The emphasis of MANAGERIAL ACCOUNTING, 6e is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Providing coverage of topics such as relevant costs for decision making, capital budgeting decisions, segment reporting and decentralization, this text offers a glimpse into how real companies use managerial accounting concepts in their practical applications. Authors Eric Noreen, Peter Brewer, and Ray Garrison have crafted a streamlined Managerial Accounting book that is perfect for non-accounting majors who intend to move into managerial positions by focusing on the fundamentals to develop the conceptual framework managers need to
