After Eric Davis spent over 16 years in the military, including a decade in the SEAL Teams, his family was more than used to his absence on deployments and secret missions that could obscure his whereabouts for months at a time. Without a father figure in his own life since the age of fifteen, Eric was desperate to maintain the bonds he'd fought so hard to forge when his children were young--particularly with his son, Jason, because he knew how difficult it was to face the challenge of becoming a man on one's own. Unfortunately, Eric learned the hard way that Quality Time doesn't always show up in Quantity Time. Facebook, television, phones, video games, school, jobs, friends--they all got in the way of a real, meaningful father-son relationship. It was time to take action. As a SEAL, Eric learned to innovate and push boundaries, allowing him to function at levels beyond what was expected, comfortable, ordinary, and even imaginable, and he knew that as a father he needed to do the same with his son. Meeting extreme with extreme was the only answer. Using a unique blend of discipline, leadership, adventure, and grace, Eric and his SEAL brothers will teach you how to connect, and reconnect, with your sons and learn how to raise real men--the Navy SEAL way.

Here, a universal ranking system determines the social advantages and career opportunities of every member of society. An automated matchmaking service knows the best partners for everyone and helps with the break up when your ideal match (frequently) changes. And the foolproof algorithms of the biggest, most successful company in the world, TheShop, know what you want before you do and conveniently deliver to your doorstep before you even order it. In QualityCity, Peter Jobless is a machine scrapper who can't quite bring himself to destroy the imperfect machines sent his way, and has become the unwitting leader of a band of robotic misfits hidden in his home and workplace. One day, Peter receives a product from TheShop that he absolutely, positively knows he does not want, and which he decides, at great personal cost, to return. The only problem: doing so means proving the perfect algorithm of TheShop wrong, calling into question the very foundations of QualityLand itself. Qualityland, Marc-Uwe Kling's first book to be translated into English, is a brilliantly clever, illuminating satire in the tradition of Kurt Vonnegut, Douglas Adams, and George Orwell that offers a visionary, frightening, and all-too funny glimpse at a near future we may be hurtling toward faster than it's at all comfortable to admit. So why delay any longer? TheShop already knows you're going to love this book. You may as well head to the cash register, crack the covers, and see why that is for yourself.

Marc's MissionWay of the Warrior Kid (A Novel)

A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries Jordan Peterson's Twelve Rules for Life meets Jocko Willink and Leif Babin's Extreme Ownership in this tough-love leadership book from a Navy SEAL and rising star in Republican politics. In 2012, on his third tour of duty, an improvised explosive device left Dan Crenshaw's right eye destroyed and his left blinded. Only through the careful hand of his surgeons, and what doctors called a miracle, did Crenshaw's left eye recover partial vision. And yet, he persevered, completing two more deployments. Why? There are certain stories we tell ourselves about the hardships we face -- we can become paralyzed by adversity or we can adapt and overcome. We can be fragile or we can find our fortitude. Crenshaw delivers a set of lessons to help you do just that. Most people's everyday challenges aren't as extreme as surviving combat, and yet our society is more fragile than ever: exploding with outrage, drowning in microaggressions, and devolving into divisive mob politics. The American spirit -- long characterized by grit and fortitude -- is unraveling. We must fix it. That's exactly what Crenshaw accomplishes with FORTITUDE. This book isn't about the problem, it's about the solution. And that solution begins with each and every one of us. We must all lighten up, toughen up, and begin treating our fellow Americans with respect and grace. FORTITUDE is a no-nonsense advice book for finding the strength to deal with everything from menial daily frustrations to truly difficult challenges. More than that, it is a roadmap for a more resilient American culture. With meditations on perseverance, failure, and finding much-needed heroes, the book is the antidote for a prevailing "safety culture" of trigger warnings and safe spaces. Interspersed with lessons from history and psychology is Crenshaw's own story of how an average American kid from the Houston suburbs went from war zones to the halls of Congress -- and managed to navigate his path with a sense of humor and an even greater sense that, no matter what anyone else around us says or does, we are in control of our own destiny.

