Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint,

with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

This textbook provides students with an essential introduction to the theoretical underpinnings and practicalities of managing the marketing of events. The book takes the reader from core marketing mix principles to exploring the event marketing landscape to consumer experience and involvement with event marketing and finally strategies and tactics employed to manage the marketing activities related to events. The use of technology, importance of sponsorship and PR are also considered. International case studies are integrated throughout to show practical realities of marketing and managing events and a range of useful learning aids are incorporated to aid navigation throughout the book, spur critical thinking and further students' knowledge. This accessible and comprehensive account of Events Marketing and Management is essential reading for all students and future managers.
