuamotus, and water tag with playful porpoises in the Red Seas.

At the dawn of the twentieth century, a great confidence suffused America. Isaac Cline was one of the era's new men, a scientist who believed he knew all there was to know about the motion of clouds and the behavior of storms. The idea that a hurricane could damage the city of Galveston, Texas, where he was based, was to him preposterous, "an absurd delusion." It was 1900, a year when America felt bigger and stronger than ever before. Nothing in nature could hobble the gleaming city of Galveston, then a magical place that seemed destined to become the New York of the Gulf. That August, a strange, prolonged heat wave gripped the nation and killed scores of people in New York and Chicago. Odd things seemed to happen everywhere: A plague of crickets engulfed Waco. The Bering Glacier began to shrink. Rain fell on Galveston with greater intensity than anyone could remember. Far away, in Africa, immense thunderstorms blossomed over the city of Dakar, and great currents of wind converged. A wave of atmospheric turbulence slipped from the coast of western Africa. Most such waves faded quickly. This one did not. In Cuba, America's overconfidence was made all too obvious by the Weather Bureau's obsession with controlling hurricane forecasts, even though Cuba's indigenous weathermen had pioneered hurricane science. As the bureau's forecasters assured the nation that all was calm in the Caribbean, Cuba's own weathermen fretted about ominous signs in the sky. A curious stillness gripped Antigua. Only a few unlucky sea captains discovered that the storm had achieved an intensity no man alive had ever experienced. In Galveston, reassured by Cline's belief that no hurricane could seriously damage the city, there was celebration. Children played in the rising water. Hundreds of people gathered at the beach to marvel at the fantastically tall waves and gorgeous pink sky, until the surf began ripping the city's beloved beachfront apart. Within the next few hours Galveston would endure a hurricane that to this day remains the nation's deadliest natural disaster. In Galveston alone at least 6,000 people, possibly as many as 10,000, would lose their lives, a number far greater than the combined death toll of the Johnstown Flood and 1906 San Francisco Earthquake. And Isaac Cline would experience his own unbearable loss. Meticulously researched and vividly written, Isaac's Storm is based on Cline's own letters, telegrams, and reports, the testimony of scores of survivors, and our latest understanding of the hows and whys of great storms. Ultimately, however, it is the story of what can happen when

human arrogance meets nature's last great uncontrollable force. As such, Isaac's Storm carries a warning for our time.

A true tale of high adventure in the South Seas. The tiny island of Run is an insignificant speck in the Indonesian archipelago. Just two miles long and half a mile wide, it is remote, tranquil, and, these days, largely ignored. Yet 370 years ago, Run's harvest of nutmeg (a pound of which yielded a 3,200 percent profit by the time it arrived in England) turned it into the most lucrative of the Spice Islands, precipitating a battle between the all-powerful Dutch East India Company and the British Crown. The outcome of the fighting was one of the most spectacular deals in history: Britain ceded Run to Holland but in return was given Manhattan. This led not only to the birth of New York but also to the beginning of the British Empire. Such a deal was due to the persistence of one man. Nathaniel Courthope and his small band of adventurers were sent to Run in October 1616, and for four years held off the massive Dutch navy. Nathaniel's Nutmeg centers on the remarkable showdown between Courthope and the Dutch Governor General Jan Coen, and the brutal fate of the mariners racing to Run--and the other corners of the globe--to reap the huge profits of the spice trade. Written with the flair of a historical sea novel but based on rigorous research, Giles Milton's Nathaniel's Nutmeg is a brilliant adventure story by Giles Milton, a writer who has been hailed as the "new Bruce Chatwin" (Mail on Sunday).