In this expanded edition of the 2017 mega-bestseller, updated with brand new sections like DO WHAT MAKES YOU HAPPY, SUGAR COATED LIES and DON'T NEGOTIATE WITH WEAKNESS, readers will discover new ways to become stronger, smarter, and healthier. In *Discipline Equals Freedom*, the #1 New York Times bestselling coauthor of *Extreme Ownership* describes how he lives that mantra: the mental and physical disciplines he imposes on himself in order to achieve freedom in all aspects of life. Many books offer advice on how to overcome obstacles and reach your goals--but that advice often misses the most critical ingredient: discipline. Without discipline, there will be no real progress. *Discipline Equals Freedom* covers it all, including strategies and tactics for conquering weakness, procrastination, and fear, and specific physical training presented in workouts for beginner, intermediate, and advanced athletes, and even the best sleep habits and food intake recommended to optimize performance. The mental well-being of children and adults is shockingly poor. Marc Brackett, author of Permission to Feel, knows why. And he knows what we can do. "We have a crisis on our hands, and its victims are our children." Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults – a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. The core of his approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone, he wasn't stuck on a timeline, and he wasn't "wrong" to feel scared, isolated, and angry. Now, best of all, he could do something about it. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around the world. It is tested, and it works. This book combines rigor, science, passion and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.

This "deeply immersive novel" (The Washington Post) from the author of the award-winning Preparation for the Next Life is an "epic coming-of-age tale filled with pain, heartache, fear, and undying love" (The Associated Press), as a young man's yearning to protect his dying mother requires him to risk destroying his estranged, enigmatic, powerful father. "From its hypnotic opening pages, we find ourselves in the sure hands of a roaming omniscient narrator, one who knows intimately the beating hearts of its two central characters" —Andre Dubus III, The New York Times Book Review Corey Goltz grows up in the working-class outskirts of Boston as the only child of Gloria, whose ambitions were derailed early but who has always given her son everything she can. Corey, restless, dreams of leaving home for a great adventure. Instead, when he is fifteen, the world comes crashing down upon him, when Gloria is diagnosed with ALS and, too late, his estranged father, Leonard—a man of great charisma but dubious moral character—reenters the picture. Determined to be his mother's hero at any cost, Corey begins shouldering responsibility for her expensive medical care, pushing himself to his physical and emotional limits as her disease cruelly progresses. And as Leonard's influence over Corey grows, Corey must dismantle the myth of his father's genius and confront the evil that lurks beneath it. Gritty, visceral, and profoundly stirring, The War for Gloria tells the story of a young man, straddling childhood and adulthood, whose yearning to protect his mother requires him to risk destroying his father. An indelible work from a strikingly original voice in American fiction.

There's only one force standing in his way--President Jack Ryan. How do you compel a man like Jack Ryan to bend? He's personally faced down everything from the Russian navy to cartel killers. It will take more than political headwinds or media disfavor to cause him to turn from his duty to the American people, but every man has an Achilles heel. Jack Ryan's is his family. Filled with entertaining history, archival images, pop culture ephemera, and interviews with NASA scientists, *The Big Book of Mars* is the most comprehensive look at our relationship with Mars—yesterday, today, and tomorrow. Mars has been a source of fascination and speculation ever since the Ancient Sumerians observed its blood-red hue and named it for their god of war and plague. But it wasn't until 1877, when "canals" were observed on the surface of the Red Planet, suggesting the presence of water, that scientists, novelists, filmmakers, and entrepreneurs became obsessed with the question of whether there's life on Mars. In *The War of the Worlds*, H.G. Wells suggested that we wouldn't need to make contact with Martians—they'd come for us—while, many years later, Nikola Tesla claimed that he did make contact. Since then, Mars has fully invaded pop culture. It has its own day of the week (Tuesday, or *martis* in Latin), candy bar, and iconic Looney Tunes character. It has been the subject of novels and movies, from Ray Bradbury's *The Martian Chronicles* to *Mars Attacks!* to *The Martian*. And it has sparked a space-race feud between Elon Musk and Jeff Bezos, who both hope to send a manned mission to Mars in the near future.

