

## Marketing Metrics In Action Creating A Performance Driven Marketing Organization By Laura Patterson 9 Jun 2008 Paperback

Talk about marketing accountability has become almost commonplace. Most marketing executives understand the need to know the numbers. The real question is, "Which numbers?" Marketing Metrics in Action: Creating a Performance-Driven Marketing Organization answers those questions and addresses those problems with a balance of sound theory and technique and practical application. The author, a veteran of marketing on both "sides"—the client side and the consultant side—explains how you need to begin by identifying the elements of the right culture. First, every company's product makeup, competitive situation, resources, and internal strengths and weaknesses differ. So do its needs for particular metrics. It is necessary to be able to identify which metrics matter to your organization's circumstances. Next it is necessary to create a culture of accountability. Everyone in the organization has to be –and be seen as being—on the same side and on the same page. Finance can't be seen as "the enemy," and Sales and Marketing need work especially hard to coordinate their efforts. But this sense of accountability needs to extend from the C-Suite to the customer service and order entry people. Quality approaches and sophisticated ideas then become much more productive in the marketplace. A metrics audit will help establish where you are now, and mapping will enable you to align processes to better develop your dashboard. This book provides wise counsel for identifying which metrics matter most to your organization and practical guidance for putting all the sophisticated marketing tools to profitable use in your company.

Accountable Marketing is designed to be the definitive volume on the emerging role of accountability and performance metrics in marketing. Sponsored and developed by the Marketing Accountability Standards Board (MASB), it provides a multi-disciplinary, international perspective on this topic of critical importance. Stewart and Gugel have curated the work of several leading marketing, finance and accounting professionals and academics on the topics of marketing accountability and financial reporting to create a volume that represents the best of MASB's work over the last few years. The book not only emphasizes the importance of accountability in the marketing function, but also creates a dialogue among academics and practitioners about the importance of marketing in driving consistent growth in the organization, and the ways in which improved methods for measuring and forecasting contribute to the effectiveness of these marketing activities. This book marks the first-ever reference point for practicing professionals, faculty and students interested in marketing accountability, the development of standards for marketing reporting, and developing stronger linkages between marketing activities and outcomes, and the financial

Developing and implementing a systematic analytics strategy can result in a sustainable competitive advantage within the sport business industry. This timely and relevant book provides practical strategies to collect data and then convert that data into meaningful, value-added information and actionable insights. Its primary objective is to help sport business organizations utilize data-driven decision-making to generate optimal revenue from such areas as ticket sales and corporate partnerships. To that end, the book includes in-depth case studies from such leading sports organizations as the Orlando Magic, Tampa Bay Buccaneers, Duke University, and the Aspire Group. The core purpose of sport business analytics is to convert raw data into information that enables sport business professionals to make strategic business decisions that result in improved company financial performance and a measurable and sustainable competitive advantage. Readers will learn about the role of big data and analytics in: Ticket pricing Season ticket member retention Fan engagement Sponsorship valuation Customer relationship management Digital marketing Market research Data visualization. This book examines changes in the ticketing marketplace and spotlights innovative ticketing strategies used in various sport organizations. It shows how to engage fans with social media and digital analytics, presents techniques to analyze engagement and marketing strategies, and explains how to utilize analytics to leverage fan engagement to enhance revenue for sport organizations. Filled with insightful case studies, this book benefits both sports business professionals and students. The concluding chapter on teaching sport analytics further enhances its value to academics.

Marketing Database Analytics presents a step-by-step process for understanding and interpreting data in order to gain insights to drive business decisions. One of the core elements of measuring marketing effectiveness is through the collection of appropriate data, but this data is nothing but numbers unless it is analyzed meaningfully. Focusing specifically on quantitative marketing metrics, the book: Covers the full spectrum of marketing analytics, from the initial data setup and exploration, to segmentation, behavioral predictions and impact quantification Establishes the importance of database analytics, integrating both business and marketing practice Provides a theoretical framework that explains the concepts and delivers techniques for analyzing data Includes cases and exercises to guide students' learning Banasiewicz integrates his knowledge from both his academic training and professional experience, providing a thorough, comprehensive approach that will serve graduate students of marketing research and analytics well.