"A riveting, terrifying, thrilling story of a netherworld that few people know about, and fewer will ever see . . . The soul of this book is as wild as the ocean itself." --Susan Casey, best-selling author of *The Wave: In Pursuit of the Rogues, Freaks, and Giants of the Ocean* An adrenaline-fueled tour of a vast, lawless and rampantly criminal world that few have ever seen: the high seas. There are few remaining frontiers on our planet. But perhaps the wildest, and least understood, are the world's oceans: too big to police, and under no clear international authority, these immense regions of treacherous water play host to rampant criminality and exploitation. Traffickers and smugglers, pirates and mercenaries, wreck thieves and repo men, vigilante conservationists and elusive poachers, seabound abortion providers, clandestine oil-dumpers, shackled slaves and cast-adrift stowaways -- drawing on five years of perilous and intrepid reporting, often hundreds of miles from shore, Ian Urbina introduces us to the inhabitants of this hidden world. Through their stories of astonishing courage and brutality, survival and tragedy, he uncovers a globe-spanning network of crime and exploitation that emanates from the fishing, oil and shipping industries, and on which the world's economies rely. Both a gripping adventure story and a stunning exposé, this unique work of reportage brings fully into view for the first time the disturbing reality of a floating world that connects us all, a place where anyone can do anything because no one is watching.

Declared "the best survival book in a decade" by *Outside Magazine*, *438 Days* is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded

and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A “gripping saga,” (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in modern times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, 438 Days is not only “an intense, immensely absorbing read” (Booklist) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea.

“[Red Notice] does for investing in Russia and the former Soviet Union what Liar’s Poker did for our understanding of Salomon Brothers, Wall Street, and the mortgage-backed securities business in the 1980s. Browder’s business saga meshes well with the story of corruption and murder in Vladimir Putin’s Russia, making Red Notice an early candidate for any list of the year’s best books” (Fortune). “Part John Grisham-like thriller, part business and political memoir.” —The New York Times This is a story about an accidental activist. Bill Browder started out his adult life as the Wall Street maverick whose instincts led him to Russia just after the breakup of the Soviet Union, where he made his fortune. Along the way he exposed corruption, and when he did, he barely escaped with his life. His Russian lawyer Sergei Magnitsky wasn’t so lucky: he ended up in jail, where he was tortured to death. That changed Browder forever. He saw the murderous heart of the Putin regime and has spent the last half decade on a campaign to expose it. Because of that, he became Putin’s number one enemy, especially after Browder succeeded in having a law passed in the United States—The Magnitsky Act—that punishes a list of Russians implicated in the lawyer’s murder. Putin famously retaliated with a law that bans Americans from adopting Russian orphans. A financial caper, a crime thriller, and a political crusade, Red Notice is the story of one man taking on overpowering odds to change the world, and also the story of how, without intending to, he found meaning in his life.

Men have been fed a false narrative. We have been led to believe that our happiness in the home is dependent solely on our mates mood. I dispute that narrative. Every conversation leads me to conclude that men hold the key to their happiness. If they took the time to listen, they would realize she is giving them all the cues to create a happy and peaceful home.

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals-especially those that are endangered. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

dramatic tale of survival at sea was on the New York Times bestseller list for more than thirty-six weeks. In some ways the model for the new wave of adventure books, *Adrift* is an undeniable seafaring classic, a riveting firsthand account by the only man known to have survived more than a month alone at sea, fighting for his life in an inflatable raft after his small sloop capsized only six days out. "Utterly absorbing" (*Newsweek*), *Adrift* is a must-have for any adventure library.

One Man's Bible is a fictionalized account of Gao Xingjian's life under the Chinese Communist regime. Daily life is riddled with paranoia and fear, and government propaganda turns citizens against one another. It is a place where a single sentence spoken ten years earlier can make one an enemy of the state. But *One Man's Bible* is also a profound meditation on the essence of writing, on exile, on the effects of political oppression on the human spirit, and on how the human spirit can triumph.