In this first book of a new illustrated middle grade series by a #1 New York Times bestselling author, Marc learns to become a Warrior Kid after his uncle Jake, a Navy SEAL, comes to stay for the summer.

The second installment of the *Jiu-Jitsu and Me* book series is here! Last time Bobby helped children discover their inner courage to find their place in the world. Join Bobby once again as he explores what being inquisitive by learning from his mistakes and persevering can achieve.

"An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one." —Carlos Lozada, *The Washington Post* "The *Free World* sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, *The New York Times Book Review* | Editors' Choice Named a most anticipated book of April by *The New York Times* | *The Washington Post* | *Oprah Daily* In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of "freedom" applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage's residencies at North Carolina's Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Right spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the

end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, *Extreme Ownership* shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, *Extreme Ownership* revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

Marc Royce works for the State Department on special assignments, most of them rather routine, until two CIA operatives go missing in Iraq--kidnapped by Taliban forces bent on generating chaos in the region. Two others also drop out of sight--a high-placed Iraqi civilian and an American woman providing humanitarian aid. Are the disappearances linked? Rumors circulate in a whirl of misinformation. Marc must unravel the truth in a covert operation requiring utmost secrecy--from both the Americans and the insurgents. But even more secret than the undercover operation is the underground dialogue taking place between sworn enemies. Will the ultimate Reconciler between ancient enemies, current foes, and fanatical religious factions be heard?

Powerful, wry essays offering modern takes on a primitive practice, from one of our most widely read death penalty abolitionists As Ruth Bader Ginsburg has noted, people who are well represented at trial rarely get the death penalty. But as Marc Bookman shows in a dozen brilliant essays, the problems with capital punishment run far deeper than just bad representation. Exploring prosecutorial misconduct, racist judges and jurors, drunken lawyering, and executing the innocent and the mentally ill, these essays demonstrate that precious few people on trial for their lives get the fair trial the Constitution demands. Today, death penalty cases continue to capture the hearts, minds, and eblasts of progressives of all stripes—including the rich and famous (see Kim Kardashian's advocacy)—but few people with firsthand knowledge of America's "injustice system" have the literary chops to bring death penalty stories to life. Enter Marc Bookman. With a voice that is both literary and journalistic, the veteran capital defense lawyer and seven-time Best American Essays "notable" author exposes the dark absurdities and fatal inanities that undermine the logic of the death penalty wherever it still exists. In essays that cover seemingly "ordinary" capital cases over the last thirty years, Bookman shows how violent crime brings out our worst human instincts—revenge, fear, retribution, and prejudice. Combining these emotions with the criminal legal system's weaknesses—purposely ineffective, arbitrary, or widely infected with racism and misogyny—is a recipe for injustice. Bookman has been charming and educating readers in the pages of *The Atlantic*, *Mother Jones*, and *Slate* for years. His wit and wisdom are now collected and preserved in *A Descending Spiral*.

"The definitive work on the West's water crisis." --Newsweek The story of the American West is the story of a relentless quest for a precious resource: water. It is a tale of rivers diverted and dammed, of political corruption and intrigue, of billion-dollar battles over water rights, of ecological and economic disaster. In his landmark book, *Cadillac Desert*, Marc Reisner writes of the earliest settlers, lured by the promise of paradise, and of the ruthless tactics employed by Los Angeles politicians and business interests to ensure the city's growth. He documents the bitter rivalry between two government giants, the Bureau of Reclamation and the U.S. Army Corps of Engineers, in the competition to transform the West. Based on more than a decade of research, *Cadillac Desert* is a stunning expose and a dramatic, intriguing history of the creation of an Eden--an Eden that may only be a mirage. This edition includes a new postscript by Lawrie Mott, a former staff scientist at the Natural Resources Defense Council, that updates Western water issues over the last two decades, including the long-term impact of climate change and how the region can prepare for the future.