Reviews the complete process of a successful marketing measurement project. Marketing Analytics: Strategic Models and Metrics offers marketing students and professionals a practical guide to strategic decision models and marketing metrics. The tools described in the book will aid marketers in making intelligent

Analytics in Action - Pivot tables and data-driven presentations Edition: First Edition, Version 1.1, introduced November 2013. Revision 1.1 incorporates minor corrections and edits. It retains the same layout as the original release (First Edition, Version 1.0). See [StephanSorger.com](http://StephanSorger.com) for a complete record of all changes.

The only guide devoted exclusively to social media metrics Whether you are selling online, through a direct sales force, or via distribution channels, what customers are saying about you online is now more important than your advertising. Social media is no longer a curiosity on the horizon but a significant part of your marketing mix. While other books explain why social media is critical and how to go about participating, *Social Media Metrics* focuses on measuring the success of your social media marketing efforts. Success metrics in business are based on business goals where fame does not always equate to fortune. Read this book to determine: Why striving for more Twitter followers or Facebook friends than the competition is a failing strategy How to leverage the time and effort you invest in social media How to convince those who are afraid of new things that social media is a valuable business tool and not just a toy for the overly-wired Knowing what works and what doesn't is terrific, but only in a constant and unchanging world. *Social Media Metrics* is loaded with specific examples of specific metrics you can use to guide your social media marketing efforts as new means of communication.

Invaluable advice on analyzing and measuring the effects of social media Do you wish you could sit down with an expert to figure out whether or not your social media initiatives are working? With *Social Media Metrics Secrets*, you can! Expert John Lovett taps into his years of training and experience to reveal tips, tricks, and advice on how to analyze and measure the effects of social media and gauge

Offers six sample business models and thirty case studies to help build and monetize a business.

Drive maximum business value from digital analytics, web analytics, site analytics, and business intelligence! In Building a Digital Analytics Organization, pioneering expert Judah Phillips thoroughly explains digital analytics to business practitioners, and presents best practices for using it to reduce costs and increase profitable revenue throughout the business. Phillips covers everything from making the business case through defining and executing strategy, and shows how to successfully integrate analytical processes, technology, and people in all aspects of operations. This unbiased and product-independent guide is replete with examples, many based on the author's own extensive experience. Coverage includes: key concepts; focusing initiatives and strategy on business value, not technology; building an effective analytics organization; choosing the right tools (and understanding their limitations); creating processes and managing data; analyzing paid, owned, and earned digital media; performing competitive and qualitative analyses; optimizing and testing sites; implementing integrated multichannel digital analytics; targeting consumers; automating marketing processes; and preparing for the revolutionary "analytical economy." For all business practitioners interested in analytics and business intelligence in all areas of the organization.

Distill 100%—Usable Max-Profit Knowledge from Your Digital Data. Do It Now! Why hasn't all that data delivered a whopping competitive advantage? Because you've barely begun to use it, that's why! Good news: neither have your competitors. It's hard! But digital marketing analytics is 100% doable, it offers colossal opportunities, and all of the data is accessible to you. Chuck Hemann and Ken Burbary will help you chop the problem down to size, solve every piece of the puzzle, and integrate a virtually frictionless system for moving from data to decision, action to results! Scope it out, pick your tools, learn to listen, get the metrics right, and then distill your digital data for maximum value for everything from R&D to CRM to social media marketing! • Prioritize—because you can't measure, listen to, and analyze everything • Use analysis to craft experiences

- that profoundly reflect each customer's needs, expectations, and behaviors
- Measure real social media ROI: sales, leads, and customer satisfaction
- Track the performance of all paid, earned, and owned social media channels
- Leverage "listening data" way beyond PR and marketing: for strategic planning, product development, and HR
- Start optimizing web and social content in real time
- Implement advanced tools, processes, and algorithms for accurately measuring influence
- Integrate paid and social data to drive more value from both
- Make the most of surveys, focus groups, and offline research synergies
- Focus new marketing and social media investments where they'll deliver the most value

Foreword by Scott Monty Global Head of Social Media, Ford Motor Company

The social web has changed the way we do business forever. The future of your company is not in measured, considered responses and carefully planned initiatives. Business today is about near-instantaneous response. About doing the best you can with extremely limited information. About every customer being a reporter, and every reporter being a customer. About winning and losing customers in real-time, every second of every day. About a monumental increase in the findable commentary about our companies. Having the time and information required to make a considered business decision is a luxury - a luxury that's quickly facing extinction. Yet business hasn't adapted to this evolution. And adapt you must. This book isn't about how to "do" social media. Instead, *The Now Revolution* outlines how you must retool your organization to make real-time business work for you rather than against you. Read about seven shifts that will help you make your company faster, smarter, and more social:

- Engineer a New Bedrock
- Find Talent You Can Trust
- Organize your Armies
- Answer the New Telephone
- Emphasize Response-Ability
- Build a Fire Extinguisher
- Make a Calculator

*The Now Revolution* is pushing you to adapt the way you do business, from the inside out. It impacts your organization culturally, operationally, and functionally. This book is your guide to making the changes you need, and to harnessing the potential of this new communication era. Increasingly graduates, and anyone who is entering employment, need an individual digital presence to stand out and showcase themselves to secure their first professional role. This book takes an employability approach to encourage those currently studying, or about to enter the world of work, to develop a set of skills that enables them to recognise and deliver an effective digital presence, firstly for themselves and then for the organisations who would employ them. It does not assume any prior technical knowledge and emphasises the value and benefits of creating a presence to actively participate in the digital economy. By structuring the chapters incrementally, the reader is guided through the development of their own presence while also being given the concepts and tools that will enable them in the future to scale this activity to suit the needs of a startup, an SME or a social business. By using well-established business principles to design a strategy, the reader is guided through the creation of a

## Where To Download Marketing Metrics in Action Creating A Performance Driven Marketing Organization By Laura Patterson 9 Jun 2008 Paperback

personal Theory of Change that will enable them to turn an abstract goal into an individual digital presence through a defined series of stages and intermediate change objectives. The book then proposes a series of tactics to draw out concrete actions. A range of examples and case studies from around the world feature in each chapter to showcase the range of different types of digital presence that can be created. By using a strategic and systematic process, this book draws together academic thinking with tangible and highly practical outcomes. It is essential reading for advanced undergraduate and postgraduate students studying any discipline related to the digital world, particularly digital marketing and digital business, entrepreneurship and strategy, as well as those taking employability and personal professional development programmes. The importance of creating a favourable impression is hard to overstate in all walks of life - in business it's vital to achieve strategic goals. Customers, journalists, bloggers, investors, governments and other groups are all important stakeholders in an organizations performance and in persuasively communicating a company's ethical and socially responsible behaviour, these groups can be kept onside. Supported throughout by lively examples, this book contains guidance for implementing strategies that engage stakeholders - highlighting those organizations which employ communication professionals as key performers. Van Riel reveals how a dominant logic develops among executives, which influences styles and techniques of trust-building communication. The practical insights demonstrated via cases including Google, Unilever and Barclays make this book useful reading for MBA and other graduate classes across areas such as public relations and reputation management as well as thinking managers across the globe.

Marketing: Real People, Real Decisions is the only text to introduce marketing from the perspective of real people who make real marketing decisions at leading companies everyday. Timely, relevant, and dynamic, this reader-friendly text shows students how marketing concepts are implemented, and what they really mean in the marketplace. With this book, the authors show how marketing can come alive when practiced by real people who make real choices. The 3rd European Edition presents more information than ever on the core issues every marketer needs to know, including value, analytics and metrics, and ethical and sustainable marketing. And with new examples and assessments, the text helps students actively learn and retain chapter content, so they know what's happening in the world of marketing today. This edition features a large number of new cases from prominent marketing academics and professionals from around Europe.

Master practical strategic marketing analysis through real-life case studies and hands-on examples. In Cutting Edge Marketing Analytics, three pioneering experts integrate all three core areas of marketing analytics: statistical analysis, experiments, and managerial intuition. They fully detail a best-practice marketing analytics methodology, augmenting it with case studies that illustrate the quantitative and data analysis tools you'll need to allocate resources, define optimal marketing mixes; perform effective analysis of customers and digital marketing

## Where To Download Marketing Metrics in Action Creating A Performance Driven Marketing Organization By Laura Patterson 9 Jun 2008 Paperback

campaigns, and create high-value dashboards and metrics. For each marketing problem, the authors help you: Identify the right data and analytics techniques Conduct the analysis and obtain insights from it Outline what-if scenarios and define optimal solutions Connect your insights to strategic decision-making Each chapter contains technical notes, statistical knowledge, case studies, and real data you can use to perform the analysis yourself. As you proceed, you'll gain an in-depth understanding of: The real value of marketing analytics How to integrate quantitative analysis with managerial sensibility How to apply linear regression, logistic regression, cluster analysis, and Anova models The crucial role of careful experimental design For all marketing professionals specializing in marketing analytics and/or business intelligence; and for students and faculty in all graduate-level business courses covering Marketing Analytics, Marketing Effectiveness, or Marketing Metrics