ONE OF NPR'S BEST BOOKS OF 2019 A "warm and funny and honest...genuinely unputdownable" (Curtis Sittenfeld) memoir chronicling what it's like to live in today's world as a fat man, from acclaimed journalist Tommy Tomlinson, who, as he neared the age of fifty, weighed 460 pounds and decided he had to change his life. When he was almost fifty years old, Tommy Tomlinson weighed an astonishing—and dangerous—460 pounds, at risk for heart disease, diabetes, and stroke, unable to climb a flight of stairs without having to catch his breath, or travel on an airplane without buying two seats. Raised in a family that loved food, he had been aware of the problem for years, seeing doctors and trying diets from the time he was a preteen. But nothing worked, and every time he tried to make a change, it didn't go the way he planned—in fact, he wasn't sure that he really wanted to change. In *The Elephant in the Room*, Tomlinson chronicles his lifelong battle with weight in a voice that combines the urgency of Roxane Gay's *Hunger* with the intimacy of Rick Bragg's *All Over but the Shoutin'*. He also hits the road to meet other members of the plus-sized tribe in an attempt to understand how, as a nation, we got to this point. From buying a Fitbit and setting exercise goals to contemplating the Heart Attack Grill in Las Vegas, America's "capital of food porn," and modifying his own diet, Tomlinson brings us along on a candid and sometimes brutal look at the everyday experience of being constantly aware of your size. Over the course of the book, he confronts these issues head-on and chronicles the practical steps he has to take to lose weight by the end. "What could have been a wallow in memoir self-pity is raised to art by Tomlinson's wit and prose" (*Rolling Stone*). Affecting and searingly honest, *The Elephant in the Room* is an "inspirational" (*The New York Times*) memoir that will resonate with anyone who has grappled with addiction, shame, or self-consciousness. "Add this to your reading list ASAP" (*Charlotte Magazine*).

'An epic story of hardship, friendship and faith.' Daily Telegraph Shortlisted for the William Hill Sports Book of the Year Award, this is the compelling account of the most recent adventure of the bestselling author of Facing Up. It started out as a carefully calculated attempt to complete the first unassisted crossing of the frozen north Atlantic in an open rigid inflatable boat, but it became a terrifying battle against storm-force winds, crashing waves and icebergs as large as cathedrals. Starting from the remote north Canadian coastline, Bear Grylls and his crew crossed the infamous Labrador Sea, pushed on through ice-strewn waters to Greenland and then found themselves isolated in a perfect storm 400 miles from Iceland. The inspiring, heart-rending story of a father's unwavering love for his son. David Goldman and his Brazilian wife, Bruna Bianchi, led what appeared to be a happy life in New Jersey. But in June 2004, Bianchi took their four-year-old son, Sean, to Brazil for what she said would be a two-week vacation. Once there, she informed Goldman that she was staying in Brazil--and keeping Sean, setting in motion an international controversy that would eventually reach the highest levels of the U.S. and Brazilian governments. It would be almost five years before David saw Sean again. What kept David Goldman going when everything looked so hopeless? In A Father's Love, Goldman recounts his extraordinary battle, despite overwhelming odds, to bring his abducted son back home. It is a riveting story full of peculiar ironies, unfathomable elements, threats, and legal twists and turns. Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. Moby-Duck is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, Moby-Duck is a compulsively readable narrative of whimsy and curiosity.

Prize, and the PEN/Hemingway Debut Novel Award Shortlisted for the 2019 Center for Fiction First Novel Prize Winner of the 2019 New England Book Award for Fiction! Named one of the most anticipated books of 2019 by Vulture, Entertainment Weekly, BuzzFeed, Los Angeles Times, Boston Globe, Oprah.com, Huffington Post, The A.V. Club, Nylon, The Week, The Rumpus, The Millions, The Guardian, Publishers Weekly, and more. "A lyrical work of self-discovery that's shockingly intimate and insistently universal...Not so much briefly gorgeous as permanently stunning." --Ron Charles, The Washington Post Poet Ocean Vuong's debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling On Earth We're Briefly Gorgeous is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born -- a history whose epicenter is rooted in Vietnam -- and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, On Earth We're Briefly Gorgeous is as much about the power of telling one's own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Ever witness a miracle up front? Do you know anybody who has seen many and lived to tell it all? If your answer is no, you should read my book "Wounded." It is based on a true story of one man's struggles throughout his life. It will take you to the depths of poverty like no other. It will display how hard it is for someone to survive lacking the basic needs in life. The main character is a man named Santiago Jim Nunez. adjusting to civilian life. The horrors that came home with Jim were relentless. They also took a toll on his personal relationships and his family. With nowhere to turn for help and the VA's lack to acknowledge veteran issues, Jim turned to the Lord for help. His faith would be tested in the most crucial times of his life.