Perfect for fans of Alex Rider and Jason Bourne, this action-packed conclusion to Connor's third mission sees him evading lethal hunters, both human and animal, in the African plains. Following their heart-pounding, narrow escape at the end of book 5, *Ambush*, Connor Reeves and the diplomat's family under his protection are forced to run for their lives through the perilous jungle. With their safari vacation cut short, and a band of heavily armed rebel soldiers in hot pursuit, Connor must use every skill and trick he's learned during his Guardian training to ensure their survival. But as they fight for their lives, Connor realizes the gunmen are the least of their problems--no amount of bodyguard training can prepare him for the bloodthirsty predators who roam the savanna. Combining pulse-pounding action, diabolical enemies, and an insider's knowledge of the tricks of the trade, the *BODYGUARD* series is the perfect target for fans of Alex Rider, James Bond, Jack Bauer, and Jason Bourne. #1 NEW YORK TIMES BESTSELLER \* "Brilliant . . . a celebration of human ingenuity [and] the purest example of real-science sci-fi for many years . . . utterly compelling."--The Wall Street Journal The inspiration for the major motion picture *Six days ago*, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive--and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills--and a relentless, dogged refusal to quit--he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him? NAMED ONE OF PASTE'S BEST NOVELS OF THE DECADE "A hugely entertaining novel [that] reads like a rocket ship afire . . . Weir has fashioned in Mark Watney one of the most appealing, funny, and resourceful characters in recent fiction."--Chicago Tribune "As gripping as they come . . . You'll be rooting for Watney the whole way, groaning at every setback and laughing at his pitchblack humor. Utterly nail-biting and memorable."--Financial Times

“Offers critical insights into the whirlwind pandemic and racism have reaped . . . Politics, history, strategy, and tactics are all that our side has.” —Keeanga-Yamahtta Taylor, author of *Race for Profit* “In the United States, being poor and Black makes you more likely to get sick. Being poor, Black, and sick makes you more likely to die. Your proximity to death makes you disposable.” The uprising of 2020 marked a new phase in the unfolding Movement for Black Lives. The brutal killings of Ahmaud Arbery, George Floyd, and Breonna Taylor, and countless other injustices large and small, were the match that lit the spark of the largest protest movement in US history, a historic uprising against racism and the politics of disposability that the Covid-19 pandemic lays bare. In this urgent and incisive collection of new interviews bookended by two new essays, Marc Lamont Hill critically examines the “pre-existing conditions” that have led us to this moment of crisis and upheaval, guiding us through both the perils and possibilities, and helping us imagine an abolitionist future. “Marc Lamont Hill doesn’t shy away from the difficult questions, and he is willing to tell the hard truth. In this powerful book, his insight and commitment to justice leap from every page. Read it, be informed, and feel fortified in these trying times. Hill models what Henry James called ‘perception at the pitch of passion.’” —Eddie S. Glaude, Jr., *New York Times* bestselling author of *Begin Again* “A brilliant, timely, and inspirational book . . . paints a beautiful picture of possibilities for the future.” —Tarana Burke, founder of the Me Too movement

It’s hard to make Diane Harbaugh flinch. A former prosecutor notorious for her aggressive tactics, she’s now a DEA agent who interrogates witnesses so effectively, she has them confessing in tears. But when she hears from Gustavo, a high-ranking cartel member with an invaluable secret about the international black market, she’s thrown for a loop. She heads to Mexico to meet him, and her entire understanding of justice and duty is thrown into question. Gustavo sends her down a rabbit hole that leads to a criminal conspiracy more pervasive than anything she and the DEA ever suspected. She teams up with Ian Carver, a disillusioned CIA agent, and begins to unravel layers of deceptions, grifts, and schemes that date back to the beginnings of the Afghanistan War. As they learn more, they become the target of cartel assassins, embittered spies, and even their own government. They are at the center of an international manhunt with world-changing consequences—and the only way out is for Diane to do the one thing she promised herself she’d never do.