Our newly digital world is generating an almost unimaginable amount of data about all of us. Such a vast amount of data is useless without plans and strategies that are designed to cope with its size and complexity, and which enable organisations to leverage the information to create value. This book is a refreshingly practical, yet theoretically sound roadmap to leveraging big data and analytics. *Creating Value with Big Data Analytics* provides a nuanced view of big data development, arguing that big data in itself is not a revolution but an evolution of the increasing availability of data that has been observed in recent times. Building on the authors' extensive academic and practical knowledge, this book aims to provide managers and analysts with strategic directions and practical analytical solutions on how to create value from existing and new big data. By tying data and analytics to specific goals and processes for implementation, this is a much-needed book that will be essential reading for students and specialists of data analytics, marketing research, and customer relationship management. Did you know that your business already has the world's greatest information-tracking team working tirelessly for you 24/7 to gather all the info you could possibly need to find your next customers? Between brand tracking, CRM programs, and online behavior tracking, as well as the always-dependable trade shows and satisfaction studies, mounds of marketing metrics are being generated for you across various touchpoints and channels. The numbers available to you are mind-blowing--but the amount itself can be mind-numbing. Where can one begin to filter through it all to find what is most beneficial for their company? Locked in the vast quantity of information are accurate, data-driven answers to every marketing question--and analytic dashboards are the key to finding it all. In *It's Not the Size of the Data--It's How You Use It*, marketing expert Koen Pauwels introduces readers to these transformative web-based tools that gather, synthesize, and visually display essential data in real time, directly connecting marketing with performance. He then supplies a simple yet rigorous methodology that explains step by step how to:

- Gain crucial IT support
- Build a rock-solid database
- Select key leading performance indicators
- Design the optimal dashboard layout
- Use marketing analytics to improve decisions and reap rewards

There is simply too much customer-produced information out there today for marketing teams to go with gut decisions or the same old standbys. Dashboard analytics will bring scientific precision and insight to the marketing efforts of any size organization, in any industry, and turn this eye-popping data into a specific plan of attack. This comprehensive book provides students with a "grand tour" of the tools needed to measure digital activity and implement best practices for using data to inform marketing strategy. It is the first text of its kind to introduce students to analytics platforms from a practical marketing perspective. Demonstrating how to integrate large amounts of data from web, digital, social, and search platforms, this helpful guide offers actionable insights into data analysis, explaining how to "connect the dots" and "humanize" information to make effective marketing decisions. The author covers timely topics, such as social media, web analytics, marketing analytics challenges, and dashboards, helping students to make sense of business measurement challenges, extract insights, and take effective actions. The book's experiential approach,

## Where To Download Marketing Metrics in Action Creating A Performance Driven Marketing Organization By Laura Patterson 9 Jun 2008 Paperback

combined with chapter objectives, summaries, and review questions, will engage readers, deepening learning by helping them to think outside the box. Filled with engaging, interactive exercises, and interesting insights from an industry expert, this book will appeal to students of digital marketing, online marketing, and analytics. A companion website features an instructor's manual, test bank, and PowerPoint slides.

Branding: secrets revealed, best practices explained, pitfalls exposed! • The truth about positioning brands and developing brand meaning • The truth about brands as corporate profit drivers • The truth about advertising, pricing, segmentation, and more Simply the best thinking the truth and nothing but the truth This book reveals the 51 bite-size, easy-to-use techniques for building great brands—and keeping them great. “I recommend this punchy, provocative book that uses vivid case studies to remind us of 51 truths about brands.” DAVID AAKER, Vice-Chairman, Prophet and Author of Building Strong Brands and Spanning Silos

A game-changing approach to marketing by an experienced author, speaker and businessman Joseph B. Rivera. Joseph B. Rivera has first-hand experience in business. When applied right, you will change the way products and services are designed, created and offered to the world. This book teaches you how to meaningfully connect emotionally and practically to your consumers. Remember, it is not just all about the money. Here, Joseph has put together his passion, insights, observation and experience to mentor you: ??How to understand the needs of the market. ??How to position your business. ??How to overcome competition. ??How to revolutionize your business. Learn the art of marketing analytics, and be a game changer.

