The Routledge Handbook of Chinese Language Teaching defines Chinese language teaching in a pedagogical, historical, and contemporary context. Throughout the volume, teaching methods are discussed, including the traditional China-based approach, and Western methods such as communicative teaching and the immersion program. The Handbook also presents a pedagogical model covering pronunciation, tones, characters, vocabulary, grammar, and the teaching of listening, speaking, reading, and writing. The remaining chapters explore topics of language assessment, technology enhanced instruction, teaching materials and resources, Chinese for specific purposes, classroom implementation, social contexts of language teaching and language teaching policies, and pragmatics and culture. Ideal for scholars and researchers of Chinese language teaching, the Handbook will benefit educators and teacher training programs. This is the first comprehensive volume exploring the growing area of Chinese language pedagogy.

The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our fingertips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and

businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book *The Way of The Linguist, A language learning odyssey*, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

Language students and international travelers are introduced to Mandarin Chinese in the course of this book's "guided tour" of various regions throughout China. Instruction in Mandarin Chinese is presented in words, phrases, and reading passages as follows: First, the passage is printed in Chinese characters. Next, the passage is given phonetic pronunciation, using the Western alphabet (Pinyin). What follows next is a literal, word-for-word English translation of the Chinese. Concluding is an English translation that presents the passage's general sense and intended meaning. Two bilingual audio CDs are enclosed with the book. They present the text's dialogues and teach correct Mandarin pronunciation while also giving students practice in listening comprehension.

In this book, linguistic achievements of word order studies in Chinese have been applied to Chinese second language acquisition research. By analyzing a great number of word order errors made by learners of Chinese as a foreign language (CFL), this book has developed a method for describing and explaining Chinese word order errors. With this method, the book has the potential to empower CFL teachers all over the world to teach Chinese in an informed manner, and particularly to teach Chinese word order more effectively and efficiently.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume

represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

This book provides a research-based account of how to teach and learn Chinese as a foreign language. In addition to the discussion of relevant second/foreign language research, this volume gives detailed information on ways to develop a pedagogical model that is uniquely suited to teaching Chinese in five key areas: pronunciation (tones and pinyin), characters and words, sentences (when and why different sentence structures are used), discourse and pragmatic competence (coherence and genre), and cultural competence. Specially written for Chinese language teachers, student teachers and applied linguists, this is the first book written in English that systematically addresses all major aspects involved in teaching and learning Chinese as a foreign language. This book covers all the fundamental grammar elements in Chinese, explains their functions in discourse and communication, and explores different strategies for teaching and engaging students in learning the language.

A linguist and author shares what she discovered about Mandarin, China's most common language, while living in Shanghai and Beijing, and describes how it provided a window into her understanding of the romance, protocol, humor, and relationships within modern China.

"DeFrancis's book is first rate. It entertains. It teaches. It demystifies. It counteracts popular ignorance as well as sophisticated (cocktail party) ignorance. Who could ask for anything more? There is no other book like it. ... It is one of a kind, a first, and I would not only buy it but I would recommend it to friends and colleagues, many of whom are visiting China now and are adding 'two-week-expert' ignorance to the two kinds that existed before. This is a book for everyone." --Joshua A. Fishman, research professor of social sciences, Yeshiva University, New York "Professor De Francis has produced a work of great effectiveness that should appeal to a wide-ranging audience. It is at once instructive and entertaining. While being delighted by the flair of his novel approach, the reader will also be led to ponder on some of the most fundamental problems concerning the relations between written languages and spoken languages. Specifically, he will be served a variety of information on the languages of East Asia, not as dry pedantic facts, but as appealing tidbits that whet the intellectual appetite. The expert will find much to reflect on in this book, for Professor DeFrancis takes nothing for granted." --William S.Y. Wang, professor of linguistics, University of California at Berkeley