Throughout all the good and bad times, Jim never lost his faith. It is the biggest reason he conquered his demons and is here to share his story today. His story is one that is not here to glamourize his mistakes. What it is here for is to instill hope and faith in others who feel alone. To help those who have gone through the same pitfalls as he has. Others who feel like they have no place to turn for help. The same way he felt when he came back from Vietnam. It is here to give thanks to the many who helped him with his struggles along the way. It is here to give thanks to the Lord for all his blessings he has endured through life. The great changes he made to make life worth living and fighting for.

Pioneering oceanographer Curtis Ebbesmeyer unravels the mystery of marine currents, uncovers the astonishing story of flotsam, and changes the world's view of trash, the ocean, and our global environment. Curtis Ebbesmeyer is no ordinary scientist. He's been a consulting oceanographer for multinational firms and a lead scientist on international research expeditions, but he's never held a conventional academic appointment. He seized the world's imagination as no other scientist could when he and his worldwide network of beachcomber volunteers traced the ocean's currents using thousands of sneakers and plastic bath toys spilled from storm-tossed freighters. Now, for the first time, Ebbesmeyer tells the story of his lifelong struggle to solve the sea's mysteries while sharing his most surprising discoveries. He recounts how flotsam has changed the course of history—leading Viking mariners to safe harbors, Columbus to the

New World, and Japan to open up to the West—and how it may even have made the origin of life possible. He chases icebergs and floating islands; investigates ocean mysteries from ghost ships to a spate of washed-up severed feet on Canadian beaches; and explores the enormous floating "garbage patches" and waste-heaped "junk beaches" that collect the flotsam and jetsam of industrial society. Finally, Ebbesmeyer reveals the rhythmic and harmonic order in the vast oceanic currents called gyres—"the heartbeat of the world"—and the threats that global warming and disintegrating plastic waste pose to the seas . . . and to us.

33,000 pages 44 million words 10 billion years of history 1 obsessed man Part memoir and part education (or lack thereof), *The Know-It-All* chronicles NPR contributor A.J. Jacobs's hilarious, enlightening, and seemingly impossible quest to read the *Encyclopaedia Britannica* from A to Z. To fill the ever-widening gaps in his Ivy League education, A.J. Jacobs sets for himself the daunting task of reading all thirty-two volumes of the *Encyclopaedia Britannica*. His wife, Julie, tells him it's a waste of time, his friends believe he is losing his mind, and his father, a brilliant attorney who had once attempted the same feat and quit somewhere around Borneo, is encouraging but, shall we say, unconvinced. With self-deprecating wit and a disarming frankness, *The Know-It-All* recounts the unexpected and comically disruptive effects *Operation Encyclopedia* has on every part of Jacobs's life -- from his newly minted marriage to his complicated relationship with his father and the rest of his charmingly eccentric New York family to his day job as an editor at *Esquire*. Jacobs's project tests the outer limits of his stamina and forces him to explore the real meaning of intelligence as he endeavors to join Mensa, win a spot on *Jeopardy!*, and absorb 33,000 pages of learning. On his journey he stumbles upon some of the strangest, funniest, and most profound facts about every topic under the sun, all while battling fatigue, ridicule, and the paralyzing fear that attends his first real-life responsibility -- the impending birth of his first child. *The Know-It-All* is an ingenious, mightily entertaining memoir of one man's intellect, neuroses, and obsessions and a soul-searching, ultimately touching struggle between the all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.