Big Data is the biggest game-changing opportunity for marketing and sales since the Internet went mainstream almost 20 years ago. The data big bang has unleashed torrents of terabytes about everything from customer behaviors to weather patterns to demographic consumer shifts in emerging markets. This collection of articles, videos, interviews, and slideshares highlights the most important lessons for companies looking to turn data into above-market growth: Using analytics to identify valuable business opportunities from the data to drive decisions and improve marketing return on investment (MROI) Turning those insights into well-designed products and offers that delight customers Delivering those products and offers effectively to the marketplace. The goldmine of data represents a pivot-point moment for marketing and sales leaders. Companies that inject big data and analytics into their operations show productivity rates and profitability that are 5 percent to 6 percent higher than those of their peers. That's an advantage no company can afford to ignore.

The 6th edition of Principles of Marketing makes the road to learning and teaching marketing more effective, easier and more enjoyable than ever. Today's marketing is about creating customer value and building profitable customer relationships. With even more new Australian and international case studies, engaging real-world examples and up-to-date information, Principles of Marketing shows students how customer value—creating and capturing it—drives every effective marketing strategy. The 6th edition is a thorough revision, reflecting the latest trends in marketing, including new coverage of social media, mobile and other digital technologies. In addition, it covers the rapidly changing nature of customer relationships with both companies and brands, and the tools marketers use to create deeper consumer involvement.

## Where To Download Marketing Metrics In Action Creating A Performance Driven Marketing Organization By Laura Patterson 9 Jun 2008 Paperback

Many managers view marketing as a creative endeavor, not something that is measurable or manageable by numbers. But today's leaders in the C-suite demand greater accountability. They want to know that they are getting a return on their marketing investment. And to get that ROI number, you need analytics. This expectation is intimidating for the many sales and marketing managers who rely on marketing instincts, not metrics, to do their work. But *Marketing Analytics Roadmap: Methods, Metrics, and Tools* demonstrates that employing analytics isn't just a way to keep the CEO off your back. It improves marketing results and ensures marketers a seat at the table where big decisions get made. In this book, analytics expert Jerry Rackley shows you how to understand and implement a sound marketing analytics process that helps eliminate the guesswork about the results produced by your marketing efforts. The result? You will acquire—and keep—more customers. Even better, you'll find that an analytics process helps the entire organization make better decisions, and not just marketers. *Marketing Analytics Roadmap* explains: How to use analytics to create marketing and sales metrics that guide your actions and provide valuable feedback on your efforts How to structure and use dashboards to report marketing results How to put industry-leading analytics software and other tools to good use How Big Data is shaping the marketing analytics landscape Sales and marketing teams that master marketing analytics will find them a powerful servant that enables agility, raises effectiveness, and creates confidence. *Marketing Analytics Roadmap* shows you how to build a well-planned and executed marketing analytics strategy that will enhance the credibility of your marketing team and help you not only get a seat at the big-decisions table, but keep it once there.

**NAMED BEST MARKETING BOOK OF 2011 BY THE AMERICAN MARKETING ASSOCIATION** How organizations can deliver significant performance gains through strategic investment in marketing In the new era of tight marketing budgets, no organization can continue to spend on marketing without knowing what's working and what's wasted. Data-driven marketing improves efficiency and effectiveness of marketing expenditures across the spectrum of marketing activities from branding and awareness, trail and loyalty, to new product launch and Internet marketing. Based on new research from the Kellogg School of Management, this book is a clear and convincing guide to using a more rigorous, data-driven strategic approach to deliver significant performance gains from your marketing. Showcase videos feature interviews with business leaders and marketing professionals, offering insights into how different organisations have successfully harnessed the elements of the marketing mix.

