Doctors Sherwin B. Nuland, 2011-10-19 From the author of *How We Die*, the extraordinary story of the development of modern medicine, told through the lives of the physician-scientists who paved the way. How does medical science advance? Popular historians would have us believe that a few heroic individuals, possessing superhuman talents, lead an unselfish quest to better the human condition. But as renowned Yale surgeon and medical historian Sherwin B. Nuland shows in this brilliant collection of linked life portraits, the theory bears little resemblance to the truth. Through the centuries, the men and women who have shaped the world of medicine have been not only very human, but also very much the products of their own times and places. Presenting compelling studies of great medical innovators and pioneers, *Doctors* gives us a fascinating history of modern medicine. Ranging from the legendary Father of Medicine, Hippocrates, to Andreas Vesalius, whose Renaissance masterwork on anatomy offered invaluable new insight into the human body, to Helen Taussig, founder of pediatric cardiology and co-inventor of the original blue baby operation, here is a volume filled with the spirit of ideas and the thrill of discovery.

Intellectual Privilege Tom W. Bell, 2014-04-14 A consensus has recently emerged among academics and policymakers that US copyright law has fallen out of balance. Lawmakers have responded by taking up proposals to reform the Copyright Act. But how should they proceed? This book offers a new and insightful view of copyright, marking the path toward a world less encumbered by legal restrictions and yet richer in art, music, and other expressive works. Two opposing viewpoints have driven the debate over copyright policy. One side questions copyright for the same reasons it questions all restraints on freedoms of expression, and dismisses copyright, like other forms of property, as a mere plaything of political forces. The opposing side regards copyrights as property rights that deserve—like rights in houses, cars, and other forms of property—the fullest protection of the law. Each of these viewpoints defends important truths. Both fail, however, to capture the essence of copyright. In *Intellectual Privilege*, Tom W. Bell reveals copyright as a statutory privilege that threatens our natural and constitutional rights. From this fresh perspective come fresh solutions to copyright's problems. Published by the Mercatus Center at George Mason University.

Benjamin and Brecht Erdmut Wizisla, 2016-08-09 A fascinating account of the friendship between two of the most brilliant minds of the twentieth century Germany in the mid 1920s, a place and time of looming turmoil, brought together Walter Benjamin—acclaimed critic and extraordinary literary theorist—and Bertolt Brecht, one of the twentieth century's most influential playwrights. It was a friendship that would shape their writing for the rest of their lives. In this groundbreaking work, Erdmut Wizisla explores what this relationship meant for them personally and professionally, as well as the effect it had on those around them. From the first meeting between Benjamin and Brecht to their experiences in exile,

these eventful lives are illuminated by personal correspondence, journal entries and private miscellany—including previously unpublished materials—detailing the friends’ electric discussions of their collaboration. Wizisla delves into the archives of other luminaries in the distinguished constellation of writers and artists in Weimar Germany, which included Margarete Steffin, Theodor Adorno, Ernst Bloch and Hannah Arendt. Wizisla’s account of this friendship opens a window on nearly two decades of European intellectual life.

The Divo and the Duce Giorgio Bertellini, 2019-01-15 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In the post-World War I American climate of isolationism, nativism, democratic expansion of civic rights, and consumerism, Italian-born star Rodolfo Valentino and Italy’s dictator Benito Mussolini became surprising paragons of authoritarian male power and mass appeal. Drawing on extensive archival research in the United States and Italy, Giorgio Bertellini’s work shows how their popularity, both political and erotic, largely depended on the efforts of public opinion managers, including publicists, journalists, and even ambassadors. Beyond the democratic celebrations of the Jazz Age, the promotion of their charismatic masculinity through spectacle and press coverage inaugurated the now-familiar convergence of popular celebrity and political authority. This is the first volume in the new Cinema Cultures in Contact series, coedited by Giorgio Bertellini, Richard Abel, and Matthew Solomon.

Freud's Free Clinics Elizabeth Ann Danto, 2005 Drawing on interviews with witnesses to the early psychoanalytic movement as well as new archival material, this chronicle seeks to rescue from obscurity the history of a movement usually regarded as an expensive form of treatment for the economically & intellectually advantaged.

Gambling Debt E. Paul Durrenberger, Gisli Palsson, 2015 Gambling Debt is a game-changing contribution to the discussion of economic crises and neoliberal financial systems and strategies. Iceland’s 2008 financial collapse was the first case in a series of meltdowns, a warning of danger in the global order. This full-scale anthropology of financialization and the economic crisis broadly discusses this momentous bubble and burst and places it in theoretical, anthropological, and global historical context through descriptions of the complex developments leading to it and the larger social and cultural implications and consequences. Chapters from anthropologists, sociologists, historians, economists, and key local participants focus on the neoliberal policies—mainly the privatization of banks and fishery resources—that concentrated wealth among a select few, skewed the distribution of capital in a way that Iceland had never experienced before, and plunged the country into a full-scale economic crisis. Gambling Debt significantly raises the level of understanding and debate on the issues relevant to financial crises, painting a portrait of the meltdown from many points of view—from bankers to schoolchildren, from fishers in coastal villages to the urban poor and immigrants, and from artists to philosophers and other intellectuals. This book is for anyone interested in financial troubles and neoliberal politics as well as students and

scholars of anthropology, sociology, economics, philosophy, political science, business, and ethics. Publication supported in part by the National Science Foundation. Material Aspects of Letter Writing in the Graeco-Roman World Antonia Sarri,2017-11-20 Letter writing was widespread in the Graeco-Roman world, as indicated by the large number of surviving letters and their extensive coverage of all social categories. Despite a large amount of work that has been done on the topic of ancient epistolography, material and formatting conventions have remained underexplored, mainly due to the difficulty of accessing images of letters in the past. Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions, we are now in a position to study such aspects. This book examines the development of letter writing conventions from the archaic to Roman times, and is based on a wide corpus of letters that survive on their original material substrates. The bulk of the material is from Egypt, but the study takes account of comparative evidence from other regions of the Graeco-Roman world. Through analysis of developments in the use of letters, variations in formatting conventions, layout and authentication patterns according to the sociocultural background and communicational needs of writers, this book sheds light on changing trends in epistolary practice in Graeco-Roman society over a period of roughly eight hundred years. This book will appeal to

scholars of Epistolography, Papyrology, Palaeography, Classics, Cultural History of the Graeco-Roman World.
