John Adair has transformed our understanding of how leadership works with his pioneering book Not Bosses But Leaders. Here he explores the nature of motivation, individual needs and how they relate to the key tasks facing leaders and managers - good, positive motivation can create, maintain and improve the performance of any team. In Leadership and Motivation John Adair also puts forward his own theory of motivation - the fifty-fifty rule - and then identifies the eight key principles for motivating others. Motivation increases efficiency and productivity - and makes reaching targets more likely. Leadership and Motivation will stimulate your thoughts and ideas on how to inspire others, and offers you some practical ways to motivate yourself and others to achieve.

The authors have kept the text concise by focusing on the key concepts students need to master. Opening vignettes & 'in action' boxes show realistic applications of these concepts throughout. "The authors carefully considered how to thoughtfully and meaningfully integrate data analytics into the financial accounting course, and are pleased to provide the following data analytics resources. Data Analytics and Decision-Making The text provides numerous discussions on how decision-makers are increasingly relying on data analytics to make decisions using accounting information. Accounting software systems collect vast amounts of data about a company's economic events as well as its suppliers and customers. Business decision-makers take advantage of this wealth of data by using data analytics to gain insights and