In a rapidly-changing healthcare industry, the American College of Physician Executives affirms: "These days, it isn't enough to be a good doctor. Whether you're working in a group practice or hospital, in insurance or any other health care setting, you also need business know-how and skills if you want your organization and your career to thrive." MBA for Healthcare provides this know-how and these skills. With the mastery of healthcare management in mind, this book provides clinicians and administrators with the knowledge to advance their careers and make their organizations more competitive and successful. With backgrounds in education, medicine, administration and law, the authors present a wide variety of subjects to enhance healthcare provider's careers, including: cost accounting, management control structure and process, strategic planning, entrepreneurship, competitive marketing, and more. Case studies place theory in context and demonstrate practical, real life solutions. MBA for Healthcare is designed specifically for those looking to learn the business of medicine, whether as part of a joint MBA/MD or as a clinician looking to deliver the very best healthcare for your patients. This practical guide will provide an indispensable guide to the essential business and management tools you need for success.

Linked to an online resource centre and instructor's DVD, this textbook introduces the basic principles of marketing. It includes numerous contemporary case studies, chapter summaries and review questions.

Revised edition of Marketing research, [2016]

Evaluating marketing performance and decision making more fairly Marketing has long been considered an art and not a science, but that perception is beginning to change as increasingly sophisticated methods of quantifying marketing success are developed. In Measuring Marketing: 103 Key Metrics Every Marketer Needs, Second Edition, one of the world's leading experts in the field presents the key marketing ratios and metrics. Applying these metrics will enable marketers to make better decisions and increase their accountability for their strategies and activities. This fully revised and updated new edition discusses the key marketing metrics needed for successfully measuring the performance of an organization's marketing investments. CEOs and CFOs regularly ask for one simple way to assess the efficacy of marketing campaigns, but the fact is that there isn't one single measure of performance. Measuring Marketing helps marketers figure out what they can and should be measuring and when. Marketers are increasingly being held accountable for the corporate bottom line, and this book helps both marketers, as well as the business leaders who employ them, to measure performance fairly and accurately Measuring marketing success is difficult, but this book shows what and when to assess Designed to increase accountability and improve everyday decisions, the book includes ratios illustrated with actual marketing cases from leading companies The first book to address growing demands that marketers be accountable for their strategies and decisions, Measuring Marketing explains how to assess marketing success in more meaningful ways.

"Vivek Kale's Creating Smart Enterprises goes smack-dab at the heart of harnessing technology for competing in today's chaotic digital era. Actually, for him, it's S-M-A-C-T-

dab: SMOACT (Social media, Mobile, Analytics and big data, Cloud computing, and internet of Things) technologies. This book is required reading for those that want to stay relevant and win, and optional for those that don't." —Peter Fingar, Author of Cognitive Computing and business technology consultant Creating Smart Enterprises unravels the mystery of social media, mobile, analytics and big data, cloud, and Internet of Things (SMOACT) computing and explains how it can transform the operating context of business enterprises. It provides a clear understanding of what SMOACT really means, what it can do for smart enterprises, and application areas where it is practical to use them. All IT professionals who are involved with any aspect of a SMOACT computing project will profit by using this book as a roadmap to make a more meaningful contribution to the success of their computing initiatives. This pragmatic book: Introduces the VUCA (volatility, uncertainty, complexity, and ambiguity) business ecosystem confronted by the businesses today. Describes the challenges of defining business and IT strategies and of aligning them as well as their impact on enterprise governance. Provides a very wide treatment of the various components of SMOACT computing, including the Internet of Things (IoT) and its constituting technologies like RFID, wireless networks, sensors, and wireless sensor networks (WSNs). This book addresses the key differentiator of SMOACT computing environments and solutions that combine the power of an elastic infrastructure with analytics. The SMOACT environment is cloud-based and inherently mobile. Information management processes can analyze and discern recurring patterns in colossal pools of operational and transactional data. Analytics, big data, and IoT computing leverage and transform these data patterns to help create successful, smart enterprises.

You can measure practically anything in the age of social media, but if you don't know what you're looking for, collecting mountains of data won't yield a grain of insight. This non-technical guide shows you how to extract significant business value from big data with Ask-Measure-Learn, a system that helps you ask the right questions, measure the right data, and then learn from the results. Authors Lutz Finger and Soumitra Dutta originally devised this system to help governments and NGOs sift through volumes of data. With this book, these two experts provide business managers and analysts with a high-level overview of the Ask-Measure-Learn system, and demonstrate specific ways to apply social media analytics to marketing, sales, public relations, and customer management, using examples and case studies.

In Fast-Track Your Business, author Laura Patterson offers step-by-step guidance for acquiring customer insights, creating customer-centric outcomes, and developing strategies and measurable executable plans.
