“Let no more be heard of confidence in man, but bind him down from mischief by the chains of the Constitution.” —Thomas Jefferson The United States Constitution—the bedrock of our country, the foundation of our federal republic—is . . . dead. You won’t hear that from the politicians who endlessly pay lip service to the Constitution. It’s the dirty little secret that bestselling authors Thomas E. Woods Jr. and Kevin R. C. Gutzman expose in this provocative new book. The fact is that government officials—Democrats and Republicans, presidents, judges, and congresses alike—long ago rejected the idea that the Constitution possesses a fixed meaning limiting the U.S. government’s power. In case you’ve forgotten, this idea was not a minor aspect of the Constitution; it was the document’s very purpose. Woods and Gutzman round up the suspects responsible for the death of the government the Founding Fathers designed. Going right to the scenes of the crimes, they dissect twelve of the most egregious assaults on the Constitution—some virtually unknown. In chronicling this “dirty dozen,” the authors show that the attacks began long before presidents declared preemptive wars, congresses built pork-barrel bridges to nowhere, and Supreme Court justices began to behave as our supreme legislators. In *Who Killed the Constitution?* Woods and Gutzman • REVEAL the federal government’s “great gold robbery”—the flagrant assault on the Constitution you never heard about in history class • DESTROY the phony case for presidential war power • EXPOSE how the federal government has actively discriminated to end . . . discrimination • TEAR DOWN the “wall of separation” between church and state—an invention that completely contradicts what the Constitution says • DARE to touch the “third rail of American jurisprudence,” *Brown v. Board of Education*—showing why a government decision that seems “right” isn’t necessarily constitutional Never shying away from controversy, Woods and Gutzman reveal an unsettling but unavoidable truth: now that the federal government has broken free of the Constitution’s chains, government officials are restrained by little more than their sense of what they can get away with. *Who Killed the Constitution?* is a rallying cry for Americans outraged by government run amok and a warning to take heed before we lose the liberties we are truly entitled to.

Dr. Alexander Philip moved from the land of God's own country-Kerala, to the land of Sun Sand and Sex-Goa in search of job. His intolerance to injustice and corruption made his life difficult in a foreign land where he was treated as alien or Ghatti. Soon he realised that the entire administration is controlled by an underground organisation known as Club Susegaad. They controlled the administration indirectly through their political party and their corrupt unethical ministers. This club and the mafia was controlled by a brothel madam Fatima. She had feelers in every departments. All corrupt politicians and even police officers were in her mafia gang. Through drug trafficking and prostitution the mafia members amassed huge wealth. One of the members Andrew Akbar kidnapped a college girl during a cultural event.

Principal, Dr. Alexander Philip was worried because of this abduction. Though he tried to rescue her none of the authorities helped him, instead they accused him for that abduction. He was transferred to difficult stations as punishments by the authorities. Where ever he was posted he unearthed the corruption and exposed the double standards of his superiors. A newly appointed DGP decided to clear up the underground drug mafia gang at any cost and decided to nab them during the funeral of a Susegaad member.

An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. Prahalad The targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create a sales and service network, and develop and launch a people's car that would sell 100,000 a year, in a sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation. However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the world's major manufacturers who have entered the Indian market, still leads the way. Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story, involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha, shows how it was done in this riveting account of a landmark achievement.
